Medieval Narratives Between History and Fiction Panagiotis A. Agapitos, Lars Boje Mortensen. 2012 The rise of literary fiction in medieval Europe has been a hotly debated topic among scholars for at least two decades, but until now that debate has come with severe limitations, focusing on 'modern' French and German romances of the twelfth and thirteenth centuries. Attempting to find common ground among scholars from various disciplines and regions, *Medieval Narratives between History and Fiction* seeks to clarify the subject by including a wide range of medieval narratives irrespective of their modern label and affiliation to certain disciplines. The chapters collected here broaden the discussion by moving beyond the canonical French and German romances, focusing mainly on texts in Greek, Latin and Old Norse (and also some in Serbian), and by opting for a 'peripheral' and a long-term view of the subject. The chapters take us from Graeco-Roman antiquity to medieval France, then to the Scandinavian lands and from there to south-eastern Europe and Byzantium as the link back to the Graeco-Roman world. This disposition also follows a spiral motion in time, leading us from antiquity to late antiquity and from the eleventh to the fifteenth century. By expanding the linguistic as well as the geographical and chronological scope of the debate, the book shows that we should not think of a 'rise of fiction' per se; rather, we should see fiction as a potential always imbued in and related to historical narratives – and recognize that non-fictional and non-vernacular writing are important for a modern understanding of medieval fiction.--

Leonardo's Lost Robots Mark Rosheim. 2006-06-14 This book reinterprets Leonardo da Vinci's mechanical design work, revealing a new level of sophistication not recognized by art historians or engineers. The book reinterprets Leonardo's legacy of notes, showing that apparently unconnected fragments from dispersed manuscripts actually comprise cohesive designs for functioning automata. Using the rough sketches scattered throughout almost all of Leonardo's notebooks, the author has reconstructed Leonardo's programmable cart, which was the platform for other automata. Through a readable, lively narrative, the author explains how he reconstructed da Vinci's designs.

Mediterranean Diasporas Maurizio Isabella, Konstantina Zanou. 2015-11-19 *Mediterranean Diasporas* looks at the relationship between displacement and the circulation of ideas within and from the Mediterranean basin in the long 19th century. In bringing together leading historians working on Southern Europe, the Balkans, and the Ottoman Empire for the first time, it builds bridges across national historiographies, raises a number of comparative questions and unveils unexplored intellectual connections and ideological formulations. The book shows that in the so-called age of nationalism the idea of the nation state was by no means dominant, as displaced intellectuals and migrant communities developed notions of double national affiliations, imperial patriotism and liberal imperialism. By adopting the Mediterranean as a framework of analysis, the collection offers a fresh contribution to the growing field of transnational and global intellectual history, revising the genealogy of 19th-century nationalism and liberalism, and reveals new perspectives on the intellectual dynamics of the age of revolutions.

Traditional South African Cooking Magdaleen van Wyk. 2014-08-14 Anyone who longs for a beloved grandmother's famous milk tart or melkkos, or a great aunt's delicious bobotie or vetkoek, should have this book in his or her kitchen! *Traditional South African Cooking* is a collection of well-known South African recipes that will enable the modern cook to continue the tradition and produce the same delicious meals that our ancestors used to enjoy. South African cuisine is a unique blend of the culinary art of many different cultures. Dutch, French, German and British settlers, as well as the Malays who came from the East, all brought their own recipes to this country. The subtle adaptation of these 'imported' recipes by the addition of local ingredients and the introduction of innovative (at the time) cooking methods resulted in an original and much-loved cuisine. This book also features interesting snippets about our forebears' way of life.

The Southern Land, Known Gabriel de Foigny. 1993 Foigny's *La Terre Australe connue*, published in 1676, is a fantastically engaging and playful example of the imaginary voyage genre. It is also a seventeenth-century work with some curiously modern resonances. Written in the tradition of More's *Utopia*, and serving itself as a forerunner to Swift's *Gulliver's Travels*, *The Southern Land, Known* offered its readers a radical criticism of then prevailing ideologies in the guise of a lively and provocative novel. Knowledge of the vast continent of Australia was, in Foigny's day, still mingled with legends, hearsay, and travelers' tales. It is in this context that the unknown Southern Land becomes known to the hero of this short, action-packed, and highly structured story. The narrator braves a long sea journey, raging storms, shipwrecks, giant whales, and high-flying creatures that try to eat him - all to reach the mysterious Austral utopia. Peopled by hermaphrodites, Foigny's Australia is a society in which distinctions of both class and gender have been abolished. It includes, among other things, an indictment of the great empire that the male usurped over the female as rather a form of tyranny than a just cause.

The Arthurian Name Dictionary Christopher W. Bruce.1999 A comprehensive encyclopedia of characters, places, objects, and themes found in the legends of King Arthur and the Knights of the Round table. Draws from all significant source between Gildas' *De Excidio Britanniae* written about 540 AD and Tennyson's 19th-century *Idylls of the King*, including versions from throughout Europe. The entries range from a short identifying sentence to nearly ten pages for the king himself. Each is referenced to a source, which are presented in a endtable showing author and tit date, form, and langua description; keywords from the entries; and recent editions, a vital bit of information such references usually neglect. The cross-referencing is fairly good, often done as a full entry identifying a name as a variant of another, so the lack of an index is not a problem.

The Making of Gratian's Decretum Anders Winroth.2000-11-23 This book offers perspectives on the legal and intellectual developments of the twelfth century. Gratian's collection of Church law, the Decretum, was a key text in these developments. Compiled in around 1140, it remained a fundamental work throughout and beyond the Middle Ages. Until now, the many mysteries surrounding the creation of the Decretum have remained unsolved, thereby hampering exploration of the jurisprudential renaissance of the twelfth century. Professor Winroth has now discovered the original version of the Decretum, which has long lain unnoticed among medieval manuscripts, in a version about half as long as the final text. It is also different from the final version in many respects - for example, with regard to the use of of Roman law sources - enabling a reconsideration of the resurgence of law in the twelfth century.

The Oxford Handbook of Women and Gender in Medieval Europe Judith M. Bennett,Ruth Mazo Karras.2013-08-22 The Oxford Handbook of Women and Gender in Medieval Europe provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C.E. The essays collected in this volume speak to interpretative challenges common to all fields of women's and gender history - that is, how best to uncover the experiences of ordinary people from archives formed mainly by and about elite males, and how to combine social histories of lived experiences with cultural histories of gendered discourses and identities. The collection focuses on Western Europe in the Middle Ages but offers some consideration of medieval Islam and Byzantium. The Handbook is structured into seven sections: Christian, Jewish, and Muslim thought; law in theory and practice; domestic life and material culture; labour, land, and economy; bodies and sexualities; gender and holiness; and the interplay of continuity and change throughout the medieval period. It contains material from some of the foremost scholars in this field, and it not only serves as the major reference text in medieval and gender studies, but also provides an agenda for future new research.

The Rules of Love & Grammar Mary Simses.2016-05-31 A woman finds love and closure, and rediscovers herself, when she returns to her roots in the enchanting new novel from the author of *The Irresistible Blueberry Bakeshop & Café*. Newly jobless, newly single, and suddenly apartmentless, writer Grace Hammond has come unmoored. A grammar whiz who's brilliant at correcting other people's errors, she hasn't yet found quite the right set of rules for fixing her own mistakes. Desperate to escape the city and her trifecta of problems, Grace hits pause and retreats to her Connecticut hometown. What begins as a short visit with her parents quickly becomes a far more meaningful stay, though, as she discovers that the answers to what her future holds might be found by making peace with -- and even embracing -- the past. As Grace sets out to change her ways and come to terms, finally, with the tragedy that took her older sister's life so many years ago, she rekindles a romance with her high school sweetheart, Peter, now a famous Hollywood director who's filming a movie in town. Sparks also fly at the local bike shop, where Grace's penchant for pointing out what's wrong rattles the owner's ruggedly handsome schoolteacher son, Mitch. Torn between the promise of a glamorous life and the allure of the familiar, Grace must decide what truly matters -- and whether it's time for her to throw away the rule book and bravely follow her heart.

The Best of American Beer and Food Lucy Saunders.2007-09-12 In The Best of American Beer and Food Lucy Saunders covers both pairing food and beer and cooking with beer. She begins by exploring the art of pairing flavorful beers with specific foods, considering today's wide range of beer styles and the foods and flavors that they compliment from salad through dessert. She then turns to recipes that incorporate beer, using the diverse tastes available from today's ales and lagers as flavor components.

Demiurge and Providence Gretchen J. Reydams-Schils.1999 Of the rich legacy of the Timaeus, this study deals with the cross-pollination between Stoic and Platonist readings of Timaeus, spanning the period from Plato's writings to that of the so-called Middle Platonist authors. Plato's Timaeus and Stoic doctrine had their fates intertwined from very early on, both in polemical and reconciliatory contexts. The blend of Platonic and Stoic elements ultimately constituted one of the main conceptual bridges between the pagan tradition on the one hand and the Judeo-Christian, in its own search for the distinction between transcendence and immanence, on the other. Contrary to the received opinion, later platonist authors do not merely borrow Stoic terminology. Rather, in a genuine 'discourse of assimilation' the Stoic analysis of the universe has left a profound mark on Platonist views of the principles, of the place of humans in the universe, as well as of human freedom and its interaction with divine Providence.

Montaigne & Melancholy Michael Andrew Screech.2000 Montaigne (1533-1592), the personification of philosophical calm, had to struggle to become the wise Renaissance humanist we know. His balanced temperament, sanguine and melancholic, promised genius but threatened madness. When he started his Essays, Montaigne was upset by an attack of melancholy humor: He became temperamental and unbalanced. Writing about himself restored the balance but broke an age-old taboo--happily so, for he discovered profound truths about himself and about our human condition. His charm and humor have made his writings widely enjoyed and admired.
