Understanding Drugs Markets Carine Baxerres, Maurice Cassier. 2021-07-23 Drawing on anthropology, historical sociology and social-epidemiology, this multidisciplinary book investigates how pharmaceuticals are produced, distributed, prescribed, (and) consumed, and regulated in order to construct a comprehensive understanding of the issues that drive (medicine) pharmaceutical markets in the Global South today. Based on primary research conducted in Benin and Ghana, and additional data collected in Cambodia and the Ivory Coast, this volume uses artemisinin-based combination therapies (ACTs) against malaria as a central case study. It highlights the influence of the countries colonial and post-colonial history on their models for state regulation, production, and distribution, explores the determining role transnational actors as well as industries from the North but also and increasingly from the South play in influencing local pharmaceutical markets and looks at the behaviour of health care professionals and individuals. Stepping back, the authors then unpick the pharmaceuticalization process and the multiple regulations at stake by looking at the workings of, and linkages between, (biomedical health) pharmaceutical systems, (representatives of companies) industries, actors in private distribution, and consumer practices. Providing a thorough comparative analysis of the advantages and disadvantages of different pharmaceutical systems, it is an important contribution to the literature on pharmaceuticalization and the governance of medication. It is of interest to students, researchers and policy-makers interested in medical anthropology, the sociology of health and illness, global health, healthcare management and

pharmacy.

L'incorrigible Achille Talon Greg.2007-01-05 En gros (si nous osons dire) Achille Talon sait tout et improvise pour le reste. A part ça, il est généreux, mesquin, pacifiste, agressif, progressiste, bourgeois, désintéressé, jaloux, intrépide et quelque peu capon.

En somme, brave et honnête, comme vous et moi... Greg

Imperial Subjects Matthew D. O'Hara,Andrew B.

Fisher.2009-04-22 In colonial Latin America, social identity did not correlate neatly with fixed categories of race and ethnicity. As *Imperial Subjects* demonstrates, from the early years of Spanish and Portuguese rule, understandings of race and ethnicity were fluid. In this collection, historians offer nuanced interpretations of identity as they investigate how Iberian settlers, African slaves, Native Americans, and their multi-ethnic progeny understood who they were as individuals, as members of various communities, and as imperial subjects. The contributors' explorations of the relationship between colonial ideologies of difference and the identities historical actors presented span the entire colonial period and beyond: from early contact to the legacy of colonial identities in the new republics of the nineteenth century. The volume includes essays on the major colonial centers of Mexico, Peru, and Brazil, as well as the Caribbean basin and the imperial borderlands. Whether analyzing cases in which the Inquisition found that the individuals before it were "legally" Indians and thus exempt from prosecution, or considering late-eighteenth- and early-nineteenth-century petitions for declarations of whiteness that entitled the mixed-race recipients to the legal and social benefits enjoyed by whites, the book's contributors approach the question of identity by examining interactions between imperial subjects and colonial institutions. Colonial

mandates, rulings, and legislation worked in conjunction with the exercise and negotiation of power between individual officials and an array of social actors engaged in countless brief interactions. Identities emerged out of the interplay between internalized understandings of self and group association and externalized social norms and categories. Contributors. Karen D. Caplan, R. Douglas Cope, Mariana L. R. Dantas, María Elena Díaz, Andrew B. Fisher, Jane Mangan, Jeremy Ravi Mumford, Matthew D. Lord of the Vampires Jeanne Kalogridis.2011-08-17 After the death of his half brother, Stefan, at the hands of Vlad Tsepesh--also known as Dracula--and after the destruction of his vampire father, Arkady, also at the hands of Vlad, Abraham van Helsing has traveled the world slaying many vampires. With every vampire he destroys, Bram becomes stronger and Vlad weaker,

and soon Bram hopes he will be able to finally kill the fearsome vampire who has kept the Tsepesh family enslaved through a centuries-old blood ritual. But a desperate Vlad and his vampire great-niece, Zsuzanna, summon help from the most powerful, brutal, and beautiful vampire of all--Countess Elizabeth of Bathory. Bram learns of their plot to destroy him, and makes his own move to strike out at Vlad before Vlad can put him to death. He teams up with a courageous band of humans as he hunts Vlad--including Mina Harker and John Seward--and they finally succeed in killing the head of the Tsepesh clan, just as Bram Stoker foretold in *Dracula*. But the terror does not end with the death of Vlad, for there is another force that drives Vlad, Zsuzanna, Elizabeth and all the vampires, an ancient entity more evil than anything Bram has ever encountered: the Lord of the Vampires. And for Bram to defeat this dark lord, he must once again risk losing his very soul, to save not only his family, but humanity as well. In her final book in *The Diaries of the Family Dracul* trilogy, Jeanne Kalogridis brilliantly melds her own fascinating story of the Tsepesh family with that of Bram Stoker's classic, *Dracula*. Told in diary form like the first two books and Stoker's own chilling tale, *LORD OF THE VAMPIRES* reveals the dark, startling truths behind the original *Dracula*.

Absorption and Theatricality Michael Fried.1988-09-15 With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who

wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.

Nouvelle histoire du Premier Empire, tome 2 Thierry

Lentz.2004-05-12 Cette grande synthèse en trois volumes retrace l'histoire d'un « empire » et des réactions qu'il suscita en son temps. Empire au sens d'« influence » d'abord, celle que les idées, la culture et les ambitions hégémoniques françaises exercèrent sur cette époque, dans le prolongement du Grand Siècle, du siècle des Lumières et, bien sûr, de la Révolution. C'est ainsi que l'aventure napoléonienne peut se replacer dans la longue durée. Empire au sens d'« institution » aussi, en ce que les gouvernements français imaginèrent des structures, avec leur fonctionnement et leur unité politique, afin de conquérir et d'organiser l'espace européen (et au-delà) pour réunir des peuples sous leur bannière par l'adhésion, l'intégration, la domination ou la suzeraineté. Si l'on ne peut échapper à la présence permanente de la volonté, de la personnalité et de l'œuvre de Napoléon qui ont marqué la période de leur empreinte, et si les développements de ce livre ont pour clef de voûte le cœur même de l'Empire (dans les deux sens évoqués plus haut), c'est-à-dire la France, il faut aussi « raconter » - en l'expliquant - un peu plus d'une décennie d'histoire de l'Europe, voire du monde, en dépassant à la fois la figure de l'empereur et les points de vue purement nationaux. Les quatre dernières années du règne de Napoléon ramenèrent le système à ce qui en était perçu par les autres puissances : l'organisation d'une domination sans partage au seul bénéfice des intérêts français. Leur réaction ne tarda pas et l'ultime coalition se consolida autour de l'idée qu'il était temps de revenir à une forme d'équilibre européen. Même si l'empereur des Français ne fut pas toujours seul responsable des conflits, on doit constater qu'en définitive, puisqu'il fut vaincu, il n'eut pas raison au regard de

l'Histoire. La construction impériale fut balayée et avec elle la prépondérance française. De l'empire universel, il ne resta rien en 1814. Napoléon rendit la France plus petite qu'il l'avait prise. Mais, nous le savons, son héritage n'est pas le système européen. Il est ailleurs et plus profond. Thierry Lentz est l'auteur de nombreux ouvrages sur le Consulat et l'Empire, dont *Le 18 Brumaire* (1997), *Napoléon. « Mon ambition était grande »* (1998), *Le Grand Consulat, 1799-1804* (1999), un *Dictionnaire des ministres de Napoléon* (1999), et *Savary, le séide de Napoléon* (2001). The Conseil Privé and the Parlements in the Age of Louis

XIV Albert N. Hamscher.1987 This vol., while encompassing the entire reign of Louis XIV & all the parlements of the realm, has the narrow focus of investigating the impact of royal policy on the judicial authority of the parlements as revealed in their relations with the king's councils, notably the one that specialized in judicial affairs, the Conseil Prive. This is above all a study of the evolution of conciliar jurisprudence & judicial procedure, as much an exercise in what the French call l'histoire du droit as an opportunity to observe in a novel way the resolution of some of the most pressing political problems in the Age of Louis XIV. But the overall aim is to understand the practical consequences of royal absolutism for the kingdom's highest judicial institutions. *Considerations on the Principal Events of the French Revolution* Madame de Staël (Anne-Louise-Germaine).1818

Education for Rural Development Food and Agriculture

Organization of the United Nations, Unesco. 2003 An international joint study by the Food and Agriculture Organization of the United Nations (FAO) and UNESCO's International Institute for Educational Planning (IIEP) was conducted on education and rural development to review the status of the topic from the standpoint of public policies and the conceptual frameworks on which they are based and also to shed light on what may be called good practice. The findings of the study are meant to serve not as models, but rather as points of reference for all those who are

seeking ways of developing education in rural areas and contributing more effectively to rural development. Chapter I, Education and Rural Development: Setting the Framework (David Atchoarena and Charlotte Sedel), provides a contextual and theoretical introduction to the new rural development and poverty reduction thinking, as well as a discussion on the contribution of education to rural development. In Chapter II, Basic Education in Rural Areas: Status, Issues and Prospects (Michael Lakin with Lavinia Gasperini), the book reviews in depth the provision of basic education in rural areas and offers some policy directions for improvement. Further exploring a particular dimension of basic education, Chapter III, Making Learning Relevant: Principles and Evidence from Recent Experiences (Peter Taylor, Daniel Desmond, James Grieshop and Aarti Subramaniam), devotes specific attention to strategies linking the formal school teaching with students' life environment, including agriculture, and to garden-based learning. The intention is to provide updated information and new insights on much-debated aspects which are often associated with rural areas although their application is much broader. Chapter IV, Strategies and Institutions for Promoting Skills for Rural Development (David Atchoarena, Ian Wallace, Kate Green, and Candido Alberto Gomes), shifts the analysis from education to work and discusses the implications of the transformation of rural labor markets for skill development. A particular concern is the rise in rural non-farm employment and the need to enlarge the policy focus from agricultural education and training to technical and vocational education for rural development. This debate is taken further in Chapter V, Higher Education and Rural Development: A New Perspective (Charles Maguire and David Atchoarena), which considers higher level skills and the contribution of the tertiary education sector to rural development. Special attention is given to the reform of higher agricultural institutions and lessons based on case studies are provided to document good practice in

institutional reform. Finally, Chapter VI, Main Findings and Implications for Policy and Donor Support (David Atchoarena with Lavinia Gasperini, Michael Lakin and Charles Maguire), concentrates on the main findings of the study and discusses policy implications and possible responses for donors and countries. (Contains 28 tables, 14 figures, and 64 boxes.).

Achille Talon - Tome 5 - Indispensable Achille Talon (L')

Greg. 2010-03-26T00:00:00+01:00 Son petit chapeau, son gros ventre et sa canne sont connus de tous : Achille Talon, l'archétype parfait du français moyen, hante les pages de PILOTE depuis 1963. Greg, son créateur, lui façonne un petit monde à sa mesure : un pavillon coquet en banlieue résidentielle, un voisin agaçant (Lefuneste), une fiancée snobe (Virgule de Guillemets), un père amateur de bière et aussi une brave maman qui lui bichonne de bons petits plats. Achille possède un coeur gros comme ça, un cerveau choc (...), une profonde estime pour sa propre personne et une aptitude à la parole impressionnante : son verbiage est emphasé à souhait. Jusqu'en 1976, Achille Talon est le héros de gags qui tiennent en une ou deux planches; il partage son temps entre son pavillon et la rédaction du journal POLITE pour lequel il est censé travailler en qualité de héros. À partir de 1977 les aventures d'Achille Talon change de rythme : de longues histoires ponctuées de nombreux rebondissements remplacent peu à peu les planches à gags. C'est aussi à ce moment que l'éphémère journal d'Achille Talon est lancé. Greg excelle à caricaturer des personnages célèbres de la BD (Goscinny, Charlier etc.). Son trait est rond, efficace et direct.

Africa's Future, Africa's Challenge Marito H. Garcia, Alan Pence, Judith Evans. 2008-01-18 Early childhood, from birth through school entry, was largely invisible worldwide as a policy concern for much of the twentieth century. Children, in the eyes of most countries, were 'appendages' of their parents or simply embedded in the larger family structure. The child did not emerge as a separate social entity until school age (typically six or seven). 'Africa's Future, Africa's Challenge: Early Childhood Care and Development in Sub-Saharan Africa' focuses on the 130 million children south of the Sahel in this 0-6 age group. This book, the first of its kind, presents a balanced collection of articles written by African and non-African authors ranging from field practitioners to academicians and from members of government organizations to those of nongovernmental and local organizations. 'Africa's Future, Africa's Challenge' compiles the latest data and viewpoints on the state of Sub-Saharan Africa's

children. Topics covered include the rationale for investing in young children, policy trends in early childhood development (ECD), historical perspectives of ECD in Sub-Saharan Africa including indigenous approaches, new threats from HIV/AIDS, and the importance of fathers in children's lives. The book also addresses policy development and ECD implementation issues; presents the ECD programming experience in several countries, highlighting best practices and challenges; and evaluates the impact of ECD programs in a number of countries.
