Twelve Years a Slave Solomon Northup.2014-03-08 Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. *Twelve Years a Slave* by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana. Black Writers and Latin America Richard L. Jackson.1998 In this study, the author begins by examining the influence of Africa and Spain upon the literatures of African Americans and Latin Americans. He explores the reciprocal exchange of influences among artists of African descent in the United States and in Latin America--from established writers to a new generation of writers, including women.

Clock Dance Anne Tyler.2018-07-10 NEW YORK TIMES BESTSELLER • A novel of self-discovery and second chances from the beloved Pulitzer Prize-winning author—Willa Drake has had three opportunities to start her life over: in 1967, as a schoolgirl whose mother has suddenly disappeared; in 1977, when considering a marriage proposal; and in 1997, as a young widow trying to hold her family together. So she is surprised when in 2017 she is given one last chance to change everything, after receiving a startling phone call from a stranger. Without fully understanding why, she flies across the country to Baltimore to help a young woman she's never met. This impulsive decision, maybe the first one she's consciously made in her life, will lead Willa into uncharted territory—surrounded by eccentric neighbors who treat each other like family, she finds solace and fulfillment in unexpected places. A bewitching novel of hope and transformation, *Clock Dance* gives us Anne Tyler at the height of her powers.

The Medical Mandarins George Weisz.1995 This wide-ranging and imaginative book examines the social and scientific role of the French Academy of Medicine from its creation in 1820 to the outbreak of the Second World War. The first chapters focus on the institution and its activities, including the evaluation of medical innovations and the cultivation of professional memory through eulogies and institutional art. Weisz argues that the Academy was gradually transformed from a low-status public institution that was central to French medical science in the nineteenth century to an establishment institution largely irrelevant to medical science but playing a key role in public health policy. The second half of the book uses the activities and literary productions of the Academy to explore broader issues of medical history. The Academy's role in the regulation and scientific study of mineral waters illuminates processes of discipline formation in medical science and explores the therapeutic specificity of French medicine. Academic debates are used to investigate the appropriation of new research techniques like animal experimentation and quantification in therapeutic reasoning. Academic eulogies provide a starting point for the evolving medical and scientific reputation of Laennec, the inventor of auscultation,

Using techniques of prosopography applied to the membership of the Academy, Weisz goes on to analyze the role of the Parisian medical elite in French medicine and its social place within the French bourgeoisie. His concluding chapter examines the emerging self-images of this Parisian elite in academic eulogies.

Faith Bass Darling's Last Garage Sale Lynda Rutledge.2012-04-26 SOON TO BE CLAIRE DARLING—A MAJOR MOTION PICTURE STARRING CATHERINE DENEUVE! When a wealthy woman decides to sell all of her worldly possessions, she unearths the secrets of her family's past in this charming debut. On the last day of the millennium, sassy Faith Bass Darling, the richest old lady in Bass, Texas, decides to have a garage sale. With help from a couple of neighborhood boys, Faith lugs her priceless Louis XV elephant clock, countless Tiffany lamps, and everything else in her nineteenth-century mansion out onto her long, sloping lawn. Why is a recluse of twenty years suddenly selling off her dearest possessions? Because God told her to. As the townspeople grab up five generations of heirlooms, everyone drawn to the sale—including Faith's long-lost daughter—finds that the antiques not only hold family secrets but also inspire some of life's most important questions: Do our possessions possess us? What are we without our memories? Is there life after death or second chances here on earth? And is Faith really selling that Tiffany lamp for \$1? READERS GUIDE INCLUDED

The Nuptial Mystery Angelo Scola.2005-05-12 Translated by Michelle K. Borrás The idea of love pervades our society, yet it is nearly impossible to answer the question What is love? especially as we witness the divorce of love from sexuality and of sexuality from procreation. Aware that many people today are skeptical about marriage, Angelo Cardinal Scola nevertheless suggests that only in the category of nuptial mystery do we find a way to adequately describe the phenomenon of love. A bright new leader in the Catholic Church, Cardinal Scola argues that the male-female relationship lies near the heart of what it means to bear the image of God. Scola's book explores the essential sexual differences that both separate and unite men and women, and it shows how men and women can realize their purpose in marriage or celibacy. Conversant with papal teaching and Catholic writers from Aquinas to von Balthasar, Cardinal Scola writes with a deep regard for marriage and the family. His Nuptial Mystery will leave readers with a thoroughly Christian appreciation for incarnate love.

Writing Beyond Pen and Parchment Ricarda Wagner,Christine Neufeld,Ludger Lieb.2019-10-21 What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre "Material Text Cultures," (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume's focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

Marine Natural Products Chemistry D. Faulkner.2012-12-06 This volume contains the lectures presented at the NATO sponsored conference on Marine Natural Products held in Jersey, Channel Islands, U. K., October 12-17, 1976. The intent of the organising committee was to encourage a dialogue between organic chemists who study the metabolites of marine organisms and biologists, ecologists, and pharmacologists who study the effects of these metabolites on other organisms. A feature of the conference was the three workshop sessions on chemotaxonomy, applications of

marine natural products, and chemical communication. The papers presented at the conference contain a mixture of original research in marine natural products and reviews of some of the more important subjects. The biologists were asked to present papers which could initiate new directions for marine natural products research. Their contributions to the meeting were warmly received by the chemists in the audience. We hope that this volume contains not only past and present research but a suggestion of future research trends. The conference was first suggested by Dr. E. D. Goldberg. The organising committee, Drs. G. Blunden, D. J. Faulkner, W.

Laron Syndrome - From Man to Mouse Zvi Laron, J. Kopchick. 2010-11-25 Laron syndrome (LS), or primary growth hormone (GH) insensitivity, was first described in 1966. Since then, many patients worldwide have been diagnosed with LS, which involves defects in the GH receptor that cause combined congenital deficiency of GH and IGF-I activities. In this comprehensive book the authors draw upon 50 years of multidisciplinary clinical and investigative follow-up of the large Israeli cohort of LS patients. The genetic basis of the syndrome is fully considered, and all aspects of the pathophysiology of IGF-I deficiency are described. Data derived from the recently generated mouse model of LS are reviewed and compared with the human LS experience. Valuable advice is provided on treatment, and treatment effects, such as metabolic effects, adipose tissue alterations, and impact on aging, are fully explored. Together, this book condenses, consolidates, compares, and contrasts data derived from the human and mouse LS experiences and provides a unique resource for clinical and basic scientists to evaluate and compare IGF-I and GH actions.

Environmental Degradation of the Black Sea: Challenges and Remedies Sükrü T. Besiktepe, Ümit Ünlüata, Alexandru S. Bologa. 2012-12-06 The Black Sea presently faces severe ecological disequilibrium due primarily to eutrophication and other types of contaminants, from atmospheric, river and landbased sources. Major contaminants include nutrients, pesticides, hydrocarbons and heavy metals. Among the most critical contemporary concerns are eutrophication and associated deterioration of water quality, plankton blooms, hypoxia and anoxia, loss of biodiversity and decline of living resources. A better understanding of conditions leading to eutrophication and of the associated changes during the last four decades, is being carried out at national, regional and international levels. High quality scientific research has been conducted in all Black Sea riparian countries (Bulgaria, Georgia, Romania, Russian Federation, Turkey, Ukraine). In addition, several successful regional research programmes (e.g., CoMSBlack, NATO-TU Black Sea, NATO-TU Waves, EC-EROS 2000 Phase III, IOC Black Sea Regional Center with Pilot Projects 112) and one major environmental management program (GEF-BSEP) have been successfully launched. New international efforts like the Black Sea Commission, the Black Sea Program Coordination Unit, the Black Sea Economic Cooperation (all situated in Istanbul), together with the Convention for the Protection of the Black Sea against Pollution (Bucharest, 1992) and the Odessa Interministerial Declaration (1993) attest to the economic and political importance of these problems and the attention presently paid to this endangered sea.

The Colonial Machine James Edward McClellan (III), François Regourd. 2011 The rise of modern science and European colonial and imperial

expansion are indisputably two defining elements of modern world history. James E. McClellan III and Francois Regourd explore these two world-historical forces and their interactions in this comprehensive and in-depth history of the French case in the Old Regime presented here for the first time. The case is key because no other state matched Old-Regime France as a center for organized science and because contemporary France closely rivaled Britain as a colonial power, as well as leading all other nations in commodity production and participating in the slave trade. Based on extensive archival research and vast primary and secondary literatures and sharply reframing the historiography of the field, this landmark volume traces the development and significance for early-modern history of the Colonial Machine of Old-Regime France, an unparalleled agglomeration of institutions geared to the success of the French colonial enterprise, including the Royal Navy, the Academie Royale des Sciences, the Jardin du Roi, and a host of related specialist institutions working together at home and overseas. Mainly supported by the French state, the Colonial Machine reveals itself through its actions from the time of Colbert and Louis XIV as it grappled with fundamental problems facing contemporary European colonialism: cartography and navigation; medical care of sailors, colonists, and slaves; and applied botany and commodity production. Historians of globalization and European overseas expansion, of Old-Regime France, and of science in the seventeenth and eighteenth centuries will henceforth take this stimulating volume as a necessary starting point for further reflection and research. Nominated for the Mary Alice and Philip Boucher Book Prize.

War and Economy in the Third Reich R. J. Overy.1995-06-29 War and Economy in the Third Reich examines the nature of the German economy in the 1930s and the Second World War. Richard Overy's essays, collected here for the first time with a substantial new introduction, explore the tension between Hitler's vision of an armed economy and the reality of German economic and social life. Often thought-provoking, always informed, War and Economy opens a window on an essential aspect of Hitler's Germany.

Emilie Du Chatelet Judith P. Zinsser.2007-11-27 The captivating biography of the French aristocrat who balanced the demands of her society with passionate affairs of the heart and a brilliant life of the mind Although today she is best known for her fifteen-year liaison with Voltaire, Gabrielle Emilie le Tonnelier de Breteuil, Marquise Du Châtelet (1706-1749) was more than a great man's mistress. After marrying a marquis at the age of eighteen, she proceeded to fulfill the prescribed-and delightfully frivolous-role of a French noblewoman of her time. But she also challenged it, conducting a highly visible affair with a commoner, writing philosophical works, and translating Newton's Principia while pregnant by a younger lover. With the sweep of Galileo's Daughter, Emilie Du Châtelet captures the charm, glamour, and brilliance of this magnetic woman.

The Variiae Cassiodorus.2019-10-15 Cassiodorus—famed throughout history as one of the great Christian exegetes of antiquity—spent most of his life as a high-ranking public official under the Ostrogothic King Theoderic and his heirs. He produced the Variiae, a unique letter collection that gave witness to the sixth-century Mediterranean, as late antiquity gave way to the early middle ages. The Variiae represents thirty years of Cassiodorus's work in civil, legal, and financial administration, revealing his interactions with emperors and kings, bishops and military commanders, private citizens, and even criminals. Thus, the Variiae remains among the most important sources for the history of this pivotal period and is an indispensable

resource for understanding political and diplomatic culture, economic and legal structure, intellectual heritage, urban landscapes, religious worldview, and the evolution of social relations at all levels of society during the twilight of the late-Roman state. This is the first full translation of this masterwork into English.

Last Gun Gene Shelton.2020-08-09 This is a work of fiction based on the life and times of John Henry Selman, one of the Old West's deadliest but least-known gunmen. Selman lived on both sides of the law-as leader of the vigilant Texas Home Guard and hired gun for the Seven Rivers gang. He was a deadly accurate shooter and left a bloody trail across the West. And in a gunfight that would create a legend, John Selman faced the West's most infamous outlaw, John Wesley Hardin, in one of the most notorious gunfights the Old West has ever known.

Fragments of Lichtenberg Pierre Senges.2017-01-27 The eighteenth-century German physicist Georg Christoph Lichtenberg left behind at the time of his death thousands of fragmentary notes commenting on a dazzling and at the same time puzzling array of subjects. Pierre Senges's *Fragments of Lichtenberg* imaginatively and hilariously reconstructs the efforts of scholars across three centuries to piece together Lichtenberg's disparate notes into a coherent philosophical or artistic statement. What emerges instead from their efforts are a wide variety of conflicting and competing Lichtenbergs - the poet, the physicist, the philosopher, the humorist - and a very funny meditation on the way interpretations and speculation create new histories and new realities. In just over half a century, Georg Christoph Lichtenberg (1742-1799) had the time to be all of the following: a hunchback; a mathematician; a physics professor; a connoisseur of hare pate; a hermit; an electrical theorist; a skirtchaser; a friend of King George III of England; an asthmatic; a defender of reason; a hypochondriac; a dying man; and the author of 8,000 fragments written with ink and goose quills. Traditionally those fragments have been considered no more than aphorisms, to be sipped like fine schnapps, but certain scholars claim, however, that his famous Wastebooks are really the scattered pieces of a Great Novel, and that this might yet be reconstructed, with the help of scissors, glue, and paper, and by using what is left of our imaginations. The present volume retracts, among other things, the work undertaken for more than a century by valiant Lichtenbergians.

Son of the Wilderness: The Life of John Muir Linnie Marsh Wolfe.2019-07-31 First published in 1945, this biography won the Pulitzer Prize in 1946. Its author worked for twenty-two years on John Muir, including as secretary of the John Muir Association and as editor of Muir's unpublished papers. She interviewed many family members and people who knew and worked with John Muir to produce this account of Muir's life. She recounts Muir's Scottish origins, his early years in the harsh Wisconsin wilderness, his remarkable mechanical aptitude and interest in botany and geology at the University of Wisconsin in Madison where he spent two and a half years before traveling to the Canadian wilderness, and then to California where he spent most of his life. "[A] well-balanced, informative and rewarding biography." — Kirkus Reviews "Into this biography of John Muir, Mrs. Wolfe has packed an amazing amount of factual information which she has illuminated with a sober critical judgment that gives us a convincing portrait of the whole man." — Francis P. Farquhar, Pacific Historical Review "Linnie Marsh Wolfe almost singlehandedly restored John Muir to the

respectability and stature he always deserved... [Son of the Wilderness] should be on the reference shelves of anyone seriously interested in American environmental history." — John Opie, *Environmental History Review* "[A]n interesting personal biography... [Wolfe] creates Muir as a living personality — mystical but athletic, enthusiastic about nature but socially abrupt — a sort of middle-aged Thoreau." — Alexander Kern, *Journal of American History* "By immersing herself in Muir's life, for example, by soaking in his correspondence and journals, [Wolfe] was able to craft what amounts to a first-person narrative, the autobiography he never wrote for himself." — Char Miller, *John Muir Newsletter*

Cumboto Ramón Díaz Sánchez. 2013-03-22 This richly orchestrated novel, which won a national literary prize in the author's native land, Venezuela, also earned international recognition when the William Faulkner Foundation gave it an award as the most notable novel published in Ibero America between 1945 and 1962. Cumboto's disturbing story unfolds during the early decades of the twentieth century on a Venezuelan coconut plantation, in a turbulent Faulknerian double world of black and white. It records the lives of Don Federico, the effete survivor of a once vigorous family of landowners, and his Negro servant Natividad, who since the days of their mutual childhood has been his only friend. Young Federico, psychologically impotent and lost to human contact, lives on as a lonely recluse in the century-old main house of Cumboto, surrounded by descendants of African slaves who still manage, despite his apathy, to keep the plantation on its feet. Natividad's heroic and selfless struggle to redeem his friend by awakening him to the stirrings of the earth and life about him sets in motion a series of events that are to shatter Federico's childlike world: a headlong love affair with a voluptuous black girl, her terrified flight in the face of the bitter condemnation of her own people, and the unexpected appearance, twenty years later, of their extraordinary son. Throughout the novel runs a recurring theme: neither race can survive without the other. Black and white, Díaz Sánchezz suggests, embody contrasting aspects of human nature, which are not inimical but complementary: the languid intellectualism of European culture must be tempered with the indestructible vitality and intuition of the African soul if humanity is ever fully to comprehend the living essence of the world.

It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles. If you have an internet connection, simply go to BookYards and download educational documents, eBooks, information and content that is freely available to all. The web page is pretty simple where you can either publish books, download eBooks based on authors/categories or share links for free. You also have the option to donate, download the iBook app and visit the educational links. The blog at FreeBooksHub.com highlights newly available free Kindle books along with the book cover, comments, and description. Having these details right on the blog is what really sets FreeBooksHub.com apart and make it a great place to visit for free Kindle books.
