Rallying 2017 ANTHONY. MCMASTER PEACOCK (COLIN. KLEIN, REINHARD.).2017

Rally Point Chris Gibson.2017-10-03 A smart and surprising political inventory for how America can reunite and revitalize in a time of crisis. Written by an admired leader of the Republican party, Rally Point: Five Tasks to Unite the Country and Revitalize the American Dream looks past the 2016 election, past the finger pointing and conventional political thinking, to focus on clear, primary principles that conservatives must debate and defend to protect the future of America. Raised in a working-class family in upstate New York, the first in his family to go to college, paid for in part by his service in the National Guard, Chris Gibson rose from Private to Colonel in the Army, including combat command in the storied 82nd Airborne Division. RALLY POINT is his story: what he's learned from the School of Hard Knocks and how he's applied those precious life lessons during his service in Iraq and in Congress. Drawn from a deep appreciation of history and American exceptionalism, Gibson provides incisive and frank analysis of the current political environment, including President Trump, and provides a roadmap based on time-tested Founding principles to help unite our country and revitalize the American Dream. RALLY POINT is a thoughtful, compelling, enjoyable read - a must for serious-minded Americans looking for answers in this challenging political environment.

The 48 Laws of Power Robert Greene.2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Mapping Populism John Agnew,Michael Shin.2019-06-24 This concise book explores the rise of populism, comparing the electoral success of populist movements and politicians in Europe and the United States. Organized around themes of turnout, leadership, and media, and illustrated with compelling maps, Mapping Populism encourages discussion on an increasingly important topic—and on the future of democracy itself.

Disciplined Hope Shannon Craigo-Snell.2019-01-17 In a time of political turmoil, how should we pray? What is the role of prayer in resisting politics that are based on hatred and division? This book claims prayer as a way to choose hope over fear. Beginning soon after the Inauguration in 2017, Shannon Craigo-Snell offered brief, daily prayers lifting up people and groups who were actively working for the common good. These prayers, collected here, provide a historical record of the rhetorical and political outrages of the first year of the Trump Administration, as well as the actions of those who resisted. They remember the small victories, averted disasters, and ongoing struggles of people of good will. They affirm not only the practical value of political involvement, but also the spiritual value of such engagement in solidarity with those most vulnerable to destructive policies. In addition to these daily prayers, this book offers an introduction and invitation to prayer. Intercessory prayer, in particular, can bridge divides between religious traditions and cultural differences, creating a space in which diverse communities can hope together for a better world.

M.O.V.E. THE PRESIDENT Rama Raju. *20% of net proceeds will be donated to organizations that fight voter suppression and support voting rights* We are all created equal, but not our votes. In 2016, Hillary Clinton beat out Donald Trump for the popular vote and by millions of votes in states like California and New York. In a “winner-take-all” format, she was given all the electoral college votes for those states. Unfortunately, the millions of additional voters in favor of Clinton in those states were basically worthless. Conversely, since Trump didn’t win electoral college votes in those states, the millions of Californians and New Yorkers who voted for him were also statistically irrelevant. They had no part in getting him elected. Trump won the election because of his voters mainly in Michigan, Wisconsin, Pennsylvania, Florida, and Arizona. Combined together, he won by just 314,000 votes in just those 5 states alone. Voters in those five states were statistically more important than the millions of voters in California and New York. What if just a fraction of Clinton’s excess voters in California, New York, Illinois, Massachusetts, and Maryland moved to battleground states like Michigan, Wisconsin, Pennsylvania, Florida, and Arizona? Madam President would have thanked them from her Oval Office. In a new playbook for winning elections, this book discusses how everyday passionate politicians can M.O.V.E. (Make Our Votes Elect) the President. It is rare for a candidate to win the popular vote but lose the election. It has only happened four other times in our nation’s history. However, we’re entering an era where winning the popular vote and losing the general election will occur more frequently. Why? Because most of the nation’s key demographic transformations are occurring in states that matter the least to the electoral college process. Each year, around 40 million Americans, or about 12% of the current U.S. population, moves at least once. Much of that movement involves younger people relocating within states that already heavily lean toward a certain political party. What if they made a conscious decision to M.O.V.E. to a battleground state? Well, our votes would be equal, the way we were created.

Alt-Right Gangs Shannon E. Reid,Matthew Valasik.2020-09-22 Alt-Right Gangs provides a timely and necessary discussion of youth-oriented groups within the white power movement. Focusing on how these groups fit into the current research on street gangs, Shannon E. Reid and Matthew Valasik catalog the myths and realities around alt-right gangs and their members; illustrate how they use music, social media, space, and violence; and document the risk factors for joining an alt-right gang, as well as the mechanisms for leaving. By presenting a way to understand the growth, influence, and everyday operations of these groups, Alt-Right Gangs informs students, researchers, law enforcement members, and policy makers on this complex subject. Most significantly, the authors offer an extensively evaluated set of prevention and intervention strategies that can be incorporated into existing anti-gang initiatives. With a clear, coherent point of view, this book offers a contemporary synthesis that will appeal to students and scholars alike.

Rallying 2021 David Evans,Colin McMaster,Reinhard Klein.2021-12-06 The fastest ever rally cars and drivers wowed us all throughout the 2021 World Rally Championship. New events in Belgium, Croatia and the Arctic, together with the return of the legendary Safari and the Acropolis rallies, guaranteed the season was full of fresh intrigue. 2021 was also the final year for the current generation of WRC cars and a swansong season for one the sport's greatest drivers - with Sébastien Ogier bowing out in style. Rallying 2021 - Moving Moments by McKlein Publishing, tells the full story a milestone year in the sport, combining amazing images with expert views and insights from David Evans of Dirtfish Media. As always, the features and reports are illustrated with the best that the McKlein lenses have captured - rally art in words and pictures. The WRC reports are joined by those on WRC2, WRC3, JWRC and ERC as well as the German, British and American rally championships. A tribute to Finnish rally legend Hannu Mikkola, who passed away this year, the wildest from the high-voltage event Extreme E series as well as other features round off this 2021 yearbook.

Rallying 2019 Anthony Peacock, Reinhard Klein, Colin McMaster. 2020-02-15 We thought it couldn't get any better, but it did. The 2019 World Rally Championship will go down as a highly memorable season with a nail-biting battle for ultimate honours. The sport's top three drivers fought intensely for the Drivers' title over 14 diverse and challenging rounds across the globe. Chile joined the calendar for the first time and, like many of the existing rallies, it drew huge crowds on the stages. New talent shone too. 18-year-old Kalle Rovanperä took his opportunity in the new WRC2 Pro category, landing a full time WRC drive in 2020 as a reward. McKlein Publishing launched the Moving Moments Rallying yearbook concept in 2017. The book was very well received leading to a bigger and better version for 2018. Simultaneously McKlein released backdated Rallying yearbooks starting with the 1967 season and latterly the magnificent 512-page documentation of 1977. The bigger and better trend continues for 2019 with McKlein's best images used lavishly over many double page spreads. Anthony Peacock's texts, in the form of short rally-by-rally summaries, complement the photography perfectly, while a series of insightful vignettes, often emotional, sometimes nostalgic, provide the Moving Moments. Rallying 2019 is a permanent and colorful record of an epic WRC season and a must-have in this collectable series.

Did You SEE That? Joyce Standridge. 2013-09 Joyce Standridge has compiled one of our best titles ever. Built around 465 terrific photographs from the Horcher Brothers and others, Did You SEE That? is a compelling journey through Sprint Car, Midget, and Silver Crown racing in the Midwest, 1978 through the present. With all photos annotated with insightful and informative captions, as well as thoughtful introductions to each topic, the book captures fully the concurrent joy, energy, color, and heartache of one of the truest of American sports.

America in Afghanistan Sharifullah Dorani. 2019-01-24 Afghanistan has been a theatre of civil and international conflict for much of the twentieth century - stability is essential if there is to be peace in the Greater Middle East. Yet policy-makers in the West often seem to forget the lessons learned from previous administrations, whose interventions have contributed to the instability in the region. Here, Sharifullah Dorani focuses on the process of decision-making, looking at which factors influenced American policy-makers in the build-up to its longest war, the Afghanistan War, and how reactions on the ground in Afghanistan have influenced events since then. *America in Afghanistan* is a new, full history of US foreign policy toward Afghanistan from Bush's 'War on Terror', to Obama's war of 'Countering Violent Extremism' to Trump's war against 'Radical Islamic Terrorism'. Dorani is fluent in Pashto and Dari and uses unique and unseen Afghan source-work, published here for the first time, to understand the people in Afghanistan itself, and to answer their unanswered questions about 'real' US Afghan goals, the reasons for US failures in Afghanistan, especially its inability to improve governance and stop Pakistan, Iran and Russia from supporting the insurgency in Afghanistan, and the reasons for the bewildering changes in US Afghan policy over the course of 16 and a half years. To that end the author also assesses Presidents Karzai and Ghani's responses to Bush, Obama and Trump's policies in Afghanistan and the region. In addition, the book covers the role Afghanistan's neighbours - Russia, Iran, India, and especially Pakistan - played in America's Afghanistan War. This will be an essential book for those interested in the future of the region, and those who seek to understand its recent past.

Anti-Gender Politics in the Populist Moment Agnieszka Graff, Elżbieta Korolczuk. 2021-09-15 This book charts the new phase of global struggles around gender equality and sexual democracy: the ultraconservative mobilization against gender ideology and feminist efforts to counteract it. It argues that anti-gender campaigns, which emerged around 2010 in Europe, are not a simple continuation of the anti-feminist backlash dating back to the 1970s, but part of a new political configuration. Opposition to gender has become a key element of the rise of right-wing populism, which successfully harnesses the anxiety, shame and anger caused by neoliberalism and threatens to destroy liberal democracy. *Anti-Gender Politics in the*

Populist Moment offers a novel conceptualization of the relationship between the ultraconservative anti-gender movement and right-wing populist parties, examining the opportunistic synergy between these actors. The authors map the anti-gender campaigns as a global movement, putting the Polish case in a comparative perspective. They show that the anti-gender rhetoric is best understood as a reactionary critique of neoliberalism as a socio-cultural formation. The book also studies the recent wave of feminist mass mobilizations, viewing the transnational revolt of women as a left populist movement. This is an important study for those doing research in politics, cultural studies, gender and sexuality studies and sociology. It will also be useful for activists and policy makers. Zimbabwe: The Link Between Politics and the Economy Godfrey Kanyenze.2022-03-31 In this accessible and authoritative book, Godfrey Kanyenze provides a comprehensive and far-reaching analysis of the socio-economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence. Kanyenze describes the various phases of the socio-economic development starting with 1980 when the people of Zimbabwe saw their hard-won independence and new democracy as a promise for a better life for all. Kanyenze highlights how by dismantling all barriers of economic and legal restraint, and that despite being necessary, The land reform programme put the political and financial interests of the elite before those of the people which continues to this day. Kanyenze reveals the governmental attacks on civil society, and notes how economic policy was not even part of an authoritarian bargain, an implicit arrangement between ruling elites and citizens whereby citizens relinquish political freedom in exchange for public goods. And he concludes this analysis with a current update of Zimbabwe today, where citizens have nothing -neither political freedom nor public goods. This impressive and gripping account of an authoritarian capitalist system and a country in decline is a must-read for students, researchers, policymakers and those who want to better understand how politics and the economy, interests, conflicts, and power work together.

Decriminalizing Abortion in Northern Ireland Fiona Bloomer,Emma Campbell.2022-10-06 Abortion remains one of the most politicized issues globally and whilst some countries such as the USA continue to experience restrictions to access to abortion, Northern Ireland stands out as having enacted historical positive change in abortion law, from an almost complete ban throughout the Twentieth Century to decriminalization achieved in 2019. This book documents and analyzes how this historical change was achieved. This, the second of two volumes, places emphasis on allies and support for abortion provision, illustrating how the movement has relied upon an intersectional network of social movement actors, NGOs and fundraisers to maintain momentum and inclusivity. It also focuses on the reality of abortion provision. Each chapter is written by those directly

involved in the long-fought battle to change abortion law - including those with personal experience of seeking abortions, activists, academics, legal experts, political actors, NGOs, and volunteers. This interdisciplinary text will be of relevance to academics and students in the disciplines of law, policy, political science, and sociology, but also to organizers and policy makers in other global contexts and across other social justice campaigns.

Unstoppable Maria Sharapova, Rich Cohen. 2017-09-12 In 2004, in a stunning upset against the two-time defending champion Serena Williams, seventeen-year-old Maria Sharapova won Wimbledon, becoming an overnight sensation. Out of virtual anonymity, she launched herself onto the international stage. Maria Mania was born. Her success would last: she went on to hold the number-one WTA ranking multiple times, to win four more Grand Slam tournaments, and to become one of the highest-grossing female athletes in the world. And then -- at perhaps the peak of her career -- she was charged by the ITF with taking the banned substance meldonium, only recently added to the ITF's list. The resulting suspension would keep her off the professional courts for fifteen months -- a frighteningly long time for any athlete. But Sharapova's career has always been driven by her determination and by her dedication to hard work. Her story doesn't begin with the 2004 Wimbledon championship, but years before, in a small Russian town, where as a five-year-old she played on drab neighborhood courts with precocious concentration. It begins when her father, convinced his daughter could be a star, risked everything to get them to Florida, that sacred land of tennis academies. It begins when the two arrived with only seven hundred dollars and knowing only a few words of English. From that, Sharapova scraped together one of the most influential sports careers in history.

Trumping the Media Michael Mario Albrecht. 2022-08-11 The ascendancy of Donald J. Trump to the office of president was not a fluke. Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains. A right-wing ecosystem had developed that included cable television, talk radio, social media, and imageboards. The political rise of Trump occurred alongside a mainstreaming of far-right politics and a skepticism towards long-established institutions. Trump was able to exploit the shifts in politics and the media environment for his political gain. He deployed a post-truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy. This book explores the shifts in the media environment that made the political career of Donald Trump possible. The author shows the ways that Trump was able to inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy. Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt-right and forwarding the project of democracy.

Still Moving Deborah Rowland.2017-04-17 STILL MOVING *Still Moving: How to Lead Mindful Change* sets out an innovative approach for guiding organisations and indeed entire systems through ongoing, disruptive change. It combines Deborah Rowland's own rigorous research into change and its leadership with insights from her extensive field experience helping major global corporations including GlaxoSmithKline, RWE and Shell achieve lasting change with increased productivity, employee engagement and responsible societal impact. It is filled with helpful inspiring stories of leadership and change from the real world and, bravely, the author's own personal journey. Challenging leaders to cultivate both their inner and outer skills necessary for success, *Still Moving* weaves together the 'being' and 'doing' states of leading change and emphasises the importance of a mindful stance and deep systemic perception within a leader. With the goal of collaborative, sustainable change, the book delves into a variety of important topics, including present-moment awareness, intentional response, edge and tension and emergent change. Compelling and provocative, *Still Moving* questions the conventional wisdom of much change theory and asks that leaders first work on their inner source in order to more effortlessly change the world around them.

Defining Moments in Black History Dick Gregory.2018-09-18 NAACP 2017 Image Award Winner With his trademark acerbic wit, incisive humor, and infectious paranoia, one of our foremost comedians and most politically engaged civil rights activists looks back at 100 key events from the complicated history of black America. A friend of luminaries including Dr. Martin Luther King, Jr. and Medgar Evers, and the forebear of today's

popular black comics, including Larry Wilmore, W. Kamau Bell, Damon Young, and Trevor Noah, Dick Gregory was a provocative and incisive cultural force for more than fifty years. As an entertainer, he always kept it indisputably real about race issues in America, fearlessly lacing laughter with hard truths. As a leading activist against injustice, he marched at Selma during the Civil Rights movement, organized student rallies to protest the Vietnam War; sat in at rallies for Native American and feminist rights; fought apartheid in South Africa; and participated in hunger strikes in support of Black Lives Matter. In this collection of thoughtful, provocative essays, Gregory charts the complex and often obscured history of the African American experience. In his unapologetically candid voice, he moves from African ancestry and surviving the Middle Passage to the enjoyment of bacon and everything pig, the headline-making shootings of black men, and the Black Lives Matter movement. A captivating journey through time, *Defining Moments in Black History* explores historical movements such as The Great Migration and the Harlem Renaissance, as well as cultural touchstones such as Sidney Poitier winning the Best Actor Oscar for *Lilies in the Field* and Billie Holiday releasing *Strange Fruit*. An engaging look at black life that offers insightful commentary on the intricate history of the African American people, *Defining Moments in Black History* is an essential, no-holds-bar history lesson that will provoke, enlighten, and entertain.

Personality-Driven Portfolio: Invest Right for Your Style Sam Phoen.2018-07-15 Constructing an investment portfolio is not a “one-size-fits-all” undertaking. Every investor has his or her own personality. Successful investing begins with knowing yourself – knowing how much risk you can take, the amount of time you can spend, your personal strengths and weaknesses, etc. What works for your friend, or your advisor, or Warren Buffett, may not necessarily work for you. Following them blindly can lead to a disastrous mismatch with your own style. In *Personality-Driven Portfolio*, author Sam Phoen approaches this problem from a revolutionary angle. Through a series of questions, the reader is first shown how to evaluate his/her investment personality: “Am I an Egoistic Elephant, a Diligent Deer, a Cagey Crab, or a Busy Bee?” Each personality type needs to take a different investment approach. A portfolio that suits the Egoistic Elephant, for example, will turn the Busy Bee or Cagey Crab into a nervous wreck! Targeted at investors at all levels of experience, this book is a practical guide on how to put together a “bespoke” portfolio, and on top of that, how to manage and rebalance the portfolio when necessary, so as to produce sustained results over the long term.

The Republican Ethic- President Ram Nath Kovind Selected Speeches (July 2017-July 2018) Publications Division.2018-12-08 President Ram Nath Kovind assumed office on July 25, 2017 and in a short span of one year has been able to make a distinct mark in the way he reaches out to the citizens of the country. With the heart of a “common man”, he understands the challenges that India faces as a nation, while as an erudite mind, he has the vision of the India’s rightful place of eminence among the comity of nations. The book “*The Republican Ethic*” is a collection of 95 of his selected speeches out of a total of 243 made by him in the first year of office. They have been divided in eight sections, viz: Addressing the Nation, Diversity of India, Window to the World, Educating India: Equipping India, Dharma of Public Service, Honouring our Sentinels, Spirit of the Law and Acknowledging Excellence. The book has been conceived to help the readers assess the vision and thought that the President espouses specially with relation to the vision of nation and individual citizen’s duties.
