Madame Du Barry Edmond de Goncourt, Jules de Goncourt. 1914

My Journey from Paris to Java Honoré de Balzac. 2010 In this delightful little volume, Honoré de Balzac, the renowned 19th century French novelist and playwright, takes readers on a short fantasy journey to the mystical island of Java where he - or rather the narrator - encounters a deadly poison-breathing tree, civilized monkeys, a love-sick sparrow, and the epitome of Oriental desirability of the day - the women of Java.

The Quiet Side of Passion Alexander McCall Smith. 2018-07-31 Isabel finds herself grappling with ethically-complex matters of the heart as she tries to juggle her responsibilities to friends, family, and the philosophical community. With two small boys to raise, a mountain of articles to edit for the Review of Applied Ethics, and the ever-increasing demands of her niece, Cat, who always seems to need a helping hand at the deli, Isabel barely has any time for herself. Her husband, Jamie, suggests acquiring extra help, and she reluctantly agrees. In no time at all, Isabel and Jamie have a new au pair, and Isabel has an intelligent assistant editor to share her workload. Both women, though, have romantic entanglements that threaten to interfere with their work, and Isabel must decide how best to navigate this tricky domestic situation. Can an employer ever inject herself into her employees' affairs? Meanwhile, Isabel makes the acquaintance of Patricia, the mother of Charlie's friend Basil. Though Isabel finds Patricia rather pushy, she tries to be civil and supportive, especially given that Patricia is raising her son on her own, without the help of his father, a well-known Edinburgh organist, also named Basil. But when Isabel sees Patricia in the company of an unscrupulous man, she begins to rethink her assumptions. Isabel must once again call on her kindness and keen intelligence to determine the right course of action, at home, at work, and in the schoolyard.

The Silence of Malka Jorge Zentner. 2018-07-24 A sweeping and poignant story of Ashkenazi Jews fleeing the Russian pogroms at the end of the 19th Century, as well as a parable of the making of a modern society and the extent to which religion and mysticism meet. Inspired by a story told to the author by his grandmother. For the family of the little red-headed Malka, trading the Russian shtetl for the Argentine pampas isn't so easy. Even in a country eager to populate its vast territories, the immigrants discover that their new home isn't the promised land. They encounter hostility from both man and nature, as they struggle through droughts and locusts in an attempt to cultivate the arid soil. When misery pushes them to the extreme, Malka's uncle is visited by the prophet Elias, who advises that he create a Golem--the mythical creature fashioned from earth and endowed with life by engraving on his body the word Emet (Truth)--to pose as a man and aid the immigrants. When years later the adult Malka is visited by Elias, the events of her youth force her to decide whether or not she can maintain her silence--with fate and divine justice hanging in the balance. Winner of the Best Foreign Graphic Album award at the Angoulême Festival.

Siberia 56 Christophe Bec. 2017-03-14 Trapped on a planet millions of light years away from Earth, five scientists must survive sub-zero temperatures and horrific alien creatures as they make their way across the dead, frozen landscape to their base in this action-packed graphic novel. It is the age of space exploration, and five scientists travel 80 million light years from home to study the planet of Siberia, the location of Earth's 56th colony. Completely covered with dense snow and steep mountains, Siberia's poles reach temperatures of -300° F with icy winds of close to 200 mph. After their shuttle crashes, the surviving scientists must walk across hundreds of miles of frozen wasteland to find the terrain basecamp. Between the biting cold, devastating snow storms, and horrific alien creatures, their chances of survival are close to absolute zero. In *Siberia 56*, author Christophe Bec imagines a hostile and fascinating world that harkens to the very best of the science fiction and horror genres. Superbly illustrated by Alexis Sentenac, this stunning work offers a chilling tale of survival in the vast recesses of a dying planet.

Microhistory and the Lost Peoples of Europe Edward Muir, Guido Ruggiero. 1991-08 Various authors present case studies of microhistory, an evolving branch of historical research that seeks to focus on writing without anachronism about events and peoples. The microhistorian uses the methodology of strict positivist standards to reconstruct the meanings of artifacts in their original context. They seek to find historical causation on the level of small groups and open history to ideas tainted by the modernity of other methods.

Blaze Grant P Hudson. 2019-06-23 Writers are spellbinders, wizards, witches, working their magic with words, entrancing and enchanting us. Not for nothing does the word ?spell? mean a sequence of letters and a form of words used as a magical charm or incantation. In these tales, the sorcery has been restricted so that its glamour has to work in the space of fifty, five hundred or a thousand words: and work it does, as you will see. From disturbing darkness to light-hearted laughter, the authors within weave their wizardry, making you weep and laugh, feel and think, shiver and gasp, always wanting to turn the page.

Across the Void S.K. Vaughn.2019-07-02 A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since *Hawking II* has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won’t be able to put down.

Rainforest Warriors Richard Price.2011-06-06 *Rainforest Warriors* is a historical, ethnographic, and documentary account of a people, their threatened rainforest, and their successful attempt to harness international human rights law in their fight to protect their way of life—part of a larger story of tribal and indigenous peoples that is unfolding all over the globe. The Republic of Suriname, in northeastern South America, contains the highest proportion of rainforest within its national territory, and the most forest per person, of any country in the world. During the 1990s, its government began awarding extensive logging and mining concessions to multinational companies from China, Indonesia, Canada, and elsewhere. Saramaka Maroons, the descendants of self-liberated African slaves who had lived in that rainforest for more than 300 years, resisted, bringing their complaints to the Inter-American Commission on Human Rights. In 2008, when the Inter-American Court of Human Rights delivered its landmark judgment in their favor, their efforts to protect their threatened rainforest were thrust into the international spotlight. Two leaders of the struggle to protect their way of life, Saramaka Headcaptain Wazen Eduards and Saramaka law student Hugo Jabini, were awarded the Goldman Prize for the Environment (often referred to as the environmental Nobel Prize), under the banner of *A New Precedent for Indigenous and Tribal Peoples*. Anthropologist Richard Price, who has worked with Saramakas for more than forty years and who participated actively in this struggle, tells the gripping story of how Saramakas harnessed international human rights law to win control of their own piece of the Amazonian forest and guarantee their cultural survival.

Palmyra Paul Veyne.2018-10-05 Located northeast of Damascus, in an oasis surrounded by palms and two mountain ranges, the ancient city of Palmyra has the aura of myth. According to the Bible, the city was built by Solomon. Regardless of its actual origins, it was an influential city, serving for centuries as a caravan stop for those crossing the Syrian Desert. It became a Roman province under Tiberius and served as the most powerful commercial center in the Middle East between the first and the third centuries CE. But when the citizens of Palmyra tried to break away from Rome, they were defeated, marking the end of the city’s prosperity. The magnificent monuments from that earlier era of wealth, a resplendent blend of Greco-Roman architecture and local influences, stretched over miles and were among the most significant buildings of the ancient world—until the arrival of ISIS. In 2015, ISIS fought to gain control of the area because it was home to a prison where many members of the outlawed Muslim Brotherhood had been held, and ISIS went on to systematically destroy the city and murder many of its inhabitants, including the archaeologist Khaled al-Asaad, the antiquities director of Palmyra. In this concise and elegiac book, Paul Veyne, one of Palmyra’s most important experts, offers a beautiful and moving look at the history of this significant lost city and why it was—and still is—important. Today, we can appreciate the majesty of Palmyra only through its pictures and stories, and this book offers a beautifully illustrated memorial that also serves as a lasting guide to a cultural treasure.

Histoire de la Societe Francaise Pendant la Revolution .1971

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Family and Public Life in Brescia, 1580-1650 Joanne M. Ferraro.2003-01-23 This book focuses on the behavior of the ruling families of Brescia, a rich and strategically vital city under Venetian rule, during the late sixteenth and early seventeenth century. The first part of the book conceptualizes the civic leadership of Brescia, with a profile of its origins and a brief history of the process of aristocratization. Further, it examines the relationship between family structure and the local socio-political structures. Size, wealth, education, and marriage ties were all pivotal factors which helped determine the family's position in public life. Its strength rested ultimately on its continuity over time. Women and women's property are given careful attention. The second part places the Brescian elite within the Venetian state. Besides controlling urban political institutions, the Brescians held strong economic links with the surrounding countryside, the basis of their power, and they enjoyed ample authority in the rural communities subject to the city.

The Philosophical Salon Patricia Vieira, Michael Marder. 2020-10-09 Through the interpretative lens of today's leading thinkers, *The Philosophical Salon* illuminates the persistent intellectual queries and the most disquieting concerns of our actuality. Across its three main divisions—Speculations, Reflections, and Interventions—the volume constructs a complex mirror, in which our age might be able to recognize itself with all its imperfections, shadowy spots, even threatening abysses and latent promises. On the cutting edge of philosophy, political and literary theory, and aesthetics, this book courageously tackles a wide array of topics, including climate change, the role of technology, reproductive rights, the problem of refugees, the task of the university, political extremism, embodiment, utopia, food ethics, and sexual identity. It is an enduring record of an ongoing conversation, as well as a building block for any attempt to make sense of our world's multifaceted realities.
