The Social Dimensions of Fiction Steven Tötösy de Zepetnek.1993 This work is a comparative study of nineteenth-century English-Canadian and French Canadian novel prefaces, a previously unexplored literary topic. As a study in Comparative Literature - with the application of a specific literary framework and methodology - the study conforms to theoretical and methodological postulates formulated in and prescribed by this framework when applied. This a priori postulate necessitates that the research on and the presentation of the Canadian novel preface be carried out in a specific manner, as follows. First, the study will establish the hypothesis that the preface to nineteenth-century English-Canadian and French-Canadian novels is a genre in its own right. This hypothesis will rest on the following: 1) a taxonomical survey of related terms meaning preface; 2) a survey of secondary literature of works dealing with the preface; 3) a discussion of the theoretical framework and methodology of the Empirical Theory of Literature and its appropriateness for the study of the preface; and 4) a discussion of the process of the compilation of the corpus of nineteenth-century Canadian novel prefaces (Chapter one). In a second step, the theoretical postulate outlined in the hypothesis will be put into practice by the development and production of a preface typology (Chapter two). In a third step, further tenets of the Empirical Theory of Literature will be tested on the corpus of the prefaces (Chapter three). In a fourth step, the prefaces will be analysed following the tenets formulated in and prescribed by the systemic framework applied (Chapter four).

A Portrait in Letters John Henry Stape,Owen Knowles.1996-01-01 A Portrait in Letters: Correspondence to and about Joseph Conrad offers an annotated selection of letters to Conrad preserved in widely scattered archives. Augmented by letters about his work and personality, the volume also contains a calendar of all known surviving correspondence addressed to him. An essential supplement to the Cambridge Edition of The Collected Letters of Joseph Conrad, A Portrait in Letters presents Conrad in the round, offering glimpses not only of the working writer but of the husband, parent, and friend. The letters offer new information about Conrad's literary circle and fill out numerous details about his career. Brief, authoritative biographies of the correspondents are included, and an introduction, description of editorial principles, and full index to the volume provide the scholarly contextualization and tools necessary for easy access to its contents.

The Cambridge History of Medieval Monasticism in the Latin West Alison I. Beach,Isabelle Cochelin.2020-01-09 Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

Threads and Traces Carlo Ginzburg.2012-09-02 This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

The Sounds of Early Cinema Richard Abel,Rick R. Altman.2001-10-03 The Sounds of Early Cinema is devoted exclusively to a little-known, yet absolutely crucial phenomenon: the ubiquitous presence of sound in early cinema. Silent cinema may rarely have been silent, but the sheer diversity of sound(s) and sound/image relations characterizing the first 20 years of moving picture exhibition can still astonish us. Whether instrumental, vocal, or mechanical, sound ranged from the improvised to the pre-arranged (as in scripts, scores, and cue sheets). The practice of mixing sounds with images differed widely, depending on the venue (the nickelodeon in Chicago versus the summer Chautauqua in rural Iowa, the music hall in London or Paris versus the newest palace cinema in New York City) as well as on the historical moment (a single venue might change radically, and many times, from 1906 to 1910). Contributors include Richard Abel, Rick Altman, Edouard Arnoldy, Mats Björkin, Stephen Bottomore, Marta Braun, Jean Châteauevert, Ian Christie, Richard Crangle, Helen Day-Mayer, John Fullerton, Jane Gaines, André Gaudreault, Tom Gunning, François Jost, Charlie Keil, Jeff Klenotic, Germain Lacasse, Neil Lerner, Patrick Loughney, David Mayer, Domi-nique Nasta, Bernard Perron, Jacques Polet, Lauren Rabinovitz, Isabelle Raynauld, Herbert Reynolds, Gregory A. Waller, and Rashit M. Yangirov.

Understanding Relations Between Scripts II Philippa M. Steele,Philip J. Boyes.2019-10-10 Contexts of and Relations between Early Writing Systems (CREWS) is a project funded by the European Research Council under the European Union's Horizon 2020 research and innovation programme (grant agreement No. 677758), and based in the Faculty of Classics, University of Cambridge. Understanding Relations Between Scripts II: Early Alphabets is the first volume in this series, bringing together ten experts on ancient writing, languages and archaeology to present a set of diverse studies on the early development of alphabetic writing systems and their spread across the Levant and Mediterranean during the second and first millennia BC. By taking an interdisciplinary perspective, it sheds new light on alphabetic writing not just as a tool for recording language but also as an element of culture.

Knowing about Genocide Joachim J. Savelsberg.2021-03-30 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. This book is freely available in an open access edition thanks to TOME (Toward an Open Monograph Ecosystem)—a collaboration of the Association of American Universities, the Association of University Presses, and the Association of Research Libraries—and the generous support of the University of Minnesota. Learn more at the TOME website, available at openmonographs.org. How do victims and perpetrators generate conflicting knowledge about genocide? Using a sociology of knowledge approach, Savelsberg answers this question for the Armenian genocide committed in the context of the First World War. Focusing on Armenians and Turks, he examines strategies of silencing, denial, and acknowledgment in everyday interaction, public rituals, law, and politics. Drawing on interviews, ethnographic accounts, documents, and eyewitness testimony, Savelsberg illuminates the social processes that drive dueling versions of history. He reveals counterproductive consequences of denial in an age of human rights hegemony, with implications for populist disinformation campaigns against overwhelming evidence.

Mary and Early Christian Women Ally Kateusz.2019-02-18 This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role

model for women leaders—women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom—Old Saint Peter’s Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz’s research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

New Orleans and the Global South: Caribbean, Creolization, Carnival Ottmar Ette, Gesine Müller. 2016-12-01 Innerhalb der USA gilt New Orleans seit jeher als die „unamerikanischste“ Stadt, als exotisch und anders, gar als „sozio-geographischer Unfall“. Hier überkreuzen sich nicht nur die Einflüsse verschiedener Kolonialkulturen, sondern auch die Routen des atlantischen Sklavenhandels und der asiatischen Arbeitsmigration und nicht zuletzt die ideellen wie materiellen Transferbewegungen zwischen den beiden Amerikas. Der vorliegende Band macht es sich zur Aufgabe, diese vielfältigen transarealen Zirkulationsprozesse zu analysieren und das Potential New Orleans' zur paradigmatischen Metropole des Globalen Südens auszuloten. Im Fokus stehen verschiedene Formen der kulturellen Kreolisierung, wie sie sich in der Sprache, der Literatur, der Musik, aber auch in Alltagsphänomenen wie dem Karneval oder Computerspielen manifestieren. Within the USA, New Orleans has long been considered the ‘un-American’ city, seen as exotic and different, even as a ‘socio-geographical accident’. It is a crossroads not only for the influences of different colonial cultures but also for the routes of the Atlantic slave trade and immigration of Asian workers, and not least for material and non-material transfer between the two Americas. This volume seeks to analyse these manifold transareal circulation processes and to explore New Orleans’s potential as a paradigmatic metropolis of the Global South. The focus is on different forms of creolisation as manifested in language, literature and music, but also in everyday phenomena such as Carnival or computer games.

Losing the Plot Malin Zimm. 2005 The architecture of the plotless novels and the proto-cinematic experiments of the late 19th century modulate between physical reality and fiction. They are ripe in their descriptive narrativity, expanding in the imagination of the consumer. Stephenson's imaginative transposition of book media into a Primer--A new form of narrative media that develops its narrative content directly from the environmental context of its reader - concludes the discussion of the thesis, highlighting interrelations between fictive and real space, influencing both writer and reader. The refusal of narrative plot deprives the reader of causality, but emphasises the fictitious spatial creation in which the reader becomes immersed. These spaces, by virtue of their disengagement from plot, allow us to revisit the possibilities of virtual space without common preconceptions concerning the creation or experience of digital mediating technology.

The Dragoman Renaissance E. Natalie Rothman. 2021-03-15 In *The Dragoman Renaissance*, E. Natalie Rothman traces how Istanbul-based diplomatic translator-interpreters, known as the dragomans, systematically engaged Ottoman elites in the study of the Ottoman Empire—eventually coalescing in the discipline of Orientalism—throughout the sixteenth and seventeenth centuries. Rothman challenges Eurocentric assumptions still pervasive in Renaissance studies by showing the centrality of Ottoman imperial culture to the articulation of European knowledge about the Ottomans. To do so, she draws on a dazzling array of new material from a variety of archives. By studying the sustained interactions between dragomans and Ottoman courtiers in this period, Rothman disrupts common ideas about a singular moment of cultural encounter, as well as about a docile and static Orient, simply acted upon by extraneous imperial powers. *The Dragoman Renaissance* creatively uncovers how dragomans mediated Ottoman ethno-linguistic, political, and religious categories to European diplomats and scholars. Further, it shows how dragomans did not simply circulate fixed knowledge. Rather, their engagement of Ottoman imperial modes of inquiry and social reproduction shaped the discipline of Orientalism for centuries to come. Thanks to generous funding from the Andrew W. Mellon Foundation, through *The Sustainable History Monograph Pilot*, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellpress.cornell.edu/cornell-open) and other repositories.

The Rationale of Central Banking and the Free Banking Alternative Vera Constance Smith. 1990 *The Rationale of Central Banking* was first published in England in 1936. Vera Smith spent her professional career in a variety of research positions. She wrote articles and books on money, banking, economic development, and the labor market and translated into English books by Wilhelm Röpke, Oskar Morgenstern, and Fritz Machlup. This book provides a scholarly review and judicious assessments of the experience and theory that bear on the issues of free banking and central banking. Its wide-ranging discussion identifies both the fallacies in the arguments for central banks and the influential fallacies in the arguments against free banking. Vera Smith's work should play a prominent role in any reappraisal of our monetary institutions.

The Pariahs of Yesterday Leslie Page Moch. 2012-03-30 This work looks at the surge of Bretons who left their homes in Western France in the latter half of the 19th century to live and work in Paris. Portrayed as backward, ignorant peasants they found no welcome until after WWII. Moch positions her work within immigration theory, connecting migration studies to theories about state projects of assimilation and about cultures of inclusion and exclusion.

Literary Translation, Reception, and Transfer Norbert Bachleitner. 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of ‘travelling’ and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of ‘travelling’, with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and

cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

Dicey.1985-09-30 A starting point for the study of the English Constitution and comparative constitutional law, The Law of the Constitution elucidates the guiding principles of the modern constitution of England: the legislative sovereignty of Parliament, the rule of law, and the binding force of unwritten conventions.

Decadent Genealogies Barbara Spackman.2018-03-15 Barbara Spackman here examines the ways in which decadent writers adopted the language of physiological illness and alteration as a figure for psychic otherness. By means of an ideological and rhetorical analysis of scientific as well as literary texts, she shows how the rhetoric of sickness provided the male decadent writer with an alibi for the occupation and appropriation of the female body.

Medicine and Technology in Canada, 1900-1950 Allison Kirk-Montgomery, Shelley McKellar.2008 Over the past two centuries, technology has played a significant role in the understanding, diagnosis, and treatment of disease in Canada. Technology -- in the form of instruments, devices, machines, drugs, and systems -- has aided medical science, altered medical practice, and changed the illness experience of patients. Nineteenth-century medical technology consisted of predominantly surgical and diagnostic instruments used by individual practitioners. By the twentieth century, large, hospital-based technologies operated by teams emerged as powerful tools in the identification and management of disease [...] Our selection of diseases, research initiatives, and medical treatments highlights larger patterns in medicine, identifies Canadian contributions, and considers the impact of these innovations on Canadian society. In this fifty-year period, public health initiatives limited the spread of contagious diseases and addressed the problem of impure water and milk. Medical practitioners used X-rays to diagnose tuberculosis and to treat cancer. The discovery of insulin in Toronto in 1921-22 offered a management therapy for diabetes patients, who were otherwise facing certain death.

The Good Soldier Ford Madox Ford.2018-10-07 *The Good Soldier* A Tale of Passion by Ford Madox Ford At the fashionable German spa town Bad Nauheim, two wealthy, fin de siècle couples - one British, the other American - meet for their yearly assignation. As their story moves back and forth in time between 1902 and 1914, the fragile surface propriety of the pre - World War I society in which these four characters live is ruptured - revealing deceit, hatred, infidelity, and betrayal. The Good Soldier is Edward Ashburnham, who, as an adherent to the moral code of the English upper class, is nonetheless consumed by a passion for women younger than his wife - a stoic but fallible figure in what his American friend, John Dowell, calls the saddest story I ever heard.

Scientific Babel Michael D. Gordin.2015-04-13 English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

Language of the Snakes Andrew Ollett.2017-10-10 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Language of the Snakes* traces the history of the Prakrit language as a literary phenomenon, starting from its cultivation in courts of the Deccan in the first centuries of the common era. Although little studied today, Prakrit was an important vector of the *kavya* movement and once joined Sanskrit at the apex of classical Indian literary culture. The opposition between Prakrit and Sanskrit was at the center of an enduring "language order" in India, a set of ways of thinking about, naming, classifying, representing, and ultimately using languages. As a language of classical literature that nevertheless retained its associations with more demotic language practices, Prakrit both embodies major cultural tensions—between high and low, transregional and regional, cosmopolitan and vernacular—and provides a unique perspective onto the history of literature and culture in South Asia.

Punched-Card Systems and the Early Information Explosion, 1880-1945 Lars Heide.2009-04-27 At a time when Internet use is closely tracked and social networking sites supply data for targeted advertising, Lars Heide presents the first academic study of the invention that fueled today's information revolution: the punched card. Early punched cards helped to process the United States census in 1890. They soon proved useful in calculating invoices and issuing pay slips. As demand for more sophisticated systems and reading machines increased in both the United States and Europe, punched cards served ever-larger data-processing purposes. Insurance companies, public utilities, businesses, and governments all used them to keep detailed records of their customers, competitors, employees, citizens, and enemies. The United States used punched-card registers in the late 1930s to pay roughly 21 million Americans their Social Security pensions, Vichy France used similar technologies in an attempt to mobilize an army against the occupying German forces, and the Germans in 1941 developed several punched-card registers to make the war effort—and surveillance of minorities—more effective. Heide's analysis of these three major punched-card systems, as well as the impact of the invention on Great Britain, illustrates how different cultures collected personal and financial data and how they adapted to new technologies. This comparative study will interest students and scholars from a wide range of disciplines, including the history of technology, computer science, business history, and management and organizational studies.

Salvator Rosa in French Literature James Patty.2005-01-31 *Salvator Rosa* (1615-1673) was a colorful and controversial Italian painter, talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patty analyzes Rosa's tremendous influence on French writers, chiefly those of the nineteenth century, such as Stendhal, Honoré de Balzac, Victor Hugo, George Sand, and Théophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, *Salvator Rosa in French Literature* forms a narrative account of the reception of Rosa's life and work in the world of French letters. James S. Patty, professor emeritus of French at Vanderbilt University, is the author of *Dürer in French Letters*. He lives in Nashville, Tennessee.

Babylonian Topographical Texts A. R. George.1992 Babylonian Topographical Texts collects for the first time all Babylonian and Assyrian texts of the first millennium B.C. that belong to what is designated the topographical genre. Much of the material is not previously published. The book is largely concerned with Babylon. Seventeen texts on this city now allow its topography to be properly understood for the first time. Another seventeen texts concern the cities of Nippur, Assur, Kish and Uruk. Also included are thirty miscellaneous texts, mostly new, which bear upon topographical matters. The text editions and translations are supplemented by a philological and topical commentary. The work is concluded with full indices, and 57 plates of cuneiform copies.

God's Property Nada Moumtaz.2021-08-10 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Up to the twentieth century, Islamic charitable endowments provided the material foundation of the Muslim world. In Lebanon, with the fall of the Ottoman Empire and the imposition of French colonial rule, many of these endowments reverted to private property circulating in the marketplace. In contemporary Beirut, however, charitable endowments have resurfaced as mosques, Islamic centers, and nonprofit organizations. A historical anthropology in dialogue with Islamic law, God's Property demonstrates how these endowments have been drawn into secular logics—no longer the property of God but of the Muslim community—and shaped by the modern state and modern understandings of charity and property. Although these transformations have produced new kinds of loyalties and new ways of being in society, Moumtaz's ethnography reveals the furtive persistence of endowment practices that perpetuate older ways of thinking of one's self and one's responsibilities toward family and state.
