Three Women from Haiti Anna Seghers. 2019 Fiction. Latinx Studies. African & African American Studies. **THREE WOMEN OF HAITI**, first published in German in 1980, is the final work by the great German writer, Anna Seghers. The three stories of the triptych concern women caught up in historical events across almost 500 years of Haitian history, beginning with the time of Christopher Columbus's exploratory voyages to the New World and ending in the 1970s with the repressive measures of the BÃ(c)bÃ(c) Doc Duvalier regime. These three uncompromising portrayals of women caught up in life-threatening situations form

Anna Seghers's testimony work, demonstrating her lifelong concern as a revolutionary writer to give voice to those marginalized in history. Also included here is the 1948 essay Seghers wrote about the life of Toussaint Louverture and his pivotal role in the Haitian Revolution.

Klingsor's Last Summer Hermann Hesse.2013-01-22 This is the first English-language edition of Klingsor's Last Summer, which was originally published in 1920, a year after Demian and two years before Siddhartha. The book has three parts: a story called A Child's Heart, followed by Klein and Wagner and Klingsor's Last Summer, Hesse's two longest and finest novellas. These novellas,

along with Siddhartha (the three works were republished in 1931 under the title *The Inward Way*), are the first fruits of the period that began in the spring of 1919, when Hesse settled in the Ticino mountain village of Montagnola to start a new life without his wife and children. *A Child's Heart*, written in January 1919, in Basel, concerns the transmutation of a boy's innocence into knowledge of good and evil, and the painful guilt that accompanies this process. Both *Klein and Wagner* (written in May-June 1919, immediately after the arrival in Montagnola) and *Klingsor's Last Summer* (written shortly after) are set in a southern landscape that reflects Hesse's life that summer; both novellas have heroes who are more or less Hesse's age at the time; and in both the hero's death is preceded by a grand vision of unity in which the polarities of life are resolved. Hesse exposes himself mercilessly in *Klein and Wagner*, a story of escape, wrenching loose, letting go. But the expressionist painter *Klingsor* is a more direct self-portrait of the Hesse of 1919.

The Ship Cesare Pavese,Hans Henny Jahnn.1970 Clelia, a successful couturier, arrives in Turin after the end of the Second World War to supervise the opening of a salon in the city where she spent her youth in poverty. Drawn into a circle of young people who try to escape the futility and boredom of their lives in a mindless search for pleasure, she encounters Rosetta, whose suicide tragically foreshadows that of the author just a few months after completing this highly acclaimed contemporary classic.

American Material Culture Ann Smart Martin,J. Ritchie Garrison,Henry Francis du Pont Winterthur Museum.1997 The fourteen essays in this volume provide an important cross section of new research on the current state of American material culture scholarship. From Tupperware to stuffed owls, modern dolls to colonial portraits, the subjects that the authors study demonstrate that things provoke and sustain human dramas.

Sitte, Hegemann and the Metropolis Charles Bohl,Jean-François Lejeune.2009-06-02 These essays, from leading names in the field, weave together the parallels and differences between the past and present of civic art. Offering prospects for the first decades of the twenty-first century, the authors open up a broad international dialogue on civic art, which relates historical practice to the contemporary meaning of civic art and its application to community building within today's multi-cultural modern cities. The volume brings together the rich perspectives on the thought, practice and influence of leading figures from the great era of civic art that began in the nineteenth century and blossomed in the early twentieth century as documented in the works of Werner Hegemann and his contemporaries and considered fundamental to contemporary practice.

Fashioning Vienna Janet Stewart.2013-06-17 This book seeks, through an examination of the form and content of his texts, to extend our understanding of Adolf Loos and his role in the struggle to define the nature of modernity in Vienna at the turn of the nineteenth century. It makes extensive use of primary sources including archive material and newspaper reports, which serve to shed new light on the way in which Loos's writings are embedded in their socio-cultural context. Drawing on insights from German and Austrian studies, sociology and cultural history, this book offers a genuinely interdisciplinary approach to a figure who himself operated in an interdisciplinary fashion.

Gezählte Tage (1972) Peter Huchel.2019-10 With Brecht, Benn, Bobrowski and Celan, Peter Huchel is one of a handful of essential post-war poets in the German language. A precise observer of natural phenomena, Huchel is above all a realist whose metaphors take us deep into the social and historical landscape, into zones of devastation and despair, the zero-hour of isolation. His world is devoid of illusion or sentimentality; there is no redemption, at most an exactitude that is itself a confirmation of what is human and real. Lifted out of the schismatic currents of the Cold War era by Martyn Crucefix's supple and arrestingly sensual translations, Huchel surprises us as a fresh and startling voice for our own numbered days. --Iain Galbraith

What Objects Mean Arthur Asa Berger. 2016-06-16 Arthur Asa Berger, author of an array of texts in communication, popular culture, and social theory, is back with the second edition of his popular, user-friendly guide for students who want to understand the social meanings of objects. In this broadly interdisciplinary text, Berger takes the reader through half a dozen theoretical models that are commonly used to analyze objects. He then describes and analyzes eleven objects, many of them new to this edition—including smartphones, Facebook, hair dye, and the American flag—showing how they demonstrate concepts like globalization, identity, and nationalism. The book includes a series of exercises that allow students to analyse objects in their own environment. Brief and inexpensive, this introductory guide will be used in courses ranging from anthropology to art history, pop culture to psychology.
