Have Dog, Will Travel Stephen Kuusisto.2019-03-19 In a lyrical love letter to guide dogs everywhere, a blind poet shares his delightful story of how a guide dog changed his life and helped him discover a newfound appreciation for travel and independence. Stephen Kuusisto was born legally blind—but he was also raised in the 1950s and taught to deny his blindness in order to pass as sighted. Stephen attended public school, rode a bike, and read books pressed right up against his nose. As an adult, he coped with his limited vision by becoming a professor in a small college town, memorizing routes for all of the places he needed to be. Then, at the age of thirty-eight, he was laid off. With no other job opportunities in his vicinity, he would have to travel to find work. This is how he found himself at Guiding Eyes, paired with a Labrador named Corky. In this vivid and lyrical memoir, Stephen Kuusisto recounts how an incredible partnership with a guide dog changed his life and the heart-stopping, wondrous adventure that began for him in midlife. Profound and deeply moving, this is a spiritual journey, the story of discovering that life with a guide dog is both a method and a state of mind.

Animals in Translation Temple Grandin,Catherine Johnson.2009-08-11 With unique personal insight, experience, and hard science, *Animals in Translation* is the definitive, groundbreaking work on animal behavior and psychology. Temple Grandin's professional training as an animal scientist and her history as a person with autism have given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position to translate “animal talk.” Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.

Our Dogs, Ourselves Alexandra Horowitz.2019-09-03 From Alexandra Horowitz, #1 New York Times bestselling author of *Inside of a Dog*, an eye-opening, informative, and wholly entertaining examination and celebration of the human-canine relationship for the curious dog owner and science-lover alike. We keep dogs and are kept by them. We love dogs and (we assume) we are loved by them. We buy them sweaters, toys, shoes; we are concerned with their social lives, their food, and their health. The story of humans and dogs is thousands of years old but is far from understood. In *Our Dogs, Ourselves*, Alexandra Horowitz explores all aspects of this unique and complex interspecies pairing. As Horowitz considers the current culture of dogdom, she reveals the odd, surprising, and contradictory ways we live with dogs. We celebrate their individuality but breed them for sameness. Despite our deep emotional relationships with dogs, legally they are property to be bought, sold, abandoned, or euthanized as we wish. Even the way we speak to our dogs is at once perplexing and delightful. In thirteen thoughtful and charming chapters, *Our Dogs, Ourselves* affirms our profound affection for this most charismatic of animals—and opens our eyes to the companions at our sides as never before.

Buji and Me Wendy Kelly.2011-11-01 Head held high, I walked out of the shelter with the dog others had deemed hopeless. Minutes later, I was banished from my own car by bared teeth and bristled fur, caught in the rain and dripping wet, foiled by the very creature whose cause I had just championed. Never in my life had I asked so many times, “What was I thinking?” When I rescued Buji, little did I know he would teach me some of life’s most valuable lessons—and all he had to do to get my attention was save my life. In *Buji and Me*, psychological therapist and animal behaviorist Wendy Kelly shares the principles of a dynamic, life-changing force that occurs when we allow our pets to become our teachers. If we are open and aware, they will guide us to being, well, better beings—present, honest, aware, focused, joyful, kind, and loving. Unleash the seven secrets of living the “pawsitive” life . . . starting today.

Why We Love and Exploit Animals Kristof Dhont,Gordon Hodson.2019-11-08 This unique book brings together research and theorizing on human-animal relations, animal advocacy, and the factors underlying exploitative attitudes and behaviors towards animals. Why do we both love and exploit animals? Assembling some of the world’s leading academics and with insights and experiences gleaned from those on the front lines of animal advocacy, this pioneering collection breaks new ground, synthesizing scientific perspectives and empirical findings. The authors show the complexities and paradoxes in human-animal relations and reveal the factors shaping compassionate versus exploitative attitudes and behaviors towards animals. Exploring topical issues such as meat consumption, intensive farming, speciesism, and effective animal advocacy, this book demonstrates how we both value and devalue animals, how we can address animal suffering, and how our thinking about animals is connected to our thinking about human intergroup relations and the dehumanization of human groups. This is essential reading for students, scholars, and professionals in the social and behavioral sciences interested in human-animal relations, and will also strongly appeal to members of animal rights organizations, animal rights advocates, policy makers, and charity workers.

Woo, the Monkey Who Inspired Emily Carr Grant Hayter-Menzies.2019-03-02 Although Emily Carr is now considered a Canadian legend, the most enduring image is that of her pushing a beat-up old pram into downtown Victoria, loaded with dogs, cats, birds—and a monkey. Woo, a Javanese macaque whom Carr adopted in 1923, has become inextricably linked with Carr in the popular imagination. But more than that, in her short lifetime Woo became equally connected to Carr’s life and art. Born to a strictly religious family, Carr was never able to reconcile her wild and passionate nature with the stifling mores of the well-to-do Victorian society in which she was raised. Over the years, she increasingly turned to the company of animals to find the love and trust missing from her human relationships. Across the world in an Indonesian jungle lagoon, Woo (like Carr) was parted from her mother at a young age. The tiny ape with a “greeny-brown” pelt and penetrating golden eyes was then shipped across the world. When Carr

spotted Woo in a pet store, she recognized a kindred spirit and took her home. Woo was many things to Carr—a surrogate daughter, a reflection of herself, a piece of the wild inside her downtown Victoria boarding house. Welcoming the mischievous Woo into her life, Carr also welcomed a freedom that allowed a full blooming of artistic expression and gave Canada and the world great art unlike any other before or since. However, despite Carr's clear love for Woo, her chaotic life did not always allow Carr to properly care for her. Tragically, after Carr was hospitalized due to heart failure, she arranged for Woo to be sent to the Stanley Park Zoo. Bereft of Carr, Woo died alone in her cage only a year later. Hayter-Menzies approaches his subject from a contemporary perspective on bringing wild animals into captivity while remaining empathetic to the unique relationship between artist and monkey.

Giraffe Problems Jory John.2020-06-09 The bestselling creators of the hilarious Penguin Problems, Jory John and Lane Smith, turn a giraffe's problematic long neck into an enviable advantage in this fun board book. Edward the giraffe can't understand why his neck is as long and bendy and, well, ridiculous as it is. No other animal has a neck this absurd. He's tried disguising it, dressing it up, strategically hiding behind bushes--honestly, anything you can think of. Just when he has exhausted his neck-hiding options and is about to give up, Cyrus the turtle ambles in (very slowly) and helps Edward understand that his neck has a purpose and, besides, looks excellent in a bow tie. Along with a heavy dose of humor comes a gentle reminder about the importance of acceptance.

The Secret History of Kindness: Learning from How Dogs Learn Melissa Holbrook Pierson.2015-05-04 An intimate, surprising look at man's best friend and what the leading philosophies of dog training teach us about ourselves. Years back, Melissa Holbrook Pierson brought home a border

collie named Mercy, without a clue of how to get her to behave. Stunned after hiring a trainer whose immediate rapport with Mercy seemed magical, Pierson began delving into the techniques of positive reinforcement. She made her way to B. F. Skinner, the behavioral psychologist who started it all, the man who could train a pigeon to dance in minutes and whose research on how behavior is acquired has ramifications for military dolphin trainers, athletes, dancers, and, as he originally conceived, society at large. To learn more, Pierson met with a host of fascinating animal behaviorists, going behind the scenes to witness the relationships between trainers and animals at the National Zoo in Washington, DC, and to the in-depth seminars at a Clicker Expo where all the dogs but hers seemed to be learning new tricks. The often startling story of what became of a pathbreaking scientist's work is interwoven with a more personal tale of how to understand the foreign species with whom we are privileged to live. Pierson draws surprising connections in her exploration of how kindness works to motivate all animals, including the human one.

Dog Sense John Bradshaw.2011 Dogs have been mankind's faithful companions for tens of thousands of years, yet today they are regularly treated as

either pack-following wolves or furry humans. The truth is, dogs are neither--and our misunderstanding has put them in serious crisis. What dogs really need is a spokesperson, someone who will assert their specific needs. Renowned anthrozoologist Dr. John Bradshaw has made a career of studying human-animal interactions, and in *Dog Sense* he uses the latest scientific research to show how humans can live in harmony with--not just dominion over-- their four-legged friends. From explaining why positive reinforcement is a more effective (and less damaging) way to control dogs' behavior than punishment to demonstrating the importance of weighing a dog's unique personality against stereotypes about its breed, Bradshaw offers extraordinary insight into the question of how we really ought to treat our dogs--

Life on the Leash Victoria Schade.2018-09-18 In this “witty celebration of dogs, romance, and taking chances” (Stacey Ballis, author of *Wedding Girl*), a woman who is a master at training her four-legged friends discovers that she still has a lot to learn about love. Cora Bellamy is a woman who thrives on organization. She’s successfully run her own dog training business for years, perfectly content with her beloved rescue pitbull as the main man in her life. She’s given everything to her business, and her lack of social life (or slobber-free clothes) has been completely worth it. But all that changes when she meets Charlie Gill, the hottest client she’s ever had. The only problem? Charlie’s taken. Luckily, Cora’s new friend—the sweet, lovably geeky Eli Crawford—is always there to help Cora with her problems, including her love life. That’s why she’s shocked to realize that even as things start heating up with Charlie, there might just be a more-than-friends spark between her and Eli, too. As Cora’s life gets more tangled up than a dogwalker’s leashes—and as she prepares to audition for a dog-training TV show that may irrevocably change her entire life—she has to figure things out before it all goes straight to the dogs. “Playful, lovable, and heartwarming” (Amy E. Reichert, author of *The Coincidence of Coconut Cake*), *Life on the Leash* will inspire you to cheer for every underdog looking for love.

Sixty Seconds of Love Stacey Ritz.2019-12-05 What if everything you planned had been taken away? How would you move forward? Lora Zehner's life in on-schedule. At 29, she walks away from her job to finally wed her fiancé and begin her coveted role as wife to Dr. Ryan Miller and mother to their unborn children. Lora's life is abruptly derailed when she returns to their shared apartment to find Ryan's break-up note, scribbled hastily on the back of an old grocery receipt. Unemployed and single, Lora must reconstruct her life without Ryan and somehow find the strength to move forward - when all she wants to do is go back. Starting over, Lora embarks on a series of firsts in her new life. From attempting to date in a modern world to finding strength and acceptance in unlikely places, Lora learns that love is rarely linear and it's often the asymmetry that precipitates a life worth living. ***This is a FULL-LENGTH STANDALONE novel that can be read on its own OR in any order as part of the riveting Heirloom Series!***
