Russia's New State Armament Programme Richard Connolly, Mathieu Boulégué. 2018 While Western observers should be prepared to see Russia's armed forces become more capable over the next decade, they should avoid exaggerating the threat posed by these developments. By 2027, the Russian armed forces are likely to be considerably better equipped than they are today. Nevertheless, one should not overstate the pace of probable modernization. While some progress may be made in the development of new-generation equipment, the armed forces will probably still rely on a mix of legacy hardware and modernized Soviet systems alongside new designs. Providing Russia with 21st-century military capabilities and adapting its armed forces to today's challenges will require sustained investment in modernization efforts and military R&D.

Educated Tara Westover. 2018-02-20 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University "Extraordinary . . . an act of courage and self-invention."—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Despite the singularity of [Westover's] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?"—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KQED • New York Public Library

Fundamentals of Multimedia Ze-Nian Li, Mark S. Drew, Jiangchuan Liu. 2014-04-09 This textbook introduces the "Fundamentals of Multimedia", addressing real issues commonly faced in the workplace. The essential concepts are explained in a practical way to enable students to apply their existing skills to address problems in multimedia. Fully revised and updated, this new edition now includes coverage of such topics as 3D TV, social networks, high-efficiency video compression and conferencing, wireless and mobile networks, and their attendant technologies. Features: presents an overview of the key concepts in multimedia, including color science; reviews lossless and lossy compression methods for image, video and audio data; examines the demands placed by multimedia communications on wired and wireless networks; discusses the impact of social media and cloud computing on information sharing and on multimedia content search and retrieval; includes study exercises at the end of each chapter; provides supplementary resources for both students and instructors at an associated website.

Gender and housing in Soviet Russia Lynne Attwood. 2013-07-19 This book explores the housing problem throughout the 70 years of Soviet history, looking at changing political ideology on appropriate forms of housing under socialism, successive government policies on housing, and the meaning and experience of 'home' for Soviet citizens. She examines the use of housing to alter gender relations, and the ways in which domestic space was differentially experienced by men and women. Much of Attwood's material comes from Soviet magazines and journals, which enables her to demonstrate how official ideas on housing and daily life changed during the course of the Soviet era, and were propagandised to the population. Through a series of in-depth interviews, she also draws on the memories of people with direct experience of Soviet housing and domestic life. Attwood has produced not just a history of housing, but a social history of daily life which will appeal both to scholars and those with a general interest in Soviet history.

Filologické studie 2020 kolektiv autorů. 2021-09-01 Monografie je věnována uplatňování interdisciplinárního přístupu ve školní výuce jazyků. Přináší teoretické vymezení interdisciplinarit a interdisciplinárních přístupů ve vyučování, zabývá se ústředními kurikulárními a programovými dokumenty upravujícími vyučování v České republice. Poskytuje analýzy kurikulárních dokumentů vybraných zemí jednotlivých jazyků, analýzy školních vzdělávacích programů základních a/či středních škol a analýzy vybraných učebnicových z perspektivy interkulturality. Russia's Uncommon Prophet Wallace L. Daniel. 2016-04-20 This lucidly written biography of Aleksandr Men examines the familial and social context from which Men developed as a Russian Orthodox priest. Wallace Daniel presents a different picture of Russia and the Orthodox Church than the stereotypes found in much of the popular literature. Men offered an alternative to the prescribed ways of thinking imposed by the state and the church. Growing up during the darkest, most oppressive years in the history of the former Soviet Union, he became a parish priest who eschewed fear, who followed Christ's command to love thy neighbor as thyself, and who attracted large, diverse groups of people in Russian society. How he accomplished those tasks and with what ultimate results are the main themes of this story. Conflict and controversy marked every stage of Men's priesthood. His parish in the vicinity of Moscow attracted the attention of the KGB, especially as it became a haven for members of the intelligentsia. He endured repeated attacks from ultraconservative, anti-Semitic circles inside the Orthodox Church. Fr. Men represented the spiritual vision of an open, non-authoritarian Christianity, and his lectures were extremely popular. He was murdered on September 9, 1990. For years, his work was unavailable in most church bookstores in Russia, and his teachings were excoriated by some both within and outside the church. But his books continue to offer hope to many throughout the world—they have sold millions of copies and are testimony to his continuing relevance and enduring significance. This important biography will appeal to scholars and general readers interested in religion, politics, and global affairs.

Comfortably Unaware Richard Oppenlander. 2012-11-13 In *Comfortably Unaware*, Dr. Richard Oppenlander tackles the crucial issue of global depletion as it relates to food choice. We should all be committed, he tells us, to understanding the reality and consequences of our diet, the footprint it makes on our environment, and seek food products that are in the best interest of all living things. His forthright information and stark mental images are often disturbing—and that's how it should be. As the guardians of Planet Earth, we need to be shaken out of our complacency, to stop

being comfortably unaware, and to understand the measures we must take to ensure the health and well-being of our planet-and of ourselves.

Professional Artistic Education and Culture within Modern Global Transformations Olga Oleksyuk.2019-01-17 This volume brings together the proceedings of the II International Scientific and Practical Conference "Professional Artistic Education and Culture: Challenges of the XXI Century", held at Borys Grinchenko Kyiv University, Ukraine, in April 2016. It discusses a wide range of the most pressing issues in contemporary artistic education and culture, including philosophical principles, the historical experience of professional artistic education, and problems concerning innovative technologies in continuing professional education, among others. In Ukraine's present socio-cultural space, the issue of finding new ways of designing the semantic content of artistic education is often controversial, and requires broad awareness from the larger international educational community. This is because artistic education plays an important role in the preservation and development of national cultural and educational traditions, and contributes to the integration process into the international educational space.

Media Psychology David Giles.2003-04-02 Media Psychology examines the impact that 21st century media use has on human behavior, from teenage crushes on pop stars to soap fandom in adulthood. It brings together North American communication research with European media research in a variety of disciplines--psychology, sociology, communication and media studies--and in doing so, maps out the territory for media psychology. David Giles argues that psychologists have been guilty of ignoring the influence of the media over the last century, seeing it at best as a minor nuisance that will eventually go away. However, with the increasing prevalence of new electronic forms of mass communication, the media seem to have a greater influence than ever over our daily lives. In this book, Dr. Giles tackles the traditional topics of media psychology--sex, violence, advertising--along with sections on developmental aspects of media influence and the psychology of the audience. He also examines a number of specific media genres--news, sports, soaps, and the increasingly popular audience participation media, such as reality and lifestyle television. In addition, he asks what light psychology can shed on the popularity of these genres and the response of their audiences. Finally, there are chapters on the increasing influence of the Internet and on the representation of psychology and psychologists themselves in the media.
