Easy Piano Pieces for Ten Fingers- With Piano Duos Carla Louro.2012-10 With free mp3 audio for the pieces and accompaniments. This book includes several easy and well known pieces for the Piano. The book starts with a small introduction to the piano. The student will learn where the notes are on the piano and how they are written in the treble clef and in the bass clef. It also introduces the student to the grand staff and the numbers of the fingers of both hands. The pieces in the book are famous classical pieces, popular music from several countries and pieces by the author. In beginning piano lessons, a five-finger hand position is used in both hands. All the pieces can be played with the five fingers of both hands, without changing their position on the piano keyboard. For this reason, this book is recommended to teach piano to small children. The pieces are introduced by a diagram of the piano keyboard, with the notes that are played in the piece. The diagram also shows each hand separately and the number of the finger that plays the song. The first pieces are played by the right hand. The left hand is introduced later and then the student will start playing piano with both hands. The mp3 files with the songs in the book can be downloaded at the following website: <http://www.arts2science.com>. The mp3 files are in a folder with the name of this book. The numbers of the mp3 files appear before each song in the book. The same folder also includes a virtual piano that the student can play.

Super Easy Keyboard for Kids. Learn How to Transpose Helen Winter.2021-02-22 This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an easy-to-play visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There are totally 22 songs and 2 options to help children to begin to play right away. PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - Circles Mary Had a Little Lamb - Ver 1 - Notes Level 2 In this part, you will find one version with both circles and notes, and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer). We offer 22 one-hand piano songs. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone, glockenspiel, melodica, or recorder. Additionally, you find funny riddles with engaging activities to teach musical notes and symbols.

New Easy Original Piano / Keyboard Music - Beginners - Intermediate (2nd Edition) Martin Woodward. 2017-03-26 The object of this book has been to produce a collection of original pieces (composed by the author) which are both easy and satisfying to play. I hope I've succeeded. I certainly enjoy playing all of them. The 16 original compositions in this collection range from moderately easy to intermediate, but certainly not difficult. Although I have indicated this in the overview they are not featured in any particular order of how difficult they are. In relation to the Associated Board grades, I would rate these pieces at between grades 1 to 5. All except one have been written with a 'chord line' so that they can alternatively be played easily using an electronic keyboard with auto accompaniment. Additionally, many of the pieces can be played on a four or five octave keyboard. Listen Before you Buy. All of the pieces can be heard in the link in the free preview of this book, please listen to these before purchasing - if you don't like them you'll not have to bother buying it! But I think you'll like them!

Beginner Piano Lessons for Kids Book Jay Wamsted. 2018-09-24 The Beginner Piano Lessons for Kids Book with Online Video & Audio Access by Jay Wamsted was designed to help the absolute beginning student learn to play the piano or keyboard. This step by step course is designed for elementary school-aged children (ages 5-11) and quickly teaches the student to play songs they will know and love. These lessons start by playing with just the right hand and gradually build to adding the left hand thumb and learning how to play with both hands. Song arrangements were carefully selected to provide an easy transition from learning the basics to covering more interesting rhythms, techniques, and musical ideas. The book features standard music notation for each song and exercise along with fingering notation and hand shifts to make the course easier to learn. This method includes online access to over an hour of video instruction that will help the child play with proper form and timing. The video shows the piano, both hands, and the sheet music on-screen at the same time. The audio tracks allow the student to practice and play along with easy songs at two speeds. The slower speed features just the piano playing the song. The faster version includes vocals and other instruments in a performance-like setting. The combination of book, video, and audio make this the easiest to understand piano course for kids available. Songlist: Mary Had a Little Lamb, Ode to Joy, Hot Cross Buns, Jingle Bells, Oh When the Saints, Twinkle Twinkle Little Star, Rain Rain Go Away, This Old Man, Hush Little Baby, I Have a Little Dreidel, Frere Jacques, Alouette, Yankee Doodle- Watch & Learn, Inc.
