Grain Brain David Perlmutter.2018-12-18 The devastating truth about the effects of wheat, sugar, and carbs on the brain, with a 4-week plan to achieve optimum health. In *Grain Brain*, renowned neurologist David Perlmutter, MD, exposes a finding that's been buried in the medical literature for far too long: carbs are destroying your brain. Even so-called healthy carbs like whole grains can cause dementia, ADHD, epilepsy, anxiety, chronic headaches, depression, decreased libido, and much more. Groundbreaking and timely, *Grain Brain* shows that the fate of your brain is not in your genes. It's in the food you eat. The cornerstone of all degenerative conditions, including brain disorders, is inflammation, which can be triggered by carbs, especially containing gluten or high in sugar. Dr. Perlmutter explains what happens when the brain encounters common ingredients in your daily bread and fruit bowls, how statin drugs may be erasing your memory, why a diet high in good fats is ideal, and how to spur the growth of new brain cells at any age. Dr. Perlmutter's revolutionary 4-week plan shows you how to keep your brain healthy, vibrant, and sharp while dramatically reducing your risk for debilitating neurological diseases as well as relieving more common, everyday conditions -- without drugs. Easy-to-follow strategies, delicious recipes, and weekly goals help you to put the plan into action. With a blend of anecdotes, cutting-edge research, and accessible, practical advice, *Grain Brain* teaches you how to take control of your smart genes, regain wellness, and enjoy lifelong health and vitality.

Mirrors Eduardo Galeano.2009-05-26 Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism. *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: Official history has it that Vasco Núñez Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind?? Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.

[Karen M. McManus 2-Book Bundle: One of Us Is Lying and One of Us Is Next](#) Karen M. McManus. When it comes to YA suspense, Karen M. McManus is in a league of her own. (EW) A must-have for every library, this 2-book bundle includes the New York Times bestseller, *One of Us Is Lying* and its sequel *One of Us Is Next*. Pay close attention and you might solve this. *One of Us Is Lying* Five students walk into detention, and only four walk out. According to investigators, the last student's death wasn't an accident. He was planning to post juicy reveals about all four of his classmates the next day, which makes them each suspects. Or are they the perfect patsies for a killer who's still on the loose? *One of Us Is Next* A ton of copycat gossip apps have popped up since Simon died, but in the year after no one's been able to fill the gossip void quite like he could. The problem is no one has the facts. Until now. This time it's not an app, though--it's a game. Truth or Dare. And if you're smart, you'll always take the dare.

Rudyard Kipling: Something of Myself and Other Autobiographical Writings Rudyard Kipling.1991-06-28 Rudyard Kipling's autobiography, *Something of Myself*, was the author's last work, but it has not received the serious attention it deserves. Thomas Pinney's edition of the work, supplemented by other autobiographical pieces, aims to change that. Professor Pinney, a leading textual editor currently engaged on Kipling's letters, has consulted the available source material relating to *Something of Myself*. He has constructed an outline of the book's composition; described the history of its publication; established a text and a set of variants; and given a critical account of the book's design and its main themes. His annotations to the

work (and to the supplementary pieces) identify references and allusions, and provide a biographical context against which Kipling's selections, omissions, and distortions may clearly be seen. The extent to which Kipling's description of his life failed to match what actually happened is extraordinary. Two of the additional items presented here (Kipling's Indian diary of 1885 and the illustrations he made for his autobiographical story, 'Baa Baa, Black Sheep') are previously unpublished. Pinney shows how they, and other forms of autobiographical writing, reflect upon or complicate the narrative of *Something of Myself*. This carefully prepared edition sheds new light on Kipling as a man and writer.

Kafka and the Traveling Doll Jordi Sierra i Fabra.2019 One year before his death Frank Kafka had an extraordinary experience. Having a walk through Steglitz Park, in Berlin, he found a little girl crying heartbroken. She had lost her doll. To calm her down Frank introduced himself as the Dolls's Postman, and told the little girl that the doll was away on a trip but had sent a letter for her that will be delivered by himself the following day. For three weeks Frank focused exclusively on the doll's letters that he handed on every day to the girl. Nobody has ever known who that little girl was and what happened with the letters.

The Time Ship Enrique Gaspar.2012-07-05 H. G. Wells wasn't the only nineteenth-century writer to dream of a time machine. The Spanish playwright Enrique Gaspar published *El anacronópete*—"He who flies against time"—eight years before Wells's influential work appeared. The novel begins at the 1878 Paris Exposition, where Dr. Don Sindulfo unveils his new invention—which looks like a giant sailing vessel. Soon the doctor embarks on a voyage back in time, accompanied by a motley crew of French prostitutes and Spanish soldiers. The purpose of his expedition is to track down the imprisoned wife of a third-century Chinese emperor, believed to possess the secret to immortality. A classic tale of obsession, high adventure, and star-crossed love, *The Time Ship* includes intricately drawn illustrations from the original 1887 edition, and a critical introduction that argues persuasively for *The Time Ship*'s historical importance to science fiction and world literature.

Damon C. Terry Cline, Jr..2016-06-16 A four-year-old boy with a rare glandular malfunction, a genius IQ, and uncanny telepathic power is the catalyst that creates this compulsively readable novel of dual personality and psychological possession. What is at the core of Damon's unique

affliction? Damon is a once in a lifetime case for psychiatrist Dr. Kyle Burnette, colleague psychoneurologist Dr. Ted Drinkwater, and nurse Betty Snider. In psychotherapy, Burnette discovers a mature, sensual, menacing alter ego in Damon, an extremely rare occurrence in so young a child. Concurrently, the glandular malfunction seems to be causing Damon's young body to mature sexually to the level of a grown man's. What are the true sources of Damon's strange seizures, his breathtakingly accurate reading of Dr. Burnette's mind, and the increasing menace of his behavior? In the tradition of great psychological mysteries such as *Sybil* and *The Three Faces of Eve*, Damon is a story based on the bizarre but medically impeccable fact.

In the Drying Shed of Souls / En Al Secadero de Almas Katherine Hedeem, Víctor Rodríguez Núñez. 2019-03-25 [A Spanish-English Dual Language anthology featuring selections from Cuba's Generation Zero, including Luis Yuseff, Isaily Pérez González, Javier Marimón Miyares, Leymen Pérez García, Marcelo Morales Cintero, Oscar Cruz, Liuvan Herrera Carpio, Jamila Medina Ríos, Moisés Mayán Fernández, Legna Rodríguez Iglesias, and Sergio García Zamora.] It's not a cliché by any means to declare that few times in its history has Cuban poetry been more varied, innovative, critical, and attractive than it is right now. And an undeniable part of it is what has been written by the so-called Generation Zero (Generación Cero), poets born after 1970 and who begin publishing after 2000. It's a numerous group, as the title of their most complete anthology illustrates, *La isla en versos: Cien poetas cubanos* [The Island in Verse: One Hundred Cuban poets] (2011 and 2013). In fact, our selection of 11 poets was compiled having read over sixty books, tens of anthologies, and numerous journals and magazines. Indeed, the only way to truly do justice to this poetry is to offer up book-length anthologies; our aim in these pages is to be the first to simply introduce it to English-speaking readers. These days, no one expects this kind of poetry from a Cuban, not in literary circles in the Spanish-speaking world, on the left or the right, not in North American academic and creative writing circles either. And perhaps that's why it hasn't received the attention it deserves. Though they are relatively isolated, whether it be because of extremely limited access to the Internet or the difficulties of traveling off the island, Generation Zero poets aren't behind the times at all, on the contrary, they are at the forefront of poetry being written anywhere in the world. Here there's no trace of superficiality, no fear of emotional complexity or intellectual density, of formal rigor or experimentation. It's poetry open to reality and the most diverse forms of representation. The authors know that intellectuals participate in society through their cultural production.

The Science of Cooking Peter Barham.2012-10-05 A kitchen is no different from most science laboratories and cookery may properly be regarded as an experimental science. Food preparation and cookery involve many processes which are well described by the physical sciences. Understanding the chemistry and physics of cooking should lead to improvements in performance in the kitchen. For those of us who wish to know why certain recipes work and perhaps more importantly why others fail, appreciating the underlying physical processes will inevitably help in unravelling the mysteries of the art of good cooking. Strong praise from the reviewers - Will be stimulating for amateur cooks with an interest in following recipes and understanding how they work. They will find anecdotes and, sprinkled throughout the book, scientific points of information... The book is a pleasant read and is an invitation to become better acquainted with the science of cooking. - NATURE This year, at last, we have a book which shows how a practical understanding of physics and chemistry can improve culinary performance... [Barham] first explains, in a lucid non-textbooky way, the principles behind taste, flavour and the main methods of food preparation, and then gives fool-proof basic recipes for dishes from roast leg of lamb to chocolate soufflé. - FINANCIAL TIMES WEEKEND This book is full of interesting and relevant facts that clarify the techniques of cooking that lead to the texture, taste and aroma of good cuisine. As a physicist the author introduces the importance of models in preparing food, and their modification as a result of testing (tasting).- THE PHYSICIST Focuses quite specifically on the physics and food chemistry of practical domestic cooking in terms of

real recipes... Each chapter starts with an overview of the scientific issues relevant to that food group, e.g. toughness of meat, thickening of sauces, collapse of sponge cakes and soufflés. This is followed by actual recipes, with the purpose behind each ingredient and technique explained, and each recipe followed by a table describing some common problems, causes and solutions. Each chapter then ends with suggested experiments to illustrate some of the scientific principles exploited in the chapter. - FOOD & DRINK NEWSLETTER

The Presentation of Self in Everyday Life Erving Goffman.2021-09-29 A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.
