**Historical Dictionary of Australian and New Zealand Cinema** Karina Aveyard, Albert Moran, Errol Vieth. 2017-12-26 This second edition of Historical Dictionary of Australian and New Zealand Cinema contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on leading films as well as many directors, writers, actors and producers.

*Egalitarianism and the Generation of Inequality* Henry Phelps Brown. 1988-11-03 The belief that existing distributions of income and wealth are unjust has come to be widely held, and has prompted the inclusion of egalitarian measures in many political programmes. This work uses the methods of reasoned history and comparative statistics to arrive at an assessment of egalitarianism. After reviewing the outlooks of the ancient and medieval worlds, it traces the rise of egalitarianism from the Renaissance and Reformation onwards. A complementary approach is provided by a wide survey of actual distributions of income and wealth: what is known of them in the past, what form they take in contemporary societies, and the economic processes that generate them. These comprehensive studies lead to an inquiry into the authority of equality as a principle of social philosophy, and the practicability of egalitarian policy.

*The Encyclopedia of Racism in American Films* Salvador Jimenez Murguía. 2018-04-12 From D.W. Griffith's *Birth of a Nation* in 1915 to the recent *Get Out*, audiences and critics alike have responded to racism in motion pictures for more than a century. Whether subtle or blatant, racially biased images and narratives erase minorities, perpetuate stereotypes, and keep alive practices of discrimination and marginalization. Even in the 21st century, the American film industry is not "color blind," evidenced by films such as *Babel* (2006), *A Better Life*, (2011), and *12 Years a Slave* (2013). The *Encyclopedia of Racism in American Film* documents one facet of racism in the film industry, wherein historically underrepresented peoples are misrepresented—through a lack of roles for actors of color, stereotyping, negative associations, and an absence of rich, nuanced characters. Offering insights and analysis from over seventy scholars, critics, and activists, the volume highlights issues such as: Hollywood's diversity crisis White Savior films Magic Negro tropes The disconnect between screen images and lived realities of African Americans, Latinos, Native Americans, and Asians A companion to the ever-growing field of race studies, this volume opens up a critical dialogue on an always timely issue. The *Encyclopedia of Racism in American Film* will appeal to scholars of cinema, race and ethnicity studies, and cultural history.

**Postmodern Pirates** Susanne Zhanial. 2019-12-16 *Postmodern Pirates* offers a comprehensive analysis of Disney's *Pirates of the Caribbean* series and the pirate motif in British literature and Hollywood movies through the lens of postmodern film theories.

**Real Images** Josephine Woll. 1999-12-31 During the thaw from Stalin's death in 1953 to the late 1960s and Khrushchev's rule, Soviet society experienced major transformations. So did films. In this first comprehensive account of the relationship between politics and cinema in this period, Josephine Woll skillfully interweaves cultural history with film analysis to explore how movies at once responded to the changes around them and helped engender them. She considers dozens of individual films within the context of Khrushchev's policies and the artistic foment they inspired.

**Oasis: What's The Story** Iain Robertson. 2016-07-28 'You can only marvel at Robertson's brilliant audacity as he attacks the on-the-road-off-their-heads genre with giddy aplomb... He is either a genius or an utter madman' - NME 'Robertson's raw portrayal of Liam Gallagher makes every indiscretion you've heard about seem perfectly feasible!' - TIME OUT Oasis were a band like bands used to be. Hard-drinking and substance abusing. If they liked you, they loved you. If they didn't, you had to be prepared for confrontation. They were also the most viscerally exciting rock band to emerge from Britain for years. Iain Robertson is used to tough jobs - after retiring from the

Parachute Regiment, he took on jobs guarding George Harrison, Gary Moore and Johnny Rotten. But keeping Oasis on the rails after debut album Definitely Maybe ignited their rise toward global superstardom would be the toughest gig of them all. Iain was side-by-side with Oasis as their road manager and minder, twenty-four hours a day, eight days a week, as they took on the world and won. No one was closer to the maelstrom. His story is the defining chronicle of life on tour with Oasis.

**Hierarchy in the Forest** Christopher BOEHM, Christopher Boehm. 2009-06-30 Are humans by nature hierarchical or egalitarian? *Hierarchy in the Forest* addresses this question by examining the evolutionary origins of social and political behavior. Christopher Boehm, an anthropologist whose fieldwork has focused on the political arrangements of human and nonhuman primate groups, postulates that egalitarianism is in effect a hierarchy in which the weak combine forces to dominate the strong. The political flexibility of our species is formidable: we can be quite egalitarian, we can be quite despotic. *Hierarchy in the Forest* traces the roots of these contradictory traits in chimpanzee, bonobo, gorilla, and early human societies. Boehm looks at the loose group structures of hunter-gatherers, then at tribal segmentation, and finally at present-day governments to see how these conflicting tendencies are reflected. *Hierarchy in the Forest* claims new territory for biological anthropology and evolutionary biology by extending the domain of these sciences into a crucial aspect of human political and social behavior. This book will be a key document in the study of the evolutionary basis of genuine altruism. Table of Contents: The Question of Egalitarian Society Hierarchy and Equality Putting Down Aggressors Equality and Its Causes A Wider View of Egalitarianism The Hominoid Political Spectrum Ancestral Politics The Evolution of Egalitarian Society Paleolithic Politics and Natural Selection Ambivalence and Compromise in Human Nature References Index Reviews of this book: This well-written book, geared toward an audience with background in the behavioral and evolutionary sciences but accessible to a broad readership, raises two general questions: 'What is an egalitarian society?' and 'How have these societies evolved?'...[Christopher Boehm] takes the reader on a journey from the Arctic to the Americas, from Australia to Africa, in search of hunter-gatherer and tribal societies that emanate the egalitarian ethos--one that promotes generosity, altruism and sharing but forbids upstartism, aggression and egoism. Throughout this journey, Boehm tantalizes the reader with vivid anthropological accounts of ridicule, criticism, ostracism and even execution--prevalent tactics used by subordinates in egalitarian societies to level the social playing field...*Hierarchy in the Forest* is an interesting and thought-provoking book that is surely an important contribution to perspectives on human sociality and politics. --Ryan Earley, American Scientist Reviews of this book: Combing an exhaustive ethnographic survey of human societies from groups of hunter-gatherers to contemporary residents of the Balkans with a detailed analysis of the behavioral attributes of non-human primates (chimpanzees, gorillas, bonobos), Boehm focuses on whether humans are hierarchical or egalitarian by nature...[Boehm's hypotheses] are invariably intriguing and well documented...He raises topics of wide interest and his book should get attention. --Publishers Weekly Boehm has been the first to look at egalitarianism with a cold, unromantic eye. He sees it as a victory over hierarchical tendencies, which are equally marked in our species. I would predict that his insightful examination will reverberate within anthropology and the social sciences as well as among biologists interested in the evolution of social systems. --Frans de Waal, Emory University *Hierarchy in the Forest* is an original and stimulating contribution to thinking about the origins of egalitarianism. I personally find Boehm's ideas convincing, but whether one agrees with him or not, he has formulated his hypotheses in such a way that this book is likely to set the terms of the discussion for the foreseeable future. --Barbara Smuts, University of Michigan The most unique and interesting feature of this clear, well written book is the way Boehm links the study of nonhuman primates (particularly chimpanzees) to traditional concepts of political anthropology. As a political scientist, I was intrigued by Boehm's suggestion that democracy, both ancient and modern, could be understood as the expression of the same natural dispositions that support the egalitarianism of nomadic bands and sedentary tribes. I expect that many scholars in biology, anthropology, and the social sciences

would learn from this stimulating book. Even those who disagree with Boehm's arguments are likely to be provoked in instructive ways. --Larry Arnhart, Northern Illinois University  
Chris Boehm boldly and cogently attacks a whole orthodoxy in anthropology which sees hunter-gatherer 'egalitarianism' as somehow the basic form of human society. No praise can be too high for Boehm's brilliant and courageous book. --Robin Fox, Rutgers University

**Radicalism in American Silent Films, 1909-1929** Michael Slade Shull.2011-01-04 This work identifies 436 American silent films released between 1909 and 1929 that engaged the issues of militant labor and revolutionary radicalism. It begins with an extended introduction and analytical chapters that investigate the ways in which the American motion picture industry portrayed the interrelationships between labor radicals, exploitative capitalists, socialist idealists and Bolsheviks during this critical twenty-year period. Each entry contains a detailed plot synopsis, citations to primary sources, coding indicating the presence or absence of 14 predominant discernible biases (including anti- and pro-capitalism, socialism, revolution and labor), and subject coding keyed to 64 related terms and concepts (including agitators, Bolshevism, bombs, female radicals, militias, mobs, political refugees, and strikes). These statistical data included in the filmography are presented in a series of charts and are fully integrated into the historical-critical text. Total number and percentage statistics for the instances of these coded biases and traits are given per year, per era, and overall.

Giants Pat Summerall.2010-09-23 One the greatest NFL broadcasters distills the wisdom of two of the greatest coaches As both a tight end and a place kicker for the 1958 Giants (back when special teams were part of the defense), Pat Summerall was the only person to be coached by both Vince Lombardi and Tom Landry, the team's offensive and defensive coaches, respectively. In telling the story of that legendary season, which ended with the Giants losing to the Colts in the NFL championship game, Summerall explores the wisdom that was passed along to him that made him a better player, and later a better broadcaster and better a man. The wide range of lessons covers personal behavior (react like a football player; training doesn't end in training camp; don't dwell on your success), work relationships (the boss keeps time, they can get somebody who wants to play) and winning (believe in your heart that you'll win, try to win every game, but focus on one game at a time) The book also lays out the Lombardi Code (Speak Confidently, and Prepare) and the Landry Code (Faith, Family and Football) Summerall tells vivid and inspirational stories about the game on and off the field that bring the lessons to life

**Red Dog (film tie-in)** Louis de Bernières.2011-04-01 The story of the legend of Red Dog, the most famous red Kelpie in Western Australia. Red Dog is a West Australian, a lovable friendly red kelpie who found widespread fame as a result of his habit of travelling all over Western Australia, hitching rides over thousands of kilometres, settling in places for months at a time and adopting new families before heading off again to the next destination and another family - sometimes returning to say hello years later. While visiting Australia, Louis de Bernieres heard the legend of Red Dog and decided to do some research on this extraordinary story. After travelling to Western Australia and meeting countless people who'd known and loved Red Dog, Louis decided to spread Red Dog's fame a little further. The result is an utterly charming tale of an amazing dog with places to go and people to see. Red Dog will delight readers and animal lovers of all ages. This book inspired the film, Red Dog, which has gone on to become one of Australia's highest grossing films of the past few decades.

**Left Bank** Kate Muir.2007-06-26 A chic peek at the glittering inhabitants of Paris's most exclusive neighborhood With the sting of a good Camembert, Kate Muir's fiction debut is a sophisticated, fun, and delightfully ironic look at family life, Left Bank style. Olivier and Madison Malin are the toasts of Rive Gauche. A philosopher and media personality, Olivier is the darling of the Paris cafés with his perfectly tousled hair and mistress de jour on speed dial. An American film star turned Parisian "It" girl, Madison busies herself playing the part of the bon vivant. But when a crisis occurs with their daughter, these self-centered parents are forced to focus on something more than their own reflections. Left Bank is at once a delicious satire of Parisian pretension and a celebration of the city's alluring glamour.

**The Origins of Cool in Postwar America** Joel Dinerstein.2018-09-26 Cool. It was a new word and a new way to be, and in a single generation, it became the supreme compliment of American culture. The Origins of Cool in Postwar America uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style. As Joel Dinerstein reveals in this dynamic book, cool began as a stylish defiance of racism, a challenge to suppressed sexuality, a philosophy of individual rebellion, and a youthful search for social change. Through eye-opening portraits of iconic figures, Dinerstein illuminates the cultural connections and artistic innovations among Lester Young, Humphrey Bogart, Robert Mitchum, Billie Holiday, Frank Sinatra, Jack Kerouac, Albert Camus, Marlon Brando, and James Dean, among others. We eavesdrop on conversations among Jean-Paul Sartre, Simone de Beauvoir, and Miles Davis, and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the white Negro and black cool. We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir, jazz, and existentialism. Out of this mix, Dinerstein sketches nuanced definitions of cool that unite concepts from African-American and Euro-American culture: the stylish stoicism of the ethical rebel loner; the relaxed intensity of the improvising jazz musician; the effortless, physical grace of the Method actor. To be cool is not to be hip and to be hot is definitely not to be cool. This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir, jazz, existential literature, Method acting, blues, and rock and roll. Dinerstein reveals that they came together to create something completely new—and that something is cool.

**Golden Miles** Clinton Walker.2009 Golden Miles is a book about cars, people and Australia in the late 60s and early 70s. With the energy and irreverent humour of a fanzine, the acuity of investigative journalism, and the eye of an art book, this new, expanded edition of Golden Miles explores the archetypal product of Australian suburbia - the muscle car. Clinton Walker is the author of seven books and several hit documentaries including the 2001 series on the history of Australian rock, Long Way to the Top. 'A rambling journey that's provocative and lavishly illustrated ... as much for pop culture lovers as rev heads.' - Sydney Morning Herald.

**Cajun and Zydeco Dance Music in Northern California** Mark F. DeWitt.2008-01-01 Queen Ida. Danny Poullard. Documentary filmmaker Les Blank. Chris Strachwitz and Arhoolie Records. These are names that are familiar to many fans of Cajun music and zydeco, and they have one other thing in common—longtime residence in the San Francisco Bay Area. They are all part of a vibrant scene of dancing and live Louisiana-French music that has evolved over several decades. Cajun and Zydeco Dance Music in Northern California traces how this region of California has been able to develop

and sustain dances several times a week with more than a dozen bands. Description of this active regional scene opens into a discussion of several historical trends that have affected life and music in Louisiana and the nation. The book portrays the diversity of people who have come together to adopt Cajun and Creole dance music as a way to cope with a globalized, media-saturated world. Ethnomusicologist Mark F. DeWitt innovatively weaves together interviews with musicians and dancers (some from Louisiana, some not), analysis of popular media, participant observation as a musician and dancer, and historical perspectives from wartime black migration patterns, the civil rights movement, American folk and blues revivals, California counterculture, and the rise of cultural tourism in Cajun Country. In so doing, he reveals the multifaceted appeal of celebrating life on the dance floor, Louisiana-French style.

Behave Robert M. Sapolsky. 2017-05-02 Why do we do the things we do? Over a decade in the making, this game-changing book is Robert Sapolsky's genre-shattering attempt to answer that question as fully as perhaps only he could, looking at it from every angle. Sapolsky's storytelling concept is delightful but it also has a powerful intrinsic logic: he starts by looking at the factors that bear on a person's reaction in the precise moment a behavior occurs, and then hops back in time from there, in stages, ultimately ending up at the deep history of our species and its genetic inheritance. And so the first category of explanation is the neurobiological one. What goes on in a person's brain a second before the behavior happens? Then he pulls out to a slightly larger field of vision, a little earlier in time: What sight, sound, or smell triggers the nervous system to produce that behavior? And then, what hormones act hours to days earlier to change how responsive that individual is to the stimuli which trigger the nervous system? By now, he has increased our field of vision so that we are thinking about neurobiology and the sensory world of our environment and endocrinology in trying to explain what happened. Sapolsky keeps going--next to what features of the environment affected that person's brain, and then back to the childhood of the individual, and then to their genetic makeup. Finally, he expands the view to encompass factors larger than that one individual. How culture has shaped that individual's group, what ecological factors helped shape that culture, and on and on, back to evolutionary factors thousands and even millions of years old. The result is one of the most dazzling tours de horizon of the science of human behavior ever attempted, a majestic synthesis that harvests cutting-edge research across a range of disciplines to provide a subtle and nuanced perspective on why we ultimately do the things we do...for good and for ill. Sapolsky builds on this understanding to wrestle with some of our deepest and thorniest questions relating to tribalism and xenophobia, hierarchy and competition, morality and free will, and war and peace. Wise, humane, often very funny, *Behave* is a towering achievement, powerfully humanizing, and downright heroic in its own right.

*Albion's Seed* David Hackett Fischer. 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

*What's Left?* Jack Lawrence Luzkow. 2006 The writings of Karl Marx explored the tensions between

the laws of socialist science and a utopian longing for socialism; between a science of history and a prophetic hope based on moral and ethical ideals. His writings examined history and argued for the necessity of communism to achieve the moral ideal of utopia. Although Marx was the last great utopian, his work has been adapted in Russia and China to rationalize and justify totalitarian regimes, but it has also inspired Western utopian writers like Walter Benjamin, Herbert Marcuse, and Ernst Bloch. *What's Left? Marxism, Utopianism and the Revolt against History*, explores what remains of the Marxist and Utopian Left after the death of totalitarian utopianism and authoritarian state socialism and how Marxism still provides a powerful critique of present day globalization.-- Publisher's website.

**Kindred** Octavia E. Butler.2022-09-20 The New York Times best-selling author's time-travel classic that makes us feel the horrors of American slavery and indicts our country's lack of progress on racial reconciliation The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise" (*New York Times*).

**Visual Vitriol** David A. Ensminger.2011-06-16 *Visual Vitriol: The Street Art and Subcultures of the Punk and Hardcore Generation* is a vibrant, in-depth, and visually appealing history of punk, which reveals punk concert flyers as urban folk art. David Ensminger exposes the movement's deeply participatory street art, including flyers, stencils, and graffiti. This discovery leads him to an examination of the often-overlooked presence of African Americans, Latinos, women, and gays and lesbians who have widely impacted the worldviews and music of this subculture. Then Ensminger, the former editor of fanzine *Left of the Dial*, looks at how mainstream and punk media shape the public's outlook on the music's history and significance. Often derided as litter or a nuisance, punk posters have been called instant art, Xerox art, or DIY street art. For marginalized communities, they carve out spaces for resistance. Made by hand in a vernacular tradition, this art highlights deep-seated tendencies among musicians and fans. Instead of presenting punk as a predominately middle-class, white-male phenomenon, the book describes a convergence culture that mixes people, gender, and sexualities. This detailed account reveals how members conceptualize their attitudes, express their aesthetics, and talk to each other about complicated issues. Ensminger incorporates an important array of scholarship, ranging from sociology and feminism to musicology and folklore, in an accessible style. Grounded in fieldwork, *Visual Vitriol* includes over a dozen interviews completed over the last several years with some of the most recognized and important members of groups such as Minor Threat, The Minutemen, The Dils, Chelsea, Membranes, 999, Youth Brigade, Black Flag, Pere Ubu, the Descendents, the Buzzcocks, and others.

*The Cultural Career of Coolness* Ulla Haselstein, Irmela Hijiya-Kirschner, Catrin Gersdorf, Elena Giannoulis. 2013-10-10 Today, coolness is a term most often used in advertising trendy commodities, or, more generally, in promoting urban lifestyles. *The Cultural Career of Coolness* explores the history of the term as a metaphor for affect control and aesthetic detachment, charts various cultural practices of coolness in the United States and Japan, and links them to the rationalization of intimate relations and an incorporation of disaffection in modernity.

**Creativity, Inc. (The Expanded Edition)** Ed Catmull, Amy Wallace. 2014-04-08 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Muster Dogs Aticia Grey. 2021-11-01 An outback story of kelpies, red dirt and the future of a family farm. Now streaming on ABC iView and Netflix. Life on the land is often boom or bust, forever at the mercy of Mother Nature. Aticia 'Teesh' Grey took on the manager's role on her family's West Pilbara cattle station a few years after picking up her first team of kelpies. Almost immediately she was faced with a severe and devastating drought that forced her to question everything she thought she knew about the fragile country of her home. Through the heartbreaking rollercoaster journey that followed, Teesh's loyal canine companions proved invaluable as she and her family worked towards securing the property's future. The versatility of these amazing dogs took the station in directions no one anticipated. In 2020, Teesh got the chance to showcase the potential of working dogs more widely. Joining the ABC TV series Muster Dogs, Teesh and four other farming families took on the challenge of training new kelpie pups and testing their worth on the properties they run. Through this experience they showed the bonds that are formed between human and dog and vividly demonstrated a positive environmental future for farming in rural Australia. This is a story of love, laughter, loss and hope, as Teesh finds her feet in an ever-changing world with the help of the dogs who have stood by her side through it all. **Proud Boys and the White Ethnostate** Alexandra Minna Stern.2019-07-16 What is the alt-right? What do they believe, and how did they take center stage in the American social and political consciousness? Historian Alexandra Minna Stern excavates the alt-right memes that have erupted online and digs to the root of the far right's motivations: their deep-seated fear of an oncoming "white genocide" that can only be remedied through aggressive action to reclaim white power. The alt-right has expanded significantly throughout America's cultural, political, and digital landscapes: racist, sexist, and homophobic beliefs that were previously unspeakable have become commonplace, normalized, and accepted—endangering American democracy and society as a whole. When asked to address the Proud Boys and growing far right violence, President Trump directed the group to "stand back and stand by;" and just two weeks before President Joe Biden's inauguration, a white supremacist mob breached the US Capitol—earning praise from the Proud Boys leader amongst threats of future violence. In order to dismantle the destructive movement that has invaded our public consciousness and threatens American democracy, we must first understand the core beliefs that drive the alt-right. Through careful analysis, Stern brings awareness to the underlying concepts that guide the alt-right and its overlapping forms of racism, xenophobia, and transphobia. She explains the key ideas of "red-pilling," strategic trolling, gender essentialism, and the alt-right's ultimate fantasy: a future where minorities have been "cleansed" from the body politic and a white ethnostate is established in the United States. By unearthing the hidden mechanisms that power white nationalism, Stern reveals just how pervasive the far right truly is.

**12 Rules for Life** Jordan B. Peterson.2018-01-23 #1 NATIONAL BESTSELLER #1 INTERNATIONAL BESTSELLER What does everyone in the modern world need to know? Renowned psychologist Jordan B. Peterson's answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life. 12 Rules for Life shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers.

**Playing the Waves** Jan Simons.2007 Dogma 95, the avant-garde filmmaking movement founded by the Danish director Lars von Trier and three of his fellow directors, was launched in 1995 at an elite cinema conference in Paris—when von Trier was called upon to speak about the future of film but instead showered the audience with pamphlets announcing the new movement and its manifesto. A refreshingly original critical commentary on the director and his practice, *Playing the Waves* is a paramount addition to one of new media's most provocative genres: games and gaming. *Playing the*

Waves cleverly puns on the title of one of von Trier's most famous features and argues that Dogma 95, like much of the director's low-budget realist productions, is a game that takes cinema beyond the traditional confines of film aesthetics and dramatic rules. Simons articulates the ways in which von Trier redefines the practice of filmmaking as a rule-bound activity, and stipulates the forms and structures of games von Trier brings to bear on his films, as well as the sobering lessons he draws from economic and evolutionary game theory. Much like the director's films, this fascinating volume takes the traditional point of view of film theory and film aesthetics to the next level and demonstrates we have much to learn from the perspective of game studies and game theory.
