**Greeks and Barbarians** Kostas Vlassopoulos.2013-08-01 This book is an ambitious synthesis of the social, economic, political and cultural interactions between Greeks and non-Greeks in the Mediterranean world during the Archaic, Classical and Hellenistic periods. Instead of traditional and static distinctions between Greeks and Others, Professor Vlassopoulos explores the diversity of interactions between Greeks and non-Greeks in four parallel but interconnected worlds: the world of networks, the world of apoikiai ('colonies'), the Panhellenic world and the world of empires. These diverse interactions set into motion processes of globalisation; but the emergence of a shared material and cultural koine across the Mediterranean was accompanied by the diverse ways in which Greek and non-Greek cultures adopted and adapted elements of this global koine. The book explores the paradoxical role of Greek culture in the processes of ancient globalisation, as well as the peculiar way in which Greek culture was shaped by its interaction with non-Greek cultures. *Lonely Planet Georgia, Armenia & Azerbaijan* Lonely Planet,Alex Jones, Tom Masters, Virginia Maxwell, John Noble.2016-04-01 Lonely Planet Georgia, Armenia & Azerbaijan is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you. *Realms of Ritual* Peter Arnade.2018-10-18 While earlier historians have seen the elaborate public rituals of the Burgundian dukes as stagnant forms held over from the chivalric world of the High Middle Ages, Peter Arnade argues that they were a vital theater of power through which the ducal court and the urban centers constantly renegotiated their relationship. This book is the first to apply the combined insights of social, political, and cultural history to an important but little-explored area of medieval and early modern Europe, the Burgundian Netherlands. Realms of Ritual traces the role of ritual in encounters between the dukes of Burgundy (later the Habsburg princes) and the townspeople of Ghent, the most important city in the county of Flanders. Arnade analyzes city-state ceremonies through which Ghent's aldermen, patricians, guildsmen, and the city's military and drama confraternities confronted local power and the growth of the Burgundian state. In the first serious reappraisal of Johan Huizinga's classic work *The Waning of the Middle Ages*, Arnade confirms Huizinga's vision of a Low Country society rich in public symbols, yet reveals the city-state conflict within which such ritual thrived. He offers a dramatically new perspective on the Northern Renaissance, as well as a historical/anthropological model for the study of urban-state relations.

The Routledge Companion to Women and Monarchy in the Ancient Mediterranean World Elizabeth D. Carney,Sabine Müller.2020-11-09 This volume offers the first comprehensive look at the role of women in the monarchies of the ancient Mediterranean. It consistently addresses certain issues across all dynasties: title; role in succession; the situation of mothers, wives, and daughters of kings; regnant and co-regnant women; role in cult and in dynastic image; and examines a sampling of the careers of individual women while placing them within broader contexts. Written by an international group of experts, this collection is based on the assumption that women played a fundamental role in ancient monarchy, that they were part of, not apart from it, and that it is necessary to understand their role to understand ancient monarchies. This is a crucial resource for anyone interested in the role of women in antiquity.

*The Parrot* Guy de Maupassant.2021-12-02 A drunkard and a brute, Patin's marriage to Désirée is an unhappy one. He leaves to go fishing one night during a terrible storm, and never returns. Désirée is convinced he has somehow managed to cheat death and lives in constant fear of his return. Some years later she buys a parrot, and her nightmare begins anew. Amusing and humorous, *The Parrot* is a short comedy in which Maupassant holds his cards close to his chest, keeping his readers guessing until the final page. Guy de Maupassant (1850-1893) was a French writer. Famed for being a master of the short story, he also wrote travel books and occasionally dabbled in poetry. His stories mainly focus on the relationships between men and women sitting at crossroads in their lives - whether personal or professional. His dramatic flair is largely influenced by French novelist Gustave Flaubert and is perfect for fans of Anton Chekhov's short stories. The most notable of the 300 short stories that he wrote include 'Bel Ami', 'Une Vie', and 'The Dumpling'.

**The Politics of Retribution in Europe** István Deák,Jan T. Gross,Tony Judt.2009-11-06 The presentation of Europe's immediate historical past has quite dramatically changed. Conventional depictions of occupation and collaboration in World War II, of wartime resistance and post-war renewal, provided the familiar backdrop against which the chronicle of post-war Europe has mostly been told. Within these often ritualistic presentations, it was possible to conceal the fact that not only were the majority of people in Hitler's Europe not resistance fighters but millions actively co-operated with and many millions more rather easily accommodated to Nazi rule. Moreover, after the war, those who judged former collaborators were sometimes themselves former collaborators. Many people became innocent victims of retribution, while others--among them notorious war criminals--escaped punishment. Nonetheless, the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed. This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity--an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent. In inspiring essays, a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war's aftermath: how to punish the guilty, how to decide who was guilty of what, how to convert often unspeakable and conflicted war experiences and memories into serviceable, even uplifting accounts of national history. In short, these scholars explore how the drama of the immediate past was (and was not) successfully overcome. Through their comparative and transnational emphasis, they also illuminate the division between eastern and western Europe, locating its origins both in the war and in post-war domestic and international affairs. Here, as in their discussion of collaborators' trials, the authors lay bare the roots of the many unresolved and painful memories clouding present-day Europe. Contributors are Brad Abrams, Martin Conway, Sarah Farmer, Luc Huyse, László Karsai, Mark Mazower, and Peter Romijn, as well as the editors. Taken separately, their essays are significant contributions to the contemporary history of several European countries. Taken together, they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium.

**Conflicted Memories** Konrad H. Jarausch,Thomas Lindenberger.2007-05-30 Despite the growing interest in general European history, the European dimension is surprisingly absent from the writing of contemporary history. In most countries, the historiography on the 20th century continues to be dominated by national perspectives. Although there is cross-national work on specific topics such as occupation or resistance, transnational conceptions and narratives of contemporary European history have yet to be worked out. This volume focuses on the development of a shared conception of recent European history that will be required as an underpinning for further economic and political integration so as to make lasting cooperation on the old continent possible. It tries to overcome the traditional national framing that ironically persists just at a time when organized efforts to transform Europe from an object of debate to an actual subject have some chance of succeeding in making it into a polity in its own right.

*Les Misérables Volume III* Victor Hugo.2021-03-24 After eight years away, Jean Valjean and Cosette, living under new identities attract the attention of their former innkeepers who are seeking money and revenge. With the help of an idealistic young man, the pair attempts to escape unscathed. Despite their rough origins, Jean Valjean and Cosette have managed to create a peaceful life for themselves. Cosette has grown into a beautiful young woman and catches the eye of Marius. The two of them fall in love but their courtship is interrupted by Cosette's sudden departure. After a brief hiatus, Marius discovers Cosette and Valjean have adopted new names and occupations. They are living as wealthy philanthropists and are being targeted by the innkeepers who recently moved to their city. Once again, they plan to extort Valjean and use Cosette as leverage. In *Les Misérables Volume Three*: Marius, Valjean and Cosette are haunted by figures from their troubled past. Meanwhile, Marius is an unexpected ally who plays an integral role in their journey. This is one part of a captivating tale that's been adapted multiple times for stage, television and film. The most notable being the 2012 Oscar-winning production from director, Tom Hooper. With an eye-catching new cover, and professionally typeset manuscript, this edition of *Les Misérables Volume Three: Marius* is both modern and readable.

**10 Millions Tons for Victory** Jean-Pierre Benamou.2007-08 This book presents an impressive inventory of the gigantic efforts employed by the workshops of the Allies to defeat the Germans. Each GI was backed by 12 tons of equipment; for every infantryman, sailor or airman in action in the Battle of Normandy and later in the Battle for France, 10 soldiers were in support behind, to ensure they obtained their objectives with minimum risk, speed and maximum ease. These were the troops of American, British and Canadian War Effort, (behind-the-lines), whose logistics support, made possible the Allied victory of 1945. Not forgotten are the civilians on war-work, 65 million men and women, united in the vast industrial enterprise who together forged the tools of victory.

*The Bookshop of the World* Andrew Pettegree,Arthur der Weduwen.2019-01-01 The untold story of how the Dutch conquered the European book market and became the world's greatest bibliophiles--an instant classic on Dutch book history (BMGN - Low Countries Historical Review) [An] excellent contribution to book history.--Robert Darnton, *New York Review of Books* The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer, whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic. Yet there is another, largely overlooked marvel in the Dutch world of the seventeenth century: books. In this fascinating account, Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and bought and owned more books per capita than any other part of Europe. Key innovations in marketing, book auctions, and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy, and created a population uniquely well-informed and politically engaged. This book tells for the first time the remarkable story of the Dutch conquest of the European book world and shows the true extent to which these pious, prosperous, quarrelsome, and generous people were shaped by what they read.

*Russian Messianism* Peter J. S. Duncan.2002-11 This is the first book in English for half a century to examine the complexities of Russian messianism, both as a whole and in its interaction with Communism. Peter Duncan considers its Orthodox roots and focuses on Russia's geopolitical experience and situation to explain the endurance of this phenomenon.

**Law, Religious Freedoms and Education in Europe** Myriam Hunter-Henin.2016-04-22 This collection considers how contemporary cultural and religious diversity challenges and redefines national constitutional and legal frameworks and concepts, within the context of education. It offers a critical reflection on the extent and meanings given to religious freedom in education across Europe. The contributions deal primarily with

Western Europe although the book also includes a study of the US vibrant debates on Creationism. This volume considers issues such as religious expression, faith schooling and worship in schools, in a multidisciplinary and comparative approach. The book first examines key concepts, before presenting national models of religion and education in Europe and analyzing case studies relating to religious symbols worn at school and to the teaching of religious education. Legal questions are examined in a wider context, in the light of the intentions of state policy and of current national and transnational debates. Controversies on the legal implications of personal and national identities are for example analyzed. From a comparative perspective, the chapters examine the possible converging power of human rights and anti-discrimination discourses and reveal the difficulties and risks involved in seeking to identify the best model for Europe. This topical study of a highly sensitive area of education presents a valuable insight for students, researchers and academics with an interest in cultural and religious diversity, human rights and education.

**Divided Memory** Jeffrey Herf.2013-11-01 A significant new look at the legacy of the Nazi regime, this book exposes the workings of past beliefs and political interests on how--and how differently--the two Germanys have recalled the crimes of Nazism, from the anti-Nazi emigration of the 1930s through the establishment of a day of remembrance for the victims of National Socialism in 1996.

**The Sacred Contagion** Paul-Henri Thiry (Baron d'Holbach).2019-10-30 Religion has always had its critics, writes the Baron d'Holbach (1723-89), but few have dared to attack it at the source. In *The Sacred Contagion*, this fiercest of atheism's propagandists argues that religious influence is always harmful to morality, society, and government. All previous attempts to reform religion have simply pruned the tree, giving it new vitality. The root of the problem is the idea of God itself; people who believe in God or gods will necessarily act in certain ways, which will be destructive for themselves and for others. Those who believe in the revelation of a God or gods will necessarily become enslaved to the will of the gods' ministers and interpreters, and any ruler who empowers the priesthood in his kingdom will end up as their first slave. In this book, a key figure in the radical Enlightenment calls for an abrupt turn from the supernatural to the natural. This return to natural morality, hand in hand with the secularization of government, is the only thing that can bring real happiness to individuals, nations, and humanity in general. While it's true that Christians tend to pay little attention to their Bible, the same could be said for for atheists and freethinkers and their own intellectual tradition. While the Baron d'Holbach is sometimes paid lip service as an important atheist thinker, few of his works have been translated into English. This book is presented as a contribution to this important heritage.
