Principles and Practice of Transplant Infectious Diseases Amar Safdar.2019-06-13 This comprehensive volume provides a platform from which both major and minor infectious diseases related issues are addressed in-depth among this highly susceptible population. The book begins with an overview of infections in various modalities. This is followed by chapters on clinical disorders, etiologic agents, therapeutics, and infection prevention. Chapters include easy-to-follow figures and tables, radiologic images, and pictorial demonstrations of various disease states to familiarize and reacquaint the transplant clinicians and surgeons in practice and training, and those belonging to subspecialties providing supportive care for these patients. Discussions to enumerate the noninfectious causes that mimic infectious diseases; clinical relevance and effective utility of existing and emerging diagnostic tools are presented throughout the book. Authored by leaders in their fields, this book is the go-to reference for management of patients undergoing hematopoietic and solid organ transplantation.

Stone's Plastic Surgery Facts: A Revision Guide, Fourth Edition Tor Wo Chiu.2018-10-26 Stone's Plastic Surgery Facts 4e provides a complete revision tool for the FRCS exit examination in plastic surgery. Written in the form of notes and lists, the full range of plastic surgery topics is covered as follows, wound care, burns, head & neck, cleft lip and palate and craniofacial anomalies, breast, hand and upper limb, lower limb, skin and soft tissue tumours, genitourinary and trunk, aesthetic and general plastic surgery. Updated article summaries and a review section in each chapter highlight important points and explain common misconceptions. A vital resource for the surgical trainee.

[The Ocean and Cryosphere in a Changing Climate](#) Intergovernmental Panel on Climate Change (IPCC).2022-04-30 The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

Mastering the Trade, Second Edition: Proven Techniques for Profiting from Intraday and Swing Trading Setups John F. Carter.2012-02-03 The essential guide to launching a successful career in trading—updated for today's turbulent markets “Mastering the Trade is an excellent source for a basic understanding of market action, be it day and/or longer-term trend trading. A programmer will have a field day with the many ideas that are in this book. It is highly recommended.” —John Hill, president of Futures Truth magazine “John Carter's new book focuses quickly on the critical area of trader psychology, a realm that will often separate the trader from his wallet if it is not mastered first. The in-depth trading strategies clearly show how to respond to market moves based on real-world examples.” —Price Headley, founder of BigTrends.com and author of Big Trends in Trading “Well written and packed with the kind of insight about the nature of trading and the markets that can surely benefit every level of trader.” —Mark Douglas, author of Trading in the Zone and The Disciplined Trader “This is a must read for all new traders, specifically for the psychological aspect of trading. I am recommending it to all of my clients.” —Carolyn Boroden, FibonacciQueen.com About the Book: When it was first published in 2005, Mastering the Trade became an instant classic in the world of day trading. Now, veteran day trader and educator John F. Carter has updated his

time-proven swing trading technique to help you succeed in an environment vastly transformed by volatility and technology. Universally acclaimed for its sophisticated yet easy-to-execute methods, this practical, results-driven guide provides everything you need to make a lucrative career as a day trader—from preparing yourself psychologically for the unique demands of day trading to timing the market, managing risk, and planning future trades. Mastering the Trade sets aside timeworn basics and rehashed ideas to examine in detail the underlying factors that cause prices to move. Providing the tools you need to make the right decisions at the right times, it helps you enter market shifts early and either pull out before losses accrue or hang on for a long and refreshingly predictable ride. Mastering the Trade covers: The five psychological truths that will transform you from a mistake-prone novice into a savvy trading professional Exact entry, exit, and stop-loss levels for the intraday trading of stocks, options, ETFs, e-mini futures, 30-year bonds, currencies, and more Seven key internals, from \$TICKS to five-minute volume—critical for gauging pending market direction from the opening bell Premarket checklists for analyzing recent market behavior and calculating on each trading day what you plan to do, how you plan to do it, and why Airtight risk control techniques for protecting trading capital—the most important component of a professional trading career After spending many years on various trading desks, Carter has developed an intuitive understanding of how the markets work. In Mastering the Trade, he gives you unlimited access to everything the markets have taught him—so you can make an exceptional living on the frontlines of professional trading.

Polyploidy and Genome Evolution Pamela Soltis, Douglas E. Soltis. 2012-10-03 Polyploidy - whole-genome duplication (WGD) - is a fundamental driver of biodiversity with significant consequences for genome structure, organization, and evolution. Once considered a speciation process common only in plants, polyploidy is now recognized to have played a major role in the structure, gene content, and evolution of most eukaryotic genomes. In fact, the diversity of eukaryotes seems closely tied to multiple WGDs. Polyploidy generates new genomic interactions - initially resulting in "genomic and transcriptomic shock" - that must be resolved in a new polyplod lineage. This process essentially acts as a "reset" button, resulting in genomic changes that may ultimately promote adaptive speciation. This book brings together for the first time the conceptual and theoretical underpinnings of polyplod genome evolution with syntheses of the patterns and processes of genome evolution in diverse polyplod groups. Because polyploidy is most common and best studied in plants, the book emphasizes plant models, but recent studies of vertebrates and fungi are providing fresh perspectives on factors that allow polyplod speciation and shape polyplod genomes. The emerging paradigm is that polyploidy - through alterations in genome structure and gene regulation - generates genetic and phenotypic novelty that manifests itself at the chromosomal, physiological, and organismal levels, with long-term ecological and evolutionary consequences. *Noninvasive Mechanical Ventilation and Difficult Weaning in Critical Care* Antonio M.

Esquinas. 2016-01-04 This book establishes the indications for the use of NIV in the context of weaning from invasive mechanical ventilation. It provides a comprehensive overview of key topics relevant for correct practical application, including NIV and weaning principles, important aspects of patient care before and after weaning, and pediatric and neonatology weaning. Finally, the book summarizes international guidelines and new perspectives of NIV during weaning. With contributions by international experts in the field on noninvasive mechanical ventilation, the book will serve as a valuable guide for critical care physicians, respiratory physiotherapists, and pulmonologists.

The Struggle against Enforced Disappearance and the 2007 United Nations Convention

Tullio Scovazzi, Gabriella Citroni. 2007-06-05 Enforced disappearance is one of the most serious human rights violations. It constitutes an autonomous offence and a crime under international law on account of its multiple and continuing character. It is not a phenomenon of the past, nor is it geographically limited to Latin America: such scourge is widespread today and on the increase in other continents. For more than twenty-five years, relatives of disappeared people worldwide have insisted on the pressing need for an international legally binding instrument against enforced

disappearances. 2006 is the year of the adoption of the International Convention on the Protection of All Persons from Enforced Disappearances, which represents the result of several legislative and jurisprudential developments that are duly analyzed in this book. The Convention has been opened for signature in February 2007.

Theory and Experiment in Gravitational Physics Clifford M. Will.2018-09-30 The 2015 centenary of the publication of Einstein's general theory of relativity, and the first detection of gravitational waves have focused renewed attention on the question of whether Einstein was right. This review of experimental gravity provides a detailed survey of the intensive testing of Einstein's theory of gravity, including tests in the emerging strong-field dynamical regime. It discusses the theoretical frameworks needed to analyze gravitational theories and interpret experiments. Completely revised and updated, this new edition features coverage of new alternative theories of gravity, a unified treatment of gravitational radiation, and the implications of the latest binary pulsar observations. It spans the earliest tests involving the Solar System to the latest tests using gravitational waves detected from merging black holes and neutron stars. It is a comprehensive reference for researchers and graduate students working in general relativity, cosmology, particle physics and astrophysics.

Creativity in the Digital Age Nelson Zagalo,Pedro Branco.2015-04-02 This edited book discusses the exciting field of Digital Creativity. Through exploring the current state of the creative industries, the authors show how technologies are reshaping our creative processes and how they are affecting the innovative creation of new products. Readers will discover how creative production processes are dominated by digital data transmission which makes the connection between people, ideas and creative processes easy to achieve within collaborative and co-creative environments. Since we rely on our senses to understand our world, perhaps of more significance is that technologies through 3D printing are returning from the digital to the physical world. Written by an interdisciplinary group of researchers this thought provoking book will appeal to academics and students from a wide range of backgrounds working or interested in the technologies that are shaping our experiences of the future.

Primary Care Revisited Ben Yuk Fai Fong,Vincent Tin Sing Law,Albert Lee.2020-06-03 This book adopts an interdisciplinary approach with a wide scope of perspectives on primary healthcare, describing related principles, care models, practices and social contexts. It combines aspects of development, research and education applied in primary health care, providing practitioners and scholars with a comprehensive overview of the current knowledge and delivery models of healthcare in community settings. It covers the practical, philosophical and scholarly issues pertinent to the delivery, financing, planning, ethics, health politics, professional and technological development, resources, and monitoring in primary health care. Contributors are from a diverse range of academic and professional backgrounds, bringing together collective expertise in mainstream medicine, nursing, allied health, Chinese medicine, health economics, administration, law, public policy, housing management, information technology and mass communications. As such, the book does not follow the common clinical practice or service-based approach found in most texts on primary care.The contents will serve as a useful reference work for policymakers, researchers, community health practitioners, health executives and higher education students.

Introductory Grammar of Amharic Wolf Leslau.2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the

student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Mammalian Carbohydrate Recognition Systems Paul R. Crocker. 2012-12-06 In the last decade there has been a great expansion in our knowledge of the existence, nature and functions of mammalian carbohydrate binding proteins. This book covers the structures and postulated functions for the major classes of mammalian carbohydrate binding proteins. These include intracellular lectins involved in diverse functions such as protein synthesis quality control, targetting of lysosomal enzymes and in the secretory pathway. In addition, several chapters are devoted to other major families of lectins that are found at the cell surface or in extracellular fluids which are involved in various recognition functions such as cell-cell interactions in inflammation and recognition of pathogen carbohydrates in host defence.

What Works in Offender Compliance Pamela Ugwudike. 2013-09-03 This comprehensive edited collection draws together the latest international literature on offender compliance during penal supervision and after court orders expire. Outlining emerging developments in compliance research, theory, policy and practice, this book considers a wide range of offenders including women and young people.

Blood Lite Charlaine Harris, Jim Butcher, Sherrilyn Kenyon. 2009-09-29 Presents a collection of short horror fiction by such authors as Charlaine Harris, Jim Butcher, Sherrilyn Kenyon, and Kelley Armstrong.

The Neurobiology of Olfaction Anna Menini. 2009-11-24 Comprehensive Overview of Advances in Olfaction The common belief is that human smell perception is much reduced compared with other mammals, so that whatever abilities are uncovered and investigated in animal research would have little significance for humans. However, new evidence from a variety of sources indicates this traditional view is likely overly simplistic. The Neurobiology of Olfaction provides a thorough analysis of the state-of-the-science in olfactory knowledge and research, reflecting the growing interest in the field. Authors from some of the most respected laboratories in the world explore various aspects of olfaction, including genetics, behavior, olfactory systems, odorant receptors, odor coding, and cortical activity. Until recently, almost all animal research in olfaction was carried out on orthonasal olfaction (inhalation). It is only in recent years, especially in human flavor research, that evidence has begun to be obtained regarding the importance of retronasal olfaction (exhalation). These studies are beginning to demonstrate that retronasal smell plays a large role to play in human behavior. Highlighting common principles among various species - including humans, insects, *Xenopus laevis* (African frog), and *Caenorhabditis elegans* (nematodes) - this highly interdisciplinary book contains chapters about the most recent discoveries in odor coding from the olfactory epithelium to cortical centers. It also covers neurogenesis in the olfactory epithelium and olfactory bulb. Each subject-specific chapter is written by a top researcher in the field and provides an extensive list of reviews and original articles for students and scientists interested in further readings.

Juvenile Arrests (2007) Charles Puzzanchera. 2010-10 This report serves to assess the Nation's progress in addressing juvenile crime. The 2007 data bring some welcome news, as the recent trend of modest increases in juvenile arrests in 2005 and 2006 has been broken. The good news is reflected not only in the 2% decline in overall juvenile arrests and the 3% decline in juvenile arrests for violent crimes from 2006 to 2007 but also in the data for most offense categories, for males and females, and for white and minority youth. However, one area that merits continued attention is disproportionate minority contact with the juvenile justice system. For example, the arrest rate for robbery among black juveniles was more than 10 times that for white youth in 2007. Charts and tables.

The Psychosomatic Assessment Fava, Giovanni Andrea Fava, N. Sonino, T. N. Wise. 2012 Expands and

refines the psychosomatic approach in clinical practice Psychosomatic medicine has developed methods to increase diagnostic accuracy and improve targeted therapeutic approaches in all fields of medicine. In this context, clinimetrics, the science of clinical measurements, provides unprecedented opportunities for psychosomatic assessment. This volume illustrates how this approach can be translated into everyday practice complementing and improving the medical interview. The most sensitive and reliable clinical methods are presented for evaluating specific psychosocial aspects of disease, i.e. childhood adversities, life events and chronic stress, lifestyle, sexual function, subclinical and affective disturbances, personality, illness behavior, well-being and family dynamics. Each chapter provides practical illustrations as to how crucial information can be obtained with specific methods individualized according to the patients' needs. A hyperlink is provided to a website that contains many of the instruments assessed in the volume. This book enables the reader to understand the value of the psychosomatic approach in clinical practice. It is intended to expand and refine the skills of clinicians who work in general and specialized medicine and psychiatry, whether physicians, psychologists or other health professionals.

Business Math Cheryl Cleaves, Margie Hobbs. 2008-01-17 For arithmetic-based Business Math courses at the undergraduate level. Will sometimes fit courses titled Consumer Math or Personal Finance. The focus of the 8th Edition of Business Mathematics (Brief Edition) is to provide students with the tools they need to solve mathematical problems they will encounter in both their personal and professional lives. Students are presented math in contexts that are familiar to them and that they care about: math needed for everyday business transactions, math needed to make important personal finance decisions, and math needed to start or run a small business. Now available with Business Math Brief Version, 8/e: MathXL® and MyMathLab® for Business Math provide a powerful classroom management, homework, tutorial, and assessment tools. Students can take chapter quizzes or tests in MathXL and MyMathLab and receive personalized study plans based on their test results. The study plan diagnoses weaknesses and links students directly to tutorial exercises for the outcomes they need to study and retest. All student work can be tracked in MathXL's online gradebook. Three packaging options--MyMathLab, MathXL, or MathXL Tutorials on CD--provide flexible platforms to fit your course goals. For more information, visit our websites at www.mymathlab.com and www.mathxl.com, or contact your sales representative. This text is also available in a full version (21 chapters). Business Math, 8/e, Cleaves & Hobbs

Trends in Copepod Studies Marco Uttieri. 2017 Copepods, or more commonly referred to as the insects of the sea, have successfully colonised every aquatic environment, equating insects in terms of absolute and relative success. They represent up to 90-97% of the marine zooplankton biomass, but may also be conspicuous in freshwater systems. Copepods are the linchpin of aquatic foodwebs; they prey upon phytoplankton while simultaneously acting as a staple food for higher trophic level organisms, contribute to the vertical fluxes of carbon and sustain recycled production through the excretion of ammonia. Copepods can also signal possible climate change and are indicators of the effects of ocean acidification. They are also used as model animals for ecotoxicological and molecular studies, and might be adopted as control agents of disease vectors. Current studies are rapidly exploring multiple lines of research with an intended purpose to provide an up-to-date snapshot of some hot topics in the study of the distribution, biology and ecology of these ubiquitous crustaceans. The chapters collected in this volume, written by leading scientists in different fields of investigation, focus on a wide range of processes and scales, from global distribution to molecular investigations, witnessing the interest of the scientific community at different levels. These contributions point out the latest developments and case studies on a number of research issues, and will promote discussion and stimulate advances in each field of investigation. The editor is confident that readers will appreciate the contents of each chapter and will find in them inspiring suggestions for their research, or even just to satisfy their curiosity.

Hidradenitis Suppurativa Gregor Jemec, Jean Revuz, James J. Leyden. 2006-11-24 This is the first book

to specifically deal with hidradenitis suppurativa, a common but overlooked disease that regularly causes significant problems for both patients and doctors. The first section of this book presents the best current knowledge about diagnosis, pathogenesis and complications. The second section offers comprehensive guidelines on diagnosis and therapy. The book will assist doctors in providing a broader range of treatments for their patients. To increase the practical usefulness of the book, a description of the patients' perspective and patient information is included.

Crushed Hopes United Nations.2012 This report is a collective publication comprising a review of international literature on the subject of migrant deskilling and underemployment from a gender perspective and three empirical case studies from Switzerland, Canada and the United Kingdom. It explores the disproportionate difficulties skilled migrant women can face in transferring their skills and finding employment commensurate with their education when relocating to a new country. The case studies highlight situations in which migratory status and labour market dynamics can combine to constrain skilled and highly skilled migrant women to low-skilled occupations despite their often high human capital. They also analyse the impact that such occupational downgrading can have on migrant women's well-being and the strategies that women can adopt to regain a professional status.

Managing the Risks of Extreme Events and Disasters to Advance Climate Change

Adaptation Christopher B. Field, Vicente Barros, Thomas F. Stocker, Qin Dahe.2012-05-28 This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

Sir Anthony Eden and the Suez Crisis Jonathan Pearson.2002-11-05 A reappraisal of Sir Anthony Eden's conduct of foreign relations during the Suez crisis of 1956. This book challenges previous assumptions and demonstrates that Eden was not as bellicose as has been alleged. It traces his conduct of crisis management, from July until his decision to use force on 14 October, focusing on the Prime Minister's personality and influences. It details the confusion and failed attempts at negotiation that eventually culminated in the reluctant gamble.

Gravity Eric Poisson, Clifford M. Will.2014-05-29 A unique graduate textbook that develops powerful approximation methods and their applications to real-life astrophysical systems.

Understanding Cybercrime United Nations Publications.2017-07-31 Cyber attacks are on the rise. The media constantly report about data breaches and increasingly sophisticated cybercrime. Even governments are affected. At the same time, it is obvious that technology alone cannot solve the problem. What can countries do? Which issues can be addressed by policies and legislation? How to draft a good law? The report assists countries in understanding what cybercrime is about, what the challenges are in fighting such crime and supports them in drafting policies and laws.

Epilepsy in Children, 2E Sheila J Wallace, Kevin Farrell.2004-02-27 Epilepsy is the most common neurological disorder of childhood, occurring both in children whose physical and cognitive states are otherwise normal as well as being a facet of a more generalised and severe brain disease. There are many manifestations of epilepsy and, therefore, a diversity of factors in underlying pathology, responses to treatment

Non-Myeloablative Allogeneic Transplantation Asad Bashey, Edward D. Ball.2002-02-28 Non-myeloablative allogeneic stem cell transplantation (also known as mini-transplantation or reduced-intensity conditioning transplantation) is a major advance in the field of hematopoietic transplantation within the last 5 years. This approach uses non-cytotoxic or reduced-intensity

cytotoxic therapy to prepare patients for allografting of hematopoietic stem cells and lymphocytes. It has the potential to deliver the potent anti-tumor immunotherapy and bone marrow replacement capacity of allogeneic stem cell transplantation to patients with reduced treatment-related morbidity and mortality. It may also enable allogeneic transplantation in patients who would be considered ineligible for conventional transplants because of co-morbidity or advanced age. However, this approach may necessitate more careful monitoring of post-transplant chimerism and malignant disease-status than is usual with conventional allografting. There is also controversy regarding the best preparative regimen and graft-versus-host disease prophylaxis to use.

Brief Interventions for Alcohol and Other Drugs Aalborg Research Aalborg Research Press.2018-03-02 In September 2011, the International Network on Brief Interventions for Alcohol (INEBRIA) (now the International Network on Brief Interventions for Alcohol and Other Drugs) held its 8th Annual Conference in Boston, MA, USA. The goal of the conference, which was attended by 236 people from 19 countries, was to foster international collaborations between screening and brief intervention (SBI) researchers and to facilitate the development and dissemination of SBI research with a particular focus on implementation and sustainability. Ultimately, new findings on lingering research questions were presented, new collaborations among alcohol SBI researchers were formed, and junior SBI researchers found mentoring opportunities as well as an outlet for their work. The conference was funded in part by grants from the National Institute on Alcohol Abuse and Alcoholism (NIAAA) and the National Institute on Drug Abuse (NIDA). This thematic series features invited papers from selected conference presentations as well as abstracts presented at the meeting. It is our hope that sharing this information will improve the evidence-based identification and treatment of unhealthy alcohol and other drug use. Future papers may be added to the series from subsequent INEBRIA conferences and other sources, since research on SBI seems unlikely to solve all relevant questions for some time to come. In addition, SBI appears to be key to addressing unhealthy alcohol and other drug use in many settings. Founded in 2004 at the conclusion of a World Health Organization study, INEBRIA aims to provide global leadership to researchers and practitioners interested in the potential of SBI to reduce alcohol-related harm. That goal has since been expanded to include SBI for other psychoactive substances, although the main emphasis continues to be on reducing alcohol-related problems. Proceeds from the sale of this book go to support on elderly disabled person.

Sosu's Call Meshack Asare.2023-06-14 *Sosu's Call*, won the 1999 UNESCO 1st prize for Children's and Young People's Literature in the Service of Tolerance. It is listed as one of the top twelve titles of Africa's 100 Best Books; and has been named an Honor Book for Young Children by the African Studies Association's Children's Africana Book Committee, as a contribution to accurate and balanced material on Africa for children. Beautifully illustrated on artpaper, the story tells of Sosu, a young disabled boy who cannot walk. Sosu misses going to school and all the activities of the other children. His village is on a lagoon, and one day when everyone is away fishing, working in the fields or at school, he raises the alarm with his drumming, and saves the village from total destruction by the sea. His heroism is rewarded when a wheelchair is donated and at last he can go to school. This is a newly enhanced, digitally produced version of this classic African children's book.

Groundwater Hydraulics Kuniaki Sato,Yoshiaki Iwasa.2011-06-28 The groundwater science and engineering has been closely connected with various fields (1) Groundwater Hydrology, (2) Groundwater Hydraulics or Geohydraulics, (3) Fluid Dynamics in Porous Media, (4) Groundwater Quality Engineering, (5) Soil Physics, and (6) Hydrogeology or Geohydrology. The purpose of the book is to present an update textbook of groundwater hydraulics, which includes all of basic items in above-mentioned fields, to students (of graduate school), researchers and practitioners. The students and beginners who intend to specialize in groundwater hydraulics through one semester will master contents of the book.

Unequal Treatment Institute of Medicine,Board on Health Sciences Policy,Committee on Understanding and Eliminating Racial and Ethnic Disparities in Health Care.2009-02-06 Racial and

ethnic disparities in health care are known to reflect access to care and other issues that arise from differing socioeconomic conditions. There is, however, increasing evidence that even after such differences are accounted for, race and ethnicity remain significant predictors of the quality of health care received. In *Unequal Treatment*, a panel of experts documents this evidence and explores how persons of color experience the health care environment. The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities. Patients' and providers' attitudes, expectations, and behavior are analyzed. How to intervene? *Unequal Treatment* offers recommendations for improvements in medical care financing, allocation of care, availability of language translation, community-based care, and other arenas. The committee highlights the potential of cross-cultural education to improve provider-patient communication and offers a detailed look at how to integrate cross-cultural learning within the health professions. The book concludes with recommendations for data collection and research initiatives. *Unequal Treatment* will be vitally important to health care policymakers, administrators, providers, educators, and students as well as advocates for people of color.

Evidence-based Otitis Media Richard M. Rosenfeld. 2003 *Evidence-Based Otitis Media* offers one-stop shopping for the best current evidence to guide management decisions at the individual, organizational, and societal levels. This text details the importance of evidence-based data in interpreting the ever-enlarging body of literature on otitis media. The editors have assembled an impressive group of experts on all aspects of otitis media and addressed comprehensively many issues related to methodology, clinical management, and consequences of this disease. The eight chapters comprising the methodology section provide the necessary background and detail to allow physicians and other health professionals to understand and appreciate the value of evidence-based medicine. Updates include: the incorporation of new original research, systemic reviews, and evidence reports to existing chapters. New chapter topics include: evidence-based medicine, professional evidence reports, molecular and translational research, complementary and alternative medicine, bacteriologic efficacy of antimicrobials, vaccine prevention, international management perspectives, meta-analysis of speech and language sequelae, suppurative complications, host susceptibility to sequelae, and judicious use of systemic and topical antimicrobials. FEATURES: *Maturation of evidence-based medicine as a foundation for clinical care is reflected throughout the text. *Extensive evidence tables summarize study characteristics and quantitative outcomes for clinically relevant endpoints *Internationally distinguished contributors selected based on both their clinical expertise and their ability to write for an evidence-based text

Robot Builder's Sourcebook Gordon McComb. 2003 * A much-needed clearinghouse for information on amateur and educational robotics, containing over 2,500 listings of robot suppliers, including mail order and local area businesses * Contains resources for both common and hard-to-find parts and supplies * Features dozens of sidebars to clarify essential robotics technologies * Provides original articles on various robot-building topics

Mollison's Blood Transfusion in Clinical Medicine Harvey G. Klein, David J. Anstee. 2008-04-15 "Both authors have dealt in an authoritative way with the still rapidly expanding specialty and the eleventh edition of the book will be of the greatest value to all who are interested in the scientific and practical aspects of blood transfusion in clinical medicine." From the Foreword by Professor P.L. Mollison Highly respected, long-established book that has become the bible in transfusion medicine Why Buy This Book? Provides a sound basis for understanding modern transfusion medicine Definitive reference source for any clinician involved with patients requiring transfusion and for all staff working in transfusion services, immunohaematology laboratories and bloodbanks Highly practical advice on management issues for the clinician Completely revised and updated to reflect the rapid pace of change in transfusion medicine Written by two of the world's leading experts in the field

Plant Biotechnology and Genetics C. Neal Stewart, Jr. 2012-12-13 Designed to inform and inspire the next generation of plant biotechnologists *Plant Biotechnology and Genetics* explores contemporary

techniques and applications of plant biotechnology, illustrating the tremendous potential this technology has to change our world by improving the food supply. As an introductory text, its focus is on basic science and processes. It guides students from plant biology and genetics to breeding to principles and applications of plant biotechnology. Next, the text examines the critical issues of patents and intellectual property and then tackles the many controversies and consumer concerns over transgenic plants. The final chapter of the book provides an expert forecast of the future of plant biotechnology. Each chapter has been written by one or more leading practitioners in the field and then carefully edited to ensure thoroughness and consistency. The chapters are organized so that each one progressively builds upon the previous chapters. Questions set forth in each chapter help students deepen their understanding and facilitate classroom discussions. Inspirational autobiographical essays, written by pioneers and eminent scientists in the field today, are interspersed throughout the text. Authors explain how they became involved in the field and offer a personal perspective on their contributions and the future of the field. The text's accompanying CD-ROM offers full-color figures that can be used in classroom presentations with other teaching aids available online. This text is recommended for junior- and senior-level courses in plant biotechnology or plant genetics and for courses devoted to special topics at both the undergraduate and graduate levels. It is also an ideal reference for practitioners.

This Engaging Realm of E-book Books: A Detailed Guide Revealing the Advantages of E-book Books: A World of Convenience and Flexibility E-book books, with their inherent mobility and ease of availability, have freed readers from the constraints of physical books.
