Relanguaging Language from a South African Township School Lara-Stephanie Krause. 2021-12-20 Using data from a long-term ethnographic study of English language classrooms

in a South African township, this book highlights linguistic expertise in a setting where it is not usually expected or sought. Rather than being 'peripheral and unskilled', South African township teachers and learners emerge as skilled (re)linguagers central to the workings of South African education, and to our understanding of how language classrooms work. This book foregrounds the heterogeneity, flexibility and creativity of day-to-day language practices that African urban spaces are known for, and conceptualises language teaching not as a progression from one fixed language to another, but as a circular sorting process between linguistic heterogeneity (linguaging) and homogeneity (a standard language).

But now that career seems to be behind him. So what's next for Mike Muñoz?
