La madrasa médiévale Lucien Golvin.1996 École coranique, collège, séminaire, pensionnat, cité universitaire avant la lettre ...

: en arabe, le terme de madrasa recouvre quantité d'acceptions.

Du Proche-Orient au Maghreb, l'ouvrage étudie l'évolution de l'architecture des principales madrasas (historique, éléments architectoniques, études des plans et masses, analyses des formes décoratives, rapports avec la maison particulière), et renouvelle les hypothèses sur la signification des madrasas cruciformes à quatre iwans = Koranic school, college, seminary, boarding school, campus before the letter ... : in Arabic, the term madrassa covers many of these meanings. From Middle East to North Africa, the book examines the evolution of the architecture of main madrassas (historical, architectural elements, study plans and bodies, analysis of decorative forms, reports with the special

house); it also renews the assumptions on the significance of cross-shaped madrasas at four iwans.
