English Unlimited Elementary Coursebook With E-portfolio Alex Tilbury,Theresa Clementson,David Rea,Leslie A. Hendra.2010

Elementary Japanese Volume Two Yoko Hasegawa.2006-02-15 This is an extensive beginning level Japanese textbook and Japanese language learning package. Elementary Japanese is designed for students who are just beginning their study of Japanese at the first-year college level or on their own. The author and contributors have created a highly structured approach to learning Japanese that is based on learning the fundamental patterns and constructions of the language as well as the writing system including basic kanji. Systematic grammatical explanations are provided in enough detail for this book to be used as a reference work as well as an introductory textbook. The accompanying MP3 audio CD is a great way to learn Japanese and ensures correct pronunciation and helps to build listening comprehension. After completing this course, you will be able to: Describe yourself, your family and your friends. Talk about daily events using basic vocabulary and grammatical constructions. Understand conversations on these topics as well as classroom activities. Read Japanese articles and write short and simple compositions and letters.

English Unlimited for Spanish Speakers Pre-intermediate Teacher's Pack (Teacher's Book with DVD-ROM) Adrian Doff,Howard Smith.2010-07-30

English Unlimited for Spanish Speakers is a six-level goals-based course for Spanish-speaking adult learners. Centred on real-life objectives, it prepares learners to use English independently and confidently for global communication. The Teacher's Pack consists of a Teacher's Book with DVD-ROM. As well as clear teaching notes, the Teacher's Book offers lots of extra ideas and activities to suit different classroom situations and teaching styles. Fully integrated explanation and notes on the Tips in the Coursebook for Spanish-speaking learners are included. The DVD-ROM provides a range of extra printable activities, a comprehensive testing and assessment program, clear mapping of the syllabus against the CEF 'can do' statements, and extra literacy and handwriting activities for non-Roman alphabet users. It also includes the videos from the Self-study Pack DVD-ROM for classroom use.

Edible Insects Arnold van Huis,Food and Agriculture Organization of the United Nations.2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

English Unlimited B1+ -Intermediate. Self-study Pack with DVD-ROM Maggie Baigent.2011-02-14 The Self-study Pack with DVD-ROM offers much more than a standard workbook. As well as a DVD-ROM with over 300 interactive activities to consolidate work done in class it also provides : exposure to authentic, natural English through short documentaries and interviews with a variety of international speakers ; a self-recording and playback tool for pronunciation practice ; extra 'Explore Writing' tasks to build on work done in class plus a complete 'Explore Reading' syllabus ; 'Over to you' exercises allowing you to personalise your language practice ; customisable 'QuickCheck' tests to monitor progress.--Publisher.

Deutsch Ohne Mühe Heute Hilde Schneider.1987 This book aims to take users from scratch to having a solid base in German within six months, and to feel comfortable with the language in as little as three months. In only half an hour a day users will move ahead naturally until they are at ease with all the basic structures needed for communication and become familiar with the basic words and grammar of German. The method comprises two phases: the passive phase, in which users simply repeat what they hear and read, and the active phase, in which users begin to create sentences and imagine themselves in a variety of everyday situations.

Navigate A2. Workbook. Without key. Per le Scuole superiori. Con CD. Con espansione online Carol Tabor.2015 Navigate is a brand new, six-level General English course tailored exclusively to adults. The course takes an innovative approach to reading and listening based on academic research as to how adults best learn languages. It teaches reading and listening from the bottom up, giving learners the skills they need to understand the next text they will read and hear, not just the one they are reading or hearing now. The content has been extensively piloted and reviewed in ELT classrooms across the world, giving teachers the confidence that it really works.The first 3 levels are publishing early 2015 (A2, B1 and B1+) with the next 3 levels following early 2016.

Hacking Chinese Olle Linge.2016-03-26 Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study. - Geoff van der Meer, VP engineering This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision. - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

Navigate Rachael Roberts (Teacher of English as a foreign language),Heather Buchanan,Emma Pathare,Catherine Walker.2015 Information-rich topics and texts immerse adult learners in themes and issues from around the world so that English is more relevant.

Free Voluntary Reading Stephen D. Krashen.2011-05-18 An eye-opening look at the latest research findings about the success of free voluntary reading in developing high levels of literacy. Free voluntary reading looks better and more powerful than ever. Stephen D. Krashen, PhD, is an advocate for free voluntary reading in schools and has published many journal articles on the subject. Free Voluntary Reading: Power 2010 collects the last ten years of his extensive work and reconsiders all aspects of this important debate in light of the latest findings. The book provides an accessible examination of topics, such as free voluntary reading's value in language and literary acquisition domestically and worldwide, recent developments in support of free voluntary reading, whether rewards-based programs benefit the development of lifelong reading, the value of phonics in reading instruction, and trends in literacy in the United States.

Free Culture Lawrence Lessig.2015-11-13 How big media uses technology and the law to lock down culture and control creativity. Free Culture is an entertaining and important look at the past and future of the cold war between the media industry and new technologies. - Marc Andreessen,

cofounder of Netscape. Free Culture goes beyond illuminating the catastrophe to our culture of increasing regulation to show examples of how we can make a different future. These new-style heroes and examples are rooted in the traditions of the founding fathers in ways that seem obvious after reading this book. Recommended reading to those trying to unravel the shrill hype around 'intellectual property.' - Brewster Kahle, founder of the Internet Archive. The web site for the book is <http://free-culture.cc/>.

A Second Spanish Reader Stanley Appelbaum.2012-07-12 Geared toward advanced beginners, these highlights from poetry, plays, and stories by noted Spanish-language writers include works by Gabriela Mistral, Pedro Calderón de la Barca, and Lope de Vega.
