Since Vietnam has only recently moved from a centrally planned to a market economy, private schools are still relatively rare in Vietnam. This paper examines the nature of private schooling in Vietnam using data from the 1992-93 Vietnam Living Standards Survey.

Sex Magicians Michael William West. 2021-03-02 • Explores the background and sexual magical beliefs of Paschal Beverly Randolph, Ida Craddock, Aleister Crowley, Maria de Naglowska, Austin Osman Spare, Julius Evola, Franz Bardon, Jack Parsons, William S. Burroughs, Marjorie Cameron, Anton LaVey, and Genesis P-Orridge • Details the life of each sex magician, how they came to uncover their occult practice, and, most importantly, how the practice of sex magic affected their lives Offering a fascinating introduction to the occult practice of sex magic in the Western esoteric tradition, Michael William West explores its history from its reintroduction in the early 19th century via Paschal Beverly Randolph to the practices, influence, and figureheads of the 20th and 21st century such as Anton LaVey, founder of the Church of Satan, and Genesis P-Orridge, founder of Thee Temple ov Psychick Youth. Focusing on 12 influential sex magicians, some well-known and some who have remained in obscurity, West details the life of each sex magician and how the practice of sex magic affected their lives. He explains how most of the figures presented in the book used sex magic as a means rather than an end, utilizing their practice to enhance and enrich their life's work, whether in the arts, sciences, or as a spiritual leader. He examines what is known about Paschal Beverly Randolph, the founding father of modern sex magic, explores the tragic and mystical life of Ida Craddock, and discusses, in depth, iconic figures like Aleister Crowley and Austin Osman Spare, who saw sex magic as a source of artistic power and is now seen as a prophet of the chaos magick movement. Other sex magicians explored deployed magic to drive themselves to the highest echelons of achievement: in literature, William S. Burroughs; in music, Genesis P-Orridge; and in science, Jack Parsons, who openly used magic while making unconventional breakthroughs in rocket science. The author also examines Maria de Naglowska, Julius Evola, Franz Bardon, Marjorie Cameron, and Anton Szandor LaVey. While these sex magicians each followed a different spiritual path and had varying degrees of notoriety and infamy, one common thread emerges from looking at their interesting lives: utilizing magic to know thyself and change your reality is a journey that requires imagination, creativity, and self-awareness to the quest for enlightenment.

Violence and Mental Health Jutta Lindert, Itzhak Levav. 2015-02-25 Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

Romano.2014-05-01 From the Victorian era to the start of the twenty-first century, the Mergenthaler Linotype Company dominated the typesetting and printing industries. Unlike previous books which have ended with the invention of the Linotype, Frank Romano tells the rest of the story. This book details the products, the people, and the corporate activities that kept the company ahead of its competition in hot metal, phototypesetting, and pre-press technology. Over ten corporate entities eventually formed the U.S. manufacturer, which ended its corporate life as a division of a German press maker. What began in 1886 ended finally in May 2013, when the Linotype Library division of Monotype Imaging was closed down. After 127 years, the last resting place of the history of the Linotype Company is in this book.
