Career Development Kimberly S. McDonald,Linda M. Hite.2015-12-22 Career Development: A Human Resource Development Perspective offers a strategic framework that demonstrates the role of career development within the human resource function. It goes beyond conventional interventions and includes key topics such as diversity, work-life balance, and ethics. Historically, the career development literature has been viewed either from the perspective of the individual (how to build a career) or from an economic perspective (how an organization benefits from developing employees). In this book, McDonald and Hite bring together the strengths of both traditions, offering an integrated framework for career development. The theoretical foundation expands on the counseling literature by incorporating the literature from human resource development and related fields. The application section reflects on the wide range of ages and working options that characterize the current and future workplace. The final section of the book addresses career development issues such as managing a diverse, global workforce; ethics; and work-life balance. This book will help prepare human resource development students, scholars, and practitioners to develop and maintain successful career development programs, and to foster more innovative research that advances the discourse.

New perspectives on career counseling and guidance in Europe Valérie Cohen-Scali,Jerome Rossier,Laura Nota.2017-10-11 In industrialized societies, individuals are facing major challenges that mobilize many of their psychological and social resources. The world of work is changing constantly. Adults have to adapt their technical skills and knowledge continuously. For teenagers and young adults, choosing a vocation and constructing their future career paths is becoming increasingly difficult. The migration of people and the globalization of the workforce raise questions about social inclusion and the future of affected individuals. These examples highlight of the importance of the field of Career Counseling and Guidance to support citizens individually and collectively in building their future. The challenges our societies face demonstrate how crucial the development of research in this field is. The European Doctoral Programme in Career Guidance and Counselling (ECADOC), funded by the European

Commission from 2013-2016, has brought together PhD students working on burning issues in this field, using various theoretical references and methodologies. The four parts of this book present a selection of innovative research aiming to find answers to the named challenges. Part 1 deals with key psychological processes involved in career construction of young adults. Part 2 presents research concerning transitions over the course of life. Part 3 covers research related to interventions of career guidance and counseling. Part 4 outlines perspectives for the future and proposes a European Research Agenda for our field of research. Perspectives on Current Research in Career Guidance and Counseling – Building Careers in Changing and Diverse Societies is dedicated to students, researchers and practitioners in the fields of education, career guidance, psychology, human resource management to inform them about very recent work and promote the development of innovative interventions and programmes.

Counselling for Maternal and Newborn Health Care World Health Organization.2010 The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. Counselling for Maternal and Newborn Health Care is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labor; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a review at the end of each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

Coaching, Counseling and Mentoring Florence Stone.2007-01-03 Coaching, counseling, and mentoring can dramatically improve employee productivity and satisfaction. But there's a big difference between continuously encouraging employees to do their jobs well (coaching), attempting to fix poor performance (counseling), and helping top performers excel (mentoring). Unfortunately, most managers don't truly understand how and when to do each. Coaching, Counseling & Mentoring provides helpful tools like self-assessments and real-life scenarios, and gives managers specific, practical guidance on using these techniques to improve the performance of all their people. This updated and revised second edition includes useful scripts for talking to employees about sensitive issues, and new material on topics including working with off-site employees, what to say when an employee denies a problem exists, whether or not to coach temps and part-timers, how to draw the line between the mentoring and supervisory role, and what to do when counseling fails. This is an essential guide for managers who want to build their confidence and skill in getting the most from their people.

Developing and Managing Your School Guidance and Counseling Program Norman C. Gysbers,Patricia Henderson.2014-11-21 The fifth edition of this bestseller expands and extends Gysbers and Henderson's acclaimed five-phase model of planning, designing, implementing, evaluating, and enhancing Pre-K-12 guidance and counseling programs. This enduring, influential textbook has been fully updated to reflect current theory and practice, including knowledge gained through various state and local adaptations of the model since publication of the last edition. Exciting additions to this new edition are increased attention to diversity and the range of issues that students present, counselor accountability, and the roles and responsibilities of district- and building-level guidance and counseling leaders in an increasingly complex educational environment. An abundant array of examples, sample forms, job descriptions, evaluation surveys, flyers, letters, and procedures used by various states and school districts clearly illustrate each step of program development. At the end of each chapter, a new feature called "Your Progress Check" functions as a tracking tool for growth at each stage of the change process. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.
