Subjective Writing in Contemporary Chinese Literature Jin Siyan.2020-09-15 Translated from the original French

publication, this book provides a comprehensive analysis of 20th century Chinese literature and examines the relationship between Chinese literary theory and modernity. The author surveys the work of leading writers including Zhang Ailing, Beidao, and Mu Dan. The author seeks to answer some fundamental questions in the study of Chinese literary history, such as: How does contemporary Chinese literature go from historical narrative to the narrative of the I, where rhythm and epic merge into writing, and where the instinctive load of the rhythm substantiates the epic? What are the steps and the forms of mediation that allow such a transition? Is the subject the only agent of the transition? What is its status? What is the role of poetic language that led to the birth of the subject and which separates it from empiricism? What are the difficulties faced by Chinese writers today? Young Chinese writers set off in search of a totally new writing to rediscover subjectivity, which is in no way limited to literature; it also covers areas such as the law, and the expression of the I confronted to an overpowering we.

Knowledge Needs and Information Extraction Nicolas

Turenne. 2013-02-05 This book presents a theory of consciousness which is unique and sustainable in nature, based on physiological and cognitive-linguistic principles controlled by a number of socio-psycho-economic factors. In order to anchor this theory, which draws upon various disciplines, the author presents a number of different theories, all of which have been abundantly studied by scientists from both a theoretical and experimental standpoint, including models of social organization, ego theories, theories of the motivational system in psychology, theories of the motivational system in neurosciences, language modeling and computational modeling of motivation. The theory presented in this book is based on the hypothesis that an individual's main activities are developed by self-motivation, managed as an informational need. This is described in chapters covering self-motivation on a day-to-day basis, the notion of need, the hypothesis and control of cognitive self-motivation and a model of self-motivation which associates language and physiology. The subject of knowledge extraction is also covered, including the impact of self-motivation on written information, non-transversal and transversal text-mining techniques and the fields of interest of text mining. Contents: 1. Consciousness: an Ancient and Current Topic of Study. 2. Self-motivation on a Daily Basis. 3. The Notion of Need. 4. The Models of Social Organization. 5. Self Theories. 6.

About the Authors Nicolas Turenne is a researcher at INRA in the Science and Society team at the University of Paris-Est Marne la Vallée in France. He specializes in knowledge extraction from texts with theoretical research into relational and stochastic models. His research topics also concern the sociology of uses, food and environmental sciences, and bioinformatics.

Trustworthy Men Ian Forrest. 2020-03-31 The medieval church was founded on and governed by concepts of faith and trust—but not in the way that is popularly assumed. Offering a radical new interpretation of the institutional church and its social consequences in England, Ian Forrest argues that between 1200 and 1500 the ability of bishops to govern depended on the cooperation of local people known as trustworthy men and shows how the combination of inequality and faith helped make the medieval church. Trustworthy men (in Latin, *virī fidedigni*) were jurors, informants, and witnesses who represented their parishes when bishops needed local knowledge or reliable collaborators. Their importance in church courts, at inquests, and during visitations grew enormously between the thirteenth and fifteenth centuries. The church had to trust these men, and this trust rested on the complex and deep-rooted cultures of faith that underpinned promises and obligations, personal reputation and identity, and belief in God. But trust also had a dark side. For the church to discriminate between the trustworthy and untrustworthy was not to identify the most honest Christians but to find people whose status ensured their word would not be

contradicted. This meant men rather than women, and—usually—the wealthier tenants and property holders in each parish. Trustworthy Men illustrates the ways in which the English church relied on and deepened inequalities within late medieval society, and how trust and faith were manipulated for political ends.

Satiric Modernism Kevin Rulo. 2021-04-19 In this book, Kevin Rulo reveals the crucial linkages between satire and modernism. He shows how satire enables modernist authors to evaluate modernity critically and to explore their ambivalence about the modern. Through provocative new readings of familiar texts and the introduction of largely unknown works, *Satiric Modernism* exposes a larger satiric mentality at work in well-known authors like T.S. Eliot, James Joyce, Wyndham Lewis, Ezra Pound, Virginia Woolf, and Ralph Ellison and in less studied figures like G.S. Street, the Sitwells, J.J. Adams, and Herbert Read, as well as in the literature of migration of Sam Selvon and John Agard, in the films of Paolo Sorrentino, and in the drama of *Sarah Kane*. In so doing, Rulo remaps the last hundred years as an era marked distinctively by a new kind of satiric critique of and aesthetic engagement with the temporal fissures, logics, and regimes of modernity. This ambitious, expansive study reshapes our

understanding of modernist literary history and will be of interest to scholars of twentieth century and contemporary literature as well as of satire.

Community, Urban Health and Environment in the Late Medieval Low Countries Janna Coomans.2021-08-26 Explores how preventative health practices shaped urban communities, social ties and living environments in the medieval Low Countries.

Peacemaking and the Restraint of Violence in High Medieval Europe Simon Leboutellier,Louisa Taylor.2023-10-02 The High Middle Ages have been seen as an important point within the development of governmental and administrative bureaucracy, as well as a time in which there was frequent conflict. This volume addresses the methods by which violence was regulated and mitigated, and peaceful relations were re-established in High Medieval Europe. By studying the restraint of violence and the imposition of peace, the chapters in this volume contribute to interdisciplinary discussions about the effects that violence had on medieval societies. The wide-ranging geographical scope of this volume invites comparisons to be made in relation to how violence was restrained, and peace established, in different settings. The chapters in the first section of this volume address the issue of how violence was moderated and curbed during and following periods of conflict. The second section explores attempts to maintain peace, and the processes which developed to deal with those viewed as having broken the peace. The final section of this volume explores the ways in which conflict was avoided through the maintenance of positive relationships between individuals and groups. This book will be of interest to both academics and students interested in conflict, the restraint of violence, and peacemaking in medieval societies as well as those working on ritual and conflict resolution in any historical period.

Twilight of the Elites Christophe Guilluy.2019-01-01 A passionate account of how the gulf between France's metropolitan elites and its working classes are tearing the country apart Christophe Guilluy, a French geographer, makes the case that France has become an "American society"—one that is both increasingly multicultural and increasingly unequal. The divide between the global economy's winners and losers in today's France has replaced the old left-right split, leaving many on "the periphery." As Guilluy shows, there is no unified French economy, and those cut off from the country's new economic citadels suffer disproportionately on both economic and social fronts. In Guilluy's analysis, the lip service paid to the idea of an "open society" in France is a smoke screen meant to hide the emergence of a closed society, walled off for the benefit of the upper classes. The ruling classes in France are reaching a dangerous stage, he argues; without the stability of a growing economy, the hope for those excluded from growth is extinguished, undermining the legitimacy of a multicultural nation.

Besoins informationnels et extraction d'information : Vers une conscience artificielle TURENNE Nicolas.2013-02-01 Cet ouvrage réconcilie la philosophie, la biologie, la sociologie et les sciences cognitives grâce à un dénominateur commun, la conscience. Il en présente un aspect particulier, le concept d'auto-motivation de champ d'activité en tant que moteur biologique d'un état de conscience, et dont l'informatique systémique permet de révéler l'existence. Si la conscience est mal définie, un cadre réduit permet d'en donner une définition plus précise, observable

malgré toute la complexité psychologique, sociale et technique de l'individu. Ces observations sont de deux natures : une nature d'activité principale et une nature cognitivo-linguistique, modulées par des facteurs de contrôle intrinsèques et extrinsèques. L'argument exposé consiste à présenter un état de conscience relatif à la notion de besoin informationnel instinctif, donc physiologique, et dont les traces porteuses sur les supports physiques (revues, abonnements, etc.) ou numériques (sms, web, etc.), sont analysables par l'extraction de connaissances.

Avant tout d'essence spirituelle, la notion d'empire recouvre une dimension à la fois politique et philosophique, fondée sur la concorde des peuples qu'elle englobe, l'harmonie de leur administration, leur unanime respect à son représentant. Ses témoignages matériels ont traversé les siècles sous la forme de monuments, codes de loi ou œuvres artistiques. De vision idéale, elle se mue chez certains esprits en fantôme de pouvoir absolu, qu'ils se verraient bien rétablir pour mille ans. Il en est de gigantesques comme de quelques kilomètres carrés, dont l'éclat et le rayonnement reposent tout entiers sur une seule personne, sacrée. Notre dossier envisage les multiples facettes de cette idée si puissante qu'elle se confond parfois, erronément, avec l'arrogance dominatrice de l'impérialisme. Le lecteur y rencontrera donc quelques figures inattendues qui ont incarné l'empire, au masculin comme au féminin, au fil de réflexions qui embrassent son horizon, en Occident et dans d'autres aires civilisationnelles; en sciences historiques, en littérature ou au cinéma. Car l'Empire et les empires n'en finiront jamais de nourrir notre regard sur le monde d'hier, d'aujourd'hui et de demain.

A Cultural History of Democracy in the Medieval Age David Napolitano, Kenneth J. Pennington.2022-12-15 Offering a broad exploration of the cultural history of democracy in the medieval age, this volume claims that, though not generally associated with the term, the Middle Ages deserve to be included in a general history of democracy. The term was never widely employed during this period, the dominant attitude towards democracy was outright hostility, and none of the medieval polities thought of itself as a democracy. Despite this, this study highlights a wide variety of ideas, practices, procedures, and institutions that, although different from their ancient predecessor (direct democracy) or modern successor (liberal representative democracy), played a significant role in the history of democracy. This volume covers almost 1,000 years and a wide range of territories. It deals with different political spheres (ecclesiastical and secular) and socio-political settings (courtly, urban, and rural) and examines the phenomenon from the local level up to the universal realm. This volume adopts a broad cultural approach and is structured thematically. Each chapter takes a theme as its focus: sovereignty; liberty and the rule of law; the common good; economic and social democracy; religion and the principles of political obligation; citizenship and gender; ethnicity, race, and nationalism; democratic crises, revolutions, and civil resistance; international relations; and the scalability of democracy beyond the limits of a single city. These ten themes add up to an extensive, synoptic coverage of the subject.

The Dawn of Astronomy J. Norman Lockyer.2006-04-28 A

Downloaded from
[gws.ala.org](https://www.gws.ala.org) on 2020-11-04
by guest

pioneer in the fields of astrophysics and astro-archeology, J. Norman Lockyer believed that ancient Egyptian monuments were constructed in strict relation to the stars. In this celebrated study, he explores the relationship between astronomy and architecture in the age of the pharaohs. Lockyer addresses one of the many points already extensively investigated by Egyptologists: the chronology of the kings of Egypt. All experts are in accord regarding the identity of the first monarch, but they cannot agree upon the dates of his reign within a thousand years. The author contends that by applying a knowledge of astronomy to the actual site orientation of the region's pyramids and temples, accurate dating can be achieved. In order to accomplish this, Lockyer had to determine the level of the ancient Egyptian ideas of astronomy. Some of his inferences have been invalidated by subsequent scholarship, but many of his other conclusions stand firm and continue to provide sensational leads into contemporary understanding of archaic astronomy.

The Top Books of the Year L Empire Du Bien The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have charmed audiences this year. L Empire Du Bien : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail.

Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and

societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. *L'Empire Du Bien* : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. *The Secret History* is a brilliant and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
