Relational Social Work Fabio Folgheraiter. 2003-10-30 In this innovative book, a revised English edition of an important Italian text, Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. He draws on Italian experience and practice in community care and development to foster a deeper understanding of the relational core of social 'problems' and 'solutions', demonstrating an alternative approach to the current trend in positivistic evidence-based methods. The text explores how the interested parties in social care (users, carers, neighbours, volunteers, professional workers, managers, policy makers) can acquire a shared power in care planning and decision making. Folgheraiter demonstrates that when this networking and empowerment occurs, caring initiatives become truly social based and their efficacy increases. This book provides the framework for the repositioning of social care practice in relation to the state and civil society. The model of practice proposed is an important step towards the development of networks that can effect change locally, nationally and globally.

Christianity, Truth, and Weakening Faith Gianni Vattimo, René Girard. 2010-02-16 The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual

discourse. These arguments often polarize around simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives. Christianity, Truth, and Weakening Faith advances just such a dialogue, featuring the collaboration of two major philosophers known for their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately conclude that secularism and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In other words, Christianity is the religion of the exit from religion, and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share their unparalleled insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world.

Cat and Fish Joan Grant. 2017-09-12 Cat and Fish come from different worlds - he from the land, she from the sea. But when they meet in the park one night, they like each other's looks. Cat shows Fish his world and teaches her how to climb, how to take shelter from the rain, and how to stay warm. But Fish misses the sea, so Cat takes her back and meets her friends and discovers the water world. Then the trouble starts. Opposites may attract, but can they find common ground and stay friends? Neil Curtis's stunning black-and-white illustrations make this whimsical story of how two unlikely soul mates overcome their differences spring to life, enchanting young readers and their parents alike.

The Poems of Catullus Gaius Valerius Catullus.1925

The Black Star of Mu Mary Blindflowers.2020 The Black Star of Mu is a loop. In some way it is a timeless novel without head neither tail because the head corresponds to the tail in a circular return, in a tracking process in which even Time takes form and looks at the events sitting on a bench. The essence of this image is given by numerous polysemous universes contained one inside the other that reach specular results. The protagonist is anarchy, principal element of the narration on which the various characters insert like pins on a pillow. The plot is a mix of dreamlike and reality of past and present. This representation appears deformed in symbols constantly referred to a metaphysical beyond that acquires flesh and blood as a real entity even if extrahuman. The action motive is the power in name of which innocent blood is spilled. The narrative expands in the temporal space of a potential fall on the Upper World that will offer occasion and tool to sing the song of Mu and its capital Dailorg, the stronghold of the free Underground World where the inhabitants can die but never get old because eternal things don't change in the traditional sense of the word. The evil, incarnated in the wizard defeating the frogs, will violate using the art of black magic, through the door of doubt, the parallelism among the worlds. The pearly path of the Great Mothers of Mu will shake after the establishment of a phallogocentric and state-controlled system whose soldiers will be ranks of dead ones. Nevertheless, the resistance of Mu will unveil unexpected consequences passing the Unknowable Beyond until the philosophical prospect of the antimatter.

The Ends of Our Tethers Alasdair Gray.2005-01-13 Fans of the work of Donald Barthelme, Kurt Vonnegut, George Saunders, and T. Coraghessan Boyle will revel in Alasdair Gray's masterful, witty collection. Gray's stories defy genre, and his angular, playful style, prodigious wit, and razor-sharp intellect are matched by his remarkable skill with the short-story form. In Job's Skin Game, the

narrator humbly tells his life story like the evenings news. During a moment of awkward revelation, he shares the strangely exquisite pleasure he receives from scratching at the skin condition he's developed since losing his two sons in the Twin Towers tragedy and a small fortune in the dot-com meltdown. In *Big Pockets with Button Flaps*, a wily old man teases and taunts a pair of punk teenage girls as their confrontation takes on social implication through lightning-fast transfers of power and wit. *The Ends of Our Tethers* is vintage Gray--accessible, experimental, mischievous, wide ranging, beautifully written, and wise.

The Cinema of Me Alisa Lebow.2012-05-29 When a filmmaker makes a film with herself as a subject, she is already divided as both the subject matter of the film and the subject making the film. The two senses of the word are immediately in play - the matter and the maker—thus the two ways of being subjectified as both subject and object. Subjectivity finds its filmic expression, not surprisingly, in very personal ways, yet it is nonetheless shaped by and in relation to collective expressions of identity that can transform the cinema of 'me' into the cinema of 'we'. Leading scholars and practitioners of first-person film are brought together in this groundbreaking collection to consider the theoretical, ideological, and aesthetic challenges wrought by this form of filmmaking in its diverse cultural, geographical, and political contexts.

The Artist As Therapist Arthur Robbins.2000 In this classic text Art Robbins explores the role of the art therapist in integrating aesthetics and psychodynamics into the therapeutic process. He argues that psychological phenomena have their aesthetic counterparts, and that incorporating these elements facilitates the therapeutic process. The artist in the therapist responds to the patient's use of colour, space, form and energy; the therapist uses his or her artist's reaction to ascertain the psychodynamics of the piece. Drawing on his extensive experience as a psychoanalyst, psychologist, art therapist and sculptor, Robbins weaves together object relations theory and principles of art to create a more cohesive understanding of therapeutic treatment. Now reissued by Jessica Kingsley Publishers, The Artist as Therapist integrates art and psychology and has profound implications for all those working in these fields.

Gustav Mahler Donald Mitchell.1980-01-01 Available again for a new generation of Mahlerians, Donald Mitchell's famous study of the composer's early life and music, revised and updated in 1980, includes a new introduction by the author, and supplementary addenda, which bring this classic work once again to the forefront of Mahler studies. Tracing Mahler's life from his birth in Bohemia, then part of the mighty Austro-Hungarian empire, to his early works (many now lost) Gustav Mahler: The Early Years forms an indispensable prelude to the period during which the cycle of great symphonies was to evolve. The conflicts which came to mark Mahler's music and personality had their beginnings in his childhood and youth. Without understanding the territorial, social and familial conflicts of this time one cannot truly appreciate the impulses behind the major symphonies and song cycles of his later years.
