*Digital Capital* Massimo Ragnedda, Maria Laura Ruiu. 2020-01-29 This work represents the first attempt to position digital capital as cumulative and transferable, independent from, and intertwined with the other five forms of capitals. The book aims to propose a theoretical toolkit and empirical model that can be used by policy makers to tackle social inequalities created by the digital exclusion of citizens.

**Asylums** Erving Goffman. 2022-05-05 *Asylums* presents four interlinked essays that explore life in the 'total institutions': the closed systems of prisons, boarding schools, nursing homes and, most importantly, mental institutions. Focusing on the relationship between an inmate and the institution that contains them, Goffman unpicks how lives are managed 'on the inside', and how the setting more often than not works against the inmate's best interests. A radical exploration of the institutions that rule over the lives of men, women and children, *Asylums* is one of Erving Goffman's most insightful and long-lived works.

**Patient Engagement** Guendalina Graffigna, Serena Barello, Stefano Triberti. 2016-01-01 Patient engagement should be envisaged as a key priority today to innovate healthcare services delivery and to make it more effective and sustainable. The experience of engagement is a key qualifier of the exchange between the demand (i.e. citizens/patients) and the supply process of healthcare services. To understand and detect the strategic levers that sustain a good quality of patients' engagement may thus allow not only to improve clinical outcomes, but also to increase patients' satisfaction and to reduce the organizational costs of the delivery of services. By assuming a relational marketing perspective, the book offers practical insights about the developmental process of patients' engagement, by suggesting concrete tools for assessing the levels of patients' engagement and strategies to sustain it. Crucial resources to implement these strategies are also the new technologies that should be (1) implemented according to precise guidelines and (2) designed according to a user-centered design process. Furthermore, the book describes possible fields of patients' engagement application by describing the best practices and experiences matured in different fields

**Modern Rome** Italo Insolera. 2019-01-23 After fifty years and fifteen editions and reprints in Italy, this classic, groundbreaking work in the field of historical urban studies is now published in English. A masterful, fluent narrative leads the reader through the last two centuries in the history of the Eternal City, capital of the Papal State, then of the united Italy, first under the monarchy and subsequently the republic. Rome's chaotic growth and often ineffective urban planning, almost invariably overpowered by building speculation, can find an opportunity for future redemption in a vibrant multicultural society and the enhancement of an unequalled archaeological heritage with the ancient Appian Way as its spine. With respect to the last Italian edition of 2011, the volume is updated, enriched in text, indexes, maps and photographs. Historians, urban planners, architects, decision makers, university students, and anyone who is interested in one of the world's most intriguing cities will enjoy this book.

*Vulnerability as generativity* Cristiana Ottaviano, Alessia Santambrogio. 2018-04-10T00:00:00+02:00 This book focuses on parenthood and generativity, considered not only a set of biological functions, but as human and socio-cultural capabilities above and beyond gender differences. The authors reconsider in particular the institution of motherhood, emphasizing the historical and social function of women. Alongside a reflection on the gender role of women as mothers and wives, this volume explores male identities and fatherhood. While claiming that parenthood and care are human characteristics - and not just gendered or female attributes - the authors suggest the adoption of a gylanic perspective on inter-gender relationships.

**Doctor and Patient** Pedro Laín Entralgo.1969 This book examines the history of the doctor-patient relationship and the author gives his opinion on how it should be shaped in the future.

**The New Spoon River** Edgar Lee Masters.1973

*In Search of a Glorious Death* Carlo Mazzantini.1992 This autobiographical narrative provides an alternative perspective of World War I, recounting the experiences of a Roman schoolboy who volunteered to fight against the Allies after Italy surrendered in 1943. But he is not sent to the front. Instead, with professional soldiers from the Russian front and fanatical fascists, he fights in the civil war that raged in Mussolini's puppet state. He is captured in Milan after the German surrender and is spared execution by his captors, boys of his own age.

*Chosen in Christ to Be Saints* Angel Rodriguez-Luno, Enrique Colom.2014-01-01 This book is designed as a manual for the study of fundamental moral theology. It is addressed primarily to those who are undertaking a required course of study in Catholic theology at seminaries or ecclesiastical colleges. The editorial and typographical style, the choice of topics, and the extent of material covered are intended to meet the needs of such students. Nevertheless, we trust that the book will likewise be of interest for those who pursue theological and moral studies at a non specialist, though nonetheless serious level.

**The Troubled Dream of Life** Daniel Callahan.2000-06-12 Drawing on his own experience, and on literature, philosophy, and medicine, Daniel Callahan offers great insight into how to deal with the rewards of modern medicine without upsetting our perception of death. He examines how we view death and the care of the critically ill or dying, and he suggests ways of understanding death that can lead to a peaceful acceptance. Callahan's thoughtful perspective notably enhances the legal and moral discussions about end-of-life issues. Originally published in 1993 by Simon and Schuster.

Dante and Islam Jan M. Ziolkowski.2014-12-01 Dante put Muhammad in one of the lowest circles of Hell. At the same time, the medieval Christian poet placed several Islamic philosophers much more honorably in Limbo. Furthermore, it has long been suggested that for much of the basic framework of the Divine Comedy Dante was indebted to apocryphal traditions about a "night journey" taken by Muhammad. Dante scholars have increasingly returned to the question of Islam to explore the often surprising encounters among religious traditions that the Middle Ages afforded. This collection of essays works through what was known of the Qur'an and of Islamic philosophy and science in Dante's day and explores the bases for Dante's images of Muhammad and Ali. It further compels us to look at key instances of engagement among Muslims, Jews, and Christians.

**Child Migration and Human Rights in a Global Age** Jacqueline Bhabha.2014-05-04 The first comprehensive look at the global dilemma of child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a

deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

**The Imperative of Responsibility** Hans Jonas.1984 Hans Jonas here rethinks the foundations of ethics in light of the awesome transformations wrought by modern technology: the threat of nuclear war, ecological ravage, genetic engineering, and the like. Though informed by a deep reverence for human life, Jonas's ethics is grounded not in religion but in metaphysics, in a secular doctrine that makes explicit man's duties toward himself, his posterity, and the environment. Jonas offers an assessment of practical goals under present circumstances, ending with a critique of modern utopianism.

Little Ida's Flowers Hans Christian Andersen.2020-03-12 Little Ida liked the student, who always had a tale to tell, a lot. So, one morning, when little Ida's flowers had all withered, she asked the student what could have happened to them. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include *The Emperor's New Clothes*, *The Little Mermaid*, *The Nightingale*, *The Steadfast Tin Soldier*, *The Snow Queen*, *The Ugly Duckling* and *The Little Match Girl*. His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films *The Little Mermaid* in 1989 and *Frozen*, which is loosely based on *The Snow Queen*, in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

*The Experience Economy* B. Joseph Pine,James H. Gilmore.1999 This text seeks to raise the curtain on competitive pricing strategies and asserts that businesses often miss their best opportunity for providing consumers with what they want - an experience. It presents a strategy for companies to script and stage the experiences provided by their products.

**Sadhana** Anthony De Mello.1984-09-01 Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

**Mathematical Lives** CLAUDIO BARTOCCI, Renato Betti, Angelo Guerraggio, Roberto Lucchetti.2010-10-01 Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful

instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

*International Perspectives on Spinal Cord Injury* World Health Organization,International Spinal Cord Society.2013 Every year between 250 000 and 500 000 people suffer a spinal cord injury, with road traffic crashes, falls and violence as the three leading causes. People with spinal cord injury are two to five times more likely to die prematurely. They also have lower rates of school enrollment and economic participation than people without such

injuries. Spinal cord injury has costly consequences for the individual and society, but it is preventable, survivable and need not preclude good health and social inclusion. Ensuring an adequate medical and rehabilitation response, followed by supportive services and accessible environments, can help minimize the disruption to people with spinal cord injury and their families. The aims of International perspectives on spinal cord injury are to: --assemble and summarize information on spinal cord injury, in particular the epidemiology, services, interventions and policies that are relevant, together with the lived experience of people with spinal cord injury; ---make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the Convention on the Rights of Persons with Disabilities.

**Man, His Nature and Place in the World** Arnold Gehlen.1988

**Church and Communion** Philip Goyret.2022-01-21 This book is about ecumenism, from a Catholic point of view. The first part, chapters 1 and 2, describe the history of divisions within the Church, as well as of the efforts to bring about Christian unity. The second part examines Ecumenism from a systematic theological perspective. This first part takes into account the different factors that led to definitive ruptures within the Church, which usually are not only theological. The text gives useful information about what happened after the respective divisions as well as about the various attempts to restore unity, the development of the Ecumenical Movement in the 20th Century, and the current situation of ecumenical dialogue within the Catholic Church. While offering insight into the sad history that has led to the present disunity, this work also highlights the way Christians have sought to bring to fulfill the petition of Christ that his disciples might be one, as He and the Father are one. The second part—chapters three, four and five—offers a systematic theological analysis of unity in the Church, from the point of view of dogmatic theology. We find here an explanation of the Catholic concept of ecumenism, of how Catholic theology understands the unity of the Church, and, finally, of the Catholic principles which sustain the efforts for regaining unity in the Church. The Second Vatican Council, and particularly the Constitution *Lumen gentium* and the Decree *Unitatis redintegratio*, are at the foundation of these reflections. At the same time, since the theology of the Church and the life of the Church are intimately connected, there is a profound link between this dogmatic section and the earlier historical section. The last chapter, about the practice of ecumenism, is also written from a theological perspective, but with more links with life and spirituality. The chapter recalls that ecumenism can never simply remain a set of theological principles, but rather inspires an attitude and action in charity which are essential to the Christian life.

*A system of health accounts 2011* World Health Organization, European Union, Organisation for Economic Co-operation and Development. 2022-05-31  
A System of Health Accounts 2011 provides a systematic description of the financial flows related to the consumption of health care goods and services. As demands for information increase and more countries implement and institutionalise health accounts according to the system, the data produced are expected to be more comparable, more detailed and more policy relevant. This publication summarises the System of Health Accounts 2011 (SHA 2011) Manual, which was jointly produced by OECD, the European Commission and WHO. The SHA 2011 Manual itself draws inspiration from and builds on the original manual, published in 2000, and the Guide to Producing National Health Accounts (2003) to create a single global framework for producing health expenditure accounts that can help track resource flows from sources to uses. The manual is the result of a four-year collaborative effort between OECD, Eurostat and WHO, and sets out in more detail the boundaries, the definitions and the concepts responding to health care systems around the globe - from the simplest to the more complicated.
