and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives, strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students.

Global Trends 2040 National Intelligence Council.2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Way We Really Are Stephanie Coontz.2008-08-06 Stephanie Coontz, the author of The Way We Never Were, now turns her attention to the mythology that surrounds today's family—the demonizing of “untraditional” family forms and marriage and parenting issues. She argues that while it's not crazy to miss the more hopeful economic trends of the 1950s and 1960s, few would want to go back to the gender roles and race relations of those

years. Mothers are going to remain in the workforce, family diversity is here to stay, and the nuclear family can no longer handle all the responsibilities of elder care and childrearing. Coontz gives a balanced account of how these changes affect families, both positively and negatively, but she rejects the notion that the new diversity is a sentence of doom. Every family has distinctive resources and special vulnerabilities, and there are ways to help each one build on its strengths and minimize its weaknesses. The book provides a meticulously researched, balanced account showing why a historically informed perspective on family life can be as much help to people in sorting through family issues as going into therapy—and much more help than listening to today’s political debates.

most effective, skills development should be accessible and placed just where it is needed. Fabric of a Nation delivers a thorough, yet approachable historical narrative that perfectly aligns with all the essential content of the AP® course. An up-to-date historical survey based on current scholarship, this book is also easy to understand and fun to read, with plenty of interesting details and a crisp writing style that keeps things fresh. Perfectly Aligned to the AP® Scope and Sequence Fabric of a Nation has an easy-to-use organization that fully aligns with the College Board’s Course and Exam Description for AP® U.S. History. Instead of long, meandering chapters, this book is divided into smaller, approachable modules that pull together content, skills, sources, and AP® Exam practice into brief 1- to 2-day lessons. Each module corresponds with a specific unit topic in the course framework, including the contextualization and reasoning process topics that bookend each time period. This approach takes the guesswork out of when to introduce which skills and how to blend sources with content—all at a manageable pace that mirrors the scope and sequence of the AP® course framework. Seamlessly Integrated AP® Skill Workshops for Thinking and Writing Skills Inspired by the authors’ classroom experience and sound pedagogical principles, the instruction in Fabric of a Nation scaffolds learning throughout the course of the book. Every module offers an opportunity to either learn or practice new skills to prepare for each section of the AP® Exam in an AP® Skills Workshop. As the book progresses, the nature of these workshops moves from focused instruction early on, to guided practice in the middle of the book, and then finally, to independent practice near the end of the year. Fabric of a Nation was designed to provide you and your students everything needed to succeed in the AP® US History course and on the exam. It’s all there. AP® Exam

Each textbook module can be used with the corresponding AP® Daily Videos and Topic Questions while the AP® Exam Practice at the end of each period can be supplemented with the Personal Progress Checks from AP® Classroom.

You Deserve It Brian Reese.2023-04-11 You SERVED. You DESERVE. Brian Reese was good at masking his PTSD, bipolar disorder, depression, and anxiety. He even told himself he did not deserve benefits, which he later discovered was complete bullshit. As an air force officer deployed to Afghanistan, he embodied the motto of service before self. Unfortunately, like many veterans, his service came at his own expense, and abusing alcohol and drugs to cope with mental health issues nearly ended his life. But by the grace of God and the power of pure vulnerability, Brian began a transformational journey of overcoming social stigmas and persevering through adversity. This journey has become a global movement of Veterans Helping Veterans Worldwide(TM). In You Deserve It, Brian provides veterans with a step-by-step blueprint to help them obtain virtually unknown federal and state benefits. With years of personal experience and more than ten thousand hours devoted to helping veterans get the benefits they're entitled to, Brian provides readers with the unparalleled insight and expertise that forms the foundation of his SEM Method. Whether you served thirty days or thirty years, this book will educate and inspire you to reap the rewards for your honorable service to our country.

Contaminated Water Supplies at Camp Lejeune National Research Council, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Committee on Contaminated Drinking Water at Camp Lejeune. 2009-09-06 In the early 1980s, two water-supply systems on the Marine Corps Base Camp Lejeune in North Carolina were found to be contaminated with the industrial solvents trichloroethylene (TCE) and perchloroethylene (PCE). The water systems were supplied by the Tarawa Terrace and Hadnot Point watertreatment plants, which served enlisted-family housing, barracks for unmarried service personnel, base administrative offices, schools, and recreational areas. The Hadnot Point water system also served the base hospital and an industrial area and supplied water to housing on the Holcomb Boulevard water system (full-time until 1972 and periodically thereafter). This book examines what is known about the contamination of the water supplies at Camp Lejeune and whether the contamination can be linked to any adverse health outcomes in former residents and workers at the base.

Hollywood or History? Sarah J. Kaka. 2022-01-01 The rationale for the present text, *Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History* stems from two main things. First and foremost is the fact that the reviews of the first two volumes in the *Hollywood or History?* series have been overwhelmingly positive, especially as it pertains to the application of the strategy for practitioners. Classroom utility and teacher practice have continued to be the primary objectives in developing the *Hollywood or History?* strategy. The second thing is that this most recent volume in the series takes it in a new direction--rather than focusing on eras in history, it focuses on the themes of

inequity and inequality throughout history, and how teachers can utilize the Hollywood or History? strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from. There is a firm belief that students' connection to film, along with teachers' ability to use film in an effective manner, will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender, race, socioeconomic status, and so much more. The book provides 30 secondary lesson plans (grades 6-12) that address nine different topics centered around inequity and inequality throughout history, many of which connect students to the world we are living in today. The intended audience for the book are teachers who teach social studies at the 6th-12th grade level both in the United States and other countries. An additional audience will be college and university social studies/history methods professors in the United States and worldwide.

curricular frameworks in the United States. While United States history tends to dominate the scholarship and conversation, there are an equally wide number of middle-level and secondary students and teachers engaged in the study of world history in our public schools. And the challenges are real. In the first place, if we are to mark content coverage as a curricular obstacle in the history classroom, generally, then we must underscore that concern in the world history classroom and for obvious reasons. The curricular terrain to choose from is immense and forever expanding, dealing with the development of numerous civilizations over millennia and across a wide geographic expanse. In addition to curricular concerns, world historical topics are inherently farther away from most students' lives, not just temporally, but often geographically and culturally. Thus the rationale for the present text, *Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach World History*. The reviews of the first volume *Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach United States History* strategy have been overwhelmingly positive, especially as it pertains to the application of the strategy for practitioner. Classroom utility and teacher practice have remained our primary objectives in developing the *Hollywood or History?* strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history. We believe that students' connection to film, along with teachers' ability to use film in an effective manner, will help alleviate some of the challenges of teaching world history. The book provides 30 secondary lesson plans (grades 6-12) that address nine eras in world history.

We've Been Here All Along provides an illuminating and nuanced picture of Wisconsin's gay history from the reporting on the Oscar Wilde trials of 1895 to the landmark Stonewall Riots of 1969. Throughout these decades, gay Wisconsinites developed identities, created support networks, and found ways to thrive in their communities despite various forms of suppression—from the anti-vice crusades of the early twentieth century to the post-war labeling of homosexuality as an illness to the Lavender Scare of the 1950s. In *We've Been Here All Along*, R. Richard Wagner draws on historical research and materials from his own extensive archive to uncover previously hidden stories of gay Wisconsinites. This book honors their legacy and confirms that they have been foundational to the development and evolution of the state since its earliest days
