

Contemporary Politics In The Middle East

The Contemporary Middle East in an Age of Upheaval James L. Gelvin.2021-05-18 The US invasion of Iraq in 2003 and the Arab uprisings of 2010–11 left indelible imprints on the Middle East. Yet, these events have not reshaped the region as pundits once predicted. With this volume, top experts on the region offer wide-ranging considerations of the characteristics, continuities, and discontinuities of the contemporary Middle East, addressing topics from international politics to political Islam, hip hop to human security. This book engages six themes to understand the contemporary Middle East—the spread of sectarianism, abandonment of principles of state sovereignty, the lack of a regional hegemonic power, increased Saudi-Iranian competition, decreased regional attention to the Israel-Palestine conflict, and fallout from the Arab uprisings—as well as offers individual country studies. With analysis from historians, political scientists, sociologists, and anthropologists, and up-to-date discussions of the Syrian Civil War, impacts of the Trump presidency, and the 2020 uprisings in Lebanon, Algeria, and Sudan, this book will be an essential guide for anyone seeking to understand the current state of the region.

Japan and the Contemporary Middle East J. A. Allan,Kaoru Sugihara.2005-08-18 Japan is an economic power of global significance; it is also the world's largest single national importer of oil. These two facts alone are sufficient to indicate the significance of Japan's relationship with the Middle East. But in fact, Japan's particularly strong interests in the Middle East extend well beyond oil, and include banking, investment, and an increasing concern with economic assistance. The studies in this book deal with the relevant period of the twentieth century and especially with the rapid transformation of Japan's relationship with the region since 1973. It provides access in English to the current economic and political analysis by Japanese specialists concerned with the Middle East, and it will assist anyone interested in Japan's relationship with the region. The dependence of Japan on Middle Eastern oil is examined together with the changing nature of Japan's energy consumption policies at home, and its involvement in joint ventures in the Middle East. Japan's role as a major provider of economic assistance is reviewed, and its future potential role in this area is emphasised.

A Critical Political Economy of the Middle East and North Africa Joel Beinin,Bassam Haddad,Sherene Seikaly.2020-12-22 This book offers the first critical engagement with the political economy of the Middle East and North Africa. Challenging conventional wisdom on the origins and contemporary dynamics of capitalism in the region, these cutting-edge essays demonstrate how critical political economy can illuminate both historical and contemporary dynamics of the region and contribute to wider political economy debates from the vantage point of the Middle East. Leading scholars, representing several disciplines, contribute both thematic and country-specific analyses. Their writings critically examine major issues in political economy—notably, the mutual constitution of states, markets, and classes; the co-constitution of class, race, gender, and other forms of identity; varying modes of capital accumulation and the legal, political, and cultural forms of their regulation; relations among local, national, and global forms of capital, class, and culture; technopolitics; the role of war in the constitution of states and classes; and practices and cultures of domination and resistance. Henry, Magda Kandil, Baghat Korany, Jodi Nachtwey, Augustus Richard Norton, and Mark Tessler.

The result is an insightful overview and analysis that both provides a wealth of information and encourages comparative, critical thinking by students at all levels.

Turkey's Relations with the Middle East Hüseyin İşıksal,Oğuzhan Göksel.2017-09-18 This volume examines contemporary political relations between Turkey and the Middle East. In the light of the Arab Uprisings of 2011, the Syria Crisis, the escalation of regional terrorism and the military coup attempt in Turkey, it illustrates the dramatic fluctuations in Turkish foreign policy towards key Middle Eastern countries, such as Iran, Saudi Arabia, Egypt, Syria and Iraq. The contributors analyze Turkey's deepening involvement in Middle Eastern regional affairs, also addressing issues such as terrorism, social and political movements and minority rights struggles. While these problems have traditionally been regarded as domestic matters, this book highlights their increasingly regional dimension and the implications for the foreign affairs of Turkey and countries in the Middle East.

INTRODUCTION TO THE MODERN MIDDLE EAST DAVID S. SORENSON.2019-06-14

Globalization and the Politics of Development in the Middle East Clement Moore Henry, Robert Springborg.2010-09-06 In this 2010 edition of their book on the economic development of the Middle East and North Africa, Clement Henry and Robert Springborg reflect on what has happened to the region's economy since 2001. How have the various countries in the Middle East responded to the challenges of globalization and to the rise of political Islam, and what changes, for better or for worse, have occurred? Utilizing the country categories they applied in the previous book and further elaborating the significance of the structural power of capital and Islamic finance, they demonstrate how over the past decade the monarchies (as exemplified by Jordan, Morocco and those of the Gulf Cooperation Council) and the conditional democracies (Israel, Turkey and Lebanon) continue to do better than the military dictatorships or 'bullies' (Egypt, Tunisia and now Iran) and 'the bunker states' (Algeria, Iraq, Libya, Sudan, Syria and Yemen).

Political and Social Thought in the Contemporary Middle East Kemal Karpat.1982-04-15 Why are so many adult children living still living with mum and dad? Why do young people seem so disinterested in politics? And what are the hidden threats to Britain's long-term prosperity lurking in the next few decades? First published in 2010, Ed Howker and Shiv Mailk's *Jilted Generation* answers fundamental questions about the society you thought you knew. It identified, for the first time, the perilous position of Britain's young adults and, with a title brandished by everyone from Ed Miliband to student protesters, the book's thesis has formed a controversial but essential part of Britain's political debate. With significant additional material, this edition updates the argument and explains the real effects of austerity policies and the recession. And, crucially, it explains what must be done to protect a vital and underestimated national asset - Britain's newest adults.

Bitter Legacy Paul Salem.1994-10-01 Ideology has been described as the single most powerful driving force in modern Arab politics. In this analysis, Salem examines the rise and fall of the main ideological currents in the Arab world and their effect on the region's politics. Using an engaging multidisciplinary approach, he analyzes the root psychological, political, and economic causes of ideological politics and studies the intellectual content of the principal movements, from Arab nationalist, to Islamic fundamentalism, Marxism, and various regional nationalisms. The picture he paints is of a political culture thirsty for grand illusions and millennial promises, but all too conscious of its disarray. Indeed, the empty husks of collapsed ideological movements are part and parcel of this region's all too bitter legacy. *Bitter Legacy's* fluid style and wide scope recommend it to all those interested in gaining deeper insights into the Middle East. Islamic movements in the Arab world. He uses a multidisciplinary approach and a breadth of theoretical work from the fields of sociology, social psychology, and political science. He also draws on primary Arabic sources, examining the main works of Sati al-Husri, Michel Aflaq, Sayyid Qutb, and Antoun Saadeh.

In addition, all of the chapters have been fully updated. Making the New Middle East Valerie J. Hoffman.2019-02-28 Demands for freedom, justice, and dignity have animated protests and revolutions across the Middle East in recent years, from the Iranian Green Movement and the Arab Spring uprisings to Turkey's March for Justice and the ongoing struggle in Palestine. Although expectations raised by the Arab Spring were largely disappointed and protests that toppled entrenched rulers unleashed vicious counterrevolutionary forces, there is no doubt that the landscape of the Middle East has changed. Drawing from diverse disciplines, this volume offers critical perspectives on these changes, covering politics, religion, gender dynamics, human rights, media, literature, and music. What ultimately has changed in "the new Middle East"? Who are the actors pushing the direction of change? How are aspirations for change being expressed through media and the arts? With extensive analysis and thoughtful reflection, this book gives readers an in-depth portrayal of a modernizing Middle East.

Religion and Politics in the Middle East Robert D. Lee.2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries: Egypt, Israel, Turkey, Iran, and Saudi Arabia. Robert D. Lee examines each country in terms of four domains in which state and religion necessarily interact: national identity, ideology, institutions, and political culture. In each domain he considers contradictory hypotheses, some of them asserting that religion is a positive force for political development and others identifying it as an obstacle. Among the questions the book confronts: Is secularization a necessary prerequisite for democratic development? How is it and why is it that religion and politics are so deeply entangled in these five countries? And, why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes? The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states. The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia. Earlier introductory analysis has been condensed to make room for new material, and chronologies at the end of each chapter have been added to help students understand the broader context. The second edition of *Religion and Politics in the Middle East* is a robust addition to courses on the Middle East.

Sectarianism in the Contemporary Middle East Simon Mabon, Lucia Ardovini.2018-02-02 In recent years, the term sectarianism has been widely used to explain contemporary affairs across the Middle East and North Africa. A range of assumptions about the nature of sectarianism have become prevalent amongst scholars and policy makers who engage with these areas, in part driven by the rivalry between Saudi Arabia and Iran (the two dominant Sunni and Shi'a states) and the emergence of ISIS. Despite its prevalence, few scholars have engaged critically with the meaning of the term and its application across the Middle East. Whilst many associate sectarianism with Islam, *Sectarianism in the Contemporary Middle East* interrogates the political, economic and security factors surrounding the term within both Islam and Judaism, leading to a better understanding of the contemporary politics of the Middle East. This book was originally published as a special issue of *Global Discourse*.

The Politics of Race and Racialisation in the Middle East Burcu Ozcelik. 2022-06-08 This book explores the extent to which race and racialisation offer us an explanatory framework to study the contemporary politics of identity in the Middle East today. Most studies of the Middle East commonly presume that the race signifier is reserved for the juxtaposition of 'Black' and 'White' identity to which the Arab, Persian and Turkish world counts itself as exterior. Up until now, few works on the Middle East have discussed race as central to their analysis. This book works to remedy this shortcoming by extending the critical scholarship on race and racial subordination to the region's states and societies. Crucially, how does race interact with and confront other categories of identity, such as gender, religion, sect and nationality? What can a consideration of racialisation reveal about structures of oppression in the Middle East and evolving forms of belonging and dispossession? Adopting race as the focus of enquiry allows us to unpack what we are really talking about when we talk about difference in the region: the reproduction and resilience of power and the insidious, harmful mutations of identity-based discrimination in unequal societies. The Politics of Race and Racialisation in the Middle East is a significant new contribution to racial and ethnic studies, and will be a great resource for academics, researchers, and advanced students of sociology, politics, history, social anthropology, political and cultural geography. The chapters in this book were originally published as a special issue of Ethnic and Racial Studies.

Political and Social Thought in the Contemporary Middle East Kemal H. Karpat. 1982

International Relations of the Contemporary Middle East Tareq Y. Ismael. 1986-10-01 The Middle East, a few decades ago, was seen to be an autonomous subsystem of the global international political system. More recently, the region has been subordinated to the hegemony of a singular superpower, the US, bolstered by an alliance with Israel and a network of Arab client states. The subordination of the contemporary Middle East has resulted in large part from the disappearance of countervailing forces, for example, global bipolarity, that for a while allowed the Arab world in particular to exercise a modicum of flexibility in shaping its international relations. The aspirations of the indigenous population of the Middle East have been stifled by the dynamics of the unequal global power relationships, and domestic politics of the countries of the region are regularly subordinated to the prerogatives of international markets and the strategic competition of the great powers. Employing the concept of imperialism, defined as a pattern of alliances between a center (rulers) in the Center (developed) country and a center (client regime) in the Periphery (underdeveloped country) - as an overall framework to analyse the subordination of the region, this book is essential reading for students and scholars of the Middle East, International Relations, and Politics in general.

Government and Politics of the Middle East and North Africa Sean Yom. 2019-10-30 The latest edition of this renowned textbook explores the states and regimes of the Middle East and North Africa. The volume can be used in conjunction with its sister volume, *The Societies of the Middle East and North Africa*, for a comprehensive overview of the region. Chapters are organized and structured identically, giving insightful windows into the nuances of each country's domestic politics and foreign relations. Data tables and extensive annotated bibliographies orient readers towards further research. Whether used in conjunction with its sister volume or on its own, this book provides the most comprehensive and detailed overview of the region's varied politics. Five new experts cover the critical country cases of Turkey, Lebanon, Jordan, Saudi Arabia, and Iran. All chapters cover the latest events, including trends that have remarkably changed in just a few years like the gradual end of the Syrian civil war. As such, this textbook is invaluable to students of Middle Eastern politics. The ninth edition brings substantial changes. All chapters also have a uniform, streamlined structure that explores the historical context, social and economic environment, political institutions, regime dynamics, and foreign policy of each country. Fact boxes and political maps are now far more extensive, and photographs and images also help illustrate key points. Annotated bibliographies are vastly expanded, providing nothing short of the best list of research references for each country.

Major political issues affecting the Middle East are then explored in full. These include political economy, conflict, political Islam, gender, the regional democracy deficit, and ethnicity and minorities. The book also examines the role of key foreign actors, such as the USA, Russia and the EU, and concludes with an in-depth analysis of the Arab uprisings and their impact in an era of uncertainty.

Armies and State-building in the Modern Middle East Stephanie Cronin. 2013-12-06 The uprisings of 2011, which erupted so unexpectedly and spread across the Middle East, once again propelled the armies of the region to the centre of the political stage. Throughout the region, the experience of the first decade of the twenty-first century provides ample reason to re-examine Middle Eastern armies and the historical context which produced them. By adding an historical understanding to a contemporary political analysis, Stephanie Cronin examines the structures and activities of Middle Eastern armies and their role in state- and empire-building. Focusing on Iran, Afghanistan and Saudi Arabia, *Armies, Tribes and States in the Middle East* presents a clear and concise analysis of the nature of armies and the differing guises military reform has taken throughout the region. Covering the region from the birth of modern armies there in the late-nineteenth and early-twentieth centuries, to the military revolutions of the 1950s and 60s and on to the twenty-first century army-building exercises seen in Iraq and Afghanistan, Cronin provides a unique and vital presentation of the role of the military in the modern Middle East.

Islam and Politics in the Modern Middle East (RLE Politics of Islam) Metin Heper, Raphael Israeli. 2014-04-11 The recent resurgence of Islam in the Middle East is a far more complex phenomenon than is often suggested by those analyses which reduce recent developments in the area to no more than an intensification of religiosity. *Islam and Politics in the Modern Middle East* challenges that perception of the contemporary Middle East. It explores the nature of the Islamic revival and attempts to establish the original impulse behind particular instances of Islamic resurgence. It also examines the degree to which religious institutions have served as a mechanism for expressing secular demands and frustrations and investigates to what extent politics is a functional alternative to religion. First published in 1984.
