

The Lawn A History Of An American Obsession

Front Yard Gardens Liz Primeau, Andrew Leyerle. 2010-03-11 In *Front Yard Gardens*, Primeau explains how an environmentally friendly and well-planned front yard garden is a small step toward healing the damage done by pesticides and other lawn-care products. This book covers planning and designing, and outlines the steps involved in removing grass, enriching the soil and planting. Primeau discusses the key elements of various front yard garden styles, gives tips on how to create and maintain the garden, and provides lists of complementary plants.--COVER.

Front Yard America Fred E. H. Schroeder. 1993 Throughout *Front Yard America*, Schroeder inquires into the functions, values, and meanings that Americans have found in the domestic landscapes of back yards and front yards, walls and fences, porches and patios.

Lawn: A History of an American Obsession Virginia Scott Jenkins. 1994

Redesigning the American Lawn F. Herbert Bormann, Diana Balmori, Gordon T. Geballe, Professor Gordon T. Geballe. 2001-01-01 This new edition, which is being reissued in a more artistic format and with many additional illustrations, updates the original text and adds a chapter showing what progress has been made in the ecological management of landscapes over the past decade.--BOOK JACKET.

The History of American Graffiti Roger Gastman, Caleb Neelon. 2011-09-20 Book description to come.

Lawn Gone! Pam Penick. 2013-02-12 A colorful guide covering the basics of replacing a traditional lawn with a wide variety of easy-care, no-mow, drought-tolerant, money-saving options that will appeal to today's busy, eco-conscious homeowner. Americans pour 300 million gallons of gas and 1 billion hours every year into mowing their lawns, not to mention 70 million pounds of pesticides and \$40 billion for lawn upkeep. No Wonder the anti-lawn movement is thriving, as today's eco-conscious consumers realize that their traditional lawns are water-hogging, chemical-ridden, maintenance-intensive burdens. *Lawn Gone!*, from award-winning gardening blogger Pam Penick, is the first basic introduction to low-water, easy-care lawn alternatives for beginning gardeners, written in a friendly style with an approachable package. It covers all the available time-saving options: alternative grasses, ground cover plants, artificial turf, hardscaping, mulch, and more. In addition, it includes step-by-step lawn-removal methods, strategies for dealing with neighbors and homeowner associations, and how to minimize your lawn if you're not ready to go all the way.

Obsessions Die Hard Ed Culberson. 1996 Culberson set his sights on riding Amigo, his BMW R80 G/S, the entire length of the Pan American Highway—including the Darien Gap, a feat never before accomplished by a motorcyclist. He suffers failure before meeting success, encountering killer bees, arrest by a corrupt law officer, cycling injuries, and back-breaking labour to get himself

Shiny Objects James A. Roberts. 2011-11-15 In *Shiny Objects*, a cross between *In Praise of Slowness* and *The Tipping Point*, consumer behavior expert Professor James A. Roberts takes us on a tour of America's obsession with consumerism—pointing out its symptoms, diagnosing specific problems, and offering a series of groundbreaking solutions. Roberts gives practical advice for how to correct the materialistic trends in our lives which lock us into a cycle of financial hardship and stress. *Shiny Objects*, a new *The Paradox of Choice* for the modern reader, is more than a critique of capitalism—it's also an exploration into how we can live happier, fuller, more productive lives today.

Crabgrass Frontier Kenneth T. Jackson. 1987-04-16 This first full-scale history of the development of the American suburb examines how the good life in America came to be equated with the a home of one's own surrounded by a grassy yard and located far from the urban workplace. Integrating social history with economic and architectural analysis, and taking into account such factors as the availability of cheap land, inexpensive building methods, and rapid transportation, Kenneth Jackson chronicles the phenomenal growth of the American suburb from the middle of the 19th century to the present day. He treats communities in every section of the U.S. and compares American residential patterns with those of Japan and Europe. In conclusion, Jackson offers a controversial prediction: that the future of residential deconcentration will be very different from its past in both the U.S. and Europe.

The Martian Chronicles Ray Bradbury. 2012-04-17 The tranquility of Mars is disrupted by humans who want to conquer space, colonize the planet, and escape a doomed Earth.

American Tapestry Rachel L. Swarns. 2012-06-19 A remarkable history of First Lady Michelle Obama's mixed ancestry, *American Tapestry* by Rachel L. Swarns is nothing less than a breathtaking and expansive portrait of America itself. In this extraordinary feat of genealogical research—in the tradition of *The Hemmingses of Monticello* and *Slaves in the Family*—author Swarns, a respected Washington-based reporter for the *New York Times*, tells the fascinating and hitherto untold story of Ms. Obama's black, white, and multiracial ancestors; a history that the First Lady herself did not know. At once epic, provocative, and inspiring, *American Tapestry* is more than a true family saga; it is an illuminating mirror in which we may all see ourselves.

The Big Year Mark Obmascik. 2011-09-27 Follows the 1998 Big Year competition between Sandy Komito, Al Levantin, and Greg Miller, during which the three rivals risked their lives to set a new North American birding record.

Life Would Be Perfect If I Lived in That House Meghan Daum. 2010-05-04 From the acclaimed author and columnist: a laugh-out-loud journey into the world of real estate—the true story of one woman's "imperfect life lived among imperfect houses" and her quest for the four perfect walls to call home. After an itinerant suburban childhood and countless moves as a grown-up—from New York City to Lincoln, Nebraska; from the Midwest to the West Coast and back—Meghan Daum was living in Los Angeles, single and in her mid-thirties, and devoting obscene amounts of time not to her writing career or her dating life but to the pursuit of property: scouring Craigslist, visiting open houses, fantasizing about finding the right place for the right price. Finally, near the height of the real estate bubble, she succumbed, depleting her life's savings to buy a 900-square-foot bungalow, with a garage that "bore a close resemblance to the ruins of Pompeii" and plumbing that "dated back to the Coolidge administration." From her mother's decorating manias to her own "hidden room" dreams, Daum explores the perils and pleasures of believing that only a house can make you whole. With delicious wit and a keen eye for the absurd, she has given us a pitch-perfect, irresistible tale of playing a lifelong game of house.

American Green: The Obsessive Quest for the Perfect Lawn Ted Steinberg. 2006-03-17 "Ted Steinberg proves once again that he is a master storyteller as well as our foremost environmental historian."—Mike Davis The rise of the perfect lawn represents one of the most profound transformations in the history of the American landscape. *American Green*, Ted Steinberg's witty exposé of this bizarre phenomenon, traces the history of the lawn from its explosion in the postwar suburban community of Levittown to the present love affair with turf colorants, leaf blowers, and riding mowers.

Flash and Filigree Terry Southern. 2011-05-03 A satirical dream-logic journey through the dark heart of 1950s Los Angeles Dr. Frederick Eichner, world-renowned dermatologist, is visited by the entrancingly irritating Felix Treevly who comes to him as a patient and stays as an obsession. Prosaic incidents blossom into bizarre developments with the sharpened reality of dreams as the spectral Mr. Treevly leads the doctor into a series of increasingly weird situations. With the assistance of a drunken private detective, a mad judge, a car crash, a game show called "What's My Disease," and a hashish party, Treevly drives Eichner to madness and mayhem. It is through comedy and a strange blend of violence and poetic delicacy that the novel charms. Southern's first novel, *Flash and Filigree* was turned down by seventeen timorous American publishers. It was

Southern's mentor, the "genius" English novelist Henry Green, who brought the book to the attention of a leading British publishing house, which released it to high praise. A fast-paced dark comedy, *Flash and Filigree* established Terry Southern as one of the finest American prose stylists to emerge in Paris after the War. This ebook features an illustrated biography of Terry Southern including rare photos and never-before-seen documents from the author's estate.

The American Lawn Georges Teyssot.1999 The site of political demonstrations, sporting events, and barbecues, and the object of loving, if not obsessive, care and attention, the lawn is also symbolically tied to our notions of community and civic responsibility, serving in the process as one of the foundations of democracy.

Fire in Paradise: An American Tragedy Dani Anguiano,Alastair Gee.2020-05-05 The harrowing story of the most destructive American wildfire in a century. On November 8, 2018, the ferocious Camp Fire razed nearly every home in Paradise, California, and killed at least 85 people. Journalists Alastair Gee and Dani Anguiano reported on Paradise from the day the fire began and conducted hundreds of in-depth interviews with residents, firefighters and police, and scientific experts. *Fire in Paradise* is their dramatic narrative of the disaster and an unforgettable story of an American town at the forefront of the climate emergency.

House Held Up by Trees Ted Kooser,Jon Klassen.2012-03-27 Built on a treeless yard by a family who cleared away all the sprouting trees on the property, a house is eventually abandoned and left to deteriorate on a lot that is gradually overrun by wild trees, in a poignant tale of loss, change and nature's quiet triumph by the Pulitzer Prize-winning former U.S. Poet Laureate and author of *Delights & Shadows*.

Founding Gardeners Andrea Wulf.2011-03-29 A groundbreaking look at the Founding Fathers and their obsession with gardening, agriculture, and botany by the author of *Magnificent Rebels* and New York Times bestseller *The Invention of Nature*. • "Illuminating and engrossing." —The New York Times Book Review For the Founding Fathers, gardening, agriculture, and botany were elemental passions: a conjoined interest as deeply ingrained in their characters as the battle for liberty and a belief in the greatness of their new nation. *Founding Gardeners* is an exploration of that obsession, telling the story of the revolutionary generation from the unique perspective of their lives as gardeners, plant hobbyists, and farmers. Acclaimed historian Andrea Wulf describes how George Washington wrote letters to his estate manager even as British warships gathered off Staten Island; how a tour of English gardens renewed Thomas Jefferson's and John Adams's faith in their fledgling nation; and why James Madison is the forgotten father of environmentalism. Through these and other stories, Wulf reveals a fresh, nuanced portrait of the men who created our nation.

American Indian Lacrosse Thomas Vennum.2008-01-02 To understand the aboriginal roots of lacrosse, one must enter a world of spiritual belief and magic where players sewed inchworms into the innards of lacrosse balls and medicine men gazed at miniature lacrosse sticks to predict future events, where bits of bat wings were twisted into the stick's netting, and where famous players were—and are still—buried with their sticks. Here Thomas Vennum brings this world to life.

Albion's Seed David Hackett Fischer.1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are *Albion's Seed*, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Motorized Obsessions Paul R. Josephson.2007-09-02 From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent - and loud - fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it - personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Fantasyland Kurt Andersen.2017-09-05 NEW YORK TIMES BESTSELLER • "The single most important explanation, and the fullest explanation, of how Donald Trump became president of the United States . . . nothing less than the most important book that I have read this year."—Lawrence O'Donnell How did we get here? In this sweeping, eloquent history of America, Kurt Andersen shows that what's happening in our country today—this post-factual, "fake news" moment we're all living through—is not something new, but rather the ultimate expression of our national character. America was founded by wishful dreamers, magical thinkers, and true believers, by hucksters and their suckers. Fantasy is deeply embedded in our DNA. Over the course of five centuries—from the Salem witch trials to Scientology to the Satanic Panic of the 1980s, from P. T. Barnum to Hollywood and the anything-goes, wild-and-crazy sixties, from conspiracy theories to our fetish for guns and obsession with extraterrestrials—our love of the fantastic has made America exceptional in a way that we've never fully acknowledged. From the start, our ultra-individualism was attached to epic dreams and epic fantasies—every citizen was free to believe absolutely anything, or to pretend to be absolutely anybody. With the gleeful erudition and tell-it-like-it-is ferocity of a Christopher Hitchens, Andersen explores whether the great American experiment in liberty has gone off the rails. *Fantasyland* could not appear at a more perfect moment. If you want to understand Donald Trump and the culture of twenty-first-century America, if you want to know how the lines between reality and illusion have become dangerously blurred, you must read this book. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE SAN FRANCISCO CHRONICLE "This is a blockbuster of a book. Take a deep breath and dive in."—Tom Brokaw "[An] absorbing, must-read polemic . . . a provocative new study of America's cultural history."—Newsday "Compelling and totally unnerving."—The Village Voice "A frighteningly convincing and sometimes uproarious picture of a country in steep, perhaps terminal decline that would have the founding fathers weeping into their beards."—The Guardian "This is an important book—the indispensable book—for understanding America in the age of Trump."—Walter Isaacson, #1 New York Times bestselling author of *Leonardo da Vinci*

Our Town Cynthia Carr.2007-03-27 The brutal lynching of two young black men in Marion, Indiana, on August 7, 1930, cast a shadow over the town that still lingers. It is only one event in the long and complicated history of race relations in Marion, a history much ignored and considered by many to be best forgotten. But the lynching cannot be forgotten. It is too much a part of the fabric of Marion, too much ingrained even now in the minds of those who live there. In *Our Town* journalist Cynthia Carr explores the issues of race, loyalty, and memory in America through the lens of a specific hate crime that occurred in Marion but could have happened anywhere. Marion is our town, America's town, and its legacy is our legacy. Like everyone in Marion, Carr knew the basic details of the lynching even as a child: three black men were arrested for attempted murder and rape, and two of them were hanged in the courthouse square, a fate the third miraculously escaped. Meeting James Cameron—the man who'd survived—led her to examine how the quiet Midwestern town she loved could harbor such dark secrets. Spurred by the realization that, like her, millions of white Americans are intimately connected to this hidden history, Carr began an investigation into the events of that night, racism in Marion, the presence of the Ku Klux Klan—past and present—in Indiana, and her own grandfather's involvement. She uncovered a pattern of white guilt and indifference, of black anger and fear that are the hallmark of race relations across the country. In a sweeping narrative that takes her from the angry energy of a white supremacist rally to the peaceful fields of Weaver—once an all-black settlement neighboring Marion—in search of the good and the bad in the story of race in America, Carr returns to her roots to seek out the fascinating people and places that have shaped the town. Her intensely compelling account of the

Marion lynching and of her own family's secrets offers a fresh examination of the complex legacy of whiteness in America. Part mystery, part history, part true crime saga, *Our Town* is a riveting read that lays bare a raw and little-chronicled facet of our national memory and provides a starting point toward reconciliation with the past. On August 7, 1930, three black teenagers were dragged from their jail cells in Marion, Indiana, and beaten before a howling mob. Two of them were hanged; by fate the third escaped. A photo taken that night shows the bodies hanging from the tree but focuses on the faces in the crowd—some enraged, some laughing, and some subdued, perhaps already feeling the first pangs of regret. Sixty-three years later, journalist Cynthia Carr began searching the photo for her grandfather's face.

The Amazing Bone William Steig.2013-07-30 It's a bright and beautiful spring day, and Pearl, a pig, is dawdling on her way home from school. Most unexpectedly, she strikes up an acquaintance with a small bone. You talk? says Pearl. In any language, says the bone. And I can imitate any sound there is. (Its former owner was a witch.) Pearl and the bone immediately take a liking to each other, and before you know it she is on her way home with the bone in her purse, left open so they can continue their conversation. Won't her parents be surprised when she introduces her talking bone! But before that happy moment comes, the resourceful bone must deal with a band of highway robbers in Halloween masks and, worse, a fox who decides that Pearl will be his main course at dinner that night. And deal it does, with gambits droll and thrilling. William Steig, incomparable master of the contemporary picture book, has never been better than in *The Amazing Bone*. *The Amazing Bone* is a 1976 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year, a 1977 Caldecott Honor Book, and a 1977 Boston Globe - Horn Book Awards Honor Book for Picture Books.

Visions in a Seer Stone William L. Davis.2020-04-08 In this interdisciplinary work, William L. Davis examines Joseph Smith's 1829 creation of the Book of Mormon, the foundational text of the Latter Day Saint movement. Positioning the text in the history of early American oratorical techniques, sermon culture, educational practices, and the passion for self-improvement, Davis elucidates both the fascinating cultural context for the creation of the Book of Mormon and the central role of oral culture in early nineteenth-century America. Drawing on performance studies, religious studies, literary culture, and the history of early American education, Davis analyzes Smith's process of oral composition. How did he produce a history spanning a period of 1,000 years, filled with hundreds of distinct characters and episodes, all cohesively tied together in an overarching narrative? Eyewitnesses claimed that Smith never looked at notes, manuscripts, or books—he simply spoke the words of this American religious epic into existence. Judging the truth of this process is not Davis's interest. Rather, he reveals a kaleidoscope of practices and styles that converged around Smith's creation, with an emphasis on the evangelical preaching styles popularized by the renowned George Whitefield and John Wesley.

The Book of Eels Patrik Svensson.2020-05-26 A Finalist for the Los Angeles Times Book Prize National Bestseller Winner of the National Outdoor Book Award Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction A New York Times Notable Book One of TIME's 100 Must Read Books of the Year One of The Washington Post's 50 Notable Nonfiction Books of the Year One of Smithsonian Magazine's 10 Best Science Books of the Year One of Publishers Weekly's Best Nonfiction Books of the Year A New York Times Editor's Choice Part H Is for Hawk, part The Soul of an Octopus, *The Book of Eels* is both a meditation on the world's most elusive fish—the eel—and a reflection on the human condition Remarkably little is known about the European eel, *Anguilla anguilla*. So little, in fact, that scientists and philosophers have, for centuries, been obsessed with what has become known as the “eel question”: Where do eels come from? What are they? Are they fish or some other kind of creature altogether? Even today, in an age of advanced science, no one has ever seen eels mating or giving birth, and we still don't understand what drives them, after living for decades in freshwater, to swim great distances back to the ocean at the end of their lives. They remain a mystery. Drawing on a breadth of research about eels in literature, history, and modern marine biology, as well as his own experience fishing for eels with his father, Patrik Svensson crafts a mesmerizing portrait of an unusual, utterly misunderstood, and completely captivating animal. In *The Book of Eels*, we meet renowned historical thinkers, from Aristotle to Sigmund Freud to Rachel Carson, for whom the eel was a singular obsession. And we meet the scientists who spearheaded the search for the eel's point of origin, including Danish marine biologist Johannes Schmidt, who led research efforts in the early twentieth century, catching thousands upon thousands of eels, in the hopes of proving their birthing grounds in the Sargasso Sea. Blending memoir and nature writing at its best, Svensson's journey to understand the eel becomes an exploration of the human condition that delves into overarching issues about our roots and destiny, both as humans and as animals, and, ultimately, how to handle the biggest question of all: death. The result is a gripping and slippery narrative that will surprise and enchant.

The Most Dangerous Man in America Bill Minutaglio, Steven L. Davis.2018-01-09 From Bill Minutaglio and Steven L. Davis, authors of the PEN Center USA award-winning *Dallas* 1963, comes a madcap narrative about Timothy Leary's daring prison escape and run from the law. On the moonlit evening of September 12, 1970, an ex-Harvard professor with a genius I.Q. studies a twelve-foot high fence topped with barbed wire. A few months earlier, Dr. Timothy Leary, the High Priest of LSD, had been running a gleeful campaign for California governor against Ronald Reagan. Now, Leary is six months into a ten-year prison sentence for the crime of possessing two marijuana cigarettes. Aided by the radical Weather Underground, Leary's escape from prison is the counterculture's union of dope and dynamite, aimed at sparking a revolution and overthrowing the government. Inside the Oval Office, President Richard Nixon drinks his way through sleepless nights as he expands the war in Vietnam and plots to unleash the United States government against his ever-expanding list of domestic enemies. Antiwar demonstrators are massing by the tens of thousands; homemade bombs are exploding everywhere; Black Panther leaders are threatening to burn down the White House; and all the while Nixon obsesses over tracking down Timothy Leary, whom he has branded the most dangerous man in America. Based on freshly uncovered primary sources and new firsthand interviews, *The Most Dangerous Man in America* is an American thriller that takes readers along for the gonzo ride of a lifetime. Spanning twenty-eight months, President Nixon's careening, global manhunt for Dr. Timothy Leary winds its way among homegrown radicals, European aristocrats, a Black Panther outpost in Algeria, an international arms dealer, hash-smuggling hippies from the Brotherhood of Eternal Love, and secret agents on four continents, culminating in one of the trippiest journeys through the American counterculture.

House Lust Daniel McGinn.2008-01-08 A rich narrative that blends social commentary with incisive reporting, *House Lust* offers an astute, funny, and sometimes disturbing portrait of the behaviors that drove the greatest real estate boom in history—and its eventual bust. Owning a home has long been considered the fulfillment of the American Dream. But in the last decade, as the real estate market boomed, Americans' fascination with homes turned into a frenzy. Everywhere we turned, people were talking about, scheming over, envying, shopping for, refinancing, or just plain ogling houses—in the process, we've transformed shelter from a basic necessity into an all-consuming passion. In *House Lust*, Newsweek's Daniel McGinn travels the country to explore the roots of this mania. Even as the real estate boom has turned to bust, Americans remain obsessed with houses—many of us are still trading up, adding on, or doubling down to buy vacation property. But for others, this zeal for housing has carried a painful price, one that's evident in the soaring foreclosure rates and mounting despair as millions of homeowners (and their lenders) realize they've stretched too far to buy the home of their dreams. In a compelling narrative that takes us inside the homes—and psyches—of the *House Lust*-afflicted throughout the nation, McGinn examines the forces that turned housing into the talk of dinner parties. He explores the arms race for square footage and introduces readers to a menagerie of characters from the real estate world—from “renovation psychologists” who treat remodeling-addled clients to a guy who trades vacation time-shares the way kids trade baseball cards. McGinn also jumps into the fray himself by enrolling in real estate school and buying an investment property, sight unseen, over the Internet. *House Lust* shows us just how contagious the ideal of owning the best home on the block can be. And as the real estate boom recedes into memory, McGinn offers cautionary tales to help us curb our lust when prices start rising again.

Bananas Virginia Jenkins.2014-01-14 Before 1880 most Americans had never seen a banana. By 1910 bananas were so common that streets were littered with their peels. Today Americans eat on average nearly seventy-five per year. More than a staple of the American diet, bananas have gained a secure place in the nation's culture and folklore. They have been recommended as the secret to longevity, the perfect food for

infants, and the cure for warts, headaches, and stage fright. Essential to the cereal bowl and the pratfall, they remain a mainstay of jokes, songs, and wordplay even after a century of rapid change. Covering every aspect of the banana in American culture, from its beginnings as luxury food to its reputation in the 1910s as the “poor man's” fruit to its role today as a healthy, easy-to-carry snack, Bananas provides an insightful look at a fruit with appeal.

Trespassing on Einstein's Lawn Amanda Geffer. 2014-01-14 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS In a memoir of family bonding and cutting-edge physics for readers of Brian Greene's *The Hidden Reality* and Jim Holt's *Why Does the World Exist?*, Amanda Geffer tells the story of how she conned her way into a career as a science journalist—and wound up hanging out, talking shop, and butting heads with the world's most brilliant minds. At a Chinese restaurant outside of Philadelphia, a father asks his fifteen-year-old daughter a deceptively simple question: “How would you define nothing?” With that, the girl who once tried to fail geometry as a conscientious objector starts reading up on general relativity and quantum mechanics, as she and her dad embark on a life-altering quest for the answers to the universe's greatest mysteries. Before Amanda Geffer became an accomplished science writer, she was a twenty-one-year-old magazine assistant willing to sneak her and her father, Warren, into a conference devoted to their physics hero, John Wheeler. Posing as journalists, Amanda and Warren met Wheeler, who offered them cryptic clues to the nature of reality: The universe is a self-excited circuit, he said. And, The boundary of a boundary is zero. Baffled, Amanda and Warren vowed to decode the phrases—and with them, the enigmas of existence. When we solve all that, they agreed, we'll write a book. *Trespassing on Einstein's Lawn* is that book, a memoir of the impassioned hunt that takes Amanda and her father from New York to London to Los Alamos. Along the way, they bump up against quirky science and even quirkier personalities, including Leonard Susskind, the former Bronx plumber who invented string theory; Ed Witten, the soft-spoken genius who coined the enigmatic M-theory; even Stephen Hawking. What they discover is extraordinary: the beginnings of a monumental paradigm shift in cosmology, from a single universe we all share to a splintered reality in which each observer has her own. Reality, the Gefters learn, is radically observer-dependent, far beyond anything of which Einstein or the founders of quantum mechanics ever dreamed—with shattering consequences for our understanding of the universe's origin. And somehow it all ties back to that conversation, to that Chinese restaurant, and to the true meaning of nothing. Throughout their journey, Amanda struggles to make sense of her own life—as her journalism career transforms from illusion to reality, as she searches for her voice as a writer, as she steps from a universe shared with her father to at last carve out one of her own. It's a paradigm shift you might call growing up. By turns hilarious, moving, irreverent, and profound, *Trespassing on Einstein's Lawn* weaves together story and science in remarkable ways. By the end, you will never look at the universe the same way again. Praise for *Trespassing on Einstein's Lawn* “Nothing quite prepared me for this book. Wow. Reading it, I alternated between depression—how could the rest of us science writers ever match this?—and exhilaration.”—*Scientific American* “To Do: Read *Trespassing on Einstein's Lawn*. Reality doesn't have to bite.”—*New York* “A zany superposition of genres . . . It's at once a coming-of-age chronicle and a father-daughter road trip to the far reaches of this universe and 10,500 others.”—*The Philadelphia Inquirer*

Between the World and Me Ta-Nehisi Coates. 2015-07-14 #1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S “BOOKS THAT HELP ME THROUGH” • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as “required reading,” a bold and personal literary exploration of America's racial history by “the most important essayist in a generation and a writer who changed the national political conversation about race” (*Rolling Stone*) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY *The New York Times Book Review* • *O: The Oprah Magazine* • *The Washington Post* • *People* • *Entertainment Weekly* • *Vogue* • *Los Angeles Times* • *San Francisco Chronicle* • *Chicago Tribune* • *New York* • *Newsday* • *Library Journal* • *Publishers Weekly* In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

The Lawn Virginia Scott Jenkins. 1994 Lawns now blanket thirty million acres of the United States, but until the late nineteenth century few Americans had any desire for a front lawn, much less access to seeds for growing one. In her comprehensive history of this uniquely American obsession, Virginia Scott Jenkins traces the origin of the front lawn aesthetic, the development of the lawn-care industry, its environmental impact, and modern as well as historic alternatives to lawn mania.

My Garden (Book) Jamaica Kincaid. 2001-05-15 One of our finest writers on one of her greatest loves. Jamaica Kincaid's first garden in Vermont was a plot in the middle of her front lawn. There, to the consternation of more experienced friends, she planted only seeds of the flowers she liked best. In *My Garden (Book)* she gathers all she loves about gardening and plants, and examines it generously, passionately, and with sharp, idiosyncratic discrimination. Kincaid's affections are matched in intensity only by her dislikes. She loves spring and summer but cannot bring herself to love winter, for it hides the garden. She adores the rhododendron Jane Grant, and appreciates ordinary Blue Lake string beans, but abhors the Asiatic lily. The sources of her inspiration -- seed catalogues, the gardener Gertrude Jekyll, gardens like Monet's at Giverny -- are subjected to intense scrutiny. She also examines the idea of the garden on Antigua, where she grew up. *My Garden (Book)* is an intimate, playful, and penetrating book on gardens, the plants that fill them, and the persons who tend them.

Lawn People Paul Robbins. 2012-06-20 A comprehensive survey of the American lawn and how caring for it impacts people's lives.

Killers of the Flower Moon David Grann. 2018-04-03 #1 NEW YORK TIMES BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Wager* and *The Lost City of Z*, “one of the preeminent adventure and true-crime writers working today.”—*New York Magazine* • NATIONAL BOOK AWARD FINALIST • NOW A MARTIN SCORSESE PICTURE “A shocking whodunit...What more could fans of true-crime thrillers ask?”—*USA Today* “A masterful work of literary journalism crafted with the urgency of a mystery.”—*The Boston Globe* In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann's latest bestselling book, *The Wager*!

Greener Than You Think Ward Moore. 2018-01-19 Neither the vegetation nor people in this book are entirely fictitious. But, reader, no person pictured here is you. With one exception. You, Sir, Miss, or Madam -

whatever your country or station - are Albert Weener. As I am Albert Weener.

Second Nature Michael Pollan.2007-12-01 "One of the distinguished gardening books of our time," from the #1 New York Times-bestselling author of *The Omnivore's Dilemma* (USA Today). Chosen by the American Horticultural Society as one of the 75 greatest books ever written about gardening After Michael Pollan bought an old Connecticut dairy farm, he planted a garden and attempted to follow Thoreau's example: do not impose your will upon the wilderness, the woodchucks, or the weeds. That ethic did not, of course, work. But neither did pesticides or firebombing the woodchuck burrow. So Michael Pollan began to think about the troubled borders between nature and contemporary life. The result is a funny, profound, and beautifully written book in the finest tradition of American nature writing. It inspires thoughts on the war of the roses; sex and class conflict in the garden; virtuous composting; the American lawn; seed catalogs, and the politics of planting a tree. A blend of meditation, autobiography, and social history, *Second Nature*, from the renowned author of *The Botany of Desire*, *In Defense of Food*, and other bestsellers, is "as delicious a meditation on one man's relationship with the Earth as any you are likely to come upon" (The New York Times Book Review). "Usually when Americans have wanted to explore their relationship to nature they've gone to the wilderness, or the woods. Michael Pollan went to the garden instead . . . and he's returned with a quirky and pleasing book." —Annie Dillard "A joy to read." —Los Angeles Times

Lawn Wars Lois B. Robbins.2009-03-11 Like it or not, we're embedded in the natural world. We might as well learn to live more harmoniously with it. Part memoir, part how-to, part problem-solving, *Lawn Wars* gives a historical context and resources for a new movement that is showing up across the nation. Difficulties encountered by aspiring natural landscapers are explored with wit and factual information. The rich rewards of making such a shift are described in lyrical prose as the author tells her own story of heartache and delight.

The Lawn Virginia Jenkins.2015-05-26 Lawns now blanket thirty million acres of the United States, but until the late nineteenth century few Americans had any desire for a front lawn, much less access to seeds for growing one. In her comprehensive history of this uniquely American obsession, Virginia Scott Jenkins traces the origin of the front lawn aesthetic, the development of the lawn-care industry, its environmental impact, and modern as well as historic alternatives to lawn mania.

The Lawn A History Of An American Obsession Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Lawn A History Of An American Obsession PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Lawn A History Of An American Obsession PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Lawn A History Of An American Obsession free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
