The Flavors of Modernity Gian-Paolo Biasin.2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. **The Land of Hunger** Piero Camporesi.1996 In this highly original book, Camporesi explores the two worlds of feast and famine in early modern Europe. Camporesi brings together a mosaic of images from Italian folklore: phantasmagoric processions of giants, pigs, vagabonds, down-trodden rogues, charlatans and beggars in rags. He reconstructs a world inhabited by the strange forces of peasant culture, and describes the various rituals - carnivals, festivities, competitions and funerals - in which food played a central role. Camporesi's description alternates between the lives of the haves and the have-nots. He moves from the starving underworld of criminalized poverty, where people were forced to develop the art of living at the expense of others simply in order to survive, to the gastronomic culture of the well-fed, with their excessive eating habits, oily foods and colourful table manners. *The Land of Hunger* is a graphic and engaging journey into the folk culture of early modern Europe. It will consolidate Camporesi's reputation as one of the most original and imaginative historians of our time.

*The Beauty of the Beastly* Natalie Angier. 1996-04-04 "An awe-inspiring tour of nature" from a Pulitzer Prize-winning science writer (San Francisco Examiner). Natalie Angier has taken great pains to learn her science from the molecule up. She knows all that scientists know—and sometimes more—about the power of symmetry in sexual relations, about the brutal courting habits of dolphins, about the grand deceit of orchids, and about the impact of female and male preferences on evolution. The Beauty of the Beastly takes the pulse of everything from the supple structure of DNA to the erotic ways of barn swallows, queen bees, and the endangered, otherworldly primate called the aye-aye. Few writers have ever covered so many facets of biology so evocatively in one book. Timothy Ferris, author of the acclaimed Coming of Age in the Milky Way, says Angier is "one of the strongest and wittiest science writers in the world today." "Like Alan Lightman or Lewis Thomas," writes Nobel laureate David Baltimore, "she draws from science a meaning that few scientists see, and her writing takes on an unusual dimension of artistry." And Sherwin Nuland, author of How We Die, believes that "Natalie Angier is in the tradition of the great nature writers." "A gold mine." —The New York Times "From cockroaches to cheetahs, DNA to elephant dung, Angier gives us intimate and dramatic portraits of nature that readers will find rewarding." —Publishers Weekly

Mirror for the Muslim Prince Mehrzad Boroujerdi. 2013-05-01 In this volume, a group of distinguished scholars reinterpret concepts and canons of Islamic thought in Arab, Persian, South Asian, and Turkish traditions. They demonstrate that there is no unitary Islamic position on important issues of statecraft and governance. They recognize that Islam is a discursive site marked by silences, agreements, and animated controversies. Rigorous debates and profound disagreements among Muslim theologians, philosophers, and literati have taken place over such questions as: What is an Islamic state? Was the state ever viewed as an independent political institution in the Islamic tradition of political thought? Is it possible that a religion that places an inordinate emphasis upon the importance of good deeds does not indeed have a vigorous notion of public interest or a systematic theory of government? Does Islam provide an edifice, a common idiom, and an ideological mooring for premodern and modern Muslim rulers alike? The nuanced reading of the Islamic traditions provided in this book will help future generations of Muslims contemplate a more humane style of statecraft.

**Brave New World Revisited** Aldous Huxley. 2014-01-01 When Aldous Huxley wrote his famous novel Brave New World, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, Brave New World Revisited is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. Brave New World Revisited condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in Brave New World Revisited are still startlingly relevant, lending a chilling credibility to Aldous Huxley's unsettling predictions. The Book of Abstract Various Various. 2020-04-18 Abstract art uses visual language of shape, form, color and line to create a composition which may exist with a degree of independence from visual references in the world. Western art had been, from the Renaissance up to the middle of the 19th century, underpinned by the logic of perspective and an attempt to reproduce an illusion of visible reality. By the end of the 19th century many artists felt a need to create a new kind of art which would encompass the fundamental changes taking place in technology, science and philosophy. The sources from which individual artists drew their theoretical arguments were diverse, and reflected the social and intellectual preoccupations in all areas of Western culture at that time. Abstract art, non-figurative art, non-objective art, and non-representational art are closely related terms. They are similar, but perhaps not of identical meaning. Abstraction indicates a departure from reality in depiction of imagery in art. This departure from accurate representation can be slight, partial, or complete. Abstraction exists along a continuum. Even art that aims for verisimilitude of the highest degree can be said to be abstract, at least theoretically, since perfect representation is likely to be exceedingly elusive. Artwork which takes liberties, altering for instance color and form in ways that are conspicuous, can be said to be partially abstract. Total abstraction bears no trace of any reference to anything recognizable. In geometric abstraction, for instance, one is unlikely to find references to naturalistic entities. Figurative art and total abstraction are almost mutually exclusive. But figurative and representational (or realistic) art often contain partial abstraction. Both geometric abstraction and lyrical abstraction are often totally abstract. Among the very numerous art movements that embody partial abstraction would be for instance fauvism in which color is conspicuously and deliberately altered vis-a-vis reality, and cubism, which alters the forms of the real life entities depicted.

**Éditions de Parfums Frédéric Malle** Frédéric Malle.2020-10-13 Born into the world of perfume (his grandfather was the founder of Parfums Christian Dior), Frédéric Malle's deep knowledge of scents and his radical vision of perfumes led him, in 2000, to establish Éditions de Parfums Frédéric Malle, a house for perfumers where fragrances are conceived as haute couture creations. At a time when the self-service sale of perfumes was on the rise, Malle chose to open a boutique that would provide a luxurious setting for the perfumes he publishes with the world's greatest perfumers. Malle's determination has been to champion the art of perfumery itself, granting perfumers total and complete freedom to create, furnishing them with exceptional raw materials and releasing all boundaries and constraints, restoring the art of perfume making to its former glory. This October, to mark the twentieth anniversary of Frédéric Malle's quest for beauty and creative freedom, Rizzoli will publish Éditions de Parfums Frédéric Malle: The First Twenty Years. A necessary addition to the libraries of industry masters, this volume is an exploration of the inspirations and vision of one of the great protagonists of contemporary perfume. 2020 marks a historic date for the house: twenty years of audacity and creativity. Twenty years of shifting paradigms in the exacting world of perfumery. In Éditions de Parfums Frédéric Malle: The First Twenty Years, Malle offers readers an intimate glimpse into his brand's saga and shares the stories behind four of his most successful scents in graphic-novel form. Journalist Marion Vignal delves into Malle's lifelong devotion to perfume, personal history, and myriad inspirations to uncover the evolution of his precise olfactory aesthetics, while imagery of perfume bottles, sketches, advertising campaigns, and photos of boutiques explores his comprehensive vision. With art direction by Patrick Li, the book features an eclectic palette of imagery from the personal archives of the founder, as well as illustrations, unique sketches and authentic stories about Malle's collaboration with Perfumers. Éditions de Parfums Frédéric Malle: The First Twenty Years is an invitation to a sensorial journey that will delight perfume lovers everywhere. This volume invites faithful connoisseurs of haute perfumery and lovers of fine craftsmanship alike to join in celebrating an authentic, audacious, exacting, and rich brand.

*The Art of Cooking* Maestro Martino of Como.2005-01-03 Maestro Martino of Como has been called the first celebrity chef, and his extraordinary treatise on Renaissance cookery, *The Art of Cooking*, is the first known culinary guide to specify ingredients, cooking times and techniques, utensils, and amounts. This vibrant document is also essential to understanding the forms of conviviality developed in Central Italy during the Renaissance, as well as their sociopolitical implications. In addition to the original text, this first complete English translation of the work includes a historical essay by Luigi Ballerini and fifty modernized recipes by acclaimed Italian chef Stefania Barzini. *The Art of Cooking*, unlike the culinary manuals of the time, is a true gastronomic lexicon, surprisingly like a modern cookbook in identifying the quantity and kinds of ingredients in each dish, the proper procedure for cooking them, and the time required, as well as including many of the secrets of a culinary expert. In his lively introduction, Luigi Ballerini places Maestro Martino in the complicated context of his time and place and guides the reader through the complexities of Italian and papal politics. Stefania Barzini's modernized recipes that follow the text bring the tastes of the original dishes into line with modern tastes. Her knowledgeable explanations of how she has adapted the recipes to the contemporary palate are models of their kind and will inspire readers to recreate these classic dishes in their own kitchens. Jeremy Parzen's translation is the first to gather the entire corpus of Martino's legacy.
