**Men In The Public Eye** Jeff Hearn.2006-05-11 Men in the Public Eye reveals why men's domination in and of the public sphere is a vital feature of gender relations in patriarchy. It also shows how public domains dominate private domains, contributing to the intensification of public patriarchies. Jeff Hearn explores these important issues by focusing on the period 1870-1920, when there was massive growth and transformation in the power of the public domains. He demonstrates that these historical debates and dilemmas are still relevant today as men search for new, postmodern forms of masculinities.

**Systems and Psychoanalysis** Carmel Flaskas,David Pocock.2018-04-24 This book demonstrates how accomplished clinicians can promote the emergence of a richness and creativity that appeals to practitioners of systemic family therapy, not least because of the immediate relevance and usefulness of the ideas. It will be useful to the field of psychotherapy.

*The Future of Northern Ireland* John McGarry,Brendan O'Leary.1990 The belief that there is no solution to the conflict in Northern Ireland has come to dominate academic and journalistic commentary. The first objective of these essays is to show that this belief is mistaken and that it is only the multiplicity of possible solutions that has confused the issue.

Cooperative Buildings Norbert Streitz,Shin'ichi Konomi,Heinz-Jürgen Burkhardt.1998-02-18 This volume constitutes the proceedings of the First International Workshop on - operative Buildings (CoBuild'98) - Integrating Information, Organization, and Architecture, held in Darmstadt, Germany, on February 25-26, 1998. The idea for this workshop and actually the term "cooperative building" was created during the activities of initiating the consortium "Workspaces of the Future" for conducting an inter disciplinary R&D program in cooperation with partners from industry. We discovered that there was no appropriate forum to present research at the intersection of information technology, organizational innovation, and architecture. The theme "Integrating information, organization, and architecture" reflects the challenges resulting from current and future developments in these three areas. In the future, work and cooperation in organizations will be characterized by a degree of dynamics, flexibility, and mobility that will go far beyond many of today's developments and examples. The introduction of information and communication technology has already changed processes and contents of work significantly. However, the design of work environments, especially physical work spaces as offices and buildings, remained almost unchanged. It is time to reflect these developments in the design of equally dynamic, flexible, and mobile work environments. The papers of this volume show that this is an interdisciplinary endeavor requiring a wide range of perspectives and the utilization of results from various areas of research and practice.

*New Perspectives on Virtual and Augmented Reality* Linda Daniela.2020-05-31 New Perspectives on Virtual and Augmented Reality discusses the possibilities of using virtual and augmented reality in the role of innovative pedagogy, where there is an urgent need to find ways to teach and support learning in a transformed learning environment. Technology creates opportunities to learn differently and presents challenges for education. Virtual reality solutions can be exciting, create interest in learning, make learning more accessible and make learning faster. This book analyses the capabilities of virtual, augmented and mixed reality by providing ideas on how to make learning more effective, how existing VR/AR solutions can be used as learning tools and how a learning process can be structured. The virtual reality (VR) solutions can be used successfully for educational purposes as their use can contribute to the construction of knowledge and the development of metacognitive processes. They also contribute to inclusive education by providing access to knowledge that would not otherwise be available. This book will be of great interest to academics, researchers and post-graduate students in the field of educational technology.

*A Handbook of Critical Approaches to Literature* Wilfred L. Guerin.2011 A Handbook of Critical Approaches to Literature, Sixth Edition, offers a valuable combination of theory and practice, introducing and applying the most useful contemporary approaches. Thoroughly updated and revised for this edition, the text presents a variety of ways to interpret a work,ranging from historical/biographical and moral/philosophical to feminisms and cultural studies. It applies these diverse approaches to the same six classic works - To His Coy Mistress, Young Goodman Brown, Everyday Use, Hamlet, Huckleberry Finn, and Frankenstein-showing how each approachproduces different types of insights.

*Peter Wallensteen: A Pioneer in Making Peace Researchable* Peter Wallensteen.2021-05-28 This book provides a broad overview of what peace research is all about by an author who has been involved in the field for more than half a century. Among other things it gives a unique review of how peace research emerged in Sweden as the author was a key actor in the most crucial events during this formative period. The book also portrays how the discipline has grown from an initial focus on "alternatives to war" to the comprehensive study of the many dimensions of a "lasting and positive peace". The author's own work covers causes of war, sanctions, conflict resolution, conflict data, mediation, and quality peace. They demonstrate the range of topics that have to be understood for a peace with quality. This is exemplified by some of the author's writings specifically selected for this volume plus a few ones original to it. Some accounts of the author's involvements in actual peace processes in the 1990s are also included. This publication offers a substantial contribution to understanding the evolution of peace research as a field and is an important reading for scholars, policy makers, journalists, students and any aspiring peace researcher as well as for the public at large. • Peter Wallensteen is a global pioneer of peace research due to his involvement in the creation of the Department of Peace and Conflict Research at Uppsala University – a major center in the field. He served as Head of Department from 1972 to 1999. • Peter Wallensteen set up and directed the well-known Uppsala Conflict Data Program, UCDP, the global resource for the study of armed conflicts and peace negotiations, 1978-2015. • Peter Wallensteen was the first holder of the Dag Hammarskjöld Chair in Peace and Conflict Research at Uppsala University, 1985-2012. • He was also the first holder of the position as the Richard G. Starmann Sr. Research Professor of Peace Studies at the Kroc Institute for International Peace Studies, University of Notre Dame, USA, 2006-2018.

Amnesty International Fair Trial Manual Amnesty International.2014 A practical and authoritative guide to international and regional standards for fair trial. These standards set out minimum guarantees designed to protect the right to a fair trial in criminal proceedings. The Manual explains how fair trial rights have been interpreted by human rights bodies and by international courts. It covers rights before and during trial, and during appeals. It also covers special cases, including death penalty trials, cases brought against children, and fair trial rights during armed conflict--

*Still a Man's World* Christine L. Williams.2023-04-28 Men who do women's work have consistently been the butt of jokes, derided for their lack of drive and masculinity. In this eye-opening study, Christine Williams provides a wholly new look at men who work in predominantly female jobs. Having conducted extensive interviews in four cities, Williams uncovers how men in four occupations—nursing, elementary school teaching, librarianship, and social work—think about themselves and experience their work. Contrary to popular imagery, men in traditionally female occupations do not define themselves differently from men in more traditional occupations. Williams finds that most embrace conventional, masculine values. Her findings about how these men fare in their jobs are also counterintuitive. Rather than being surpassed by the larger number of women around them, these men experience the glass escalator effect, rising in disproportionate numbers to administrative jobs at the top of their professions. Williams finds that a complex interplay between gendered expectations embedded in organizations, and the socially determined ideas workers bring to their jobs, contribute to men's advantages in these occupations. Using a feminist psychoanalytic perspective, Williams calls for more men not only to cross over to women's occupations, but also to develop alternative masculinities that find common ground with traditionally female norms of cooperation and caring. Until the workplace is sexually integrated and masculine and feminine norms equally valued, it will unfortunately remain still a man's world.

**Capitalism's Achilles Heel** Raymond W. Baker.2005-08-05 For over forty years in more than sixty countries, Raymond Baker has witnessed the free-market system operating illicitly and corruptly, with devastating

consequences. In *Capitalism's Achilles Heel*, Baker takes readers on a fascinating journey through the global free-market system and reveals how dirty money, poverty, and inequality are inextricably intertwined. Readers will discover how small illicit transactions lead to massive illegalities and how staggering global income disparities are worsened by the illegalities that permeate international capitalism. Drawing on his experiences, Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some \$1 trillion in illicit proceeds each year. He also illustrates how businesspeople, criminals, and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals, institutions, and countries.

**Federalism as a Tool of Conflict Resolution** Soeren Keil, Elisabeth Alber. 2021-05-13 Looking at the growing use of federalism and decentralization as tools of conflict resolution, this book provides evidence from several case studies on the opportunities and challenges that territorial solutions offer when addressing internal conflicts within a variety of countries. Federalism has been used as a tool of conflict resolution in a number of conflict situations around the world. The results of this have been mixed at best, with some countries moving slowly to the paths of peace and recovery, while others have returned to violence. This volume looks at a number of case studies in which federalism and decentralization have been promoted in order to bring opposing groups together and protect the territorial integrity of different countries. Yet, it is demonstrated that this has been incredibly difficult, and often overshadowed by wider concerns on secession, de and re-centralization and geopolitics and geoeconomics. While federalism and decentralization might hold the key to keeping war-torn countries together and bringing hostile groups to the negotiation table, we nevertheless need to rethink under which conditions territorial autonomy can help to transform conflict and when it might contribute to an increase in conflict and violence. Federalism alone, so the key message from all contributions, cannot be enough to bring peace – yet, without territorial solutions to ongoing violence, it is also unlikely that peace will be achieved. The chapters in this book were originally published as a special issue of *Ethnopolitics*.

**Didactics of Smart Pedagogy** Linda Daniela. 2018-11-27 The focus on smart education has become a new trend in the global educational field. Some countries have already developed smart education systems and there is increasing pressure coming from business and tech communities to continue this development. Simultaneously, there are only fragmented studies on the didactic aspects of technology usage. Thus, pedagogy as a science must engage in a new research direction—smart pedagogy. This book seeks to engage in a new research direction, that of smart pedagogy. It launches discussions on how to use all sorts of smart education solutions in the context of existing learning theories and on how to apply innovative solutions in order to reduce the marginalization of groups in educational contexts. It also explores transformations of pedagogical science, the role of the educator, applicable teaching methods, learning outcomes, and research and assessment of acquired knowledge in an effort to make the smart education process meaningful to a wide audience of international educators, researchers, and administrators working within and tangential to TEL.

**Managing Strategic Change** Noel M. Tichy. 1983-05-03 Shows how managers can use the conceptual framework of TPC theory (technical, political, and cultural dynamics) to cope with major strategic reorientation. Raises such fundamental questions about the nature of organizations. What business(es) should we be in? Who should reap what benefits from the organization? What are the values and norms of organizational members? Provides concepts and workable technologies for dealing with these questions and preparing for future change. Includes extensive examples.

*I-Docs* Judith Aston, Sandra Gaudenzi, Mandy Rose. 2017-02-28 The history of documentary has been one of adaptation and change, as documentarists have harnessed the affordances of emerging technology. In the last decade interactive documentaries (i-docs) have become established as a new field of practice within non-fiction storytelling. Their various incarnations are now a focus at leading film festivals (IDFA DocLab, Tribeca Storyscapes, Sheffield DocFest), major international awards have been won, and they are increasingly the subject of academic study. This anthology looks at the creative practices, purposes and ethics that lie behind these emergent forms. Expert contributions, case studies and interviews with major figures in the field address the production processes that lie behind interactive documentary, as well as the political, cultural and geographic contexts in which they are emerging and the media ecology that supports them. Taking a broad view of interactive documentary as any work which engages with 'the real' by employing digital interactive technology, this volume addresses a range of platforms and environments, from web-docs and virtual reality to mobile media and live performance. It thus explores the challenges that face interactive documentary practitioners and scholars, and proposes new ways of producing and engaging with interactive factual content.

**Diario sul Mobbing** Christoph Bisel. 2020-11-10 Per Christoph Bisel, fondatore di Mobbing-Hilfe a Zurigo e presidente della Schweizerischer Verband für Mobbing-Prävention (l'associazione svizzera per la prevenzione del Mobbing), il supporto per chi ne è vittima con l'aiuto di counseling e coaching è una questione fondamentale. Come mediatore, coach ed allenatore aiuta anche le compagnie a rispondere in maniera ottimale ai casi correnti di Mobbing e a prevenire nuovi casi. Questo libro è una continuazione del capitolo rilevante del suo successo *Mobbing: Handbuch für Mobbing-Betroffene, ihre Angehörigen und Menschen, die sich und andere vor Mobbing*. Trasmette importanti principi guida a cui coloro che ne sono colpiti dovrebbero assolutamente prestare attenzione nel fare un manuale sul Mobbing.

**Documentary Film: A Very Short Introduction** Patricia Aufderheide. 2007-11-28 Documentary film can encompass anything from Robert Flaherty's pioneering ethnography *Nanook of the North* to Michael Moore's anti-Iraq War polemic *Fahrenheit 9/11*, from Dziga Vertov's artful Soviet propaganda piece *Man with a Movie Camera* to Luc Jacquet's heart-tugging wildlife epic *March of the Penguins*. In this concise, crisply written guide, Patricia Aufderheide takes readers along the diverse paths of documentary history and charts the lively, often fierce debates among filmmakers and scholars about the best ways to represent reality and to tell the truths worth telling. Beginning with an overview of the central issues of documentary filmmaking—its definitions and purposes, its forms and founders—Aufderheide focuses on several of its key subgenres, including public affairs films, government propaganda (particularly the works produced during World War II), historical documentaries, and nature films. Her thematic approach allows readers to enter the subject matter through the kinds of films that first attracted them to documentaries, and it permits her to make connections between eras, as well as revealing the ongoing nature of documentary's core controversies involving objectivity, advocacy, and bias. Interwoven throughout are discussions of the ethical and practical considerations that arise with every aspect of documentary production. A particularly useful feature of the book is an appended list of 100 great documentaries that anyone with a serious interest in the genre should see. Drawing on the author's four decades of experience as a film scholar and critic, this book is the perfect introduction not just for teachers and students but also for all thoughtful filmgoers and for those who aspire to make documentaries themselves. About the Series: Combining authority with wit, accessibility, and style, *Very Short Introductions* offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

**Journal de Harcèlement** Christoph Bisel. 2020-11-21 Pour Christoph Bisel, fondateur de Mobbing-Hilfe Zürich et président de la Schweizerischer Verband für Mobbing-Prävention (association suisse pour la prévention du Harcèlement), l'aide des personnes touchées au moyen du conseil et du coaching est une question de principe. En tant que médiateur, coach et formateur, il aide également les entreprises à réagir de façon optimale

aux cas existants de Harcèlement, et à éviter de nouveaux cas. Ce livre s'inscrit dans la continuité du chapitre connexe de son ouvrage à succès « Mobbing: Handbuch für Mobbing-Betroffene, ihre Angehörigen und Menschen, die sich und andere vor Mobbing ». Il transmet des principes essentiels auxquels ceux qui sont touchés devraient absolument être attentifs, au moment de tenir leur journal de Harcèlement.

*ADR in Business* Jean-Claude Goldsmith, Arnold Ingen-Housz, Gerald H. Pointon. 2011-01-01 Whether the and "Aand" stands for and "appropriateand", and "amicableand", or and "alternativeand", all out of court dispute resolution modes, collected under the banner term and "ADRand", aim to assist the business world in overcoming relational differences in a truly manageable way. The first edition of this book (2006) contributed to a global awareness that ADR is important in its own right, and not simply as a substitute for litigation or arbitration. Now, drawing on a wealth of new sources and developments, including the flourishing of hybrid forms of ADR, the subject matter has been largely augmented and expanded on two fronts: in-depth analysis (both descriptive and comparative) of methodology, expectations and outcomes and extended geographical coverage across all continents. As a result, in this book twenty-nine and "intertwined but variegatedand" essays (to use the editorand"s characterization) provide substantial insight in such specific topics as: ADRand"s flexible procedures as controlled by the parties; ADRand"s facilitation of the continuation of relations between the parties; privilege and confidentiality; involvement of non-legal professionals; the identity and the role of the and "neutraland" as well as the role of the arbitrator; the implementation of ICC and other international ADR rules; the workings of Dispute Boards and the role of ADR in securing investment and other specific objectives. In its compound thesis and "growing in relevance every day and" that numerous dispute resolution methods exist whose goals and developments are varied but fundamentally complementary, the multifaceted approach presented here is of immeasurable value to any business party, particularly at the international level. Practitioners faced with drafting a dispute resolution clause in a contract, or dealing with a dispute that has arisen, will find expert guidance here, and academics will expand their awareness of the issues raised by ADR, in particular as it relates to arbitration. A broad cross section of interested professionals will discover ample material for comparative study of how disputes are approached and resolved in numerous countries and cultures.

*In the Way of Women* Cynthia Cockburn. 2018-08-06 How are men responding to feminism? In particular, at work dealing with the challenge to their power and privilege represented by positive action for sex equality? The 1980s saw many organizations, from major companies to left-wing local councils, take action to improve women's chances. The research on which this book is based evaluates the part of men in the equality process. The author demonstrates the social mechanisms through which women's aspirations for change are thwarted and draws lessons from experience for feminist activism in organizations in the 1990s.

*De-Gendering Gendered Occupations* Joanne McDowell. 2020-10-05 De-Gendering Gendered Occupations brings together contributions from researchers on language and gender studies and workplace discourse to unpack and challenge hegemonic gendered norms encoded in what are traditionally considered female occupations. The volume integrates a range of theoretical frameworks, including conversation analysis, pragmatics, and interactional sociolinguistics, to analyse data from such professions as primary education, healthcare, and speech and language therapy across various geographic contexts. Through this lens, the first part of the book examines men's linguistic practices with the second part offering a comparative analysis of 'male' and 'female' discourse. The settings discussed here allow readers to gain insights into the ways in which cultural, professional, and gendered identity intersect for practitioners in these professions and in turn, future implications for discourse around gendered professions more generally. This book will be key reading for students and researchers in sociolinguistics, discourse analysis, gender studies, cultural studies, and professional discourse.

**The Unkept Woman** Allison Montclair. 2022-07-26 Allison Montclair returns with the fourth Sparks & Bainbridge mystery, *The Unkept Woman*: London, 1946, Miss Iris Sparks--currently co-proprietor of the Right Sort Marriage Bureau--has to deal with aspects of her past exploits during the recent war that have come back around to haunt her. The Right Sort Marriage Bureau was founded in 1946 by two disparate individuals - Mrs. Gwendolyn Bainbridge (whose husband was killed in the recent World War) and Miss Iris Sparks who worked as an intelligence agent during the recent conflict, though this is not discussed. While the agency flourishes in the post-war climate, both founders have to deal with some of the fallout that conflict created in their personal lives. Miss Sparks finds herself followed, then approached, by a young woman who has a very personal connection to a former paramour of Sparks. But something is amiss and it seems that Iris's past may well cause something far more deadly than mere disruption in her personal life. Meanwhile, Gwendolyn is struggling to regain full legal control of her life, her finances, and her son - a legal path strewn with traps and pitfalls. Together these indomitable two are determined and capable and not just of making the perfect marriage match.

*Men as Managers, Managers as Men* David Collinson, Jeff Hearn. 1996-09-28 Most managers in most organizations in most countries are men. This book is the first international work to address the relationships between men, masculinities and managements. It examines the processes through which gendered managerial structures, cultures and practices are reproduced. Exploring top and middle managers, entrepreneurs, corporate executives, and public and private sector managers, the book breaks new ground by critically examining the gendered power processes that have largely been assumed and ignored by conventional organizational and management theory. As well as providing new insights into how managements and masculinities may reinforce each other, this challenging book ultimately explores the ways in w
