L'appellativisation du prénom Vincent Balnat.2018-03-26 Cette étude est consacrée au passage du prénom au nom commun en allemand et en français et aux mots qui en résultent, les déonomastiques de prénoms tels que Metze prostituée, Hanswurst guignol, catin et jean-foutre. Couvrant la période du XIIe au XXIe siècle, ce travail repose sur une importante base de données, les items étant issus pour l'essentiel de dictionnaires historiques. Il fait d'abord le point sur l'état de la recherche relative aux déonomastiques en allemand et en français, sur la notion de prototype du déonomastique de prénom et sur les aspects sémantiques propres à ce type de mots. L'auteur dégage ensuite les principaux facteurs linguistiques et extralinguistiques qui ont pu favoriser l'émergence d'une signification lexicale, avant de classer les items collectés de manière à faire apparaître deux caractéristiques particulièrement nettes de ces déonomastiques, à savoir la forte polysémie et la tendance à la péjoration. En conclusion, le travail présente quelques réflexions à propos de l'évolution, passée et présente, de ce phénomène linguistique bien particulier que l'appellativisation du prénom dans les deux langues.

parcours des femmes et remonte à nos ancêtres afin de nous amener à mieux comprendre que très souvent, nos blessures ne nous appartiennent pas. Nous les trainons inconsciemment, nous en payons le prix, et dans le pire des cas, nous les transmettons à nos filles. Afin que les répétitions cessent pour nous libérer et ainsi éviter ce mal à l'âme aux générations à venir, il est important de comprendre le pouvoir que nous avons sur les douleurs engendrées avant notre naissance. Il est question ici d'une compréhension du mécanisme de fonctionnement, des subtilités de dons involontaires et, finalement, d'un éveil afin d'accéder au plein potentiel qui vit en chaque femme.

L'épanouissement de notre féminité est synonyme d'une vie amoureuse assumée et réussie, d'une carrière fleurissante, mais avant tout, d'une vie familiale remplie d'amour et d'équilibre vécue en pleine conscience. Un hymne à la femme comme jamais il en a été écrit!

Travel Narratives in Translation, 1750-1830 Alison

Martin,Susan Pickford.2013-05-07 This book examines how non-fictional travel accounts were rewritten, reshaped, and reoriented in translation between 1750 and 1850, a period that saw a sudden surge in the genre's popularity. It explores how these translations played a vital role in the transmission and circulation of knowledge about foreign peoples, lands, and customs in the Enlightenment and Romantic periods. The collection makes an important contribution to travel writing studies by looking beyond metaphors of mobility and cultural transfer to focus specifically on what happens to travelogues in translation. Chapters range from discussing essential differences between the original and translated text to relations between authors and translators, from intra-European narratives of Grand Tour travel to scientific voyages round the world, and from established male travellers and translators to their historically less visible female counterparts. Drawing on European travel writing in English, French, German, Spanish, and Portuguese, the book charts how travelogues were selected for translation; how they were reworked to acquire new aesthetic, political, or gendered identities; and how they sometimes acquired a radically different character and content to meet the needs and expectations of an emergent international readership. The contributors address aesthetic, political, and gendered aspects of travel writing in translation, drawing productively on other disciplines and research areas that encompass aesthetics, the history of science, literary geography, and the history of the book.
