Disease Control Priorities, Third Edition (Volume 9) Dean T. Jamison,Hellen Gelband,Susan Horton,Prabhat Jha,Charles N. Mock,Rachel Nugent.2017-12-06 As the culminating volume in the DCP3 series, volume 9 will provide an overview of DCP3 findings and methods, a summary of messages and substantive lessons to be taken from DCP3, and a further discussion of cross-cutting and synthesizing topics across the first eight volumes. The introductory chapters (1-3) in this volume take as their starting point the elements of the Essential Packages presented in the overview chapters of each volume. First, the chapter on intersectoral policy priorities for health includes fiscal and intersectoral policies and assembles a subset of the population policies and applies strict criteria for a low-income setting in order to propose a highest-priority essential package. Second, the chapter on packages of care and delivery platforms for universal health coverage (UHC) includes health sector interventions, primarily clinical and public health services, and uses the same approach to propose a highest priority package of interventions and policies that meet similar criteria, provides cost estimates, and describes a pathway to UHC.

We-Think Charles Leadbeater.2010-12-09 Society is no longer based on mass consumption but on mass participation. New forms of collaboration - such as Wikipedia and YouTube - are paving the way for an age in which people want to be players, rather than mere spectators, in the production process. In the 1980s, Charles Leadbeater's prescient book, *In Search of Work*, anticipated the growth of flexible employment. Now *We-think* explains how the rise of mass collaboration will affect us and the world in which we live.

Islam in Modern Turkey Sukran Vahide.2012-02-16 *Islam in Modern Turkey* presents one of the most comprehensive studies in English of the seminal Turkish thinker and theologian, Bediuzzaman Said Nursi (1876–1960). A devout Muslim who strongly believed in peacefully coexisting with the West, Nursi inspired a faith movement that has played a vital role in the revival of Islam in Turkey and now numbers several million followers worldwide. While Nursi's ideas have been afforded considerable analysis, this book is the first to situate these ideas and his related activities in their historical contexts. Based on the available sources and Nursi's own works, here is a complete and balanced view of this important theologian's life and thought.

[Fatwas of Muslim Women](#) Ibn Taymiyyah.2020-10-02 Two major elements drove me to shoulder the responsibility of introducing a publication of such as imminent Imam like Ibn Taymiyyah to those who learn Islam from English Literature. The first is the author who, undoubtedly, needs no word that may attempt to crystallize his stance among other jurists, be they of his time or any other generation of place. The second is the subject itself which grasps the interest of the people at any time. As men and women enjoy an equal share as to rights, responsibilities and duties, all of which are best suiting her nature. Since science confirmed that woman is created with so many differences in her biological nature, physical capabilities and mental faculties, it would be unfair to assign her the same responsibilities, duties and rights as man. In other words, there is a difference between sameness and equality. As man and woman are not the same in terms of biological nature, physical capabilities and mental faculties, so they are not the same and it would be injustice to deal with both the same. But to put into consideration this difference of nature is regarded as the core of justice and equality, the methodology adopted by Islam, the religion of the Creator of both man and woman.

The Practice of Rational Emotive Behavior Therapy Albert Ellis, PhD,Windy Dryden, PhD.2007-07-31 Reissued with a new foreword by Raymond DiGiuseppe, PhD, ScD, St. John's University New trainees often get the theory of psychopathology; they struggle to get the case conceptualization and the strategic plan. Then they ask themselves. What do I do now? Going from the abstractions to the actions is not always clear. *The Practice of Rational Emotive Behavior Therapy* represents a compilation of years of theoretical and clinical insights distilled into a specific theory of disturbance and therapy and deductions for specific clinical strategies and techniques....The structure of this book focuses on an explication of the theory, a chapter on basic practice, and a chapter on an in depth case study. A detailed chapter follows on the practice of individual psychotherapy. Although the book is not broken into sections, the next four chapters represent a real treasure. The authors focus on using REBT in couples, family, group, and marathon sessions. Doing REBT with one person is difficult to learn. Once the clinician adds more people to the room with different and sometimes competing agendas things get more complicated. These chapters will not only help the novice clinician but also the experienced REBT therapists work better in these types of sessions. So, consider yourself lucky for having picked up this book. Reading it will help many people get better. - From the Foreword by Raymond DiGiuseppe, PhD, ScD, Director of Professional Education, Albert Ellis Institute; Professor and Chair, Department of Psychology, St. John's University This edition, involving a unique collaboration between Albert Ellis

and the world's greatest Ellis scholar, Windy Dryden, modernizes Ellis's pioneering theories. The book begins with an explanation of rational emotive behavior therapy as a general treatment model and then addresses different treatment modalities, including individual, couple, family, and sex therapy. The authors have added material new since the book's original edition on teaching the principles of unconditional self-acceptance in a structured group setting. With extensive use of actual case examples to illustrate each of the different settings, and a new brand new foreword by Raymond DiGiuseppe that sets the book into its 21st-century context.

Literary Ethics / The Method of Nature (Annotated) Ralph Waldo Emerson. 2016-01-22 Let us exchange congratulations on the enjoyments and the pros literary anniversary. The land we live in has no interest so dear, if it knew its want, as the fit consecration of days of reason and thought. Where there is no vision, the people perish. The scholars are the priests of that thought which establishes the foundations of the earth. No matter what is their special work or profession, they stand for the spiritual interest of the world, and it is a common calamity if they neglect their post in a country where the material interest is so predominant as it is in America.

Muslims and Matriarchs Jeffrey Hadler. 2013-09-15 Muslims and Matriarchs is a history of an unusual, probably heretical, and ultimately resilient cultural system. The Minangkabau culture of West Sumatra, Indonesia, is well known as the world's largest matrilineal culture; Minangkabau people are also Muslim and famous for their piety. In this book, Jeffrey Hadler examines the changing ideas of home and family in Minangkabau from the late eighteenth century to the 1930s. Minangkabau has experienced a sustained and sometimes violent debate between Muslim reformists and preservers of indigenous culture. During a protracted and bloody civil war of the early nineteenth century, neo-Wahhabi reformists sought to replace the matriarchate with a society modeled on that of the Prophet Muhammad. In capitulating, the reformists formulated an uneasy truce that sought to find a balance between Islamic law and local custom. With the incorporation of highland West Sumatra into the Dutch empire in the aftermath of this war, the colonial state entered an ongoing conversation. These existing tensions between colonial ideas of progress, Islamic reformism, and local custom ultimately strengthened the matriarchate. The ferment generated by the trinity of oppositions created social conditions that account for the disproportionately large number of Minangkabau leaders in Indonesian politics across the twentieth century. The endurance of the matriarchate is testimony to the fortitude of local tradition, the unexpected flexibility of reformist Islam, and the ultimate weakness of colonialism. Muslims and Matriarchs is particularly timely in that it describes a society that experienced a neo-Wahhabi jihad and an extended period of Western occupation but remained intellectually and theologically flexible and diverse.

Big Wild Love Jill Sherer Murray. 2020-05-12 Jill Sherer Murray lived in a dead-end relationship into her forties before she finally let it go. She was like millions of women who struggle with whether to stay in a loveless marriage, a bad relationship, or give up on dating altogether, believing love isn't in the cards. You may be struggling with a similar decision yourself. Perhaps you're terrified of being single, and yet you don't truly feel you're living the life you want. With warmth and honesty, Murray shows you how letting go—of feeling stuck, afraid, and alone, and of believing what you've got is all you deserve—can free you from a life that isn't serving you. She knows this is true, because she did it herself—and ultimately attracted the love and life she wanted. Through her story, other women's stories, surprising facts and statistics, and helpful exercises, Big Wild Love will show you the way back to the self you've lost. It will put you on the path to change and teach you that, wherever you are, it's never too late to start anew and find the Big Wild Love you deserve.

The Longest Journey Eric Tagliacozzo.2013-04-25 The pilgrimage to Mecca, or Hajj, has been a yearly phenomenon of great importance in Muslim lands for well over one thousand years. Each year, millions of pilgrims from throughout the Dar al-Islam, or Islamic world, stretching from Morocco east to Indonesia, make the trip to Mecca as one of the five pillars of their faith. By the end of the nineteenth century, and the beginning of the twentieth, fully half of all pilgrims making the journey in any given year could come from Southeast Asia. The Longest Journey, spanning eleven modern nation-states and seven centuries, is the first book to offer a history of the Hajj from one of Islam's largest and most important regions.

Caged in on the Outside Gregory M. Simon.2014-07-31 Caged in on the Outside is an intimate ethnographic exploration of the ways in which Minangkabau people understand human value. Minangkabau, an Islamic society in Indonesia that is also the largest matrilineal society in the world, has long fascinated anthropologists. Gregory Simon's book, based on extended ethnographic research in the small city of Bukittinggi, shines new light on Minangkabau social life by delving into people's interior lives, calling into question many assumptions about Southeast Asian values and the nature of Islamic practice. It offers a deeply human portrait that will engage readers interested in Indonesia, Islam, and psychological anthropology and those concerned with how human beings fashion and reflect on the moral meanings of their lives. Simon focuses on the tension between the values of social integration and individual autonomy—both of which are celebrated in this Islamic trading society. The book explores a series of ethnographic themes, each one illustrating a facet of this tension and its management in contemporary Minangkabau society: the moral structure of the city and its economic life, the nature of Minangkabau ethnic identity, the etiquette of everyday interactions, conceptions of self and its boundaries, hidden spaces of personal identity, and engagements with Islamic traditions. Simon draws on interviews with Minangkabau men and women, demonstrating how individuals engage with cultural forms and refashion them in the process: forms of etiquette are transformed into a series of symbols tattooed on and then erased from a man's skin; a woman shares a poem expressing an identity rooted in what cannot be directly revealed; a man puzzles over his neglect of Islamic prayers that have the power to bring him happiness. Applying the lessons of the Minangkabau case more broadly to debates on moral life and subjectivity, Simon makes the case that a deep understanding of moral conceptions and practices, including those of Islam, can never be reached simply by delineating their abstract logics or the public messages they send. Instead, we must examine the subtle meanings these conceptions and practices have for the people who live them and how they interact with the enduring tensions of multidimensional human selves. Borrowing a Minangkabau saying, he maintains that whether emerging in moments of suffering or flourishing, moral subjectivity is always complex, organized by ambitions as elusive as being "caged in on the outside."

The Unexpected Legacy of Divorce Julia M. Lewis,Sandra Blakeslee.2001-10-01 Divorce is at once a widespread reality and a painful decision, so it is no surprise that this landmark study of its long-term effects should both spark debate and find a large audience. In this compelling, thought-provoking book, Judith Wallerstein explains that, while children do learn to cope with divorce, it in fact takes its greatest toll in adulthood, when the sons and daughters of divorced parents embark on romantic relationships of their own. Wallerstein sensitively illustrates how children of divorce often feel that their relationships are doomed, seek to avoid conflict, and fear commitment. Failure in their loving relationships often seems to them preordained, even when things are going smoothly. As Wallerstein checks in on the adults she first encountered as youngsters more than twenty-five years ago, she finds that their experiences mesh with those of the millions of other children of divorce, who will find themselves on every page. With more than 100,000 copies in print, The Unexpected Legacy of Divorce spent three weeks on the New York Times, San Francisco Chronicle, and Denver Post bestseller lists. The book was also featured on two episodes of Oprah as well as on the front cover of Time and the New York Times Book Review.

Marriages and Families Karen Seccombe, Rebecca L. Warner. 2004 In this fresh, more structural, alternative to other texts for the marriage and family course, Seccombe and Warner provide a comprehensive look at close relationships and the family in just 15 chapters. Examining close relationships and families by placing them in social context, the authors offer a unique emphasis on the structural and relational aspects of the family with a focus on family resilience. The text weaves together a macro view - social structural analysis of close relationships- with the macro - an individualist view. The authors demonstrate the interaction of theory and methodology in family studies in Chapter 2 and blend cutting-edge research and practical applications throughout. Among the highlights of this first edition are the exceptionally thorough exploration of the topics of singlehood and cohabitation in Chapter 7 and the unique six-chapter core (8-13) that focuses on all aspects of parenthood and the challenges and crises that families face today. The authors' emphasis on family resilience and how families can be strengthened is reflected in the Constructing Strong Families boxes that appear throughout the text. These features encourage students to apply groundbreaking research on what makes a family strong to their own families and in the concluding chapter, Looking Ahead: Helping Families Flourish, which examines the factors that successful families -regardless of ethnicity, culture, or social class-- consistently exhibit.
