Crystal Fire Michael Riordan,Lillian Hoddeson.1998 This work tells the human story of the process of invention that led to the invention of the transistor.

The Last Utopia Samuel Moyn.2012-03-05 Human rights offer a vision of international justice that today's idealistic millions hold dear. Yet the very concept on which the movement is based became familiar only a few decades ago when it profoundly reshaped our hopes for an improved humanity. In this pioneering book, Samuel Moyn elevates that extraordinary transformation to center stage and asks what it reveals about the ideal's troubled present and uncertain future. For some, human rights stretch back to the dawn of Western civilization, the age of the American and French Revolutions, or the post-World War II moment when the Universal Declaration of Human Rights was framed.

Revisiting these episodes in a dramatic tour of humanity's moral history, *The Last Utopia* shows that it was in the decade after 1968 that human rights began to make sense to broad communities of people as the proper cause of justice. Across eastern and western Europe, as well as throughout the United States and Latin America, human rights crystallized in a few short years as social activism and political rhetoric moved it from the hallways of the United Nations to the global forefront. It was on the ruins of earlier political utopias, Moyn argues, that human rights achieved contemporary prominence. The morality of individual rights substituted for the soiled political dreams of

revolutionary communism and nationalism as international law became an alternative to popular struggle and bloody violence. But as the ideal of human rights enters into rival political agendas, it requires more vigilance and scrutiny than when it became the watchword of our hopes.

The Discovery of the Baltic Nils Blomkvist.2004-11-01 Nils Blomkvist discusses how the Baltic Rim was initially Europeanized between 1075 and 1225 AD. He compares the indigenous civilisations to the prevailing western European one. After the expansive Viking period, European penetration became a process of discovery. The importance of the Catholic Reform movement and its unintentional ties to the formation of an enduring commodity market are outlined. Clashes and compromises are investigated in case studies of the Kalmarsund region, Gotland and the Daugava valley. Dissimilar cases of state formation are compared: those of Sweden and Livonia. Many classical scholarly problems are revisited. A new approach to the period's narrative sources brings to life Scandinavian, German, Russian, Finno-Ugrian and Baltic attitudes and day-to-day concern in the midst of a change of epic dimensions.

The Wehrmacht Retreats Robert M. Citino.2016-09-16 Throughout 1943, the German army, heirs to a military tradition that demanded and perfected relentless offensive operations, succumbed to the realities of its own overreach and the demands of twentieth-century industrialized warfare. In his new study, prizewinning author Robert Citino chronicles this weakening Wehrmacht, now fighting desperately on the defensive but still remarkably dangerous and lethal. Drawing on his impeccable command of German-language sources, Citino offers fresh, vivid, and detailed treatments of key campaigns during this fateful year: the Allied landings in North Africa, General von Manstein's great counterstroke in front of Kharkov, the German attack at Kasserine Pass, the titanic engagement of tanks and men at Kursk, the Soviet counteroffensives at Orel and Belgorod, and the

Allied landings in Sicily and Italy. Through these events, he reveals how a military establishment historically configured for violent aggression reacted when the tables were turned; how German commanders viewed their newest enemy, the U.S. Army, after brutal fighting against the British and Soviets; and why, despite their superiority in materiel and manpower, the Allies were unable to turn 1943 into a much more decisive year. Applying the keen operational analysis for which he is so highly regarded, Citino contends that virtually every flawed German decision—to defend Tunis, to attack at Kursk and then call off the offensive, to abandon Sicily, to defend Italy high up the boot and then down much closer to the toe—had strong supporters among the army's officer corps. He looks at all of these engagements from the perspective of each combatant nation and also establishes beyond a shadow of a doubt the synergistic interplay between the fronts. Ultimately, Citino produces a grim portrait of the German officer corps, dispelling the longstanding tendency to blame every bad decision on Hitler. Filled with telling vignettes and sharp portraits and copiously documented, *The Wehrmacht Retreats* is a dramatic and fast-paced narrative that will engage military historians and general readers alike.

The Heidelberg Myth Steven P. Remy. 2002 Deeply researched in university archives, newly opened denazification records, occupation reports, and contemporary publications, *The Heidelberg Myth* starkly details how extensively the university's professors were engaged with National Socialism and how effectively they frustrated postwar efforts to ascertain the truth.--

Harun Farocki Thomas Elsaesser.2004 Filmmaker, film essayist, installation artist, writer: the Berlin artist Harun Farocki has devoted his life to the power of images. Over the thirty-plus years of his career, Farocki has explored not the images of life but rather the life of images that surrounds us in newspapers, cinema, books, television, and advertising. Harun Farocki examines, from different critical perspectives, his vast oeuvre, which includes three feature films, critical media pieces, children's television features, "learning films" in the tradition of Brecht, and installation pieces. Interviews, a selection of Farocki's own writings, and an annotated filmography complete a valuable biography of this pioneering artist and his legendary career.

Germany's Underground Allen Dulles.2019-12-06 Germany's Underground, first published in 1947, is the classic inside look at German resistance movements attempting to overthrow Adolph Hitler and the Nazi regime. Author Allen Dulles, younger brother of John Foster Dulles, was the OSS chief of station in Bern Switzerland, and had extensive personal contacts with members of the German underground. Following the war's end, he was stationed in Germany, providing him with access to captured secret Nazi documents. He was also able to interview the handful

of surviving men and women involved in attempts to overthrow the Nazis or assassinate Hitler. Germany's Underground is a fascinating look at the individuals involved in the German resistance as well as an examination of morality and ethics in the midst of a brutal police state. Allen Dulles was appointed director of the U.S. CIA in 1953, a position he held until 1961. Dulles, born in 1893, passed away in 1969.

Hitler - Beneš - Tito Arnold Suppan. 2019 In the spring of 1945, Fuhrer and Reich Chancellor Adolf Hitler, President Edvard Benes, and Marshal Josip Broz Tito stood as examples of the complete rupture between the Germans and Austrians on the one hand, and the Czechs, Slovaks, Slovenes, Croats, Serbs, and Bosniaks on the other. The total break that occurred in World War II with war crimes, crimes against humanity, and even genocides (particularly against the Jews and Gypsies) had a long pre-history, beginning with violent nationalist clashes in the Habsburg Monarchy during the revolutions of 1848/49.

Therefore, this monograph - based on a broad range of international primary and secondary sources - explores the development of the political, legal, economic, social, and cultural communities of conflict within Austria-Hungary, especially in the Bohemian and South Slavic countries, the making of the Paris Peace Treaties in 1919/20 by violating President Wilson's principle of self-determination, particularly in drawing new borders and creating new economic units, and the perpetuated ethnic-national conflicts between Czechs and Germans, Slovaks and Magyars, Slovenes and Germans, Croats and Serbs as well as Serbs and Germans in the successor states, deepening the differences between the nations of East-Central Europe. Although many kings, presidents, chancellors, ministers, governors, diplomats, business tycoons, generals, Nazi-Gauleiter, higher SS and police leaders, and Communist functionaries have appeared

as historical actors in the 170 years of East-Central and Southeastern European history, Hitler, Benes, and Tito remain especially present in historical memory at the beginning of the twenty-first century.

Police in Urban America, 1860-1920 Eric H.

Monkkonen.2004-06-07 This book examines the rapid spread of uniformed police forces throughout late nineteenth-century urban America. It suggests that, initially, the new kind of police in industrial cities served primarily as agents of class control, dispensing and administering welfare services as an unintentioned consequence of their uniformed presence on the streets.

Thanks to the unique privilege of access to archives, it was possible for the first time to overcome the obstacle of Swiss banking secrecy - believed insurmountable until then - and to extend the research to the archives of banks and other companies.

Hidden Agendas Jane Kelsey.2013-05-01 'Forget the label "free trade agreement". The TPPA, under negotiation between New Zealand, the USA and ten other countries, is a direct assault on our right to decide our own future.' In this hard-hitting BWB Text, Professor Jane Kelsey picks apart the current negotiations surrounding the proposed Trans-Pacific Partnership Agreement (TPPA) and comes to some disturbing conclusions. Such a treaty, she says in this new work, has little credible economic rationale but could have potentially dangerous effects on our ability to decide for ourselves how we address the economic,

environmental, social and Treaty challenges of the twenty-first century. At a time of constitutional review, the secrecy surrounding the TPPA negotiations raises hard questions about the future shape of New Zealand.

Projecting History Nora M. Alter.2009-08-27 Between 1967 and 2000, film production in Germany underwent a number of significant transformations, including the birth and death of New German Cinema as well as the emergence of a new transnational cinematic practice. In *Projecting History*, Nora M. Alter explores the relationship between German cinematic practice and the student protests in both East and West Germany against the backdrop of the U.S. war in Vietnam in the sixties, the outbreak of terrorism in West Germany in the seventies, West Germany's rise as a significant global power in the eighties, and German reunification in the nineties. Although a central tendency of New German Cinema in the 1970s was to reduce the nation's history to the product of individuals, the films addressed in *Projecting History* focus not on individual protagonists, but on complex socioeconomic structures. The films, by Rainer Werner Fassbinder, Harun Farocki, Alexander Kluge, Ulrike Ottinger, Wim Wenders and others, address basic problems of German history, including its overall peculiarity within the European context, and, in particular, the specific ways in which the National Socialist legacy continues to haunt Germans. Nora M. Alter is Associate Professor of German, Film and Media Studies, and Women and Gender Studies at the University of Florida. A specialist in twentieth-century film, comparative literature, and cultural studies, Alter has been the recipient of a National Endowment for the Humanities Fellowship and a Howard Foundation Fellowship. She is also the author of *Vietnam Protest Theatre: The Television War on Stage*.

The Plans That Failed André Steiner.2013-08-01 The establishment of the Communist social model in one part of

Germany was a result of international postwar developments, of the Cold War waged by East and West, and of the resultant partition of Germany. As the author argues, the GDR's 'new' society was deliberately conceived as a counter-model to the liberal and marketregulated system. Although the hopes connected with this alternative system turned out to be misplaced and the planned economy may be thoroughly discredited today, it is important to understand the context in which it developed and failed. This study, a bestseller in its German version, offers an in-depth exploration of the GDR economy's starting conditions and the obstacles to growth it confronted during the consolidation phase. These factors, however, were not decisive in the GDR's lack of growth compared to that of the Federal Republic. As this study convincingly shows, it was the economic model that led to failure.

War and State Formation in Syria M. Talha Çiçek.2014-02-24
During the First World War, Cemal Pasha attempted to establish direct control over Syrian and thereby reaffirm Ottoman authority there through various policies of control, including the abolishment of local intermediaries. Elaborating on these Ottoman policies of control, this book assesses Cemal Pasha's policies towards different political groups in Syrian society, including; Arabists, Zionists, Christian clergymen and Armenian immigrants. The author then goes on to analyse Pasha's educational activities, the conscription of Syrians- both Muslim and Christian, and the reconstruction of the major Syrian cities, assessing how these policies contributed to his attempt to create ideal Ottoman citizens. An important addition to existing literature on the social and political history of World War I, and contributing a new understanding of Ottoman Syria, and its transformation into a nation-state, this book will be of interest to students and scholars with an interest in state formation, Politics and History.

Students, Society and Politics in Imperial Germany Konrad

H. Jarausch.2014-07-14 Konrad H. Jarausch studies the social structure of the German university and the mentality of its students during the Imperial period as an example of a wider European academic desertion of liberalism. He finds that German higher education combined scientific world leadership and competent professional training with an eroding liberal education (Bildung) to create an educated class that was tragically susceptible to the appeal of the Third Reich. Sozialistische Landesverteidigung im Friedenskampf Dieter Hillebrenner, Erich Schmidt (Oberst Dr.), Jürgen Scholtyssek.1986
Suicide Christian Baudelot, Roger Establet.2008-09-15 In this major new study Christian Baudelot and Roger Establet provide a timely and wide-ranging account of the changing nature of suicide in the world today. The suicide rate is soaring in the former Communist bloc, in India and in China, which now has the highest female suicide rate in the world. This rise coincides with those countries accelerated entry into a period of brutal modernization. In the developed countries of the West, suicide rates are rising fastest amongst young men and those social groups that are furthest down the social scale. How can we explain these trends and what do they tell us about modern societies? The social impact of suicide has preoccupied sociologists from Emile Durkheim onwards. For Durkheim, the

rising suicide rate was an effect of the rise of modernity and the individualism, growing affluence and increased anomie that accompanied it. Baudelot and Establet draw upon Durkheim and his successor Maurice Halbwachs to argue that classic sociological theories of suicide require some modification. The link between suicide, affluence and individualism is more complex: suicide rates do reflect broad social trends but they are also influenced by the structural position and lived experience of small social groups. The notion of social well-being is demonstrated to be a key factor in changes in suicide rates. Whilst it is well-known that sociology cannot explain why individuals commit suicide, the suicide of individuals and the micro-groups to which they belong can tell us a lot about the societies in which they live.

Working-Class Organisations and Popular Tourism, 1840-1970

Susan Barton.2005-05-20 Today, many people take the idea of holidays for granted and regard the provision of paid time off as a right. This book argues that popular tourism has its roots in collective organisation and charts the development of the working class holiday over two centuries. This study recounts how short, unpaid and often unauthorised periods of leave from work became organised and legitimised through legislation, culminating with the Holidays with Pay Act of 1938. Moreover, this study finds that it was through collective activity by workers--through savings clubs, friendly societies and union activity--that the working class were originally able to take holidays, and it was as a result of collective bargaining and campaigning that paid holidays were eventually secured for all.

Ancient Rome Peter Chrisp.2005 Uses art and artifacts to examine the world of the Roman Empire from its political and religious structure to its cultural characteristics.

Carolingian Connections Joanna Story.2003 The Anglo-Saxon influence on the Carolingian world has long been recognised by

historians of the early medieval period. Wilhelm Levison, in particular, has drawn attention to the importance of the Anglo-Saxon contribution to the cultural and ecclesiastical development of Carolingian Francia in the central decades of the eighth century. What is much less familiar is the reverse process, by which Francia and Carolingian concepts came to influence contemporary Anglo-Saxon culture. In this book Dr Story offers a major contribution to the subject of medieval cultural exchanges, focusing on the degree to which Frankish ideas and concepts were adopted by Anglo-Saxon rulers. Furthermore, by concentrating on the secular context and concepts of secular government as opposed to the more familiar ecclesiastical and missionary focus of Levison's work, this book offers a counterweight to the prevailing scholarship, providing a much more balanced overview of the subject. Through this reassessment, based on a close analysis of contemporary manuscripts - particularly the Northumbrian sources - Dr Story offers a fresh insight into the world of early medieval Europe.
