Coming of Age at the End of History Camille De Toledo.2008-06-28 Camille de Toledo examines present day counterculture from the fall of the Berlin Wall to the present. He ask what it is his generation is protesting and contemplates how revolt against Western capitalistic values has been neutralized since the time of Francis Fukuyama's landmark 1989 article The End of History. Providing historical context, he reveals how the diffusion of political power as well as media co-option have robbed all forms of cultural dissent of their critical potential, leaving behind a new generation of rebels unsure of their cause.--[book cover].

Islam and Capitalism Maxime Rodinson.2007-04-04 Presents a rebuttal of the cultural reductionism of Max Weber and others who have tried to explain the politics and society of the Middle East by reference to some unchanging entity called 'Islam,' typically characterised as instinctively hostile to capitalism. This work looks at the facts, analysing economic texts with his customary common sense.

Post-Democracy Colin Crouch.2004-08-13 Post-Democracy is a polemical work that goes beyond current complaints about the failings of our democracy and explores the deeper social and economic forces that account for the current malaise. Colin Crouch argues that the decline of those social classes which had made possible an active and critical mass politics has combined with the rise of global capitalism to produce a self-referential political class more concerned with forging links with wealthy business interests than with pursuing political programmes which meet the concerns of ordinary people. He shows how, in some respects, politics at the dawn of the twenty-first century returns us to a world familiar well before the start of the twentieth, when politics was a game played among elites. However, Crouch maintains that the experience of the twentieth century remains salient and it reminds us of possibilities for the revival of politics. This engaging book will prove challenging to all those who claim that advanced societies have reached a virtual best of all possible democratic worlds, and will be compelling reading for anyone interested in the shape of twenty-first-century politics.

Galileo's Finger Peter Atkins.2004-05-27 Any literate person should be familiar with the central ideas of modern science. In his sparkling new book, Peter Atkins introduces his choice of the ten great ideas of science. With wit, charm, patience, and astonishing insights, he leads the reader through the emergence of the concepts, and then presents them in a strikingly effective manner. At the same time, he works into his engaging narrative an illustration of the scientific method and shows how simple ideas can have enormous consequences. His choice of the ten great ideas are: * Evolution occurs by natural selection, in which the early attempts at explaining the origin of species is followed by an account of the modern approach and some of its unsolved problems. * Inheritance is encoded in DNA, in which the story of the emergence of an understanding of inheritance is followed

through to the mapping of the human genome. * Energy is conserved, in which we see how the central concept of energy gradually dawned on scientists as they mastered the motion of particles and the concept of heat. * All change is the consequence of the purposeless collapse of energy and matter into disorder, in which the extraordinarily simple concept of entropy is used to account for events in the world. * Matter is atomic, in which we see how the concept of atoms emerged and how the different personalities of the elements arise from the structures of their atoms. * Symmetry limits, guides, and drives, in which we see how concepts related to beauty can be extended to understand the nature of fundamental particles and the forces that act between them. * Waves behave like particles and particles behave like waves, in which we see how old familiar ideas gave way to the extraordinary insights of quantum theory and transformed our perception of matter. * The universe is expanding, in which we see how a combination of astronomy and a knowledge of elementary particles accounts for the origin of the universe and its long term future. * Spacetime is curved by matter, in which we see the emergence of the theories of special and general relativity and come to understand the nature of space and time. * If arithmetic is consistent, then it is incomplete, in which we learn the origin of numbers and arithmetic, see how the philosophy of mathematics lets us understand the nature of this most cerebral of subjects, and are brought to the limits of its power. C. P. Snow once said 'not knowing the second law of thermodynamics is like never having read a work by Shakespeare'. This is an extraordinary, exciting book that not only will make you literate in science but give you deep enjoyment on the way.

Political Choice Matters Geoffrey Evans, Nan Dirk de Graaf. 2013-03-28 Studies of the influence of class and religion on politics often point to their gradual decline as a result of social change. Backed up by extensive evidence from 11 case studies and a 15-country pooled analysis, the editors argue instead that the supply of choices by parties influences the extent of class divisions: political choice matters.

Change the World for a Fiver .2004 This title marks the launch of We Are What We Do, a national movement that aims to inspire people to use everyday actions to change the world. It has illustrations of 50 everyday actions presented with directness, whimsy and wit.

Elizabeth Bowen Maud Ellmann. 2003 WINNER of the British Academy's Rose Mary Crawshay Literary Prize This study reveals both the pleasures offered by Elizabeth Bowen's works to the general reader and the literary critic, theorist and historian. Elizabeth Bowen was one of the finest writers of fiction in English in the twentieth century and one of the strangest. Born in 1899, her historical vision extends from the Irish Troubles of the 1920s to the London Blitz and the technological revolution of the post-war years. Her fiction is always entertaining - funny, moving and full of suspense - but it is also profoundly disconcerting. Maud Ellmann teases out Bowen's strangeness through close readings informed by historical, psychoanalytic and deconstructive methods of interpretation. She contextualises Bowen's work in the Irish and modernist traditions to investigate connections between her life and writing. She thoroughly exposes Bowen's conflicting and complicit relations with other Irish, British, and European writers, her negotiations bet

Portrait of the Gulf Stream Erik Orsenna.2008 It so happens that ever since childhood I have been in love with ocean currents, in love with those rivers hidden in the water.' As a child in Brehat, an island off the coast of Brittany, Erik Orsenna was told to give thanks for the Gulf Stream, the Atlantic Ocean current that brings warmth to the waters of Europe and gives us our relatively benign climate. It is his passion and concern for the Gulf Stream that is the motivation behind this book, in which he asks 'What is the Gulf Stream?', 'Where does it begin and end?', and 'Will global warming stop its flow?'

Child Of The Jungle Sabine Kuegler.2010-08-05 In 1980 seven-year-old Sabine Kuegler and her family went to live in a remote jungle area of West Papua among the recently discovered Fayu - a tribe untouched by modern civilisation. Her childhood was spent hunting, shooting poisonous spiders with arrows and chewing on pieces of bat-wing in place of gum. She also learns how brutal nature can be - and sees the effect of war and hatred on tribal peoples. After the death of her Fayu-brother, Ohri, Sabine decides to leave the jungle and, aged seventeen, she goes to a boarding school in Switzerland - a traumatic change for a girl who acts and feels like one of the Fayu. 'Fear is something I learnt here' she says. 'In the Lost Valley, with a lost tribe, I was happy. In the rest of the world it was I who was lost.' Here is Sabine Kuegler's remarkable true story of a childhood lived out in the Indonesian jungle, and the struggle to conform to European society that followed.

The Violence of Representation (Routledge Revivals) Nancy Armstrong,Leonard Tennenhouse.2014-06-17 First published in 1989, this collection of essays brings into focus the history of a specific form of violence - that of representation. The contributors identify representations of self and other that empower a particular class, gender, nation, or race, constructing a history of the west as the history of changing modes of subjugation. The

essays bring together a wide range of literary and historical work to show how writing became an increasingly important mode of domination during the modern period as ruling ideas became a form of violence in their own right. This reissue will be of particular value to literature students with an interest in the concept of violence, and the boundaries and capacity of discourse.

The World Wars Through the Female Gaze Jean Gallagher.1998 In *The World Wars Through the Female Gaze*, Jean Gallagher maps one portion of the historicized, gendered territory of what Nancy K. Miller calls the gaze in representation. Expanding the notion of the gaze in critical discourse, Gallagher situates a number of visual acts within specific historic contexts to reconstruct the wartime female subject. She looks at both the female observer's physical act of seeing - and the refusal to see - for example, a battlefield, a wounded soldier, a torture victim, a national flag, a fashion model, a bombed city, or a wartime hallucination. Interdisciplinary in focus, this book brings together visual (twenty-two illustrations) and literary texts, high and popular expressive forms, and well-known and lesser-known figures and texts.

A Son at the Front Edith Wharton.1923 Young American living in France sheds his indifference and participates in the European War.

British Women Writers of World War II P. Lassner.1998-03-01 In *British Women Writers of World War II*, Phyllis Lassner offers a challenging analysis of politicized literature in which such British women writers as Virginia Woolf, Elizabeth Bowen, Stevie Smith and Storm Jameson debated the 'justness' of World War II. Lassner questions prevailing approaches to women's war writing by exploring the complex range of pacifist and activist literary forms of women who redefined such pieties as patriotism and duty and heroism and victimization.

The Ice Age Margaret Drabble.2013-10-01 Just thirty-eight-years-old, Anthony Keating's already survived both a divorce and a heart attack. He has left the BBC for the dangerous life of property speculation in the boom-and-bust 1970s, and is brooding on the oil crisis, galloping inflation and the slump in his grand house in the British countryside. His only stroke of good luck in an otherwise collapsing life is his new lover, the beautiful actress Alison Murray. But when Alison's daughter Jane is arrested while traveling in Eastern Europe, Alison rushes to try and save her, and Anthony soon follows and finds himself caught by the strife and hardships of the communist bloc. Set against a backdrop of the Cold War and the political turmoil that led England to Margaret Thatcher, *The Ice Age* tells the story of three people desperately seeking firm ground amidst chaos with Margaret Drabble's characteristically high degree of intelligence and irony (*The New Yorker*).

Stuart: A Life Backwards Alexander Masters.2006-05-30 In this extraordinary book, Alexander Masters has created a moving portrait of a troubled man, an unlikely friendship, and a desperate world few ever see. A gripping who-done-it journey back in time, it begins with Masters meeting a drunken Stuart lying on a sidewalk in Cambridge, England, and leads through layers of hell...back through crimes and misdemeanors, prison and homelessness, suicide attempts, violence, drugs, juvenile halls and special schools-to expose the smiling, gregarious thirteen-year-old boy who was Stuart before his long, sprawling, dangerous fall. Shocking, inspiring, and hilarious by turns, *Stuart: A Life Backwards* is a writer's quest to give voice to a man who, beneath his forbidding exterior, has a message for us all: that every life-even the most chaotic and disreputable-is a story worthy of being told.
