

I Have Life By Alison Botha

The Power of Moments Chip Heath, Dan Heath. 2017-10-03 The New York Times bestselling authors of *Switch* and *Made to Stick* explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why “we feel most comfortable when things are certain, but we feel most alive when they’re not.” And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world’s youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable moments to chance when we can create them? *The Power of Moments* shows us how to

be the author of richer experiences.

Irreparable Mark Gerardot.2020-03-31 It's the age-old tale of a straying husband, a woman scorned, and two dead bodies-or is it? By morning, the headlines and stories had circled the globe full of half-truths, misinformation and a potential coverup. The cheating husband who had driven his wife to such madness became the official account, forever etched into the annals of history.Yet the whole story of this brutal murder-suicide would lie hidden for months, only to be uncovered by Mark Gerardot himself in his aching quest to know what had led Jennair, his wife of 24 years, to such a violent act. In the process, he uncovers mounds of shocking proof of a wife's madness that was building for decades-one that had culminated in an unprecedented level of tracking and surveillance as she prepared to carry out her final act of revenge.Full of factual dialogue from hours of audio files, *Irreparable* recounts the intimate details of three people's lives, now forever linked, and seeks to move beyond labels, to equally honor the truth of all three souls impacted by the tragedy. More than an enthralling true-crime story, *Irreparable* is a memoir of a tumultuous marriage, a love affair, and one man's desperate efforts to reexamine the past as he recounts precious memories and early signs of trouble from the woman he knew and loved, but whose spiraling loss of control amid the high-tech surveillance she pursued took hold of her mind and life. Taking accountability for the choices he made, the signs he missed, and the better man he wishes to become Mark Gerardot reveals the truth and finds his way to a new life.

I Have Life Thamm Marianne.2018-06-15 The triumphant story of a woman who refused to become a victim after being raped, stabbed and left for dead. Now an acclaimed film.

Behind Closed Doors Daniella Dechristopher.2019-03 A compelling story about a loveless marriage, an abandoned child, and a mother and daughter's fight for survival.

Brutal Legacy Tracy Going.2018 When South Africa's golden girl of broadcasting, Tracy Going's battered face was splashed across the media back in the late 1990s, the nation was shocked. South Africans had become accustomed to seeing Going, glamorous and groomed on television or hearing her resonant voice on Radio Metro and Kaya FM. Sensational headlines of a whirlwind love relationship turned horrendously violent threw the perfect life of the household star into disarray. What had started off as a fairy-tale romance with a man who appeared to be everything that Going was looking for - charming, handsome and successful - had quickly descended into a violent, abusive relationship. As I stood before him all I could see were the lies, the disappearing for days without warning, the screaming, the threats, the terror, the hostage-holding, the keeping me up all night, the dragging me through the house by my hair, the choking, the doors locked around me, the phones disconnected, the isolation, the fear and the uncertainty. the rosy love cloud burst just five months after meeting her Prince Charming when she staggered into the local police station, bruised and battered. A short relationship became a two-and-a-half-year legal ordeal played out in the public eye. In mesmerising detail, Going takes us through the harrowing court process - a system seeped in injustice - her decline into depression- the immediate collapse of her career due to the highly public nature of her assault and the decades-long journey to undo the psychological damages in the search for safety and the reclaiming of self. The roots of violence form the backdrop of the book, tracing Going's childhood on a plot in Brits, laced with the unpredictable violence of an alcoholic father who regularly terrorised the family with his fists of rage. I was ashamed of my father, the drunk. If he wasn't throwing back the liquid in the lounge then he'd be finding comfort and consort in his cans at the golf club. With that came the uncertainty as I lay in my bed and waited for him to return. I would lie there holding my curtain tight in my small hand. I would pull the fabric down, almost straight,

forming a strained sliver and I would peer into the blackness, unblinking. It seemed I was always watching and waiting. Sometimes I searched for satellites between the twinkles of light, but mostly the fear in my tummy distracted me. Brilliantly penned, this highly skilled debut memoir, is ultimately uplifting in the realisation that healing is a lengthy and often arduous process and that self-forgiveness and acceptance is essential in order to fully embrace life. - Bookseller's description.

Two Weeks in November DOUGLAS. ROGERS.2020-04-30 This book is a smasher. The opening movements are possibly the hottest non-fiction I have ever read. Spies, assassins and audacious plots fomenting under our unsuspecting noses. The fall of Robert Mugabe was orchestrated from Sandton? Douglas Rogers has to be kidding. But he isn't. -- Rian Malan. This is Ocean's 11 meets Game of Thrones: a real-world life or death chess match for the future of a country where the political endgame is never a foregone conclusion. -- Justin Webb, BBC Radio 4 Today Program This account of the fall of Zimbabwe's president reads like a thriller laced with dark humour. -- Gina Godwin, The Times UK A clear and convincing telling of a wild tale. Rogers' honesty as a transparent author is refreshing, a reminder of Tom Wolfe's new journalism. A thrill ride! -- Dalton Delan, Executive VP and Chief Programming Officer, WETA, Washington

Growing Feathers Kate Nicholls.2019-04-04 Kate Nicholls left England to raise her five children in Botswana: an experience that would change each of their lives. Living on a shoestring in a lion conservation camp, Kate home-schools her family while they also learn at first hand about the individual lives of wild lions. Their deep attachment to these magnificent animals is palpable. The setting is exotic but it is also precarious. When the author is subjected to a brutal attack by three men, it threatens to destroy her and her family: post-traumatic stress turns a good mother into a woman who is fragmented and out of control. In this powerfully written, raw and often warmly funny

memoir, we witness the devastation of living with a mother whose resilience is almost broken, and how familial structures shift as the children mature and roles change. Under the CamelthornTree addresses head-on the many issues surrounding motherhood, education, independence, and the natural world; and highlights the long-lasting effect of gender violence on secondary victims. Above all, it is an inspiring account of family love, and a powerful beacon of hope for life after trauma.

I Have Life Alison, Marianne Thamm. 1998 Follows the story of Alison, who survived a violent rape attack in Port Elizabeth.

Zola (English) Johan Jack Smith. 2019-08-01 A cryptic killer is cruising the streets of Johannesburg. He's picking up young women to torture and mutilate, and it's down to Captain David Majola and Warrant Officer Jason Basson to follow the trail of blood and find him. Majola, plagued by cocaine and lost love, feels the need to prove himself after his early promotion; his partner Basson, imprinted by the bad old days, wishes he'd walked out on the saps years ago. Tensions between the two rise as the bodies pile up, and while newspapers and politicians hurl accusations and the taxi bosses threaten a devastating strike, Majola and Basson must face the demons of a crazy city.

Third Reel S. J. Naude. 2018-04-15 Twenty-two-year-old Etienne is studying film in London, having fled conscription in his native South Africa. It is 1986, the time of Thatcher, anti-apartheid campaigns and Aids, but also of postmodern art, post-punk rock, and Royal Vauxhall Tavern. Adrift in a city cast in shadow, he falls in love with a German artist while living in derelict artists' communes. When Etienne finds the first of three reels of a German film from the 1930s, he begins searching for the missing reels, a project that turns into an obsession when his lover disappears in Berlin. It is while navigating this city divided by the Wall that Etienne gradually pieces together the history of a small group of Jewish film makers in Nazi Germany. It is a desperate quest amid

complications that pull him back to the present and to South Africa. However, his search for the missing film continues. Ambitious and cosmopolitan, the material of S. J. Naud's *The Third Reel* is as disparate as the cities in which the book is set. Architecture, cinematography, sex, music, illness, loss and love all collide in this exquisitely wrought, deeply affecting novel.

Good and Cheap Leanne Brown. 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for *Good and Cheap* is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, *Good and Cheap* is poised to become a cookbook that every food lover with a conscience will embrace.

The Stranger She Loved Shanna Hogan.2015-03-31 Recounts the murder of 50-year-old Michele MacNeill at the hands of her husband, a doctor, lawyer and Mormon bishop who, upon further investigation by his daughters, had multiple marital affairs, a past criminal record and coned his way into medical school.

The Asshole Survival Guide Robert I. Sutton.2017-09-12 “This book is a contemporary classic—a shrewd and spirited guide to protecting ourselves from the jerks, bullies, tyrants, and trolls who seek to demean. We desperately need this antidote to the a-holes in our midst.”—Daniel H. Sutton starts with diagnosis—what kind of asshole problem, exactly, are you dealing with? From there, he provides field-tested, evidence-based, and often surprising strategies for dealing with assholes—avoiding them, outwitting them, disarming them, sending them packing, and developing protective psychological armor. Sutton even teaches readers how to look inward to stifle their own inner jackass. Humor, Seriously Jennifer Aaker,Naomi Bagdonas.2021-02-02 WALL STREET JOURNAL, LOS

ANGELES TIMES, AND USA TODAY BESTSELLER • Anyone—even you!—can learn how to harness the power of humor in business (and life), based on the popular class at Stanford’s Graduate School of Business. Don’t miss the authors’ TED Talk, “Why great leaders take humor seriously,” online now. “The ultimate guide to using the magical power of funny as a tool for leadership and a force for good.”—Daniel H. Pink, #1 New York Times bestselling author of *When and Drive* We are living through a period of unprecedented uncertainty and upheaval in both our personal and professional lives. So it should come as a surprise to exactly no one that trust, human connection, and mental well-being are all on the decline. This may seem like no laughing matter. Yet, the research shows that humor and laughter are among the most valuable tools we have at our disposal for strengthening bonds and relationships, diffusing stress and tension, boosting resilience, and performing when the stakes are high. That’s why Jennifer Aaker and Naomi Bagdonas teach the popular course *Humor: Serious Business* at the Stanford Graduate School of Business, where they help some of the world’s most hard-driving, blazer-wearing business minds infuse more humor and levity into their work and lives. In *Humor, Seriously*, they draw on findings by behavioral scientists, world-class comedians, and inspiring business leaders to reveal how humor works and—more important—how you can use more of it, better. Aaker and Bagdonas unpack the theory and application of humor: what makes something funny, how to mine your life for material, and simple ways to identify and leverage your unique humor style. They show how to use humor to rebuild vital connections; appear more confident, competent, and authentic at work; and foster cultures where levity and creativity can thrive. President Dwight David Eisenhower once said, “A sense of humor is part of the art of leadership, of getting along with people, of getting things done.” If Dwight David Eisenhower, the second least naturally funny president (after Franklin Pierce), thought humor was

necessary to win wars, build highways, and warn against the military-industrial complex, then you might consider learning it too.

Dying for a Paycheck Jeffrey Pfeffer. 2018-03-20 In one survey, 61 percent of employees said that workplace stress had made them sick and 7 percent said they had actually been hospitalized. Job stress costs US employers more than \$300 billion annually and may cause 120,000 excess deaths each year. In China, 1 million people a year may be dying from overwork. People are literally dying for a paycheck. And it needs to stop. In this timely, provocative book, Jeffrey Pfeffer contends that many modern management commonalities such as long work hours, work-family conflict, and economic insecurity are toxic to employees—hurting engagement, increasing turnover, and destroying people’s physical and emotional health—and also inimical to company performance. He argues that human sustainability should be as important as environmental stewardship. You don’t have to do a physically dangerous job to confront a health-destroying, possibly life-threatening, workplace. Just ask the manager in a senior finance role whose immense workload, once handled by several employees, required frequent all-nighters—leading to alcohol and drug addiction. Or the dedicated news media producer whose commitment to getting the story resulted in a sixty-pound weight gain thanks to having no down time to eat properly or exercise. Or the marketing professional prescribed antidepressants a week after joining her employer. In *Dying for a Paycheck*, Jeffrey Pfeffer marshals a vast trove of evidence and numerous examples from all over the world to expose the infuriating truth about modern work life: even as organizations allow management practices that literally sicken and kill their employees, those policies do not enhance productivity or the bottom line, thereby creating a lose-lose situation. Exploring a range of important topics including layoffs, health insurance, work-family conflict, work hours, job autonomy, and why people

remain in toxic environments, Pfeffer offers guidance and practical solutions all of us—employees, employers, and the government—can use to enhance workplace wellbeing. We must wake up to the dangers and enormous costs of today’s workplace, Pfeffer argues. *Dying for a Paycheck* is a clarion call for a social movement focused on human sustainability. Pfeffer makes clear that the environment we work in is just as important as the one we live in, and with this urgent book, he opens our eyes and shows how we can make our workplaces healthier and better.

The Cinema of Attractions Reloaded Wanda Strauven. 2006 Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase “cinema of attractions” to describe the essential qualities of films made in the medium’s earliest days, those produced between 1895 and 1906. Now, *The Cinema of Attractions Reloaded* critically examines the term and its subsequent wide-ranging use in film studies. The collection opens with a history of the term, tracing the collaboration between Gaudreault and Gunning, the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema, and the pair’s debts to Sergei Eisenstein and others. This reconstruction is followed by a look at applications of the term to more recent film productions, from the works of the Wachowski brothers to virtual reality and video games. With essays by an impressive collection of international film scholars—and featuring contributions by Gunning and Gaudreault as well—*The Cinema of Attractions Reloaded* will be necessary reading for all scholars of early film and its continuing influence.

The Bankers’ New Clothes Anat Admati, Martin Hellwig. 2024-01-09 *A Wall Street Journal*, *Financial Times*, and *Bloomberg Businessweek* Book of the Year Why our banking system is broken—and what we must do to fix it New bank failures have been a rude awakening for everyone who believed that the banking industry was reformed after the Global Financial Crisis—and that

we'd never again have to choose between massive bailouts and financial havoc. The Bankers' New Clothes uncovers just how little things have changed—and why banks are still so dangerous. Writing in clear language that anyone can understand, Anat Admati and Martin Hellwig debunk the false and misleading claims of bankers, regulators, politicians, academics, and others who oppose effective reform, and they explain how the banking system can be made safer and healthier. Thoroughly updated for a world where bank failures have made a dramatic return, this acclaimed and important book now features a new preface and four new chapters that expose the shortcomings of current policies and reveal how the dominance of banking even presents dangers to the rule of law and democracy itself.

September 11: An Oral History Dean E. Murphy. 2002-10-01 About 3,000 people lost their lives in the terrorist attacks on New York City and Washington, D.C., on September 11, 2001. Thousands more narrowly escaped, their survival a result of eerily prescient spur-of-the-moment decisions, acts of superhuman courage, the unfailing kindness of strangers, and, in some cases, fortuitous strokes of luck. *September 11: An Oral History* unites the voices of that day. It is at once a dramatic reminder of one of the most devastating events in history of the nation and a tribute to the spirit of cooperation and the outpourings of empathy that marked that day for so many people in the United States and abroad. Written and compiled by Dean E. Murphy, who covered the attacks on the World Trade Center for the *New York Times*, *September 11: An Oral History* presents vivid eyewitness accounts by those who rushed to the scene, as well as the stories of people around the country and abroad who watched as events unfolded on television and waited for news of friends, family, and acquaintances. A priest who runs an adoption center near the WTC paints an unforgettable portrait of what he calls the meeting place of Hell and Earth that morning; a businessman from Los Angeles

in New York to conduct a training seminar recounts in breathstopping detail his descent with a blind colleague from the 78th floor of the North Tower; a senior at a high school; the owners of a small business in Arkansas describe their thoughts and feelings as they waited to hear from a customer who had become part of their lives though they had never actually met him; and a civilian employee at the Pentagon recalls giving up hope in a smoke-filled office, her hair on fire, only to be led to safety by the soothing voice of a colleague. Contributions from firefighters, police, and military personnel, and other rescue workers demonstrate the mixture of professionalism and humanity that justly elevated them, despite their own modesty, to the status of national heroes. There are stories, too, of those who narrowly missed being part of the mayhem--including a family of four who changed their plane reservations from one of the hijacked jets and others whose arrivals at work were delayed by unlikely coincidences and quirks of fate like forgetting to turn on the coffeepot the night before. The first and only oral history of September 11 that presents people from all walks of life, these poignant, often harrowing vignettes capture the grief, rage, and fear that gripped the nation--and offer an intimate, inspiring look at the strengths that enabled us to move on.

Holding the Man Timothy Conigrave.1996-07-02 The mid-seventies - and satin baggies and chunky platforms reigned supreme. Jethro Tull did battle with glam-rock for the airwaves. At an all-boys Catholic school in Melbourne, Timothy Conigrave fell wildly and sweetly in love with the captain of the football team. So began a relationship that was to last for 15 years, a love affair that weathered disapproval, separation and, ultimately death. Holding the Man recreates that relationship. With honesty and insight it explores the highs and lows of any partnership: the intimacy, constraints, temptations. And the strength of heart both men had to find when they tested positive to HIV. This is a book as refreshing and uplifting as it is moving; a funny and sad and celebratory account of

growing up gay.

Beyond the Light Barrier Elizabeth Klarer.2009-06-06 Beyond the Light Barrier is the autobiographical story of Elizabeth Klarer, a South African woman and Akon, an astrophysicist from Meton, a planet of Proxima Centuri that, at a distance of about 4.3 light years, is our nearest stellar neighbor. Elizabeth was taken in his spaceship to Meton, where she lived with him and his family for four months and where she bore his child. Her life on Meton is fascinatingly described. Akon brought Elizabeth back to Earth after the birth of their son, and continued to visit her thereafter. Akon explained how his spaceship's light-propulsion technology operated, and how it allowed him and his people to travel across vast interstellar distances. This technology is explained in detail in the book. Elizabeth was given a standing ovation at the 11th International Congress of UFO Research Groups at Weisbaden in 1975, and her speech as guest of honor was applauded by scientists of twenty-two nations. Light Technology Publishing is proud to bring you the long-awaited American edition in both hard copy and electronic format of Beyond the Light Barrier, which was first published in English in 1980

The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical Robert Siegel.2021-07-27 A Top Financial Times Recommended Business Book, The Brains and Brawn Company is the grounded, clear-sighted guide you need to blend digital and traditional business functions for long-term competitive advantage Business leaders are continually told they need to embrace digital disruption wholeheartedly to thrive in the 21st Century. Legacy companies, we hear, are all doomed to fail unless they double down on the latest digital innovations, and disruptors are ordained to take over the world. Digital innovation is the answer to everything. False! Nothing in life or business is ever that simple. In *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical*, venture capitalist and Stanford Business School lecturer Robert Siegel brings the digital innovation conversation back down to earth. He shows that, while important, digital is only part of the answer—and it's never the only answer. The vast majority of successful leaders from both incumbents and disruptors focus as much on things like logistics, manufacturing, and distribution as they do on digital innovation. In fact, many established companies are successfully countering young upstarts in other creative ways, and many new organizations are learning from their older brethren. Siegel shows how to create lasting profits and growth in the smartest way possible: by creating a solid partnership between digital innovation and traditional business operations—in other words, by marrying brains and brawn. He lays out the core competencies that today's industry leaders have mastered and explains how: Charles Schwab uses

cutting-edge analytics to better serve millions of investors without violating its original code of values. Align Technology transformed orthodontia by developing creative new business models along with new products. Kaiser Permanente taps into the power of empathy to improve patient satisfaction while controlling costs. Instacart balances ownership and partnerships to balance the needs of four key constituencies. Target, Best Buy, and Home Depot found different ways to blend the best aspects of physical retail with innovative e-commerce. Desktop Metal is innovating high-volume yet affordable production methods that can revolutionize manufacturing. Filled with original research and case studies of Daimler, 23andMe, Instacart, AB InBev, Google, and many other companies, *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical* provides practical, proven insights and advice for bridging the gulf between digital vs. physical, disruptor vs. incumbent, startup world vs. Fortune 500, and tech culture vs. industrial culture. *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical* provides everything you need to set your company apart from your competitors in real and measurable ways—and take the lead in your industry for years to come.

Thinking up a Hurricane Martinique Stilwell.2012-09-28 In the spring of 1977 Frank Stilwell launched Vingila, 17 tons of welded together 11-millimetre steel plates, in Durban harbour. An electrician by trade, Frank's experience of sailing amounted to not very much - an unpleasant spell on a Scottish fishing trawler as a young man and a brief holiday on someone else's yacht off the coast of Mozambique a couple of years before. Never one to be daunted by a challenge or to be resisted in any way, he took his nine year old twins, Robert and Nicky, out of school, persuaded his wife Maureen that they would all learn how to sail and cope with life on the open seas as they went, and prepared to follow his dream of circumnavigating the world. Facing real danger from the

elements and at first having to live more by their wits than their skills, the Stilwell family set off boldly, determined to become part of a community of sailors and adventurers who spend more time on the ocean than they do on dry land. In this unique coming of age memoir Martinique Stilwell's recounting of her true life gypsy childhood is poignant and funny and heartbreaking all at the same time. With the wisdom and innocence of a child's point of view, it is a powerful yet tender story of physical and emotional adversity, of family dysfunction and the ties that bind, and of the shackles and exhilarating freedom of growing up different.

The Skeleton Crew delves into the macabre underside of the Internet, the fleeting nature of identity, and how even the most ordinary citizen with a laptop and a knack for puzzles can reinvent herself as a web sleuth.

I Have Life Alison, Marianne Thamm.2002 In this inspiring tale, Alison, the victim of a brutal rape and attempted murder, shares the courage and philosophy that allowed her to turn her tragic experiences into something life-affirming and strong. With bravery and a keen sense of self-awareness, Alison recounts how she was car-jacked at knifepoint, raped, stabbed so many times that the doctors could not count her wounds, and left for dead miles away from her home. As she denied

death that night she later denied her assailants the satisfaction of destroying her life by giving voice to her experiences and refusing to be victimized. In terrifying detail Alison describes her thoughts and feelings throughout the attack and shows how attitude, belief, and choice helped her to survive. Contributions from Alison's family, friends, and the man who saved her from the side of the road add depth to Alison's harrowing story.

The Red Word Sarah Henstra.2019 A smart, dark, and take-no-prisoners look at rape culture and the extremes to which ideology can go, The Red Word is a campus novel like no other. As her sophomore year begins, Karen enters into the back-to-school revelry -- particularly at a fraternity called GBC. When she wakes up one morning on the lawn of Raghurst, a house of radical feminists, she gets a crash course in the state of feminist activism on campus. GBC is notorious, she learns, nicknamed Gang Bang Central and a prominent contributor to a list of date rapists compiled by female students. Despite continuing to party there and dating one of the brothers, Karen is equally seduced by the intellectual stimulation and indomitable spirit of the Raghurst women, who surprise her by wanting her as a housemate and recruiting her into the upper-level class of a charismatic feminist mythology scholar they all adore. As Karen finds herself caught between two increasingly polarized camps, ringleader housemate Dyann believes she has hit on the perfect way to expose and bring down the fraternity as a symbol of rape culture -- but the war between the houses will exact a terrible price. The Red Word captures beautifully the feverish binarism of campus politics and the headlong rush of youth toward new friends, lovers, and life-altering ideas. With strains of Jeffrey Eugenides's The Marriage Plot, Alison Lurie's Truth and Consequences, and Tom Wolfe's I Am Charlotte Simmons, Sarah Henstra's debut adult novel arrives on the wings of furies--

The Mortality and Morality of Nations Uriel Abulof.2015-07-24 Standing at the edge of life's

abyss, we seek meaningful order. We commonly find this 'symbolic immortality' in religion, civilization, state and nation. What happens, however, when the nation itself appears mortal? The Mortality and Morality of Nations seeks to answer this question, theoretically and empirically. It argues that mortality makes morality, and right makes might; the nation's sense of a looming abyss informs its quest for a higher moral ground, which, if reached, can bolster its vitality. The book investigates nationalism's promise of moral immortality and its limitations via three case studies: French Canadians, Israeli Jews, and Afrikaners. All three have been insecure about the validity of their identity or the viability of their polity, or both. They have sought partial redress in existential self-legitimation: by the nation, of the nation and for the nation's very existence.

Season of Hope Alan Hirsch, Sally Hines. 2005 Offers an insight into the circumstances under which the policies were developed, implemented and reviewed, as well as a study of the outcomes. This book addresses questions such as: How could an organisation with no previous experience of governing accomplish a peaceful transition to democracy? How did they do it and where are they going?

Shooting the Moon Marianne Thamm. 2001

The Land Wars John Laband. 2020-07-15 Perhaps the most explosive issue in South Africa today is the question of land ownership. The central theme in this country's colonial history is the dispossession of indigenous African societies by white settlers, and current calls for land restitution are based on this loss. Yet popular knowledge of the actual process by which Africans were deprived of their land is remarkably sketchy. This book recounts an important part of this history, describing how the Khoisan and Xhosa people were dispossessed and subjugated from the time that Europeans

first arrived until the end of the Cape Frontier Wars (1779–1878). The Land Wars traces the unfolding hostilities involving Dutch and British colonial authorities, trekboers and settlers, and the San, Khoikhoi, Xhosa, Mfengu and Thembu people – as well as conflicts within these groups. In the process it describes the loss of land by Africans to successive waves of white settlers as the colonial frontier inexorably advanced. The book does not shy away from controversial issues such as war atrocities committed by both sides, or the expedient decision of some of the indigenous peoples to fight alongside the colonisers rather than against them. The Land Wars is an epic story, featuring well-known figures such as Ngqika, Lord Charles Somerset and his son, Henry, Andries Stockenström, Hintsá, Harry Smith, Sandile, Maqoma, Bartle Frere and Sarhili, and events such as the arrival of the 1820 Settlers and the Xhosa cattle-killing. It is essential reading for anyone who wants to understand South Africa's past and present.

I Have Life: Alison's Journey as told to Marianne Thamm Marianne Thamm.2016-06-01 The triumphant story of a woman who refused to become a victim. Like an apparition, conjured out of the darkness, a young man with light blond hair pushed his face into the car. I immediately spotted the knife. It was a long, thin weapon, almost like a letter opener, with a tapering blade. It felt cold and spiny as he pressed it to my neck. When he spoke his voice, which was quiet and controlled, sounded as though it emanated from a distant planet. But every word thudded into my skull. "Move over or I'll kill you," he whispered. And so began Alison's nightmare journey with the two callous killers who were to rape her, stab her so many times doctors could not count the wounds, slit her throat and leave her for dead in a filthy clearing miles from the city of Port Elizabeth which was her home. But Alison defied death. And more than that, she denied her attackers the satisfaction of destroying her life. I Have Life is the triumphant story of a woman who refused to become a victim. The courage

which allowed her to move beyond severe physical and emotional trauma and to turn a devastating experience into something life-affirming and strong, is an inspiration to people everywhere.

The Darkest Night Ron Franscell.2014-12-09 Casper, Wyoming: 1973. Eleven-year-old Amy Burridge rides with her eighteen-year-old sister, Becky, to the grocery store. When they finish their shopping, Becky's car gets a flat tire. Two men politely offer them a ride home. But they were anything but Good Samaritans. The girls would suffer unspeakable crimes at the hands of these men before being thrown from a bridge into the North Platte River. One miraculously survived. The other did not. Years later, author and journalist Ron Franscell—who lived in Casper at the time of the crime, and was a friend to Amy and Becky—can't forget Wyoming's most shocking story of abduction, rape, and murder. Neither could Becky, the surviving sister. The two men who violated her and Amy were sentenced to life in prison, but the demons of her past kept haunting Becky...until she met her fate years later at the same bridge where she'd lost her sister.

Hard Facts, Dangerous Half-Truths, and Total Nonsense Jeffrey Pfeffer,Robert I. Sutton.2006-02-14 The best organizations have the best talent. . . Financial incentives drive company performance. . . Firms must change or die. Popular axioms like these drive business decisions every day. Yet too much common management “wisdom” isn’t wise at all—but, instead, flawed knowledge based on “best practices” that are actually poor, incomplete, or outright obsolete. Worse, legions of managers use this dubious knowledge to make decisions that are hazardous to organizational health. Jeffrey Pfeffer and Robert I. Sutton show how companies can bolster performance and trump the competition through evidence-based management, an approach to decision-making and action that is driven by hard facts rather than half-truths or hype. This book guides managers in using this approach to dismantle six widely held—but ultimately flawed—management beliefs in core areas

including leadership, strategy, change, talent, financial incentives, and work-life balance. The authors show managers how to find and apply the best practices for their companies, rather than blindly copy what seems to have worked elsewhere. This practical and candid book challenges leaders to commit to evidence-based management as a way of organizational life—and shows how to finally turn this common sense into common practice.

The Extraordinary Khotso Felicity Wood, Michael Lewis. 2007 Unraveling the mysteries surrounding a South African medicine man while recognizing a remarkable figure who has been left out of the history books, this biography explores the life of Khotso Sethundsa, an enigmatic herbalist who created an eccentric kingdom around himself—and was rumored to control a large fortune. Legend held that he had spiritual contact with Paul Kruger, and some people claimed that leading Afrikaner nationalist politicians came to him for potions that bestowed sexual and political powers. He also was thought to have an occult spiritual pact with a mermaid, and even after his death many thought he still exerted a dangerous magic. Featuring interviews with people who knew him, as well as an analysis of the traditional folklore that may have crept into these stories, this book presents the real Khotso Sethundsa, who, despite his lack of occult powers, traveled in high circles all the same.

The No Asshole Rule Robert I. Sutton. 2007-02-22 The definitive guide to working with -- and surviving -- bullies, creeps, jerks, tyrants, tormentors, despots, backstabbers, egomaniacs, and all the other assholes who do their best to destroy you at work. What an asshole! How many times have you said that about someone at work? You're not alone! In this groundbreaking book, Stanford University professor Robert I. Sutton builds on his acclaimed Harvard Business Review article to show you the best ways to deal with assholes...and why they can be so destructive to your company.

Practical, compassionate, and in places downright funny, this guide offers: Strategies on how to pinpoint and eliminate negative influences for good Illuminating case histories from major organizations A self-diagnostic test and a program to identify and keep your own inner jerk from coming out The No Asshole Rule is a New York Times, Wall Street Journal, USA Today and Business Week bestseller.
