Ask Your Angels Alma Daniel, Timothy Wylie, Andrew Ramer.2011-06-22 Angels have been with us in every time and culture, and in many religious traditions. Ask Your Angels vividly chronicles how they are currently reaching out to every one of us in a totally new way, bridging our physical reality with their pure spiritual energy. From historical writings and widespread contemporary experience that includes their own workshops, the authors show us how we can draw on the power of angels to reconnect with our lost inner selves and to achieve our goals, whether they be better relationships, healing an illness, or recovery from addiction To align with the angelic energy field, you will use five simple steps, as well as exercises, meditations, and visualizations, to learn how to talk with your angels—in your mind, in letters, in dreams, on a computer—and ask their guidance in matters from the inspired to the mundane. From Gabriel, Michael, Raphael, and Uriel to the angels of birth and death, from the Earth Angel to the guardian or companion angel who is your personal teacher, comforter, and intimate friend, this guide will introduce you to humor, wisdom, and companionship that come from contact with angels, for they are a doorway to the Divine within us.

**The Celestine Prophecy** .2006 The Celestine Prophecy is an action-adventure adaptation of the hit novel by James Redfield, a film that moves so swiftly it can be difficult at times to absorb the New Age philosophy tucked into Redfield's multiple, so-called Insights. Matthew Settle plays an American

history teacher who travels to Peru to look into the discovery of an ancient manuscript that foretells the arrival of a new spirituality. The Peruvian government and Catholic church, threatened by something that might supplant traditional religion and mainstream values, harass and arrest the scientists and enlightened souls who discovered the manuscript. Our hero becomes involved in a dangerous effort to keep the document from official hands; along the way, he's introduced to the prophecy's major principles, which arouse his dormant spiritual abilities. Annabeth Gish, Hector Elizondo, and Jurgen Prochnow are a welcome presence in this light and sometimes confusing, if casually engaging work that requires repeat viewings to fully hear its interesting message.

The Secret of Shambhala James Redfield.2001-04-15 Continuing the exciting adventures of The Celestine Prophecy and The Tenth Insight, this new book takes you to the snow-covered Himalayas, in search of the legendary Tibetan utopia of Shambhala. For Shambhala not only actually exists, but is destined to be found in our time-and will reveal powerful truths that can transform the world.

**The Twelfth Insight** James Redfield. 2011-02-15 On December 21, 2012, the Mayan calendar will end. Many see it as an apocalyptic sign. But is it? In The Twelfth Insight, the long-awaited fourth book in the beloved Celestine Series, we again follow our Hero and his close friend Wil. They have just received a portion of another ancient and mysterious manuscript that describes a secret approach to spirituality that is silently arriving in the second decade of the 21st Century. But the manuscript is only available in fragments. To understand its full meaning for mankind, our Hero and Wil begin an urgent search to find the message in its entirety. As they embrace the power of Synchronicity and begin their search, they are confronted by powerful political forces and religious extremists that stand in the way of these spiritual revelations. Utilizing what he calls the parable effect, and based on his own sources, James Redfield explores the similarities and differences that exist among the world religions, revealing the essential messages contained within them that can energize our experience of spirituality-- and produce a new wave of integrity and reform that can transform our lives and our world.

**God and the Evolving Universe** James Redfield, Michael Murphy, Sylvia Timbers. 2003-01-06 In a world racked by violence and conflict, James Redfield and Michael Murphy—leading cocreators of today's spiritual boom—present a message of hope and a vision for the future. It is no accident, they argue, that the twentieth and early twenty-first centuries have witnessed a revolution in new human capacities. Daily we hear and read about supernormal athletic feats; clairvoyant perception; lives transformed by meditative practices; healing through prayer—and we ourselves experience these things. The authors contend that thousands of years of human striving have delivered us to this very moment, in which each act of self-development is creating a new stage in planetary evolution—and the emergence of a human species possessed of vastly expanded potential.
