**Seaforth World Naval Review 2019** Conrad Waters.2018-10-30  
Now celebrating its tenth edition, World Naval Review provides an affordable yet authoritative summary of global naval developments over the past 12 months. Regional surveys of fleet evolution and procurement by editor Conrad Waters are supplemented by in-depth articles from a range of subject experts focusing on significant new warships, technological advances, and specific navies. Features in this edition include extended reviews of the new aircraft carriers USS Gerald R. Ford and HMS Queen Elizabeth, the largest ships ever to serve in their respective fleets. Technological subjects include assessments of naval communications by Norman Friedman and autonomous systems by Richard Scott, while David Hobbs' usual review of naval aviation is expanded to include a broader analysis of key trends over the last decade.

[This Thing of Darkness](#) Joan Neuberger.2019-03-15 This Thing of Darkness, Joan Neuberger's engrossing production history of Sergei Eisenstein's Ivan the Terrible, is a major contribution to the study of Eisenstein and thus informs the history and theory of cinema and the study of Soviet culture and politics. Neuberger's ability to mine, interpret, and connect Eisenstein's voluminous, intriguingly digressive writings makes this book exceptional.—  
Karla Oeler, Stanford University Sergei Eisenstein's unfinished masterpiece, Ivan the Terrible, was no ordinary movie. Commissioned by Joseph Stalin in 1941 to justify state terror in the sixteenth century and in the twentieth, the film's politics, style, and epic scope aroused controversy even before it was released. In This Thing of Darkness, Joan Neuberger offers a

sweeping account of the conception, making, and reception of *Ivan the Terrible* that weaves together Eisenstein's expansive thinking and experimental practice with a groundbreaking new view of artistic production under Stalin. Drawing on Eisenstein's unpublished production notebooks, diaries, and manuscripts, Neuberger's riveting narrative chronicles Eisenstein's personal, creative, and political challenges and reveals the ways cinematic invention, artistic theory, political critique, and historical and psychological analysis went hand in hand in this famously complex film. Neuberger's bold arguments and daring insights into every aspect of Eisenstein's work during this period, together with her ability to lucidly connect his wide-ranging late theory with his work on *Ivan*, show the director exploiting the institutions of Soviet artistic production not only to expose the cruelties of Stalin and his circle but to challenge the fundamental principles of Soviet ideology itself. *Ivan the Terrible*, she argues, shows us one of the world's greatest filmmakers and one of the 20th century's greatest artists observing the world around him and experimenting with every element of film art to explore the psychology of political ambition, uncover the history of recurring cycles of violence and lay bare the tragedy of absolute power.

**Democracy at the Local Level** Timothy D. Sisk.2001 In today's globalising world, there is growing emphasis on local democracy. More than ever, cities need new ideas for ways of managing the political challenges and opportunities that arise from increased urbanisation and globalisation. Governing effectively at the local level is all the more urgent as vigorous local civic engagement builds the foundation for a strong and more enduring national-level democracy. Organised into six chapters and written by experts from around the world this handbook offers: practical suggestions for designing systems of local governance; principles and policies for managing culturally diverse cities; choices for enhancing local elections and representative democracy; options for expanding citizen participation; recommendations for the international community for enhancing local democracy.

belongs to the magnate J. P. Morgan, darling of the international aristocracy and one of the city's richest men. Flamboyant, brilliant, beautiful, Belle is among New York society's most sought after intellectuals. She also hides a secret. Although she looks white, she is African American, the daughter of a famous black activist who sees her desire to hide her origins as the consummate betrayal. Torn between history's ineluctable imperatives and the freedom to belong to the society of her choosing, Belle's drama, which plays out in a violently racist America, is one that resonates forcefully, and illuminatingly even today. The fruit of years of research and interviews, Alexandra Lapierre's magnificent novel recounts the struggles, victories, and heartbreaks of a woman who is free, astonishingly determined, daring, and fully, exuberantly alive.

*The Stone Carvers* Jane Urquhart.2010-10-29 Set in the first half of the twentieth century, but reaching back to Bavaria in the late nineteenth century, *The Stone Carvers* weaves together the story of ordinary lives marked by obsession and transformed by art. At the centre of a large cast of characters is Klara Becker, the granddaughter of a master carver, a seamstress haunted by a love affair cut short by the First World War, and by the frequent disappearances of her brother Tilman, afflicted since childhood with wanderlust. From Ontario, they are swept into a colossal venture in Europe years later, as Toronto sculptor Walter Allward's ambitious plans begin to take shape for a war memorial at Vimy, France. Spanning three decades, and moving from a German-settled village in Ontario to Europe after the Great War, *The Stone Carvers* follows the paths of immigrants, labourers, and dreamers. Vivid, dark, redemptive, this is novel of great beauty and power.

**The Vietnam War** Mark Atwood Lawrence.2010-08-27 The Vietnam War remains a topic of extraordinary interest, not least because of striking parallels between that conflict and more recent fighting in the Middle East. In *The Vietnam War*, Mark Atwood Lawrence draws upon the latest research in archives around the world to offer readers a superb account of a key moment in U.S. as well as global history. While focusing on American involvement between 1965 and 1975, Lawrence offers an unprecedentedly complete picture of all sides of the war, notably by examining the motives that drove the Vietnamese communists and their foreign allies. Moreover, the book carefully considers both the long- and short-term origins of the war. Lawrence examines the rise of Vietnamese communism in the early twentieth century and reveals how Cold War anxieties of the 1940s and 1950s set the United States on the road to intervention. Of course, the heart of the book covers the American war, ranging from the overthrow of South Vietnamese President Ngo Dinh Diem to the impact of the Tet Offensive on American public opinion, Lyndon Johnson's withdrawal from the 1968 presidential race, Richard Nixon's expansion of the war into Cambodia and Laos, and the problematic peace agreement of 1973, which ended American military involvement. Finally, the book explores the complex aftermath of the war--its enduring legacy in American books, film, and political debate, as well as Vietnam's struggles with severe social and economic problems. A compact and authoritative primer on an intensely relevant topic, this well-researched and engaging volume offers an invaluable overview of the Vietnam War.

Forgiveness Vladimir Jankélévitch.2005-04 Philosopher Vladimir Jankélévitch has only recently begun to receive his due from the English-speaking world, thanks in part to discussions of his thought by Jacques Derrida, Emmanuel Lévinas, and Paul Ricoeur. His international readers have long valued his unique, interdisciplinary approach to philosophy's greatest questions and his highly readable writing style. Originally published in 1967, *Le Pardon, or Forgiveness*, is one of Jankélévitch's most influential works. In it, he characterizes the ultimate ethical act of forgiving as behaving toward the perpetrator as if he or she had never committed the action, rather than merely forgetting or rationalizing it—a controversial notion when considering events as heinous as the Holocaust. Like so many of Jankélévitch's works, *Forgiveness* transcends standard treatments of moral problems, not simply generating a treatise on one subject but incorporating discussions of topics such as free will, giving, creativity, and temporality. Translator Andrew Kelley masterfully captures Jankélévitch's melodic prose and, in a substantive introduction, reviews his life and intellectual contributions. *Forgiveness* is an essential part of that legacy, and this

**The Horror Genre** Paul Wells.2000 A comprehensive introduction to the history and key themes of the genre. The main issues and debates raised by horror, and the approaches and theories that have been applied to horror texts are all featured. In addressing the evolution of the horror film in social and historical context, Paul Wells explores how it has reflected and commented upon particular historical periods, and asks how it may respond to the new millennium by citing recent innovations in the genre's development, such as the urban myth narrative underpinning *Candyman* and *The Blair Witch Project*. Over 300 films are treated, all of which are featured in the filmography.

Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

inspiration, that at times were even more forceful than those made by the texts themselves. Pictorial prefaces of the twelfth century represent commentaries of their own; they articulate and elaborate complex arguments regarding critical matters of faith. This study examines pictorial programmes in copies of Horace's poetic works, the *Glossa ordinaria*, anti-heretical polemics, and Rupert of Deutz's commentary on the Song of Songs to demonstrate the ways in which they helped to shape understandings of authorship at a critical historical moment.
