Rumi's Secret Brad Gooch.2017-01-17 The acclaimed New York Times bestselling author of *Smash Cut*, *Flannery*, and *City Poet* delivers the first popular biography of Rumi, the thirteenth-century Persian poet revered by contemporary Western readers. Ecstatic love poems of Rumi, a Persian poet and Sufi mystic born over eight centuries ago, are beloved by millions of readers in America as well as around the world. He has been compared to Shakespeare for his outpouring of creativity and to Saint Francis of Assisi for his spiritual wisdom. Yet his life has long remained the stuff of legend rather than intimate knowledge. In this breakthrough biography, Brad Gooch brilliantly brings to life the man and puts a face to the name Rumi, vividly coloring in his time and place—a world as rife with conflict as our own. The map of Rumi's life stretched over 2,500 miles. Gooch traces this epic journey from Central Asia, where Rumi was born in 1207, traveling with his family, displaced by Mongol terror, to settle in Konya, Turkey. Pivotal was the disruptive appearance of Shams of Tabriz, who taught him to whirl and transformed him from a respectable Muslim preacher into a poet and mystic. Their vital connection as teacher and pupil, friend and beloved, is one of the world's greatest spiritual love stories. When Shams disappeared, Rumi coped with the pain of separation by composing joyous poems of reunion, both human and divine. Ambitious, bold, and beautifully written, *Rumi's Secret* reveals the unfolding of Rumi's devotion to a religion of love, remarkable in his own time and made even more relevant for the twenty-first century by this compelling account.

**The Selected Writings of Eqbal Ahmad** Eqbal Ahmad.2006 Activist, journalist, and theorist,

Eqbal Ahmad (1934-1999) was admired and consulted by revolutionaries and activists as well as policymakers and academics. In articles and columns published in such journals as the Nation, New York Review of Books, Monthly Review, and newspapers in Pakistan and Cairo, Ahmad inspired new ways of thinking about global issues. Whether writing on the rise of militant Islam, the conflict in Kashmir, U.S. involvement in Vietnam, or the cynical logic of Cold War geopolitics, Ahmad offered incisive, passionate, and often prophetic analyses of the major political events and movements of the second half of the twentieth century. This work is the first to collect Ahmad's writings in a single volume. It reflects his distinct understanding of world politics as well as his profound sense of empathy for those living in poverty and oppression. He was a fierce opponent of imperialism and corruption and advocated democratic transformations in postcolonial and third-world societies. A uniquely perceptive critic of colonialism and U.S. foreign policy, Ahmad was equally vigilant in his criticisms of third-world dictatorships. Like few other writers, Ahmad's life experiences shaped his political views. He grew up amidst the turmoil of postcolonial India, worked alongside the Algerian FLN in their fight against the French occupation, and later became a prominent spokesperson for peace between Israel and Palestine.

**The Neurology of Religion** Alasdair Coles, Joanna Collicutt. 2019-11-07 Examines what can be learnt about the brain mechanisms underlying religious practice from studying people with neurological disorders.

Twelve Years a Slave Solomon Northup. 2014-03-08 Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for

12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

**Culturally Responsive School Leadership** Muhammad Khalifa.2020-07-27 Culturally Responsive School Leadership focuses on how school leaders can effectively serve minoritized students—those who have been historically marginalized in school and society. The book demonstrates how leaders can engage students, parents, teachers, and communities in ways that positively impact learning by honoring indigenous heritages and local cultural practices. Muhammad Khalifa explores three basic premises. First, that a full-fledged and nuanced understanding of “cultural responsiveness” is essential to successful school leadership. Second, that cultural responsiveness will not flourish and succeed in schools without sustained efforts by school leaders to define and promote it. Finally, that culturally responsive school leadership comprises a number of crucial leadership behaviors, which include critical self-reflection; the development of culturally responsive teachers; the promotion of inclusive, anti-oppressive school environments; and engagement with students’ indigenous community contexts. Based on an ethnography of a school principal who exemplifies the practices and behaviors of culturally responsive school leadership, the book provides educators with pedagogy and strategies for immediate implementation.

**Maternal Critical Care** Marc van de Velde,Helen Scholefield,Dr Lauren A Plante.2013-07-04 Addresses the challenges of managing critically ill obstetric patients, with chapters authored by intensivists/anesthesiologists and obstetricians/maternal-fetal medicine specialists.

**Jataka Tales** H. T. Francis,E. J. Thomas.2014-07-24 Originally published in 1916, this book presents a selection from the Jatakas translated into English. The selection was made 'with the purpose of bringing together the Jataka stories of most interest, both intrinsically, and also from the point of

view of the folklorist.' Notes and illustrative figures are also included. This book will be of value to anyone with an interest in the Jataka tales and Indian literature.

Abafi Miklós Jósika.2013-12-03 Witness the story of a Hungarian Knight, Abafi, as he transforms from an evil man, who does selfish acts of his every whim, to a kind and noble man, who does more for others than he does for himself. Watch him make hard life decisions and search for his one true love. Experience the story that had a great effect on Nikola Tesla's life, so stated by him in his autobiography, My Inventions. In this translated text, he states, after reading this book, that: This work somehow awakened my dormant powers of will and I began to practice self-control. At first my resolutions faded like snow in April, but in a little while I conquered my weakness and felt a pleasure I never knew before - that of doing as I willed. This book is finally available to the English speaking community, having not been fully translated into English before, as far as the editor knows.

A Dictionary of the Yoruba Language Nigeria University Press.2001 Based upon the nineteenth century standard work on the Yoruba language, and first ever English-Yoruba, Yoruba-English dictionary, this new edition has been revised and enlarged considerably. The dictionary contains about 50,000 references and translations; Yoruba pronunciation guidance; examples of how words are used; contemporary meanings and interpretations; and reference to grammatical usage and parts of speech. There is also an extensive list of commonly occurring birds, plants and trees, translated from Yoruba into English alongside their botanical equivalents.

Implementing Change Gene E. Hall, Shirley M. Hord.2011 A research-based guide for educators to the practical methods of understanding, evaluating and facilitating the change process. Significantly revised based on student and instructor feedback, the new third edition of Implementing Change continues to examine the ways in which change processes are experienced by those on the ground

while adding new features, new material and the most current research. Based primarily on the Concerns Based Adoption Model (CBAM), this user-friendly text focuses on introducing constructs that can be used by those engaged in facilitating change processes as well as those who are evaluating and studying change. Rather than maintaining a bird's eye view of change processes, each chapter introduces a research-based, research-verified construct about change that captures the complexity of implementing change and the diversity of reactions to it. With a stress on pedagogical aids, each chapter incorporates practical examples, sample research, case studies, reflection questions and examples of common roadblocks to change.

*Current Trends in the Development and Teaching of the four Language Skills* Esther Usó-Juan, Alicia Martínez-Flor. 2006-01-01 *Current Trends in the Development and Teaching of the four Language Skills* builds connections from theory in the four language skills to instructional practices. It comprises twenty-one chapters that are grouped in five sections. The first section includes an introductory chapter which presents a communicative competence framework developed by the editors in order to highlight the key role the four skills play in language learning and teaching. The next four sections each represent a language skill: Section II is devoted to listening, Section III to speaking, Section IV to reading and Section V to writing. In order to provide an extensive treatment of each of the four skills, each section starts with a theoretical chapter which briefly illustrates advances in the understanding of how each skill is likely to be learned and taught, followed by four didactically oriented chapters authored by leading international specialists. These pedagogical chapters deal specifically with four key topics: 1) areas of research that influence the teaching of a particular skill; 2) an overview of strategies or techniques necessary for developing a particular skill; 3) an approach to the academic orientation of a particular skill, and 4) unique aspects of teaching

each skill. Moreover, all chapters incorporate two common sections: pre-reading questions at the beginning of the chapter in order to stimulate readers' interest in its content, and a section entitled suggested activities at the end of the chapter in order to allow readers put the ideas and concepts presented into practice. The accessible style and practical focus of the volume make it an ideal tool for teachers, teacher trainers, and teacher trainees who are involved in teaching the four language skills in a second or foreign language context.

**The Carr Family Records** Edson Irving Carr.1894

The Archaeology and Ethnography of Central Africa James Denbow.2014 This book provides the first detailed description of the prehistory of the Loango coast of west-central Africa over the course of more than 3000 years.

**Dietary Reference Intakes for Energy, Carbohydrate, Fiber, Fat, Fatty Acids, Cholesterol, Protein, and Amino Acids** Institute of Medicine, Food and Nutrition Board, Standing Committee on the Scientific Evaluation of Dietary Reference Intakes, Subcommittee on Interpretation and Uses of

Dietary Reference Intakes, Subcommittee on Upper Reference Levels of Nutrients, Panel on the Definition of Dietary Fiber, Panel on Macronutrients. 2005-11-28 Responding to the expansion of scientific knowledge about the roles of nutrients in human health, the Institute of Medicine has developed a new approach to establish Recommended Dietary Allowances (RDAs) and other nutrient reference values. The new title for these values Dietary Reference Intakes (DRIs), is the inclusive name being given to this new approach. These are quantitative estimates of nutrient intakes applicable to healthy individuals in the United States and Canada. This new book is part of a series of books presenting dietary reference values for the intakes of nutrients. It establishes recommendations for energy, carbohydrate, fiber, fat, fatty acids, cholesterol, protein, and amino acids. This book presents new approaches and findings which include the following: The establishment of Estimated Energy Requirements at four levels of energy expenditure Recommendations for levels of physical activity to decrease risk of chronic disease The establishment of RDAs for dietary carbohydrate and protein The development of the definitions of Dietary Fiber, Functional Fiber, and Total Fiber The establishment of Adequate Intakes (AI) for Total Fiber The establishment of AIs for linolenic and  $\alpha$ -linolenic acids Acceptable Macronutrient Distribution Ranges as a percent of energy intake for fat, carbohydrate, linolenic and  $\alpha$ -linolenic acids, and protein Research recommendations for information needed to advance understanding of macronutrient requirements and the adverse effects associated with intake of higher amounts Also detailed are recommendations for both physical activity and energy expenditure to maintain health and decrease the risk of disease.

Family Album U. S. A. James Kelty, Alvin Cooperman. 1991-05 Family album, U.S.A. is designed for all students who have studied English for at least one year. Classroom activities exploit the wealth of

video material to encourage student interaction and to develop and integrate the four language skills: listening, speaking, reading, and writing.

Artificial Intelligence in the 21st Century Stephen Lucci, Danny Kopec. 2015-12-10 This new edition provides a comprehensive, colorful, up-to-date, and accessible presentation of AI without sacrificing theoretical foundations. It includes numerous examples, applications, full color images, and human interest boxes to enhance student interest. New chapters on robotics and machine learning are now included. Advanced topics cover neural nets, genetic algorithms, natural language processing, planning, and complex board games. A companion DVD is provided with resources, applications, and figures from the book. Numerous instructors' resources are available upon adoption. eBook Customers: Companion files are available for downloading with order number/proof of purchase by writing to the publisher at [info@merclearning.com](mailto:info@merclearning.com). FEATURES: • Includes new chapters on robotics and machine learning and new sections on speech understanding and metaphor in NLP • Provides a comprehensive, colorful, up to date, and accessible presentation of AI without sacrificing theoretical foundations • Uses numerous examples, applications, full color images, and human interest boxes to enhance student interest • Introduces important AI concepts e.g., robotics, use in video games, neural nets, machine learning, and more thorough practical applications • Features over 300 figures and color images with worked problems detailing AI methods and solutions to selected exercises • Includes DVD with resources, simulations, and figures from the book • Provides numerous instructors' resources, including: solutions to exercises, Microsoft PP slides, etc.

Second Language Listening John Flowerdew, Lindsay Miller. 2005-02-07 As an essential part of communicative competence, listening is a skill which deserves equal treatment with the other basic skills of speaking, reading, and writing. Second Language Listening combines up-to-date listening

theory with case studies of actual pedagogical practice. The authors describe current models of listening theory and exemplify each with a textbook task. They address the role of technology in teaching listening, questioning techniques, and testing. Second Language Listening is designed to be used with both pre-service and in-service teachers who are involved in the teaching of listening or the design of pedagogic materials for listening.

Emerging Asian Regionalism .2008 As Asia grows and prospers, its economies are increasingly vital to each other -and to the world. Led by a team of ADB staff, scholars, and advisers to regional policy makers, this study highlights what is at stake the emerging Asian regionalism and lays out the ground for further discussion on how to move forward.

World Development Report 2016 World Bank Group.2016-01-14 Digital technologies are spreading rapidly, but digital dividends--the broader benefits of faster growth, more jobs, and better services--are not. If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone, why can't others around the world do the same? If 8 million entrepreneurs in China--one third of them women--can use an e-commerce platform to export goods to 120 countries, why can't entrepreneurs elsewhere achieve the same global reach? And if India can provide unique digital identification to 1 billion people in five years, and thereby reduce corruption by billions of dollars, why can't other countries replicate its success? Indeed, what's holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver? Two main reasons. First, nearly 60 percent of the world's population are still offline and can't participate in the digital economy in any meaningful way. Second, and more important, the benefits of digital technologies can be offset by growing risks. Startups can disrupt incumbents, but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms. Employment

opportunities may be greater, but not when the labor market is polarized. The internet can be a platform for universal empowerment, but not when it becomes a tool for state control and elite capture. The World Development Report 2016 shows that while the digital revolution has forged ahead, its 'analog complements'--the regulations that promote entry and competition, the skills that enable workers to access and then leverage the new economy, and the institutions that are accountable to citizens--have not kept pace. And when these analog complements to digital investments are absent, the development impact can be disappointing. What, then, should countries do? They should formulate digital development strategies that are much broader than current information and communication technology (ICT) strategies. They should create a policy and institutional environment for technology that fosters the greatest benefits. In short, they need to build a strong analog foundation to deliver digital dividends to everyone, everywhere.

*Global Economic Prospects* World Bank Group.2018 *Global Economic Prospects* is a World Bank Group Flagship Report. Published semiannually, the report includes analysis of topical policy challenges faced by developing countries through in-depth research in the January edition, and shorter analytical pieces in the June edition.

The Oxford Handbook of Deaf Studies in Learning and Cognition Marc Marschark,Harry Knoors.2020-04-15 In recent years, the intersection of cognitive psychology, developmental psychology, and neuroscience with regard to deaf individuals has received increasing attention from a variety of academic and educational audiences. Both research and pedagogy have addressed questions about whether deaf children learn in the same ways that hearing children learn, how signed languages and spoken languages might affect different aspects of cognition and cognitive development, and the ways in which hearing loss influences how the brain processes and retains

information. There are now a number of preliminary answers to these questions, but there has been no single forum in which research into learning and cognition is brought together. The Oxford Handbook of Deaf Studies in Learning and Cognition aims to provide this shared forum, focusing exclusively on learning, cognition, and cognitive development from theoretical, psychological, biological, linguistic, social-emotional, and educational perspectives. Each chapter includes state-of-the-art research conducted and reviewed by international experts in the area. Drawing this research together, this volume allows for a synergy of ideas that possesses the potential to move research, theory, and practice forward.

Global Economic Prospects, June 2019 World Bank Group.2019-07-11 Global growth appears to be stabilizing after a period of marked weakness, but it remains fragile. A modest recovery in emerging market and developing economies continues to be constrained by subdued investment, which is dampening prospects and impeding progress toward achieving critical development goals. Downside risks to the outlook remain elevated, and policymakers continue to face major challenges to boost resilience and foster long-term growth. this issue includes essays on the benefits and risks of government borrowing, recent investment weakness in emerging market and developing economies, the pass-through of currency depreciations to inflation, and the evolution of growth in low-income countries.

**My Life with the Taliban** Abdul Salam Zaeef.2010-01-01 This is the autobiography of Abdul Salam

Zaeef, a senior former member of the Taliban. His memoirs, translated from Pashto, are more than just a personal account of his extraordinary life. *My Life with the Taliban* offers a counter-narrative to the standard accounts of Afghanistan since 1979. Zaeef describes growing up in rural poverty in Kandahar province. Both of his parents died at an early age, and the Russian invasion of 1979 forced him to flee to Pakistan. He started fighting the jihad in 1983, during which time he was associated with many major figures in the anti-Soviet resistance, including the current Taliban head Mullah Mohammad Omar. After the war Zaeef returned to a quiet life in a small village in Kandahar, but chaos soon overwhelmed Afghanistan as factional fighting erupted after the Russians pulled out. Disgusted by the lawlessness that ensued, Zaeef was one among the former mujahidin who were closely involved in the discussions that led to the emergence of the Taliban, in 1994. Zaeef then details his Taliban career as civil servant and minister who negotiated with foreign oil companies as well as with Afghanistan's own resistance leader, Ahmed Shah Massoud. Zaeef was ambassador to Pakistan at the time of the 9/11 attacks, and his account discusses the strange phoney war period before the US-led intervention toppled the Taliban. In early 2002 Zaeef was handed over to American forces in Pakistan, notwithstanding his diplomatic status, and spent four and a half years in prison (including several years in Guantanamo) before being released without having been tried or charged with any offence. *My Life with the Taliban* offers a personal and privileged insight into the rural Pashtun village communities that are the Taliban's bedrock. It helps to explain what drives men like Zaeef to take up arms against the foreigners who are foolish enough to invade his homeland.

A Strangeness in My Mind Orhan Pamuk.2015-10-06 Since his boyhood in a poor village in Central Anatolia, Mevlut Karatas has fantasized about what his life would become. Not getting as far in school as he'd hoped, at the age of twelve, he comes to Istanbul-the center of the world-and is immediately enthralled both by the city being demolished and the new one that is fast being built. He follows his father's trade, selling boza on the street, and hopes to become rich like other villagers who have settled on the desolate hills outside the booming metropolis. But chance seems to conspire against him. He spends three years writing love letters to a girl he saw just once at a wedding, only to elope by mistake with her sister. And though he grows to cherish his wife and the family they have, his relations all make their fortunes while his own years are spent in a series of jobs leading nowhere; he is sometimes attracted to the politics of his friends and intermittently to the lodge of a religious guide. But every evening, without fail, he still wanders the streets of Istanbul, selling boza and wondering at the strangeness in his mind, the sensation that makes him feel different from everyone else, until fortune conspires once more to let him understand at last what it is he has always yearned for. Told from the perspectives of many beguiling characters, *A Strangeness in My Mind* is a modern epic of coming of age in a great city, and a mesmerizing narrative sure to take its place among Pamuk's finest achievements.

Daughter of Persia Sattareh Farman-Farmaian.1992 The Remarkable story of the daughter of a once powerful and wealthy shazdeh, or prince, Farmaian tells a fascinating tale of growing up in the 1930s in a Persian harem compound in Tehran. Breaking with Muslim tradition, she became an independent woman and found herself arrested as a counterrevolutionary. A dramatic window on Iran's journey through the twentieth century.

**Smart Grids and Their Communication Systems** Ersan Kabalci, Yasin Kabalci. 2018-09-01 The book presents a broad overview of emerging smart grid technologies and communication systems, offering a helpful guide for future research in the field of electrical engineering and communication engineering. It explores recent advances in several computing technologies and their performance evaluation, and addresses a wide range of topics, such as the essentials of smart grids for fifth generation (5G) communication systems. It also elaborates the role of emerging communication systems such as 5G, internet of things (IoT), IEEE 802.15.4 and cognitive radio networks in smart grids. The book includes detailed surveys and case studies on current trends in smart grid systems and communications for smart metering and monitoring, smart grid energy storage systems, modulations and waveforms for 5G networks. As such, it will be of interest to practitioners and researchers in the field of smart grid and communication infrastructures alike.

**Radicalization, Terrorism, and Conflict** Rachel Monaghan, Tali Walters. 2013-07-26 Radicalization, Terrorism, and Conflict is a collection of scholarly works, authored by international researchers and leading thinkers, addressing contemporary, history-making issues in international security and terrorism from an interdisciplinary perspective. Contributors to this edited volume represent global perspectives, ideas, analysis, and research. Radicalization, Terrorism, and Conflict transmits relevant findings, theory, and policy ideas for scholars of security and terrorism studies, for policy makers, and to the general public who are interested in keeping up with this global area of concern. It provides a jumping-off point for conversation and collaboration that can lead to new knowledge and broader understanding. As an interdisciplinary collection of manuscripts, this book integrates and synthesizes theory, research, and public policy analysis in an effort to solve the complex questions and problems presented by this topic. Recognition of the need to approach the

problems of radicalization, terrorism, and interpersonal conflict from an interdisciplinary perspective is gaining strength within academic settings, policy institutes, and global conferences. Unlike most recent edited books on the subject that are on the market at this time, *Radicalization, Terrorism, and Conflict* provides an interdisciplinary approach to understanding related current issues. This approach encourages a broader perspective and thought process, trans-discipline and global collaboration and cooperation, and an integrated synthesis of knowledge. *Radicalization, Terrorism, and Conflict* opens with an analysis of the ongoing phenomenon of the Arab Spring. In Section 1, contributors look at how players in the theatres of local and international terror become radicalized. Section 2 analyzes how terrorism becomes manifest in the global theatre and how governments and their actors attempt to prevent it. Section 3 presents research to bring understanding to the actors' behavior and provide settings for future collaboration in understanding these phenomena.

*Empathy in Health Professions Education and Patient Care* Mohammadreza Hojat.2016-04-21 In this thorough revision, updating, and expansion of his great 2007 book, *Empathy in Patient Care*, Professor Hojat offers all of us in healthcare education an uplifting magnum opus that is sure to greatly enhance how we conceptualize, measure, and teach the central professional virtue of empathy. Hojat's new *Empathy in Health Professions Education and Patient Care* provides students and professionals across healthcare with the most scientifically rigorous, conceptually vivid, and comprehensive statement ever produced proving once and for all what we all know intuitively - empathy is healing both for those who receive it and for those who give it. This book is filled with great science, great philosophizing, and great 'how to' approaches to education. Every student and practitioner in healthcare today should read this and keep it by the bedside in a permanent place of

honor. Stephen G Post, Ph.D., Professor of Preventive Medicine, and Founding Director of the Center for Medical Humanities, Compassionate Care, and Bioethics, School of Medicine, Stony Brook University Dr. Hojat has provided, in this new edition, a definitive resource for the evolving area of empathy research and education. For those engaged in medical student or resident education and especially for those dedicated to efforts to improve the patient experience, this book is a treasure trove of primary work in the field of empathy. Leonard H. Calabrese, D.O., Professor of Medicine, Cleveland Clinic Lerner College of Medicine of Case Western Reserve University The latest edition of *Empathy in Health Professions Education and Patient Care* grounds the clinical art of empathic caring in the newly recognized contributions of brain imagery and social cognitive neuroscience. Furthermore, it updates the accumulating empirical evidence for the clinical effects of empathy that has been facilitated by the widespread use of the Jefferson Scale of Empathy, a generative contribution to clinical research by this book's author. In addition, the book is so coherently structured that each chapter contributes to an overall understanding of empathy, while also covering its subject so well that it could stand alone. This makes *Empathy in Health Professions Education and Patient Care* an excellent choice for clinicians, students, educators and researchers. Herbert Adler, M.D., Ph.D. Clinical Professor of Psychiatry and Human Behavior, Sidney Kimmel Medical College at Thomas Jefferson University It is my firm belief that empathy as defined and assessed by Dr. Hojat in his seminal book has far reaching implications for other areas of human interaction including business, management, government, economics, and international relations. Amir H. Mehryar, Ph.D., Emeritus Professor of Behavioral Sciences and Population Studies, Institute for Research and Training in Management and Planning, Tehran, Iran  
*Latin Alive* Joseph B. Solodow.2010-01-21 In *Latin Alive*, Joseph Solodow tells the story of how Latin

developed into modern French, Spanish, and Italian, and deeply affected English as well. Offering a gripping narrative of language change, Solodow charts Latin's course from classical times to the modern era, with focus on the first millennium of the Common Era. Though the Romance languages evolved directly from Latin, Solodow shows how every important feature of Latin's evolution is also reflected in English. His story includes scores of intriguing etymologies, along with many concrete examples of texts, studies, scholars, anecdotes, and historical events; observations on language; and more. Written with crystalline clarity, this book tells the story of the Romance languages for the general reader and to illustrate so amply Latin's many-sided survival in English as well.

The Day After Tomorrow Otaviano Canuto, Marcelo M. Giugale. 2010-09-27 This book is a vision of how economic policy will evolve in developing countries over the next three-to-five years, delivered by renown practitioners working at the world's leading development institution.

**Development at Risk** Ann Zammit. 2003 Refers to the United Nations Global Compact initiative launched in 2000, involving private business in an effort to speed development in the South. Urges for a stronger commitment of transnational corporations (TNC) to corporate social responsibility (CSR) and to working in an economic policy framework that is contributing to sustainable development and poverty reduction in developing countries. Mentions the role of ILO's core labour standards.

**The New Political Islam** Emmanuel Karagiannis. 2018-01-02 Islamist political parties and groups are on the rise throughout the Muslim world, constituting a new political Islam that is global in scope and yet local in action. Emmanuel Karagiannis explains how various Islamists have endorsed human rights, democracy, and justice to gain influence and mobilize supporters.

Sovereign Debt and the Financial Crisis Carlos A. Primo Braga, Gallina A. Vincelette. 2010-11-16 The

book presents and discusses policy-relevant research on the current debt challenges which developing, emerging market and developed countries face. Its value added lies in the integrated approach of drawing on theoretical research and evidence from practitioners' experience in developing and emerging market countries.

The Shahnama of Shah Tahmasp Sheila Canby.2014-04-29 The publication of this book commemorates the one thousandth anniversary of the completion of the Shahnama, the Persian national epic, which was written down in more than 50,000 couplets by the poet Firdausi. It also celebrates the most lavishly illustrated version of this text, a manuscript produced for the Safavid Shah Tahmasp, who ruled Iran from 1524 to 1576--Director's Foreword, p. 7.

**Opportunities for Organ Donor Intervention Research** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Issues in Organ Donor Intervention Research.2018-01-21 The organ donation and transplantation system strives to honor the gift of donated organs by fully using those organs to save and improve the quality of the lives of their recipients. However, there are not enough donated organs to meet the demand and some donated organs may not be recovered, some recovered organs may not be transplanted, and some transplanted organs may not function adequately. Organ donor intervention research can test and assess interventions (e.g., medications, devices, and donor management protocols) to maintain or improve organ quality prior to, during, and following transplantation. The intervention is administered either while the organ is still in the deceased donor or after it is recovered from the donor but before it is transplanted into a recipient. Organ donor intervention research presents new challenges to the organ donation and transplantation community because of ethical questions about who should be considered a human subject in a research study,

whose permission and oversight are needed, and how to ensure that such research does not threaten the equitable distribution of a scarce and valuable resource. *Opportunities for Organ Donor Intervention Research* focuses on the ethical, legal, regulatory, policy, and organizational issues relevant to the conduct of research in the United States involving deceased organ donors. This report provides recommendations for how to conduct organ donor intervention research in a manner that maintains high ethical standards, that ensures dignity and respect for deceased organ donors and their families, that provides transparency and information for transplant candidates who might receive a research organ, and that supports and sustains the public's trust in the process of organ donation and transplantation.

*Internet Addiction* Christian Montag, Martin Reuter. 2017-03-27 The second edition of this successful book provides further and in-depth insight into theoretical models dealing with Internet addiction, as well as includes new therapeutical approaches. The editors also broach the emerging topic of smartphone addiction. This book combines a scholarly introduction with state-of-the-art research in the characterization of Internet addiction. It is intended for a broad audience including scientists, students and practitioners. The first part of the book contains an introduction to Internet addiction and their pathogenesis. The second part of the book is dedicated to an in-depth review of neuroscientific findings which cover studies using a variety of biological techniques including brain imaging and molecular genetics. The third part of the book focuses on therapeutic interventions for Internet addiction. The fourth part of the present book is an extension to the first edition and deals with a new emerging potential disorder related to Internet addiction – smartphone addiction. Moreover, in this second edition of the book new content has been added. Among others, the reader will find an overview of theoretical models dealing with Internet addiction, results from twin studies

in the context of Internet addiction and additional insights into therapeutic approaches to Internet addiction.
