The China Threat Bill Gertz.2013-02-05 The devastating terrorist attacks on the World Trade Center and the Pentagon and America's first domestic bio-terrorism mail attacks have shifted America's attention and resources to the immediate threat of international terrorism. But we shouldn't be fooled. Since the publication of the hardcover edition of *The China Threat* in November of 2000, one thing remains very much the same: the People's Republic of China is the most serious long-term national security challenge to the United States. In fact, after the events of September 11, the China threat should seem all the more real, for Communist China is one of the most important backers of states that support international terrorism.

ALLAH, LIBERTY AND LOVE Irshad Manji.2012-12-11 Irshad Manji's message of moral courage, with stories about contemporary reformers such as Martin Luther King, Jr., Gandhi, and Islam's own Gandhi, inspire and show the way to practicing faith without fear. Irshad addresses all people, Muslim and non-Muslim alike, in this universal message about the importance of independent thought and internal strength, of love, liberty, free speech, and the pursuit of happiness. Allah, Liberty, and Love is about creating choices beyond conforming or leaving the faith, which is what Manji hears from young Muslims who write to her in frustration, whose emails, letters, and conversations are included in this book. Manji writes, I'll show struggling Muslims how to embrace a third option: reforming ourselves. And she recounts many affecting stories from young people who have contacted her for advice on how to step out of limiting views of Islam and the restrictions they put on life, love, family, and careers.

The Chinese People's Liberation Army in 2025 Roy Kamphausen,David Lai,U. S. Army War College.2015-12-23 I'm pleased to introduce *The Chinese People's Liberation Army of 2025* which is the 2014 edition of an ongoing series on the People's Liberation Army (PLA) co-published by the Strategic Studies Institute (SSI), the National Bureau of Asian Research (NBR), and the United States Pacific Command (USPACOM). This volume builds on previous volumes and identifies potential trajectories for PLA force modernization and mission focus, and how these potential changes could impact external actors. This volume is of special relevance today in light of the profound changes occurring within the PLA. I have spent a considerable amount of my professional career in the Western Pacific and, during that time, I've seen first-hand the rapid expansion of the size and capability of

the PLA as it pursues a long-term, comprehensive military modernization program in support of China's more assertive regional strategy. China's desire to develop a military commensurate with its diverse interests and economic power is both...

Bangkitnya Naga Merah - Asal Usul & Ancaman Program Luar Angkasa Rahasia China Eagle Oseven. Bagaimana Tiongkok mengalami kebangkitan pesat dari negara yang terbelakang secara teknologi menjadi negara adidaya militer di luar angkasa? Transisi luar biasa ini dimulai dalam program rahasia Angkatan Udara AS lebih dari 75 tahun yang lalu! Saat tinggal di Amerika, seorang ilmuwan Tiongkok yang brilian dipilih untuk mengerjakan teknologi paling rahasia milik militer AS selama lebih dari satu dekade. Tiba-tiba, dia menjadi sasaran FBI, diperdagangkan dalam pertukaran tahanan oleh Presiden Eisenhower dan harus kembali ke Tiongkok. Peristiwa ini pada akhirnya mengarah pada pengembangan program luar angkasa rahasia (SSP) yang dijalankan oleh militer Tiongkok dengan menggunakan sistem propulsi elektromagnetik eksotik yang kini menantang dominasi militer AS di Bumi dan di luar angkasa. Pada tahun 2030, perekonomian Tiongkok akan melampaui Amerika Serikat, dan Tiongkok berencana menggunakan sumber daya ekonominya yang besar untuk memproyeksikan kehadirannya di luar angkasa dengan cara yang akan meningkatkan konfrontasi militer dengan Angkatan Luar Angkasa AS yang baru dibentuk. Dalam buku ini, Anda akan mempelajari tentang: • Asal usul SSP Tiongkok melalui karya perintis Dr. Tsien Hsue-shen yang membawa pengetahuan lanjutannya tentang SSP di Nazi Jerman dan AS ke Tiongkok; • Bagaimana teknologi penerbangan kuno terkubur di Tiongkok piramida misterius sedang diam-diam dipelajari dan direkayasa ulang; • Artefak kuno dari kontak dengan makhluk luar angkasa di wilayah terpencil Tibet, Gurun Gobi, dan kebenaran di balik legenda Shamballa dan Agartha; • Partisipasi Tiongkok dalam SSP yang dikelola Perserikatan Bangsa-Bangsa yang dirancang untuk mendorong hubungan internasional yang lebih besar kerja sama dalam menanggapi keberadaan kehidupan di luar bumi; • Senjata luar angkasa dan pesawat ruang angkasa yang digerakkan secara elektromagnetik diam-diam dikembangkan dan dikerahkan oleh Tiongkok; • Ancaman yang ditimbulkan oleh rencana Komunis Tiongkok untuk menggunakan Kecerdasan Buatan untuk menjadi negara adidaya yang dominan di Bumi dan di Luar Angkasa. Bangkitnya Naga Merah mewakili krisis global dan peluang yang dihadirkan oleh Tiongkok. Apakah AS dan Tiongkok ditakdirkan untuk saling bentrok dalam perang antariksa yang dahsyat atau apakah mereka akan menjadi mitra strategis dalam memandu transisi damai umat manusia menuju peradaban galaksi yang berorientasi pada antariksa?

Inside Nuclear South Asia Scott D. Sagan.2009-08-17 Nuclear-armed adversaries India and Pakistan have fought three wars since their creation as sovereign states in 1947. They went to the brink of a fourth in 2001 following an attack on the Indian parliament, which the Indian government blamed on the Pakistan-backed Lashkar-e-Taiba and Jaish-e-Mohammed terrorist organizations. Despite some attempts at rapprochement in the intervening years, a new standoff between the two countries was precipitated when India accused Lashkar-e-Taiba of being behind the Mumbai attacks late last year. The relentlessness of the confrontations between these two nations makes Inside Nuclear South Asia a must read for anyone wishing to gain a thorough understanding of the spread of nuclear weapons in South Asia and the potential consequences of nuclear proliferation on

the subcontinent. The book begins with an analysis of the factors that led to India's decision to cross the nuclear threshold in 1998, with Pakistan close behind: factors such as the broad political support for a nuclear weapons program within India's ruling Bharatiya Janata Party (BJP), the intense rivalry between the two countries, the normative and prestige factors that influenced their behaviors, and ultimately the perceived threat to their respective national security. The second half of the book analyzes the consequences of nuclear proliferation on the subcontinent. These chapters show that the presence of nuclear weapons in South Asia has increased the frequency and propensity of low-level violence, further destabilizing the region. Additionally, nuclear weapons in India and Pakistan have led to serious political changes that also challenge the ability of the two states to produce stable nuclear détente. Thus, this book provides both new insights into the domestic politics behind specific nuclear policy choices in South Asia, a critique of narrow realist views of nuclear proliferation, and the dangers of nuclear proliferation in South Asia.

An Introduction to Strategic Studies Barry Buzan.1987-09-04 An Introduction to Strategic Studies addresses some of the major questions that govern both international relations and human survival. This book provides a comprehensive introduction to the core concepts of contemporary strategic thinking. It argues that strategic studies is about the impact of military technology on relations between states, and that its specialised contribution must always be seen within the broader context of international economic and political relations.

Immune Function in Sport and Exercise Michael Gleeson.2006-01-01 This title is directed primarily towards health care professionals outside of the United States. Designed to help readers understand and evaluate the relationship between exercise, immune function and infection risk, this book presents evidence for the J-shaped relationship between exercise load and infection risk. It also describes the components of the human immune system and key functions that protect the body from disease, the impact of acute and chronic psychological stress on immune function, and practical guidelines for minimizing the risk of immunodepression and infection in athletes. Further chapters explore different ways of measuring immune function, as well as the effects of heavy training on innate and specific (acquired) immunity, exercise in environmental extremes, and nutrition. Connections between exercise, infection risk, and immune function in special populations (elderly, obese, diabetic and HIV patients) are also addressed. Authored by a team of highly experienced experts. The J-shaped relationship between exercise load and infection risk is described, backed by current research and evidence. Components of the immune system and normal immune function are explained in detail, as well as methods for measuring immune function. The impact of acute and chronic psychological stress on immune function is presented, along with suggestions for minimizing the risk of immunodepression and infection in athletes. The effects of heavy training, exercise in environmental extremes, and nutrition are discussed with regard to their impact on innate and specific (acquired) immunity. Immune function in special populations (elderly, obese, diabetic and HIV patients) is also addressed, exploring links between exercise and infection risk in these groups. Evidence-based coverage includes a list of references in each chapter, as well as suggestions for further reading that direct readers to important texts and review articles. Information is presented in an easily accessible format, following a logical progression of material. Each chapter begins with a list of learning objectives and ends with a list of key points to reinforce learning. A glossary at the end of the book defines all key terms and abbreviations.

Sharing the Burden? Benjamin Zyla.2015-02-26 Since the fall of the Berlin Wall, NATO's middle powers have been pressured into shouldering an increasing share of the costs of the transatlantic alliance. In *Sharing the Burden?* Benjamin Zyla rejects the claim that countries like Canada have shirked their responsibilities within NATO. Using a range of measures that go beyond troop numbers and defense budgets to include peacekeeping commitments, foreign economic assistance, and contributions to NATO's rapid reaction forces and infrastructure, Zyla argues that, proportionally, Canada's NATO commitments in the 1990s rivaled those of the alliance's major powers. At the same time, he demonstrates that Canadian policy was driven by strong normative principles to assist failed and failing states rather than a desire to ride the coattails of the United States, as is often presumed. An important challenge to realist theories, *Sharing the Burden?* is a significant contribution to the debate on the nature of alliances in international relations.

The Diffusion of Military Power Michael C. Horowitz.2010-07-01 *The Diffusion of Military Power* examines how the financial and organizational challenges of adopting new methods of fighting wars can influence the international balance of power. Michael Horowitz argues that a state or actor wishing to adopt a military innovation must possess both the financial resources to buy or build the technology and the internal organizational capacity to accommodate any necessary changes in recruiting, training, or operations. How countries react to new innovations--and to other actors that do or don't adopt them--has profound implications for the global order and the likelihood of war. Horowitz looks at some of the most important military innovations throughout history, including the advent of the all-big-gun steel battleship, the development of aircraft carriers and nuclear weapons, and the use of suicide terror by nonstate actors. He shows how expensive innovations can favor wealthier, more powerful countries, but also how those same states often stumble when facing organizationally complicated innovations. Innovations requiring major upheavals in doctrine and organization can disadvantage the wealthiest states due to their bureaucratic inflexibility and weight the balance of power toward smaller and more nimble actors, making conflict more likely. This book provides vital insights into military innovations and their impact on U.S. foreign policy, warfare, and the distribution of power in the international system.

Modernizing China's Military Keith Crane.2005 To help the U.S. Air Force assess the resources the government of the People's Republic of China is likely to spend on its military over the next two decades, this study projects future growth in Chinese government expenditures as a whole and the military in particular, evaluates the current and likely future capabilities of China's defense industries, and compares likely future Chinese expenditures on defense with recent expenditures by the United States and the U.S. Air Force. Although economic growth in China is destined to slow, output will still triple by 2025. In addition, government reforms hold the promise of improving the weak performance of China's defense industries. Although the researchers' high-end forecast of military expenditures is based on the assumption that the Chinese government would be able to spend 5.0 percent of GDP on defense, they believe that pressures within China to increase social spending on health care, pensions, education, and the environment, coupled with the costs of paying the Chinese government's liabilities, make it more likely that military spending will not rise above 2.3 percent of GDP. Using a combination of projected market and purchasing power parity exchange rates, the authors forecast that Chinese military spending is likely to rise from an estimated \$69 billion in 2003 to \$185 billion by 2025--approximately 61 percent of what the Department of Defense spent in 2003.

The Fourth Industrial Revolution Klaus Schwab. 2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

"Rich Nation, Strong Army" Richard J. Samuels. 2018-08-06 Since World War II, Japan has become not only a model producer of high-tech

consumer goods, but also-despite minimal spending on defense-a leader in innovative technology with both military and civilian uses. In the United States, nearly one in every three scientists and engineers was engaged in defense-related research and development at the end of the Cold War, but the relative strength of the American economy has declined in recent years. What is the relationship between what has happened in the two countries? And where did Japan's technological excellence come from? In an economic history that will arouse controversy on both sides of the Pacific, Richard J. Samuels finds a key to Japan's success in an ideology of technological development that advances national interests. From 1868 until 1945, the Japanese economy was fired by the development of technology to enhance national security; the rallying cry Rich Nation, Strong Army accompanied the expanded military spending and aggressive foreign policy that led to the disasters of the War in the Pacific. Postwar economic planners reversed the assumptions that had driven Japan's industrialization, Samuels shows, promoting instead the development of commercial technology and infrastructure. By valuing process improvements as much as product innovation, the modern Japanese system has built up the national capacity to innovate while ensuring that technological advances have been diffused broadly through industries such as aerospace that have both civilian and military applications. Struggling with the uncertainties of a post-Cold War economy, the United States has important lessons to learn from the way Japan has subordinated defense production yet emerged as one of the most technologically sophisticated nations in the world. The Japanese, like the Venetians and the Dutch before them, show us that butter is just as likely as guns to make a nation strong, but that nations cannot hope to be strong without an ideology of technological development that nourishes the entire national economy.

Crisis on the Korean Peninsula Michael O'Hanlon, Mike M. Mochizuki. 2003-07-22 In describing their comprehensive proposal for negotiations with North Korea, O'Hanlon and Mochizuki exhibit the strategic creativity and analytical depth badly needed by United States policy makers dealing with this strange, dangerous place. --Ash Carter, former Assistant Secretary of Defense and Ford Foundation Professor of Science and International Affairs, John F. Kennedy School of Government, Harvard University IN EARLY 2002, in his fateful state of the union address, President Bush described North Korea as being a member of the Axis of Evil. Since then, the U.S. has gone to war with Iraq, and the world now wonders what the future of Bush's preemption policy will bring. Many of the nation's top experts feel that North Korea is a more imminent threat than Saddam's Iraq was. They have a nuclear program, a million-man army, and missiles to deploy and export. In *Crisis on the Korean Peninsula*, Michael O'Hanlon, a Senior Fellow at Brookings and visiting lecturer at Princeton, and Mike Mochizuki, endowed chair in Japan-US Relations at G.W. University, not only examine this issue in detail but also offer a comprehensive blueprint for diffusing the crisis with North Korea. Their solution comes in the form of a grand bargain with North Korea. Accords could be negotiated step-by-step, however they need to be guided by a broad and ambitious vision that addresses not only the nuclear issue but also the conventional forces on the hyper-militarized peninsula and the ongoing decline of the North Korean economy.

100 Birds and How They Got Their Names Diana Wells. 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children,

believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

The Security Dilemma Ken Booth, Nicholas Wheeler.2008-02 This major new contribution to the study of international politics provides the first comprehensive analysis of the concept of the security dilemma, the phrase used to describe the mistrust and fear which is often thought to be the inevitable consequence of living in a world of sovereign states. By exploring the theory and practice of the security dilemma through the prisms of fear, cooperation and trust, it considers whether the security dilemma can be mitigated or even transcended analyzing a wide range of historical and contemporary cases

Son of Hamas Mosab Hassan Yousef.2011-03-04 Son of Hamas is now available with an all-new chapter about events since the book's release such as the revelation of Mosab's Israeli intelligence handler's true identity, and Homeland Security's effort to deport the author. Since he was a small boy, Mosab Hassan Yousef has had an inside view of the deadly terrorist group Hamas. The oldest son of Sheikh Hassan Yousef, a founding member of Hamas and its most popular leader, young Mosab assisted his father for years in his political activities while being groomed to assume his legacy, politics, status . . . and power. But everything changed when Mosab turned away from terror and violence, and embraced instead the teachings of another famous Middle East leader. In Son of Hamas, Mosab reveals new information about the world's most dangerous terrorist organization and unveils the truth about his own role, his agonizing separation from family and homeland, the dangerous decision to make his newfound faith public, and his belief that the Christian mandate to "love your enemies" is the only way to peace in the Middle East.

These new insights into the nuclear drama in the Northeast Asian region will be of value to scholars, policy makers, and analysts.

Iran's Foreign and Defense Policies Kenneth Katzman.2019-08-03 Iran's national security policy is the product of many overlapping and sometimes competing factors such as the ideology of Iran's Islamic revolution, perception of threats to the regime and to the country, long-standing national interests, and the interaction of the Iranian regime's factions and constituencies. Iran's leadership: * Seeks to deter or thwart U.S. or other efforts to invade or intimidate Iran or to bring about a change of regime. * Has sought to take advantage of opportunities of regional conflicts to overturn a power structure in the Middle East that it asserts favors the United States, Israel, Saudi Arabia, and other Sunni Muslim Arab regimes. * Seeks to enhance its international prestige and restore a sense of greatness reminiscent of ancient Persian empires. * Advances its foreign policy goals, in part by providing material support to regional allied governments and armed factions. Iranian officials characterize the support as helping the region's

oppressed and assert that Saudi Arabia, in particular, is instigating sectarian tensions and trying to exclude Iran from regional affairs. * Sometimes disagrees on tactics and strategies. Supreme Leader Ali Khamene'i and key hardline institutions, such as the Islamic Revolutionary Guard Corps (IRGC), oppose any compromises of Iran's national security core goals. Iran's elected president, Hassan Rouhani, and Foreign Minister Mohammad Javad Zarif have supported Iran's integration into regional and international diplomacy. * Supports acts of international terrorism, as the leading or most active state sponsor of terrorism, according to each annual State Department report on international terrorism since the early 1990s. The Trump Administration insists that an end to Iran's malign activities is a requirement of any revised JCPOA and normalization of relations with the United States. The Trump Administration has articulated a strategy to counter Iran's malign activities based on * Applying maximum pressure on Iran's economy and regime through sanctions. President Trump withdrew the United States from the JCPOA on May 8, 2018, and reimposed all U.S. sanctions as of November 5, 2018. * Attempting to diplomatically, politically, and economically isolate Iran. * Training, arming, and providing counterterrorism assistance to partner governments and some allied substate actors in the region. * Deploying U.S. forces to deter Iran and interdict its arms shipments to its allies and proxies, and threatening military action against Iranian actions that pose an immediate threat to U.S. regional interests or allies.

Neither Star Wars Nor Sanctuary Michael E. O'Hanlon.2004 In *Neither Star Wars nor Sanctuary*, Michael E. O'Hanlon asserts that the goal of American policy should be to slow the movement toward weaponizing space, without going as far as preventing the option of developing space weapons if necessary.

Dinamika Politik Global Kontemporer : Teori, Aktor, Isu dan Analisis Studi Kasus Prof. Budi Winarno, Drs., M.A., Ph.D..2019-01-01 Buku *Dinamika Politik Global Kontemporer: Teori, Aktor, Isu, dan Analisis Studi Kasus* merupakan kristalisasi dari berbagai pengalaman penulis dalam mengampu beberapa mata kuliah dan melakukan kegiatan penelitian, baik di Departemen Ilmu Hubungan Internasional, Fisipol, Universitas Gadjah Mada (UGM), maupun melakukan kegiatan seminar, ceramah, dan secara khusus mengajar mata kuliah Globalisasi dan Politik Dunia (Globalization and Global Politics) selama beberapa semester di Program Pascasarjana Ilmu Hubungan Internasional, FISIP, Universitas Padjajaran (Unpad). Oleh karena itu, sebagaimana buku-buku yang pernah saya tulis sebelumnya, pengalaman mengajar, ceramah, seminar, dan penelitian menjadikan saya sedikit banyak bisa memiliki dan menguasai raw materials and ingredients yang kemudian bisa saya olah, tulis ulang, melakukan inovasi, dan kembangkan menjadi sebuah buku teks kuliah (text book). Harapan saya ke depan, text book ini tentunya bisa bermanfaat bagi para pengguna (the users) lintas batas, tidak hanya di kampus, tapi juga di luar kampus. Terlebih dalam era globalisasi dan dunia yang borderless, ditunjang oleh perkembangan kemajuan teknologi komunikasi dan informasi, yang sangat canggih seperti sekarang ini. Bahkan setiap warga negara Indonesia, baik pada tataran para elite, maupun dalam tataran grassroots, dituntut tidak hanya sekedar mengetahui, tapi juga bisa menyadari dan kemudian melakukan tindakan antisipasi terhadap implikasi dari politik global (global politics), yang berlangsung sangat cepat dan dinamis, khususnya terkait dengan isu-isu high politics, dan/atau bahkan isu-isu low politics sekalipun. Bagaimanapun, dalam sebuah dunia yang terintegrasi (integrated), keterkaitan (interconnectedness) dan saling ketergantungan (interdependence) antarnegara, atau bisa diungkapkan dalam satu kata globalization, mengakibatkan the outcome of global politics bisa memengaruhi worldwide states and human securities, termasuk bagi negara dan rakyat Indonesia.

Indonesia dan Rivalitas China, Jepang, dan India Poltak Partogi Nainggolan.2018-12-27 Di tengah-tengah rivalitas kekuatan yang meningkat di antara major powers China, Jepang, dan India, untuk bisa menjadi salah satu kekuatan utama baru di kawasan, masih banyak pekerjaan rumah yang harus dilakukan Indonesia. Ia, pertama-tama, harus mampu mempertahankan pertumbuhan ekonomi rata-rata di atas 6-7 persen setahun untuk mengembangkan human capital agar dapat meraih bonus demografi dan memberi alokasi yang jauh lebih besar untuk anggaran belanja pertahanan atau kekuatan militernya. Kemudian, ia juga harus mampu mewujudkan konsolidasi demokratisnya, sehingga Korupsi, Kolusi, dan Nepotisme (KKN), yang menjadi musuh utamanya di dalam negeri, dapat dieliminasi secara efektif. Dengan demikian, segala sumber daya yang ada, alam dan manusia, dapat digunakan secara optimal untuk mencapai tujuan nasional—mendukung munculnya Indonesia sebagai kekuatan baru di kawasan. Perubahan lingkungan strategis di kawasan yang dramatis di tengah-tengah keterbatasan kemampuan Indonesia dalam menyikapinya, tentu saja membutuhkan respons yang cerdas. Sebagai solusi alternatif, negeri ini perlu menilai kembali doktrin politik luar negeri bebas dan aktif yang telah digunakan sebagai landasan kebijakannya selama lebih dari 7 dasawarsa, sejak ia merdeka tahun 1945. Doktrin yang dibuat usai Perang Dunia (PD) II, dengan struktur atau konstelasi kekuatan global yang ditandai dengan munculnya dua negara adikuasa baru pemenang PD II, yakni AS dan Uni Soviet, yang tidak lama kemudian berubah dari sekutu menjadi seteru, setelah memasuki periode Perang Dingin, yang ditandai dengan kontestasi baru kekuatan. Doktrin politik luar negeri bebas dan aktif yang dibuat dalam kondisi munculnya dua poros kekuatan dunia sudah tidak relevan lagi digunakan, mengingat dunia kini sudah polisentris, tidak lagi dimonopoli oleh kekuatan adidaya AS, tetapi juga dengan kehadiran China, Jepang, dan India sebagai major powers di kawasan. Sementara, Indonesia sendiri telah diperhitungkan akan muncul sebagai salah satu kekuatan baru di kawasan, dengan potensi pertumbuhannya dalam sampai tahun 2050. Sehingga, dalam tiga dasawarsa ke depan, tidak hanya ada ketiga negara yang disebutkan di atas, namun juga Indonesia dan Korea Selatan dan Australia, dalam jajaran major powers, sebagai bagian dari G-20.
