**Language Acquisition in Diverse Linguistic, Social and Cognitive Circumstances** Maria Garraffa, Maria Teresa Guasti, Theodoros Marinis, Gary Morgan.2019-01-24 The language experience of children developing in linguistically diverse environments is subject to considerable variation both in terms of quantity and quality of language exposure. It is an open question how to investigate language exposure patterns and more important which factors are relevant for successful language learning. For example, children acquiring a minority language, including a signed language, are exposed to less variety of input than children acquiring a more global language. This is because they are living in a smaller linguistic community and with fewer occasions to use the language in everyday life. Despite this reduced input, most native signers are successful language learners. In contrast native language competence is not always achieved in signing deaf children with hearing parents or those with cochlear implants learning a spoken language. A similar outcome but with very different reasons has also been reported for hearing children with language impairment. In these populations acquisition of morphosyntactic aspects is developing atypically ending with an uncomplete linguistic repertoire. The circumstances of exposure during language development tend to differ in significant ways with respect to a large number of factors, such as, (i) length, quality and quantity of input, (ii) social status and attitudes toward the language, (iii) cognitive abilities required for language learning, and (iv) age of first exposure. Having early exposure to a range of different speakers is important in the acquisition of any language and may affect language proficiency. However, negative societal attitudes or a cognitive based disadvantage may create an unfavourable learning environment that prevents language learning from surfacing typically. This situation inevitably generates a different type of exposure for the child and consequently different language competence. In this Research Topic we intend to encourage the debate on social, linguistic and cognitive factors at play for designing an effective environment for language acquisition aiming at integrating linguistic variables coming from theoretical studies on language with environmental variables, such as, measures of language input or cognitive abilities on functions ancillary to language development.

**Promover el placer de leer en Educación Primaria** Michael Lockwood.2012-01-26 En esta obra encontrará distintas formas mediante las que todos los centros de Educación Primaria pueden ayudar al alumnado a descubrir el gusto por la lectura y a establecer relaciones entre la que se realiza en el colegio y en casa, de manera que una refuerce a la otra. Michael Lockwood se apoya en el resultado de numerosas investigaciones, entrevistas e innovaciones pedagógicas destinadas a analizar qué es lo que funciona y contribuye a la promoción de la lectura por placer tanto en ambientes escolares como en otros espacios en los que niñas y niños se mueven. Se justifica y evidencia que el placer en la lectura no es una frivolidad más; que es preciso educar estudiantes amantes de los libros que consideren que disfrutar de la lectura puede ser un fin en sí mismo; de este modo podremos favorecer mejor todo su desarrollo cognitivo, afectivo y social a través del resto de las materias que integran el currículum. Los ejes con los que se vertebró esta obra incluyen: -La transformación del colegio en un centro de lectura por placer. -El fomento del amor a la lectura en Educación Infantil. -El desarrollo de la lectura por placer en los últimos años de Educación Primaria. -conseguir que los chicos lean por placer. En cada capítulo se proporcionan numerosos ejemplos de propuestas de acción de probada eficacia, que contribuyen a favorecer la lectura a través de estrategias y recursos como seminarios de lectura, clubes de libros, tarjetas de fans de la biblioteca, tardes literarias, concursos, etc. Promover el placer de leer en Educación Primaria es por tanto un texto muy relevante y útil para el profesorado de Educación Infantil y Primaria, para el personal de bibliotecas, para las familias, así como para otros profesionales preocupados por la alfabetización y la promoción de la lectura por placer. Esta obra ha sido galardonada con el premio UkLA 2009 (United Kingdom Literacy Association).

**Handbook of Research on Training Teachers for Bilingual Education in Primary Schools** Estrada Chichón, José Luis, Zayas Martínez, Francisco.2023-02-06 Modern societies tend to demand innovative learning modalities in which foreign languages are used to teach content subjects from very early educational stages. Education authorities in different geographical areas of the world are currently working to determine how bilingual teaching should be developed depending, along with many other factors, on the initial training of bilingual education teachers. On this basis, it is necessary to review how tertiary education institutions deal with the theoretical foundations and practical approaches necessary for this learning modality to train bilingual education teachers for primary schools. The Handbook of Research on Training Teachers for Bilingual Education

in Primary Schools includes international experiences of teacher training for bilingual education in primary schools in which educators should be able to recognize themselves and identify concrete working formulas to apply in their daily work. Covering key topics such as teacher training, language learning, and primary education, this reference work is ideal for administrators, teacher trainers, policymakers, researchers, scholars, practitioners, academicians, instructors, and students.

*Anàlisi i producció de textos catalans* Joan Mallart Navarra.2006 Aquest text docent es divideix en blocs de continguts prou diferenciats. En el primer bloc es tracten els conceptes bàsics del plurilingüisme, els models teòrics d'educació bilingüe i fins i tot alguns aspectes pràctics de la seva implementació. Per acabar el bloc, un tercer tema tracta dels objectius que es persegueixen a les classes de llenguatge. Objectius concretats en l'obtenció de la competència comunicativa. Aquest és, doncs, el nucli del tema: les competències bàsiques de les àrees lingüístiques, especialment la competència comunicativa i les seves subcompetències. Dins d'aquest mateix tema s'han de revisar els currículums vigents al nostre país per saber què cal ensenyar en cada cicle i a cada llengua. El segon bloc de continguts se centra en els processos didàctics per a la intervenció pedagògica a l'ensenyament d'una llengua, especialment en el cas d'una llengua adquirida en segon o tercer lloc. L'estudi d'aquests processos tindrà en compte les estratègies, recursos didàctics, activitats i tasques d'aprenentatge segons els enfocaments més actuals. Un tema que no és banal tracta de l'anàlisi dels errors verbals i l'actitud més adequada des de la pedagogia enfront d'aquest fenomen. I, per acabar, s'estudiaran criteris i tècniques d'avaluació de l'aprenentatge lingüístic.
