**Sound, Speech, Music in Soviet and Post-Soviet Cinema**

Lilya Kaganovsky, Masha Salazkina. 2014-03-07 This innovative volume challenges the ways we look at both cinema and cultural history by shifting the focus from the centrality of the visual and the literary toward the recognition of acoustic culture as formative of the Soviet and post-Soviet experience. Leading experts and emerging scholars from film studies, musicology, music theory, history, and cultural studies examine the importance of sound in Russian, Soviet, and post-Soviet cinema from a wide range of interdisciplinary perspectives. Addressing the little-known theoretical and artistic experimentation with sound in Soviet cinema, changing practices of voice delivery and translation, and issues of aesthetic ideology and music theory, this book explores the cultural and historical factors that influenced the use of voice, music, and sound on Soviet and post-Soviet screens.

*Orchestral "Pops" Music* Lucy Manning. 2013-10-10 In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised

handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral “pops” concerts that is comprehensive, informative, and current. Manning’s emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of Orchestral “Pops” Music includes at least 1,000 new title listings. Orchestral “Pops” Music: A Handbook is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

### **Overture for 'Orphée Aux Enfers' Jacques**

Offenbach.2015-04-22 This famous overture is often not credited to the person who actually composed it, the Vienna conductor Carl Binder (1816-1860). It was composed for a Vienna production of Offenbach's operetta and incorporates a some of the more well-known tunes, including the very popular Galop, or Can-Can. The composer's own opening for his 1858 operetta is more of a short prelude or introduction, in contrast to the orchestral showpiece created by Biinder. The score offered here is a reduced-format version of the newly edited and engraved score prepared by Clark McAlister first issued in large score and parts in 2008.

**Dmitri Shostakovich** John Riley.2004-11-26 Of all the major Soviet composers who worked in the cinema, the most prominent was Dmitri Shostakovich who, in addition to over a hundred works for the stage and concert hall, wrote scores for almost forty films. Yet despite his reputation this work, when not completely overlooked, has been poorly judged by the same criteria as his other music. Likewise, while much attention has been paid to Soviet film, the crucial role played by the scores is all too often forgotten. This, the first book in English to look at Shostakovich's cinema career, discusses every film he scored, looking at the films themselves, tracing their relationship to the changing concerns and policies of the Soviet state and examining how the music works in context. John Riley also gives a fascinating account of the composer's life. This highly readable book will be welcomed
