Decorating a Room of One's Own Susan Harlan.2018-10-09 What would Little Women be without the charms of the March family's cozy New England home? Or Wuthering Heights without the ghost-infested Wuthering Heights? Getting lost in the setting of a good book can be half the pleasure of reading, and *Decorating a Room of One's Own* brings literary backdrops to the foreground in this wryly affectionate satire of interior design reporting. English professor and humorist Susan Harlan spoofs decorating culture by reimagining its subject as famous fictional homes and "interviews" the residents who reveal their true tastes: Lady Macbeth's favorite room in the castle, or the design inspiration behind Jay Gatsby's McMansion of unfulfilled dreams. Featuring 30 entries of notable dwellings, sidebars such as "Setting Up an Ideal Governess's Room," and four-color spot illustrations throughout, *Decorating a Room of One's Own* is the ideal book for readers who appreciate fine literature and a good end table.

The Comforts of Home in Western Europe, 1700-1900 Jon Stobart.2020-02-20 Comfort, both physical and affective, is a key aspect in our conceptualization of the home as a place of emotional attachment, yet its study remains under-developed in the context of the European house. In this volume, Jon Stobart has assembled an international cast of contributors to discuss the ways in which architectural and spatial innovations coupled with the emotional assemblage of objects to create comfortable homes in early modern Europe. The book features a two-section structure focusing on the historiography of architectural and spatial innovations and material culture in the early modern home. It also includes 10 case studies which draw on specific examples, from water closets in Georgian Dublin to wallpapers in 19th-century Cambridge, to illustrate how people made use of and responded to the technological improvements and the emotional assemblage of objects which made the home comfortable. In addition, it explores the role of memory and memorialisation in the domestic space, and the extent to which home comforts could be carried about by travellers or reproduced in places far removed from the home. *The Comforts of Home in Western Europe, 1700-1900* offers a fresh contribution to the study of comfort in the early modern home and will be vital reading for academics and students interested in early modern history, material culture and the history of interior architecture.

The Nature of Physical Existence Ivor Leclerc.2014-02-04 This is Volume II of six in a collection on Epistemology. Originally published in 1972, the central concern of this book is the understanding of the nature of the universe. Its field is thus that which until the eighteenth century had been known as *philosophia naturalis*, the philosophy of nature. The aim of the book is to elucidate and examine the fundamental concepts in terms of which the universe is understood.

Cognition and Pragmatics Dominiek Sandra,Jan-Ola Östman,Jef Verschueren.2009-12-09 The ten volumes of *Handbook of Pragmatics Highlights* focus on the most salient topics in the field of pragmatics, thus dividing its wide interdisciplinary spectrum in a transparent and manageable way. While other volumes select philosophical, grammatical, social, variational, interactional, or discursive angles, this third volume focuses on the interface between language and cognition. Language use is impossible without the mobilization of a large variety of cognitive processes, each serving a different purpose. During the last half century cognitive approaches to language have been particularly successful, and the broad spectrum of contributions to this volume testify to this success. As cognitive approaches to language are by definition a subset of the larger enterprise of cognitive science, a contribution on this general topic sets the stage. This is joined by a chapter on cognitive grammar, a theoretical study of the architecture of human language that is deeply inspired by general cognitive principles. A chapter on experimentation offers a crash-course on basic issues of experimental design and on the rationale behind statistical testing in general and the most important statistical tests in particular, offering a methodological toolkit for understanding many of the other contributions. Different chapters cover a broad range of topics: language acquisition, psycholinguistics, specialized topics within the latter field (e.g. the bilingual mental lexicon, categorization), and aspects of language awareness. Some chapters home in on what have become indispensable perspectives on the cognitive underpinnings of language: the way language is represented and processed in the human brain and simulation studies. The ever-growing success of the latter type of studies is exemplified, for instance, by the highly flourishing connectionist tradition and the more general paradigm of artificial intelligence, each of which is dealt with in a separate contribution.

Classic Restaurants of Milwaukee Jennifer Billock.2020 Milwaukee may be known for beer, brats and custard, but the city's food history is even richer and tastier. At the Public Natatorium, diners supped at an old public pool and watched a dolphin show at the same time. Solly's, Oriental Drugs and others nurtured a thriving lunch counter culture that all ages enjoyed. Supper clubs and steakhouses like Five O'Clock reigned supreme. And we can't forget about the more illicit side of Milwaukee meals, like the mafia hangouts and a local fast-food chain with a mysterious resemblance to a national brand. Pairing the history of classic restaurants with recipes of favorite dishes, author Jennifer Billock explores both the well-known and the quirkier sides of Milwaukee's dining past.--Provided by publisher.

A Room of One's Own Virginia Woolf.2023-03-07 *A Room of One's Own* is an essay written by Virginia Woolf. It was published in 1929 and is based on two lectures given by the author in 1928 at two colleges for women at Cambridge. In this famous essay, Woolf addressed the status of women, and women artists in particular. In this essay, the author also asserts that a woman must have money and a room of her own if she is to write. According to Woolf, women's creativity has been curtailed due to centuries of prejudice and financial and educational disadvantages. To emphasize her view, she offers the example of an imaginary gifted but uneducated sister of William Shakespeare, who, discouraged from all eventually kills herself. Woolf celebrates the work of women who have overcome that tradition and become writers, including Jane Austen, George Eliot, and the Brontë sisters, Anne, Charlotte, and Emily. In the final section Woolf suggests that great minds are neutral and argues that intellectual freedom requires financial freedom. The author entreats her audience to write not only fiction but poetry, criticism, and scholarly works as well.

The Furnished Room O. Henry.2020-08-26 *The Furnished Room* is a short story about love and dedication, about exhaustion and despair. A young man is in search for a girl he fell in love with. He rents a room near the theaters where she is to be seen and he devotes his days to the dream of finding her. When all of a sudden the sweet fragrance of her perfume fills his room ... Is he finally blessed with success? Or this is an evil ghost from the past? Will he get to embrace the girl he loves or she will drag him to the verge of sanity? William Sydney Porter, better known as O. Henry, was an American writer who lived in the late 19th century. He gains wide popularity with his short stories which often take place either in New York or some small American towns. The plot twists and the surprise endings are a typical and integral part of O. Henry's short stories. Some of his best known works are *The Gift of the Magi*, *The Cop and the Anthem*, *A Retrieved Reformation*. His stories often deal with ordinary people and the individual aspects of life. As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

Classroom Interactions as Cross-Cultural Encounters Jasmine C. M. Luk,Angel M. Y. Lin.2017-09-25 *Classroom Interactions as Cross-Cultural Encounters* is about native English speakers teaching English as a global language in non-English speaking countries. Through analysis of naturally occurring dialogic encounters, the authors examine the multifaceted ways in which teachers and students utilize diverse communicative resources to construct, display, and negotiate their identities as teachers, learners, and language users, with different pedagogic, institutional, social, and political implications. A range of issues in applied linguistics is addressed, including linguistic imperialism, post-colonial theories, micropolitics of classroom interaction, language and identity, and bilingual classroom practices. Intended to help TESOL professionals of different cultural backgrounds, working in different sociocultural contexts, to critically understand how non-assimilationist, dialogic intercultural communication with students can be achieved and built on for mutual cultural and linguistic enrichment and empowerment, this book: *emphasizes the sociocultural meanings and micropolitics of classroom interactions that reveal the complex realities of power and identity negotiations in cross-cultural interactions in ELT (English Language Teaching) classroom contexts; *revisits and reconstitutes the notion of native-speakerness and repositions the roles of native and non-native English teachers in the TESOL profession in the contexts of decolonization and globalization; *highlights the need to mobilize intercultural communicative resources for global communication; *addresses two major concerns of EFL (English as a Foreign Language) classroom researchers and teachers: student resistance and learning motivation; and *examines and analyzes the changing ideologies (both explicit and implicit) of teachers and students about English learning in the context of a post-colonial society, and how these ideologies are being enacted, reproduced, but also sometimes contested in EFL classroom interactions. Each chapter includes Questions for Reflection and Discussion to promote critical thinking and understanding of the issues discussed. Tuning-In discussion questions are provided in the three chapters on classroom data analysis to activate readers interpretive schemas before they examine the actual classroom episodes. The data are from an ethnographic study in post-colonial Hong Kong secondary schools involving four native English-speaker teachers and two bilingual Cantonese-English speaking teachers engaged in intercultural classroom dialogues with their Cantonese Hong Kong students. The rich, naturally occurring classroom data and in-depth analyses provide useful pedagogical materials for courses in EFL teacher education programs on classroom discourse analysis from sociocultural perspectives.

Moving Rooms John Harris.2007-01-01 Since at least Tudor times there have been architectural salvages: panelling, chimney pieces, doorways, or any fixtures and fittings might be removed from an old interior to be replaced by more fashionable ones. Not surprisingly a trade developed and architects, builders, masons, and sculptors sought out these salvages. By 1820 there was a growing profession of brokers and dealers in London, and a century later antique shops were commonplace throughout England. This fascinating book documents the break-up, sale, and re-use of salvages in Britain and America, where the fashion for so-called "Period Rooms" became a mainstay of the transatlantic trade. Much appreciated by museum visitors, period rooms have become something of a scholarly embarrassment, as research reveals that many were assembled from a variety of sources. One American embraced the trade as no other--the larger-than-life William Randolph Hearst--who purchased tens of thousands of architectural salvages between 1900 and 1935.

Language Policies in Education James W. Tollefson.2002 How do language policies in education serve the interests of dominant groups within societies? How do policies marginalize some students while granting privilege to others? How do language policies in schools create inequalities among learners? How can schools further the educational, social, and economic interests of linguistic minorities? These questions--the focus of the chapters in this book-- are at the heart of fundamental debates about the role of schools in society; the links between language policies and inequalities of class, region, and ethnicity/nationality; and conflicts between linguistic minorities and mainstream populations. The connections between language policies and inequality are examined, as well as successful efforts to use language policies in education to assert the social and linguistic rights of language minorities. *All of the chapters are original and substantial contributions to the study of language policy and exemplify major theories and research methods in the field. *The case studies are international in scope, including cutting-edge analyses of important language policy debates in North America, Australia, Eastern Europe, Africa, East Asia, South Asia, and the Pacific. *The multiple meanings of critical language policy study are highlighted. First, the term refers to the field of critical linguistics. Second, the book seeks to develop readers' ability to critically read language policies--that is, to understand the social and political implications of particular policies adopted in specific historical contexts. Third, it features chapters that are critical of traditional analyses that fail to capture the full social and political context of language policies and too often accept uncritically the claims of policy. *Sections are included on theoretical issues in language policies; the use of language policy for governance; the role of language policy in managing ethnic conflict; the link between language and globalization; and the impact of critical pedagogy on social change. This volume is intended for scholars and other specialists in language policy, education, applied linguistics, critical linguistics, and language teaching. It is designed for use as a textbook in graduate and advanced undergraduate courses on language policy and language education.

The English Room Chippy Irvine. 2003-05-28 'English style' immediately produces images of sartorial elegance; cool, calm areas of contemplation; eminent designers such as David Hicks and Colefax and Fowler; breakfast on a tray; a kettle boiling on a country range; a roaring fire in a gentleman's study, party invitations ranged orderly on the mantel. It is an unmistakable look, emulated throughout the world. Chippy Irvine (British-born but living and designing in the US with her husband Keith Irvine, of eminent designers, Irvine Fleming) takes a detailed look back through history to reveal the individual designers, the styles and influences that have shaped the English home. Exploring the subtle variations between Town and Country living and the privileges of the rich alongside households of more modest means, she also examines how rooms for pleasure and work have changed and adjusted as successive generations imposed their own experiences and expectations. History, local customs and the structure of society past and present combine to bring to life the wealth of influences that create the English house. Beautiful photographs by Christopher Simon-Sykes illustrate The English Room. Following a room-by-room approach terrace to

Swami and Friends, The Bachelor of Arts, The Dark Room, The English Teacher R. K. Narayan. 2009-06-03 R. K. Narayan (1906—2001) witnessed nearly a century of change in his native India and captured it in fiction of uncommon warmth and vibrancy. The four novels collected here, all written during British rule, bring colonial India into intimate focus through the narrative gifts of this master of literary realism. Swami and Friends introduces us to Narayan's beloved fictional town of Malgudi, where ten-year-old Swaminathan's excitement about his country's initial stirrings for independence competes with his ardor for cricket and all other things British. The Bachelor of Arts is a poignant coming-of-age novel about a young man flush with first love, but whose freedom to pursue it is hindered by the fixed ideas of his traditional Hindu family. In The Dark Room, Narayan's portrait of aggrieved domesticity, the docile and obedient Savitri, like many Malgudi women, is torn between submitting to her husband's humiliations and trying to escape them. The title character in The English Teacher, Narayan's most autobiographical novel, searches for meaning when the death of his young wife deprives him of his greatest source of happiness. These pioneering novels, luminous in their detail and refreshingly free of artifice, are a gift to twentieth-century literature.

The English Room Murders Lewis Morse. 2013-05-30 A beautiful blond lies dead at a tourist site, fresh blood still oozing from two bullets in an eye. The setting is The English Room of The Nationality Rooms at the University of Pittsburgh. Orin Underwood, craggy faced, womanizing chowhound, divorcée, professor of Elizabethan literature at the University, former Army CID man, is in the English room with Sergeant Henry Bruce, Homicide, Pittsburgh PD. A ten-year-old girl, Audrey Macik, found the body on a backbench while touring the Nationality Rooms with her parents. Audrey started screaming at ten after ten. The victim was not part of the nine people tour group. Madge Keck, one of the tourists eventually realizes she noticed someone leaving the group during the tour! She can't remember anything about the person. She is murdered during a reenactment of the crime. The case centers around a rare book forgery by the murdered woman, Joyce Diethorn, owner of a book shop. The rare Tennyson, worth \$200,000, and other collectors' items are involved. One of the tourists is Helen Riddle. Riddle is a reporter on the leading local newspaper. She is a delicious package to Orin. She has wantonness and earthiness that stirs him. Helen catches on to Orin's interest and responds seductively to him for several chapters. The reader learns much about rare books. While 'conversing' with the dead Joyce Diethorn, Underwood has a remarkably brilliant insight into the matter and solves the two murders.

A Sociolinguistic View of A Japanese Ethnic Church Community Tyler Barrett. 2020-05-21 Drawing on sociolinguistic approaches, this book presents unique insights into a Japanese ethnic church community in Canada and the ways in which churches mediate issues of linguistic, cultural, and religious hybridity in addressing the needs of their diverse populations. The book integrates discourse analytic methods with ethnographic perspectives to explore the complex dynamics of negotiating their different members' preferred language practices. The volume outlines the ways in which ethnic churches in this community build themselves around intentionally preferred Japanese language practices but make accommodations for English-language speakers in their own families, in turn making further accommodations for ESL student speakers new to the country. Barrett explores the impact of church members' transcultural experiences in broader decisions around language planning and policy in these churches, shedding light on the distinct implications of hybrid identities on discourses in localized communities. // The volume will be of interest to scholars in sociolinguistics, applied linguistics, and religious studies.

The Drawing Room Jeremy Musson. 2014-09-16 A highly detailed look at the most accomplished English country house interiors, exemplifying English decorating at its best. The English drawing room, a formal place within a house of status where family and honored guests could retire from the more public arena, is one of the most important rooms in an English country house, and thus great attention has been paid to preserving the decoration of this most elegant of spaces: the center of life in the English countryside and the epitome of English country house decoration. This book offers privileged access to fifty of the finest drawing rooms of country houses and historic townhouses—many still in private hands—including Althorp, Attingham, and Knepp Castle. Through these sumptuous rooms, readers experience a history of English decorating from the sixteenth century to the present day, including the work of design legends such as David Hicks, Nancy Lancaster, John Fowler, and David Mlinaric. Specially commissioned photographs capture the entirety of each room, as well as details of furniture, architectural elements, artwork, collections, and textiles, creating a visually seductive book that will inspire interior designers and homeowners interested in the widely popular

classic English look.

Extramural English in Teaching and Learning Pia Sundqvist, Liss Kerstin Sylvén. 2016-11-09 This book is unique in bringing together theory, research, and practice about English encountered outside the classroom – extramural English – and how it affects teaching and learning. The book investigates ways in which learners successfully develop their language skills through extramural English and provides tools for teachers to make use of free time activities in primary and secondary education. The authors demonstrate that learning from involvement in extramural English activities tends to be incidental and is currently underutilized in classroom work. A distinctive strength is that this volume is grounded in theory, builds on results from empirical studies, and manages to link theory and research with practice in a reader-friendly way. Teacher-educators, teachers and researchers of English as a foreign language and teachers of English as a second language across the globe will find this book useful in developing their use of extramural English activities as tools for language learning.

Neuronal Bases And Psychological Aspects Of Consciousness - Proceedings Of The International School Of Biocybernetics Cloe Taddei-ferretti, C Musio. 1999-05-14 For a few decades, the puzzle of consciousness, which for centuries was analysed by philosophers, has been finding a wide interest in the scientific field, where previously it was not entitled to be a member. It has become one of the most-debated problems in the cognitive sciences. The anatomical bases, neurophysiological correlates and elementary mechanisms underlying complex processes arising with consciousness have been compared with the psychological (perceptive, cognitive, volitive, emotional) aspects of conscious expressions, in normal and pathological conditions. Various theories, which attempt to fit systematically and coherently neural and psychological data, have been debated, proving the emergence of the phenomenon of consciousness.

Corridors Roger Luckhurst. 2019-05-13 We spend our lives moving through passages, hallways, corridors, and gangways, yet these channeling spaces do not feature in architectural histories, monographs, or guidebooks. They are overlooked, undervalued, and unregarded, seen as unlovely parts of a building's infrastructure rather than architecture. This book is the first definitive history of the corridor, from its origins in country houses and utopian communities in the seventeenth and eighteenth centuries, through reformist Victorian prisons, hospitals, and asylums, to the "corridors of power," bureaucratic labyrinths, and housing estates of the twentieth century. Taking in a wide range of sources, from architectural history to fiction, film, and TV, *Corridors* explores how the corridor went from a utopian ideal to a place of unease: the archetypal stuff of nightmares.
