The Spaceships of the Visitors Kevin Randle, Russ Estes.2011-01-18 The first comprehensive field guide to alien spacecraft, complete with illustrations of more than one hundred spaceships In the last decade, the number of reports of alien spacecraft sightings has skyrocketed. However, the phenomenon of alien encounters is not new. Here, for the first time, two UFO experts, Kevin Randle and Russ Estes, cover the history of UFO sightings, from the ancient to the modern, using research from many different sources, including the Air Force and private UFO groups. Each of the more than one hundred entries is based on actual eyewitness accounts and includes: A detailed drawing of each spaceship based on photographs or drawings made by the people who saw it with their own eyes A concise summary of the facts: where the sighting took place, names of the witnesses, craft type, and such specifics as each craft's dimensions, color, sound, and exhaust mechanism A unique reliability rating, on a scale from 0 to 10 A gripping you-were-there narration of the encounter, along with meticulous documentation of source material *Spaceships of the Visitors* is a fascinating and essential reference for anyone curious about alien visitation.

The Extraterrestrial Answer Book Jim Moroney.2009-12-18 In 1987 Jim Moroney had an extraterrestrial encounter at a small truck stop just outside Manitoba, Canada. It changed his life forever. He spent the next twenty years studying the phenomenon of extraterrestrials. His book will provide answers to all your questions about visitors from other planets, including: Why are they here? When were the first recorded sightings of aliens? Where do most sightings occur? What kind of scientific evidence is there for the presence of aliens? How is the government responding? How will an alien abduction affect your personal relationship? Jim Moroney's *The Extraterrestrial Answer Book* is a valuable guide for everything extraterrestrial. In it, Moroney outlines steps the government needs to take to address the presence of extraterrestrials, as well as those average people can take. Full of practical advice to help you prepare for an encounter with an extraterrestrial, *The Extraterrestrial Answer Book* succeeds in answering the most important question in the debate over extraterrestrials and UFOs. We are not alone.

Alien Base: Timothy Good.1999-08-01 In his popular books *Above Top Secret*, *Alien Contact*, and *Beyond Top Secret*, Timothy Good has focused on the worldwide involvement of the intelligence community in UFO research, sightings by witnesses such as military and civilian pilots, and the recovery of alien vehicles. Now this bestselling writer concentrates on reports of actual encounters with extraterrestrial beings, presenting evidence that Earth is actually the base of operations for several alien species. The most authoritative and comprehensive account of alien visitation and colonization in the twentieth century, *Alien Base* is the culmination of nearly forty years' research that for the first time offers an in-depth understanding of this diverse, bewildering and bizarre range of phenomena. New Evidence from Timothy Good's files includes: The most impressive collection of photographs of alien craft The first convincing photographs of aliens Retrievals of alien craft and bodies predating Roswell Cases involving repairs carried out to grounded craft Visits to alien bases on Earth New stories of worldwide encounters with aliens (1920-97) Unidentified submarine objects reported by naval observers Remarkable new cases involving space-time distortion Sensational new encounters reported by pilots Written by a researcher recognized internationally for his objective and unsensational approach to this complex and multidisciplinary subject, *Alien Base* provides a unique insight into Earth's most enduring enigma.

Fifty Shades of Greys Raymond Szymanski.2016-01-29 An adventure story, a guidebook, and a hilarious and insightful exploration of some of the world's greatest UFO encounters. The author, a former Wright-patterson engineer has done something amazing here, travelling to each encounter site firsthand, visiting with witnesses and investigators and uncovering new truths. Filled with exclusive photos, profound insights and lots of laughs, a valuable addition to the UFO literature.

UFOs .1993

Ufos A. R. Roberts.2016-12-01 *UFOs: What Is the Government Really Covering Up?* is not just another book about the 1947 Roswell crash. Ingeniously, Roberts takes a step back and offers an in-depth survey of the UFO phenomenon as a whole. Using familiar case studies of alien encounters as examples, he casts a wide net that shows a clear pattern of extraterrestrial visitation and the ensuing cover-up by US and world governments. In the end, the reader cannot help coming away with the same conclusion that something is going on and our government knows it. A must-read for those interested in ufology, conspiracy theories, and ancient aliens. Rita Louise, PhD, author of *ET Chronicles: What Myth and Legend Say about Human Origin* While a seemingly unexplained event in Roswell, New Mexico, in 1947 exposed the American people to the phenomenon of unidentified flying objects or UFOs these mysterious sightings have a history that reaches far back into our collective past. Ancient megalithic structures, biblical stories, and even prehistoric art and cave paintings point to the existence of nonterrestrial life and with advanced technology, new recordings, and the Internet, more evidence points to their continued presence today. Why, then, do we the public know so little? Why has the media ignored credible reports from eyewitnesses and ufologists? And why have world governments suppressed these facts from their citizens? The UFO enigma is an extremely complex jigsaw puzzle comprised of many pieces. However, they fit together in a way that presents a cohesive theory when you connect all the dots.

The Alignment Steve Scott Sr..2012-05-10 *Map Detailing Ancient Olmec and Maya States that Rimmed the Gulf of Mexico* It seems that the human race has an abiding tendency to know what surrounds our often routine, mundane lives. There is an even greater tendency to involve ourselves in perceived mystery, particularly when it involves prophecy and doomsday scenarios. The astronomical Alignment on December 21, 2012 is just such an event that encompasses all the elements of a great mystery, including doomsday prophecy and more. The book chronicles what a group of noted scientists say we can expect to happen, as the sun and earth align with the center of our own galaxy. The reader is cautioned to hold on tight, and be mentally prepared for mind-bending surprises, as a cabal of our best scientific minds slug it out over the portent of the Alignment during a symposium at the Institute for Advanced Study, Princeton, NJ.

New England UFOs Taryn Plumb.2019 Centuries before the U.S. Air Force launched Project Blue Book or mysteries swirled around the enigmatic Area 51, the Puritans in 1639 witnessed a great light in the sky over Massachusetts. It was the first recorded sighting of an unidentified flying object. Now, sightings are so common they're not even front-page news, and the Air Force just released all the records from Project Bluebook. Despite all this, there remain sightings that cannot be easily explained. Are we being visited by another species? The Universe, it seems, is full of mystery. Tracing the strange history of UFO sightings in the region, Taryn Plumb presents the stories of sightings or events in each New England state. Many are unexplained sightings of strange objects or lights in the sky; and some tell the tales of alien encounters and even abductions. All will keep you glancing to the night sky, wondering what that was out of the corner of your eye.

Wisconsin UFO's and Extraterrestrials! Carole Marsh.1997-09

Extraterrestrial Visitations Preston E. Dennett.2001 This book represents the cutting edge of UFO research, with ten new and original firsthand accounts of very close contact with UFOs and aliens. The majority of these cases come from fully conscious recall, rather than memories retrieved through hypnosis. Several of the stories present new information that is highly controversial and not commonly reported in UFO literature, from healings and benevolent encounters, to praying mantis-type aliens and military presence during an abduction. They went in the top of my head-An

Excerpt One night, I was lying in bed, and I had my back to the wall, when I saw these two aliens off towards the back of my head. I saw them come through the wall. And they came up to me. I didn't try to move. I don't know if there was any sensation. I remember just lying there. And they came over and they went in the top of my head. And it felt very good, so I allowed it. I perceived that I allowed it. And they were slender. They were iridescent, like a whitish color. And that was that. -Pat Brown UFO abductee Pat Brown assumed her experience with extraterrestrials had come to an end. She didn't know that her ordeal had only just begun. . . Extraterrestrial Visitation: True Accounts of Contact presents real accounts of UFO contact. Told in the witnesses' own words, the stories have immediacy, objectivity, and credibility. Revealed in these stories is the full spectrum-positive and negative-of the most perplexing and persistent mystery of modern times.

UFO Visitation Alan Watts.1996 Welcome to an advance look at the near future, where serious scientists, science fiction writers, psychics, mystics, UFO researchers, and assorted theorists who today are considered crackpots meet to share controversial ideas that soon may be common knowledge. Alan Watts reports on 29 intriguing and perplexing developments, many with tantalizing photos and ingenious charts. In addition, he reports from the frontiers of advanced theoreticians (or wildly wrong eccentrics, depending on your prejudice) regarding such ideas and constructions as the anti-matter reactor and the probability atom.

The UFO Experience J. Allen Hynek.2023-05-01 Cited by the New York Review of Books as "the best brief for visitation," this classic study presents an analysis of UFO reports and concludes that many sightings cannot be easily dismissed. The case against UFOs and unidentified aerial phenomena (UAP) has not been put to rest. Although UFOs "officially" did not exist for decades according to the government, reports of sightings continue to be made, and the latest releases from the government and related hearings have surprised the world. While the scientific community has put UFOs out to pasture, the evidence used to dismiss them is rare and unscientific. Dr. Hynek, a scientist himself, and the only government-paid ufologist in history, looks at the decisions made by officialdom in the early days of ufology and how these decisions have held us back—to the point that we are still naively talking about UFOs as we were in the 1950s. Has seventy years of research made no difference at all in our understanding? Dr. Hynek proves that there is a conspiracy afoot to hide the facts and that there are many cases that still need to be explained by mainstream science—not dismissed with facile jokes and stupid logic. Citing specific cases, Hynek challenges those in the ivory tower by raising questions that have still not been answered and refuting mainstream arguments that have yet to be proven.

The Complete Book of UFOs Jenny Randles,Peter Hough.1996 Discusses the history of UFO sightings and alien abductions and explores the research methods, reports, speculations, and alleged physical evidence associated with these events.

Light and Dark Trevor J. Hawkeswood.2013 Trevor J. Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime. In *Light and Dark*, he recounts some of these incredible interactions. He believes that reality occurs on two separate but interwoven planes of existence the Earth plane and the multiple levels of the spiritual planes, including the lower levels, from where the dark souls of humans who have died reach out to us. He has experienced more than one hundred sightings of the shadow people, or black ghosts. He credits guardian angels with saving him from harm or certain death on a number of occasions. Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs. He has personally experienced clairaudience voices from beyond and precognition, or the ability to see the future. His detailed account of a unique out-of-body experience (OOBE) challenges what is known about this remarkable ability. His OOBE was unlike anything that has ever been described by others who have experienced it and he shares it all in *Light and Dark*. But it hasn't all been safe or pleasant. At eighteen, he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him. A comprehensive handbook for the paranormal enthusiast, Hawkeswood's work also provides a glossary and reference list of English-language UFO books. In *Light and Dark*, he shares a lifetime of experiences, ideas, and theories about this fascinating field of study.

Alien Sightings in America Jennifer Bringle.2011-12-15 Presents information about sightings of UFOs in the United States, beginning with reports from the late nineteenth century through accounts in the twentieth century, with details about the depiction of UFO's in books, radio, television, and films.

The UFO Experience Reconsidered Moon Books Schooner Moon Books,Robert L. Mason.2008-02-01 This book was inspired by, and is loosely based on, *The UFO Experience: A Scientific Inquiry* (1972) by the late Dr. J Allen Hynek. Dr. Hynek's book is generally considered to be the most influential book ever written about UFOs, but much has happened since 1972. This new book not only brings us up-to-date, but extrapolates on current science whenever possible. Perspectives are offered in three basic categories: natural causes, domestic technology, and alien technology. But perhaps more importantly a new way of looking at the phenomena is proposed that has been largely overlooked by other authors, and which finds itself at home in any of these three possibilities. The reader will not find discussion of conspiracy theories, accounts of abductions, or metaphysical and supernatural hypotheses. However, one will find speculations about possible alien visitations, what alien technology might be capable of, or what the distant future might hold.

The UFO Chronicles John Michael Greer.2020-10-31 Beyond the familiar opposition between those who believe that UFOs are spacecraft from other planets and those who believe UFOs do not exist at all, lies a landscape of stranger and more rewarding topics. This new edition of *The UFO Phenomenon* is a discovery of the nature of apparitions, the history of secret American aerospace technologies, the mythology of progress, and the role of popular culture in defining experienced reality.

UFOs Over Nevada Preston Dennett.2015-03-28 Nevada has been a UFO hotspot for more than 100 years. In this first book to ever present a comprehensive history of extraterrestrial encounters in the Silver State, you will find a dazzling array of sightings, landings, face-to-face encounters, abductions, and even UFO crash/retrievals arranged by decades. With eighty-four percent of the state owned by the Federal Government (more than any other state) Nevada's military bases have been deluged by sightings. UFOs hovering in the heart of Las Vegas, dramatic UFO-car chases in the remote Nevada deserts, cases of aliens walking among us--they're all here, and more. Read about Truman Betherum, who had a series of encounters with friendly humanoids, and country singer Johnny Sands, who had a face-to-face visitation with strange ETs in the desert outside Las Vegas. Find out about the 1962 UFO crash over Las Vegas and what really is going on inside the super-secret Area 51. The truth is so strange, it will be difficult to accept.

UFO's: The Great Last Days Deception Billy Crone.2018-03-23 Mention the topic of UFO's and Aliens and not only have most people already formed their opinions about them, but virtually everyone on the planet now believes in them. More people believe in Aliens than in the existence of God and more people believe that Aliens have visited planet earth than that Jesus is the Son of God. Ufology has become a new religion for 21st century where people now believe that Aliens will save them, not God. The problem is hardly anyone recognizes the true identity of UFO's let alone how they are being used to usher in one of the darkest, most deceptive times in the history of mankind. Therefore, this book, *UFO's: The Great Last Days Deception* seeks to equip you with the truth concerning so-called extraterrestrial visitors and their hidden demonic agenda. One of the biggest lies in the history of mankind is about to be foisted upon the whole world. The Rapture of the Church is going to happen, but it won't be from a liftoff in UFO's like we are being told. Don't fall for the lie!

UFOs Roy Craig.1995 A former field investigator for the Condon Project, the University of Colorado's scientific study of UFOs, relates details of individual cases of reported UFO sightings and offers a historical overview of the UFO phenomenon.

UFOs and Extraterrestrials John Scott Chace.2018-12-07 So you are a Christian and saw a UFO ! Where in all your church teachings, bible studies and classrooms at school - put that! I mean how can a Christian integrate UFOs with the Protestant and Catholic teachings.Well, now you have the answers in this a 250-page book. Nowhere in Protestant and Catholic churches today do we hear sermons on UFOs and their occupants. My thoughts are we should. The Catholic church has been discussing how to prepare their parishioners for this reality. Yet the Protestant church is utterly silent.This book was written for members of any Christian Church, Pastor or Christian Counselor. It is a book about hope and understanding about UFOs, and their occupants are children of God. Suppose, you have just seen a UFO or have a friend or loved one who has had an extraordinary extraterrestrial event. What do you do? Who do you confide in about this bizarre experience? Are you scared, feel lonely and going crazy about

extraterrestrials and your recent UFO sighting and need someone to talk to on the matter? UFOs and Extraterrestrials is a book prepared by a Christian to all Christians, and it is about Hope. We need hope in times of desperation. If you, family member or a friend, witnessed a UFO or an extraterrestrial visit, you have just experienced trauma to your Mind (Psyche) and Physical Body. I decided to write this book as a result of my own sightings and how I came to reconcile these traumatic episodes with Christ after many years of struggling with the topic. At the time, I found no literature on the market as to how to deal with the trauma (psychological impact) of UFO sightings and visitation from a Christian perspective. We can feel lost, alone and abandoned during UFO events, as we have no one to talk to about this life-altering experience or we can take this book and study the contents. Our spouses and friends, whom we love dearly, may have never had such experience, and lack the empathy or skills to understand what we have just learned. In fact, many spouses and friends do not know what to make of our individual experience, though it really happened. They will call you delusional, but you aren't. It doesn't help the U.S. government has continued to debunk the UFO phenomenon for 70 years, despite; 1. Thousands of retired military officers, police officers, commercial and military pilots from around the world and Astronauts are now confirming it's all true; 2. Astronomers have confirmed they have photographed them; 3. Millions of citizens in the United States, Britain, Brazil, Russia and other corners of the earth have witnessed them. The fact is UFOs, and their occupants are Real, and you just became an unlikely participant in God's grander scheme. This book assists the walking wounded on an individual journey of faith as we learn to cope, reconcile and normalize an extraordinary experience that is literally out of this world. We discuss the origin of man and how these interstellar brothers and sisters came to be one part of God's desire for creation. Though we may feel abandoned during this time of pain and suffering, we are never alone, as The Lord is walking next to us showing the way. We learn of God's desire for creation, his love of diversity in his creation scheme, that he loves each one of us, as we are uniquely designed by him. We will discuss one Christian theory of how this all came about and how extraterrestrials, just like Man / Woman and Angels are his precious gifts to the Universe. The Lord is here to listen to each and every one of us in our time of grieving the world we once knew has now changed and helps us toward a new perspective that he loves each and every one of us. John Chace, a business executive, has his Masters in Christian Counseling and served, for a time, as a volunteer on KCIT (Keystone Crisis Intervention Team), NOVA (National Organization for Victims Assistance) as well as schools Crisis Intervention Team.

Extraterrestrials and the American Zeitgeist Aaron John Gulyas. 2013-05-11 Since the 1950s, men and women around the world have claimed to have had contact with human-like visitors from space. This book explores how the "contactee" subculture has critiqued political, social and cultural trends in the United States, Europe and elsewhere. Not merely quaint relics of the 1950s Atomic Age, contactees have continued their messages of transformation into the 21st century. Regardless of whether these alleged contacts took the form of physical meetings or channeled paranormal psychic communications, or whether they actually happened at all, contactees have provided a consistently relevant source of commentary on this world and beyond.

Psychic and UFO Revelations for the Twenty-First Century: Freak Weather-Earth Changes-Pole Shifts-Aliens Arrive-Global Conflict-Epidemics Sean Casteel, Carol Ann Rodriguez, Ashtar Command. 2020-04-09 THE COSMIC CLOCK IS NEARING MIDNIGHT! PSYCHICS, UFO CHANNELERS AND FLYING SAUCER CONTACTEES SAY WE MAY BE JUST ABOUT TO REACH THE END OF DAYS! BUT WILL YOU BE READY FOR THE COMING CHANGES THAT WILL TAKE PLACE SOON? All over the planet, important cosmic events are taking place - from the arrival of alien spaceships in our skies to the opening of star gates and portals to other planets, which allow interdimensional beings - both good and evil- to enter our world. Here are hundreds of predictions regarding - O -- The Future Destiny of Earth. O -- The Mass Landing of Spaceships. O -- The Evacuation from Our Planet of The Worthy to a Safe New Home in Space. O -- Signs And Wonders in The Heavens that Will Let Us Know When the Last Days Have Arrived. O -- Three Days of Total Darkness. O -- Hopi and Other Native-American Revelations. O -- The Rising of Lost Continents and the Arrival of a New Golden Age. In addition to these vital messages transmitted from various, said to be reliable, sources, this book -- printed in a large format -- contains a pictorial history of the New Age/Contactee movement from the late 1940s to the present. The reader will be introduced to most of the important figures in the field, with personal photos and insights that have not been presented previously. INDEED - THE COSMIC COUNTDOWN HAS BEGUN!

UFOs: A History of Alien Activity from Sightings to Abductions to Global Threat Rupert Matthews. 2009-02-01 Is Earth undergoing an alien invasion? In this thrilling examination of the UFO phenomenon, author Rupert Matthews assesses the growing threat of alien reconnaissance on Earth. From the earliest recorded sightings to the most recent encounters and abductions, the book sifts through the evidence and asks the crucial question: why do they come...

The Lure of the Edge Brenda Denzler. 2001-11-07 UFO phenomena entered American consciousness at the beginning of the Cold War, when reports from astonished witnesses of encounters with unknown aerial objects captured the attention of the United States military and the imagination of the press and the public. But when UFOs appeared not to be hostile, and when some scientists pronounced the sightings to be of natural meteorological phenomena misidentified due to Cold War jitters, military interest declined sharply and, with it, further overt scientific interest. Yet sighting reports didn't stop and UFOs entered the public imagination as a cultural myth of the twentieth century. Brenda Denzler's comprehensive, clearly written, and compelling narrative provides the first sustained overview and valuation of the UFO/alien abduction movement as a social phenomenon positioned between scientific and religious perspectives. Demonstrating the unique place ufology occupies in the twentieth-century nexus between science and religion, Denzler surveys the sociological contours of its community, assesses its persistent attempt to achieve scientific legitimacy, and concludes with an examination of the movement's metaphysical or spiritual outlook. Her book is a substantial contribution to our understanding of American popular culture and the boundaries of American religion and to the debate about the nature of science and religion. Denzler presents a thorough and fascinating history of the UFO/abduction movement and traces the tensions between those who are deeply ambivalent about abduction narratives that seemingly erode their quest for scientific credibility, and the growing cultural power of those who claim to have been abducted. She locates the phenomenon within the context of American religious history and, using data gathered in surveys, sheds new light on the social profile of these UFO communities. *The Lure of the Edge* succeeds brilliantly in repositioning a cultural phenomenon considered by many to be bizarre and marginal into a central debate about the nature of science, technology, and the production of a modern myth.

Passport to the Cosmos John E. Mack. 2008 In the groundbreaking follow-up to his bestselling *Abduction*, Harvard professor and Pulitzer Prize-winning author Mack demonstrates how the alien abduction phenomenon calls for a revolutionary new way of examining the nature of reality and our place in the cosmos.

UFO Visitation Alan Watts. 1996

UFOs and Aliens John Scott Chace. 2018-12-16 This 290-page book brings together UFO cases from the declassified U.S. Air Force files and newspaper articles for the states of Massachusetts, Vermont, New Hampshire, Rhode Island, and Maine. You live in New England, and you have seen a UFO or knew someone who has, you want to know more about these visitors. This book provides you with the essential facts of these visitors from other worlds. Where the U.S. government falls short on sharing information on this subject matter, you will finally get the knowledge here. You will read about specific facts like; 1. Jets interceptions over Cape Cod, 2. UFOs follow passenger planes, automobiles, and visiting airports, 3. UFOs like to visit nuclear energy plants and much more. There is much to consume in this book. We have the best and weirdest stories for you to read. This book is one of several regional UFO books aimed at discussing the UFO cases in the Northeast. Other books are focused on the Mid-Atlantic States, The Southeastern States, The Upper Midwest, and the Southwestern states. About the Author John Scott Chace, a business executive, is the author of eleven other books on UFOs including *UFOs In U.S. AIRSPACE*. He is the son of Colonel Chaplain Alston R. Chace (USAF Retired) and Beverly A. Morse. A Christian and military brat, John lived on many of the U.S. Air Force bases where UFO incidents took place in Scotland and England (UK) and the U.S. John became a witness to his own UFO sightings in Connecticut from 2011 to 2013. He then became a researcher, and historian to educate the public on the UFO reality and paradigm shift needed to understand this worldwide phenomenon.

UFO Sightings Desk Reference Cheryl Costa, Linda Miller Costa. 2017 The first book of its kind, the *UFO Sightings Desk Reference: United States*

of America 2001-2015 presents data and analysis for 100,000+ sightings of unidentified flying objects reported by individuals during the first 15 years of the 21st century. Since 1969 the government has claimed no interest in the subject, and the press and media either ignore or ridicule any mention of UFOs. Yet citizen scientists and non-governmental organizations have continued to this day the research into this important subject: this book seeks to make the hardest data available accessible to the general public, as well as other UFO researchers. The book is organized into beginning narrative sections including analysis of UFO sightings, frequently asked questions, and how to use this book, followed by the data. Charts, tables, and maps are presented of summary data for the entire US and individual chapters for all 50 states (down to the county level) plus the District of Columbia. Aimed at the serious UFO researcher, this comprehensive volume is also of value to academic and public libraries, news organizations, and anyone who is interested in what is flying in the skies over their heads where they live. As seen in the New York Times: People Are Seeing U.F.O.s Everywhere, and This Book Proves It By RALPH BLUMENTHAL -- APRIL 24, 2017

How UFOs Conquered the World David Clarke. 2015-05-14 "Cover[s] all the major themes of ufology, ranging from lights in the sky to crashed saucers, government cover-ups and alien abductions . . . fascinating." —Popular Science Books Neither a credulous work of conspiracy theory nor a skeptical debunking of belief in "flying saucers," How UFOs Conquered the World explores the origins of UFOs in the build-up to the First World War and how reports of them have changed in tandem with world events, science and culture. The book will also explore the overlaps between UFO belief and religion and superstition. "An insightful, informative and thought-provoking book on UFOs and the UFO culture . . . In the following ten chapters, he writes about his pursuit of the 'truth' about UFOs. It is a fascinating journey." —Skeptic

The UFO Phenomenon John Michael Greer. 2009 Written by an acclaimed occult scholar, this book is a through are credible exploration of the UFO phenomenon - from Kenneth Arnold's 1947 sighting of the first 'flying saucers' to present-day sightings.

JFK & UFO Kenn Thomas. 2011-05-31 In 1947 six flying saucers circled above a harbor boat in Puget Sound near Tacoma, Washington, one wobbling and spewing slag. The falling junk killed a dog and burned a boy's arm. His father, Harold Dahl, witnessed it all and brought his partner, Fred Crisman, down the next day to see yet another UFO. The Maury Island incident became the first UFO event of the modern era. In 1968 New Orleans district attorney Jim Garrison subpoenaed Fred Crisman as part of his investigation into the JFK assassination, which became the subject of Oliver Stone's 1992 movie JFK. Garrison believed that Crisman was the infamous grassy knoll shooter. He's also the central figure in the Mystery Tramp photo of the Dallas rail yard hobos. Illustrated with rare images, JFK & UFO interconnects the lingering mysteries of America's most notorious assassination and its weird ufological subculture. It examines the denizens of the bizarre, semi-spook underground reflecting a stranger and more true history than offered by the mainstream.

UFOs and Ufology Paul Devereux, Peter Brookesmith. 1997

Military Encounters with Extraterrestrials Frank Joseph. 2018-09-11 The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmose III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

The Everything UFO Book William J. Birnes. 2011-12-15 Are extraterrestrial beings trying to contact us? Is the government covering up evidence? What is the real truth about UFOs, close encounters, and alien abduction? In this fascinating guide, UFO expert William J. Birnes covers everything from theories about the nature of UFOs to where you're likely to find them; from case studies of alien encounters to the scientific studies of otherworldly visitors. Other topics include: The beginnings of modern Ufology in the age of rockets A history of military and pilot encounters with UFOs Twenty-first-century UFO sightings around the globe Types of equipment needed to capture UFOs on film or video With reports from credible witnesses and lists of government documents that actually admit to the existence of UFOs, this is the only guide you need to ground yourself in this exciting subject!

The Myth and Mystery of UFOs Thomas E. Bullard. 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006, it was met with the typical denials and hush-up that usually accompany such sightings. But when a related story broke the record for hits at the Chicago Tribune's website, it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why, wonders Thomas Bullard, don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer, in part, lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book, Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences.

Along the way, Bullard investigates how UFOs have inspired books, movies, and television series; blurred the boundaries between science, science fiction, and religion; and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt, he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that, despite all the competing interests and errors clouding the subject, there is substance beneath the clutter, a genuinely mysterious phenomenon that deserves attention as more than a myth.

Welcome to Infinity Kathlyn Hinesley. 2002 Writing in an entertaining, autobiographical style, Kathlyn Hinesley combines research in anthropology, history and science with personal psychic experience and metaphysical theory. She tackles questions related to: life after death, spirit communication, shamanism, alien visitations, out-of-body travel, time travel, sacred sites, and the nature of reality of itself. She enlightens the reader by showing how many of these topics are related and why. Welcome to Infinity presents us with an intriguing view of the universe: one that is home to a variety of otherworldly beings existing at different frequencies of vibration. Ms. Hinesley explores ancient and modern techniques for communicating and collaborating with these beings, and traveling to their realms. She describes the importance placed on human/spirit collaboration by ancient and native peoples, who viewed such contact as critical to the maintenance of harmony on earth. The author argues for a return to our roots: for a future in which humans and otherworldly beings work together for the good of the universe. Kathlyn Hinesley deciphers our interactions with the higher vibrations of our ecosystem. This is the hard science of the future. -Rick Ramsey, Kozmic Engine
