**Animation in Europe** Rolf Giesen.2022-08-24 There is a lot one could say about animation in Europe, but above all, there is no consistent European animation. It is as disparate as the various countries involved. Audiences will certainly recognize American or Japanese animation, but in Europe, it can range from Czech, Polish, and Hungarian to Greek, Italian, Spanish, Portuguese, French, and British. Animation in Europe provides a comprehensive review of the history and current situation of animation in over 20 European countries. It features numerous interviews with artists and producers, including rare documents and firsthand accounts that illustrate the rich history of animation in Europe. Additional features include • An extensive chronology with key events in European animation • A Who's Who of producers, directors, writers, and animators working in Europe • An examination of the origin of European animation and its influence Animation in Europe is the first book devoted entirely to this topic and, therefore, will be of value for animation buffs as well as practitioners and researchers.

**Directions for Pedagogical Construction Grammar** Hans C. Boas.2022-02-21 How can insights from Construction Grammar (CxG) be applied to foreign language learning (FLL) and foreign language teaching (FLT)? This volume explores several aspects of Pedagogical Construction Grammar, with a specific look at issues relevant to second language acquisition, FLL, and FLT. The contributions in this volume discuss a wide range of constructions, as well as different resources, methodologies, and data used to learn constructions in the language classroom. More specifically, they seek to provide answers to the following questions: What do new constructional approaches to teaching and learning foreign language look like that take the insights of CxG seriously? What should electronic resources using constructions and semantic frames for foreign language instruction look like? How should constructions (pairings of form with meaning/function) in the foreign language classroom be introduced? What role does frequency play in learning constructions in the language classroom? What types of strategies does CxG offer to facilitate the acquisition of a second language? This volume is relevant for anyone interested in second language acquisition, foreign language pedagogy, Construction Grammar, and Cognitive Linguistics. Endorsements: If first language learning flows forth from language use, teaching language should be based on relevant usage-patterns, modified in accordance with the advanced cognitive and linguistic knowledge of older learners. The current volume shows how insights from first and second language learning and usage-based Construction Grammar can be turned into evidence-based teaching strategies. Heike Behrens, University of Basel Usage-based Construction Grammar has changed our view of language learning, but it is only recently that researchers have begun to apply the insights of the constructionist approach to language pedagogy. This volume brings together a collection of articles in which experts of Construction Grammar and Usage-based Linguistics make concrete proposals for teaching constructions by using corpora and other resources. A must read for everybody interested in grammar teaching. Holger Diessel, University of Jena With Directions for Pedagogical Construction Grammar, Boas has produced an impressive and much-needed volume which excels at illustrating the immense potential of constructionist approaches to improve language pedagogy. The contributions to this volume, all authored by leading cognitive and corpus linguists, convincingly describe what a successful future of language teaching could look like—one that is founded in usage-based linguistics and takes language patterns seriously. I consider this volume essential reading for any applied linguist. Ute Römer, Georgia State University

**Le Crabe aux pinces d'or** Hergé.1941-01-01 Le Crabe aux pinces d'or (1941) renoue avec l'aventure exotique. Celle-ci mène Tintin en Afrique du Nord. Il y déjoue les plans d'une bande de malfaiteurs qui dissimulaient de l'opium dans des boîtes de crabe. Avec l'apparition du Capitaine Haddock, nous découvrons un nouvel art de s'exprimer qui ne manque pas de piment et de sonorité. Parmi eux, l'un des plus inattendus est à coup sûr végétarien.

Pour la première fois et non la dernière, Tintin s'oppose au fourbe Docteur Müller. Ce dernier a organisé, à l'échelle européenne, un vaste trafic de fausse monnaie. **Tintin and Alph-Art** Hergé and Rodier.2019-01-26 This book is a pastiche by Y. Rodier, in homage to Hergé's last album.The twenty-fourth adventure of Tintin, 'Tintin and Alph-Art', was left unfinished at the time of Hergé's death on the 3rd of March, 1983. Since then, several artists have tried their hand at finishing this ultimate adventure of Tintin. Presented here is the version drawn by Yves Rodier, a Canadian artist, in an English translation by Richard Wainman. The intention, when creating this translation, was to remain as faithful to the original as possible, and therefore, new place names and character names have not been anglicised. This practice, which was carried out by the English translators, Leslie Lonsdale-Cooper and Michael Turner for the books in the established canon, has not been used here.

*Hergé, Son of Tintin* Benoit Peeters.2012 Author of the critically acclaimed *Tintin and the World of Hergé* and the last person to interview Remi, Benoit Peeters tells the complete story behind Hergé's origins and shows how and why the nom de plume grew into a larger-than-Remi personality as Tintin's popularity exploded. Drawing on interviews and using recently uncovered primary sources for the first time, Peeters reveals Remi as a neurotic man who sought to escape the troubles of his past by allowing Hergé's identity to subsume his own. As Tintin adventured, Hergé lived out a romanticized version of life for Remi.--Jacket.

*Postcolonialism and Migration in French Comics* Mark McKinney.2021-01-14 Profound analysis of French comics through a postcolonial lens Postcolonialism and migration are major themes in contemporary French comics and have roots in the Algerian War (1954–62), antiracist struggle, and mass migration to France. This volume studies comics from the end of the formal dismantling of French colonial empire in 1962 up to the present. French cartoonists of ethnic-minority and immigrant heritage are a major focus, including Zeina Abirached (Lebanon), Yvan Alagbé (Benin), Baru (Italy), Enki Bilal (former Yugoslavia), Farid Boudjellal (Algeria and Armenia), José Jover (Spain), Larbi Mechkour (Algeria), and Roland Monpierre (Guadeloupe). The author analyzes comics representing a gamut of perspectives on immigration and postcolonial ethnic minorities, ranging from staunch defense to violent rejection. Individual chapters are dedicated to specific artists, artistic collectives, comics, or themes, including avant-gardism, undocumented migrants in comics, and racism in far-right comics.

*The Clear Line in Comics and Cinema* David Pinho Barros.2022-06-30 Historical and theoretical analysis of the "clear line" style in comics and cinema The "clear line", a term coined in 1977 by Dutch essayist and artist Joost Swarte, has become shorthand in the field of comics studies for the style originally developed by Hergé and the École de Bruxelles. It refers to certain storytelling strategies that generate a deceptively simple, lucid, and hygienic narration: in Philippe Marion's words, it is a style "made out of light, fluidity and limpid clarity". By cataloguing and critically analysing clear line comics from historical and theoretical perspectives, this book offers a new outlook on the development of the style in the 20th and 21st centuries, especially focused on the context of the European bande dessinée. In addition, it pioneeringly expands the concept of "clear line" to other artistic domains by introducing and defending its transmedial use, which is particularly relevant for the understanding of the oeuvres of certain filmmakers of the 20th century working in the postwar period, such as Yasujiro Ozu in Japan, Jacques Tati in France and Frank Tashlin in the United States. The Clear Line in Comics and Cinema is therefore a key theoretical work for both bande dessinée enthusiasts and comics scholars, as well as a fundamental contribution to present-day film studies and transmedial narratology.

*Masters of the Ninth Art* Matthew Screech.2005-01-01 In English-speaking countries, Francophone comic strips like Hergé's Les Aventures de Tin Tin and Goscinny and Uderzo's Les Aventures d'Asterix are viewed—and marketed—as children's literature. But in Belgium and France, their respective countries of origin, such strips—known as bandes dessinées—are considered a genuine art form, or, more specifically, the ninth art. But what accounts for the drastic difference in the way such comics are received? In *Masters of the Ninth Art*, Matthew Screech explores that difference in the reception and reputation of bandes dessinées. Along with in-depth looks at Tin Tin and Asterix, Screech considers other major comics artists such as Jacques Tardi, Jean Giraud, and Moebius, assessing in the process their role in Francophone literary and artistic culture. Illustrated with images from the artists discussed, *Masters of the Ninth Art* will appeal to students of European popular culture, literature, and graphic art.
