Letting Everything Become Your Teacher Jon Kabat-Zinn.2010-06-30 Yes, there actually is a way to let everything become your teacher, to let life itself, and everything that unfolds within it, the “full catastrophe” of the human condition in the words of Zorba the Greek, shape your ongoing development and maturation. Millions have followed this path to greater sanity, balance, and well-being, often in the face of huge stress, pain, uncertainty, sorrow, and illness. In his landmark book, *Full Catastrophe Living*, Jon Kabat-Zinn shared this innovative approach, known as mindfulness-based stress reduction (MBSR), with the world. Now, in this companion volume, 100 pointers from that groundbreaking work have been carefully selected to inspire you to embrace what is deepest and best and most beautiful in yourself. Whether you are trying to learn patience, cope with pain, deal with the enormous stress and challenges of the age we live in, improve your relationships, or free yourself from destructive emotions, thoughts, and behaviors, these deceptively simple meditations will remind you that you have deep inner resources to draw upon, the most important of which is the present moment itself. Regardless of your age or whether you are familiar with the healing power of mindfulness, this insightful, inspirational guide will help you to honor, embrace, learn from, and grow into each moment of your life.

Country Without Parents Andrea Diefenbach.2013 Andrea Diefenbach describes in her series Land Ohne Eltern (Country Without Parents) the life choices faced by migrant workers from the republic of Moldova, one of the poorest countries in Europe. In her photographs, the distance between the two utterly different worlds of the children left at home and the parents working in far-off lands become almost painfully tangible.

The Colombo Bay Richard Pollak.2013-09-10 In the face of killer storms, fires, piracy, and terrorism, container ships the length of city blocks and more than a dozen stories high carry 90 percent of the worlds trade. This is an account of one ship's voyage and of the sailors who daily risk their lives to deliver six million containers a year to United States ports alone. Inside these twenty-foot and forty-foot steel boxes are the thousands of imports -- from chinos and Game Boys to garlic and frozen shrimp -- without which North America's consumer society would collapse. To explore this little-known and dangerous universe of modern seafaring, Richard Pollak joined the Colombo Bay in Hong Kong and over the next five weeks sailed with her and her 3,500 containers across the South China Sea, the Indian Ocean, the Mediterranean, and the Atlantic. En route, this mammoth vessel called at Singapore and Colombo, passed through the Suez Canal (toll: \$250,000), then put in at Malta and Halifax before tangling with Hurricane Karen on the two-day run to New York. Here is the story of the ship's unheralded twenty-four-man company; of the unflappable British captain, Peter Davies, a veteran of four decades at sea; of Federico Castrojas, who like the rest of the hard-working Filipino crew must daily confront the loneliness of being away from his family for nine

months at a stretch; of Simon Westall, the twenty-one-year-old third mate, who reveals what it is like to be gay in the broad-shouldered world of the merchant service. It is a world where pirates in the Malacca Strait sneak up behind ships at night in fast power boats, then clamber aboard and either rob the unarmed sailors at gunpoint and escape into the dark or throw the crew into the sea and hijack the ship, plundering her cargo and sometimes repainting her and setting out to do business under another name and flag. It is a world where families desperate to get to the United States or Europe pay thousands of dollars to the Chinese Snakeheads and other criminal gangs, who secrete these wretched migrants in stifling containers; after a week or more at sea these stowaways arrive in the Promised Land either starving or dead. Pollak sailed on September 13, 2001, into a changed world, on one of 7,000 container ships whose millions of uninspected boxes suddenly had become potential Trojan horses in which terrorists could transport weapons of mass destruction into the heart of the United States. Throughout his riveting narrative, Pollak interweaves the insights of Herman Melville and Joseph Conrad, whose masterful portrayals of seafaring make the voyage of the Colombo Bay a dramatic reminder of what a hard and rarely reported life merchant seamen have always led out on the unhooped oceans of this planet.

A Nation of Provincials Celia Applegate. 2022-08-19 At the center of this pioneering work in modern European history is the German word *Heimat*—the homeland, the local place. Translations barely penetrate the meaning of the word, which has provided the emotional and ideological common ground for a variety of associations and individuals devoted to the cause of local preservation. Celia Applegate examines at both the national and regional levels the cultural meaning of *Heimat* and why it may be pivotal to the troubled and very timely question of German identity. The ideas and activities clustered around *Heimat* shed new light particularly on problems of

modernization. Instead of viewing the Germans as a dangerously anti-modern people, Applegate argues that they used the cultivation of Heimat to ground an abstract nationalism in their attachment to familiar places and to reconcile the modern industrial and urban world with the rural landscapes and customs they admired. Primarily a characteristic of the middle classes, love of Heimat constituted an alternative vision of German unity to the familiar aggressive, militaristic one. The Heimat vision of Germany emphasized cultural diversity and defined German identity by its internal members rather than its external enemies. Applegate asks that we re-examine the continuities of German history from the perspective of the local places that made up Germany, rather than from that of prominent intellectuals or national policymakers. The local patriotism of Heimat activists emerges as an element of German culture that persisted across the great divides of 1918, 1933, and 1945. She also suggests that this attachment to a particular place is a feature of Europeans in general and is deserving of further attention. Historical Mechanisms Andreas Boldt. 2017-03-16 Historical Mechanisms argues that scientific method can provide key new insights about events that took place long ago. Taking a fresh approach to historical method and theory, this book contends that there is enough data to show that under certain circumstances societies have behaved, and will continue to behave, in similar ways throughout history. In this book, Andreas D. Boldt discusses the possibility of utilizing natural scientific theories in order to explain historical processes, focusing on the question of how nations

and empires rise, succeed, fail and then assume another form in which they begin the cycle again. Scientific methods are utilized metaphorically as a means of establishing connections between events and trends throughout history, and this book argues that these methods can explain historical patterns such as chaos and stability, the relationship between power centres and power vacuums, the necessary conditions for the expansion of empires and the influence of natural and man-made borders. Exploring the ways in which concepts from science can be employed to shed new light on the analysis of historical data, *Historical Mechanisms* is valuable reading for all scholars of the theory and method of history.

Society of Singularities Andreas Reckwitz.2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of

the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today.

The Hottentot Venus Rachel Holmes. 2016-05-19 The acclaimed biography of Sarah Baartman, once a slave and later a showgirl 'A significant and timely book ... Holmes has produced a laceratingly powerful story' Frances Wilson, *Literary Review* 'Impeccable ... In telling her extraordinary story, Holmes's fascinating book illuminates the forces which dominated her age, and resound in our own' *Sunday Telegraph* In 1810 the slave turned showgirl Sarah Baartman, London's most famous curiosity, became its legal cause célèbre. Famed for her exquisite physique - in particular her shapely bottom - she was stared at, stripped, pinched, painted, worshipped and ridiculed. This talented, tragic young South African woman became a symbol of exploitation, colonialism - and defiance. In this scintillating and vividly written book Rachel Holmes traces the full arc of Baartman's extraordinary life for the first time.

The System Ryan Gattis.2020-12-08 “Gripping, meticulously researched, and smartly plotted, I devoured this brilliant novel over the course of a weekend.” —Paula Hawkins, author of *Into the Water* “Fascinating, moving, and so very, very real. It grabbed me by the heart and mind from page one and never let me go.” —Marcia Clark, author of *The Final Judgment* An electrifying, multi-voiced thriller tackling our criminal justice system, from the writer Michael Connelly has called “one of our most gifted novelists.” On December 6, 1993, a drug dealer called Scrappy is shot and left for dead on the lawn outside her mother’s house in South Central Los Angeles. Augie, a heroin addict, witnesses the whole thing—before he steals all the drugs on her person, as well as the gun that was dropped at the scene. When Augie gets busted, he names local gang members Wizard and Dreamer the shooters. But only one of them is guilty. A search of Wizard and Dreamer’s premises uncovers the gun that was used in the shooting, and a warrant goes out for their arrest. They know it’s a frame-up, but the word from the gang is to keep their mouths shut and face the charges. With these two off the streets and headed for jail, Dreamer’s friend Little, the unlikeliest of new gang members, is given one job: discover how the gun got moved, and why. Played out in the streets, precincts, jails, and courtrooms of Los Angeles, Ryan Gattis's *The System* is the harrowing story of a crime—from moments before the bullets are fired, to the verdict and its violent aftershocks—told through the vivid chorus of those involved, guilty, the innocent, and everyone in between.

After Europe Ivan Krastev.2020-01-10 In this provocative book, renowned public intellectual Ivan Krastev reflects on the future of the European Union—and its potential lack of a future. With far-right nationalist parties on the rise across the continent and the United Kingdom planning for Brexit,

the European Union is in disarray and plagued by doubts as never before. Krastev includes chapters devoted to Europe's major problems (especially the political destabilization sparked by the more than 1.3 million migrants from the Middle East, North Africa, and South Asia), the spread of right-wing populism (taking into account the election of Donald Trump in the United States), and the thorny issues facing member states on the eastern flank of the EU (including the threat posed by Vladimir Putin's Russia). In a new afterword written in the wake of the 2019 EU parliamentary elections, Krastev concludes that although the union is as fragile as ever, its chances of enduring are much better than they were just a few years ago.

Down Girl Kate Manne. 2018 Down Girl is a broad, original, and far ranging analysis of what misogyny really is, how it works, its purpose, and how to fight it. The philosopher Kate Manne

argues that modern society's failure to recognize women's full humanity and autonomy is not actually the problem. She argues instead that it is women's manifestations of human capacities -- autonomy, agency, political engagement -- is what engenders misogynist hostility.

Nature in German History Christof Mauch. 2004-10-01 Published in Association with the German Historical Institute, Washington, D.C. Germany is a key test case for the burgeoning field of

environmental history; in no other country has the landscape been so thoroughly politicized throughout its past as in Germany, and in no other country have ideas of 'nature' figured so centrally in notions of national identity. The essays collected in this volume — the first collection on the subject in either English or German — place discussions of nature and the human relationship with nature in their political contexts. Taken together, they trace the gradual shift from a confident belief in humanity's ability to tame and manipulate the natural realm to the Umweltbewußtsein driving the contemporary conservation movement. Nature in German History also documents efforts to reshape the natural realm in keeping with ideological beliefs — such as the Romantic exultation of 'the wild' and the Nazis' attempts to eliminate 'foreign' flora and fauna — as well as the ways in which political issues have repeatedly been transformed into discussions of the environment in Germany.

Displacements Angelika Bammer. 1994-12-22 Cultural displacement -- physical dislocation from one's native culture or the colonizing imposition of a foreign culture -- is one of the most formative experiences of our century. These essays examine the impact of this experience on contemporary notions of cultural identity from the perspectives of anthropology, history, philosophy, literature, and psychology.

Fear is the expression of a society on unstable foundations. Most of us feel that our social status is under threat and our future prospects in jeopardy. We are overwhelmed by a sense of having been catapulted into a world to which we no longer belong. Tracing this experience of fear, Heinz Bude uncovers a society marked by disturbing uncertainty, suppressed anger and quiet resentment. This is as true in our close relationships as it is in the world of work, in how we react to politicians as much as in our attitudes towards bankers and others in the financial sector. Bude shows how this fear is not derived so much from a 'powerful other' but rather from the seemingly endless range of possibilities which we face. While this may seem to offer us greater autonomy and freedom, in reality the unknown impact and

meaning of each option creates a vacuum which is filled by fear. What conditions lead people to feel anxious and fearful for themselves and others? How can individuals withstand fear and develop ways of making their fears intelligible? Probing these and other questions, Bude provides a fresh analysis of some of the most fundamental features of our societies today.

The authors of this volume come from various language departments and institutional experience from across the U. S., including private and public postsecondary foreign language teachers, researchers and administrators. The chapters

address issues and provide templates for curricular change at all learning levels. The five sections of this book explore: Changing Perceptions about Foreign Language Learning; The Case for a Multi-literacy FL Curriculum in Concept and Assessment Praxis; Curricular Transformations: Historical Hurdles and Faculty Heuristics; Rethinking the Graduate Curriculum; Foreign Languages' Integration into the Interdisciplinary University. "This thought-provoking and timely volume addresses the question of how historic and current disciplinary, institutional and political conditions affect curricular transformation in collegiate foreign language programs. Responding to the issues raised in the 2007 MLA Report, this collection of nine essays presents a diversity of curricular models and approaches from different theoretical perspectives focusing on the integration of language and content. The book will undoubtedly be of great interest to a broad audience, such as foreign language educators, curriculum designers, administrators, graduate students and researchers." Couchsurfing in Iran Stephan Orth. 2018-05-01 Included in the 2018 summer reading list by New York Times Books A modern-day glimpse into the surprising reality of life in Iran. Iran: A destination that is seldom seen by westerners yet often misunderstood. A country that simultaneously "enchants and enrages" those who visit it. A place where leading a double life has become the norm. In Couchsurfing in Iran, award-winning author Stephan Orth spends sixty-two days on the road in this mysterious Islamic republic to provide a revealing, behind-the-scenes look at life in one of the world's most closed societies. Through the unsurpassed hospitality of twenty-two hosts, he skips the guidebooks and tourist attractions and travels from Persian carpet to bed to cot, covering more than 8,400 kilometers to recount "this world's hidden doings." Experiencing daily what he calls the "two Irans" that coexist side by side—the "theocracy, where people mourn their martyrs" in mausoleums,

and the “hide-and-seek-ocracy, where people hold secret parties and seek worldly thrills instead of spiritual bliss”—he learns that Iranians have become experts in navigating around their country’s strict laws. Though couchsurfing is officially prohibited in Iran—the state fears spies would be able to travel undetected through the country—more than a hundred thousand Iranians are registered with online couchsurfing portals. And thanks to these hospitable, English-speaking strangers, Orth gets up close and personal with locals, peering behind closed doors and blank windows to uncover the inner workings of a country where public show and private reality are strikingly opposed.

Leonora in the Morning Light Michaela Carter.2022-04-05 *One of Oprah Daily’s Most Anticipated Historical Fiction Novels That Will Sweep You Away* “Michaela Carter’s training as a poet and painter shines through from the first page of this vivid, gorgeous novel based on the lives of Leonora Carrington and Max Ernst. female artist.” —Whitney Scharer, bestselling author of *The Age of Light* For fans of Amy Bloom’s *White Houses* and Colm Tóibín’s *The Master*, a “gorgeously written, meticulously researched” (Jillian Cantor, bestselling author of *Half Life*) novel about Surrealist artist Leonora Carrington and the art, drama, and romance that defined her coming-of-age during World War II. 1940. A train carrying exiled German prisoners from a labor camp arrives in southern France. Within moments, word spreads that Nazi capture is imminent, and the men flee for the woods, desperate to disappear across the Spanish border. One stays behind, determined to ride the train until he reaches home, to find a woman he refers to simply as “her.” 1937. Leonora Carrington is a twenty-year-old British socialite and painter when she meets Max Ernst, an older, married artist whose work has captivated Europe. She follows him to Paris, into the vibrant world of studios and cafes where rising visionaries of the Surrealist movement like Andre Breton, Pablo Picasso, Lee Miller, Man Ray, and Salvador Dali are challenging conventional approaches to art and life. Inspired by their freedom, Leonora begins to experiment with her own work, translating vivid stories of her youth onto canvas and gaining recognition under her own name. It is a bright and glorious age of enlightenment—until war looms over Europe and headlines emerge denouncing Max and his circle as “degenerates,” leading to his arrest and imprisonment. Left along as occupation spreads throughout the countryside, Leonora battles terrifying circumstances to survive, reawakening past demons that threaten to consume her. As Leonora and Max embark on remarkable journeys together and apart, the full story of their tumultuous and passionate love affair unfolds, spanning time and borders as they seek to reunite and reclaim their creative power in a world shattered by war. When their paths cross with Peggy Guggenheim, an art collector and socialite working to help artists escape to America, nothing will be the same. Based on true events and historical figures, *Leonora in the Morning Light* is “a deeply

involving historical tale of tragic lost love, determined survival, the sanctuary of art, and the evolution of a muse into an artist of powerfully provocative feminist expression” (Booklist, starred review).

Imagining the Nation in Nature Thomas M. LEKAN, Thomas M Lekan.2009-06-30 One of the most powerful nationalist ideas in modern Europe is the assertion that there is a link between people and their landscape. Focusing on the heart of German romanticism, the Rhineland, Thomas Lekan

examines nature protection activities from Wilhelmine Germany through the end of the Nazi era to illuminate the relationship between environmental reform and the cultural construction of national identity. In the late nineteenth century, anxieties about national character infused ecological concerns about industrialization, spurring landscape preservationists to protect the natural environment. In the Rhineland's scenic rivers, forests, and natural landmarks, they saw Germany as a timeless and organic nation rather than a recently patchworked political construct. Landscape preservation also served conservative social ends during a period of rapid modernization, as outdoor pursuits were promoted to redirect class-conscious factory workers and unruly youth from crass materialism to the German homeland. Lekan's examination of Nazi environmental policy challenges recent work on the green Nazis by showing that the Third Reich systematically subordinated environmental concerns to war mobilization and racial hygiene. This book is an original contribution not only to studies of national identity in modern Germany but also to the growing field of European environmental history. Table of Contents: Introduction 1. Nature's Homelands: The Origins of Landscape Preservation, 1885-1914 2. The Militarization of Nature and Heimat, 1914-1923 3. The Landscape of Modernity in the Weimar Era 4. From Landscape to Lebensraum: Race and Environment under Nazism 5. Constructing Nature in the Third Reich Conclusion Abbreviations Notes Sources Acknowledgments Index Writing squarely within the idiom of the 'invented tradition' and the 'imagined nation,' Thomas Lekan argues that in the wake of belated unification and at a time of rapid industrialization, the German landscape came to be seen as a touchstone of national identity. He questions the idea that those engaged in landscape preservation were simply 'antimodern,' and he challenges both scholars who have seen a straightforward continuity from pre-1933 preservationist sentiment to Nazism and those who have made exaggerated claims for the

Third Reich as the progenitor of modern green politics. This is a welcome contribution to the literature on local and national identity, joining works by Celia Applegate and Alon Confino, and on the environmental history of modern Germany. Both scholarly and original, *Imagining the Nation in Nature* is an impressive achievement. --David Blackbourn, Harvard University This important and timely book contributes to our understanding of German identity as well as to modern concepts of environmentalism and nature. Lekan's valuable contribution elucidates the modern, technocratic, and therapeutic vision of preservation that linked Weimar and the Third Reich. His analysis of Nazi bio-nature is significant and thought-provoking. --Alon Confino, University of Virginia
