

Proverb An Old Literary Tradition In Ethiopia

European-language Writing in Sub-Saharan Africa Albert S. Gérard. 1986-01-01 The first major comparative study of African writing in western languages, *European-language Writing in Sub-Saharan Africa*, edited by Albert S. Gérard, falls into four wide-ranging sections: an overview of early contacts and colonial developments "Under Western Eyes"; chapters on "Black Consciousness" manifest in the debates over Panafricanism and Negritude; a group of essays on mental decolonization expressed in "Black Power" texts at the time of independence struggles; and finally "Comparative Vistas," sketching directions that future comparative study might explore. An introductory essay stresses the millennia of writing in Africa, side by side with a richly eloquent and artistic set of vernacular oral traditions; written and oral traditions have become interwoven in adaptations of imported forms and linguistic innovations that challenge traditional "high" literary norms. Gérard uses the mathematical concept of "fuzzy sets" to explain why the focus on "Black Africa" has led him to set aside for future analysis the literatures produced in North Africa, which fall under the influence of Muslim civilization, as well as the diasporic literatures of the New World. Over sixty scholars from twenty-two countries contribute specialized studies of creative writing by leading authors in the nineteenth and twentieth centuries such as Achebe, Mphahlele, Ngugi, Senghor, Soyinka, and Tutuola. Critical analyses are organized primarily around regions, reflecting

different colonial languages imposed through schools and other social institutions. Some authors trace the adaptation of western genres, others identify syncretism with folktales or myths. The volumes are attentive to the heterogeneity of national literatures addressed to polyethnic and multilingual populations, and they note the instrumental politics of language in newly independent states. A closing chapter, "Tasks Ahead," identifies areas for future scholars to explore.

Embracing the Baobab Tree Willem A. Saayman.1997 This volume focuses on analysing the meaning of proverbs within Africa. The context in which a proverb is uttered, determines meaning, so this increases the difficulty of explaining proverbs exhaustively.

Theologies of Childhood and the Children of Africa Jan Grobbelaar, Gert Breed, Alfred Brunson, Marcia J. Bunge, Sam Ndogo, Hannes (J.J.) Knoetze, Nico Vorster. 2016-12-31 The purpose of this book is to combine perspectives of scholars from Africa on Child Theologies from a variety of theological sub-disciplines to provide some theological and ministerial perspectives on this topic. The book disseminates original research and new developments in this study field, especially as relevant to the African context. In the process it addresses also the global need to hear voices from Africa in this academic field. It wants to convey the importance of considering Africa's children in theologising. The different chapters represent diverse methodologies but the central and common focus is to approach the subject from the viewpoint of Africa's children. The individual authors' varied theological sub-disciplinary dispositions contribute to the unique and distinct character of the book. Almost all chapters are theoretical orientated with less empirical research, although some of the chapters refer to empirical research which the authors have done in the past. Most of the academic literature in the field of Theologies of Childhood is from American or British- European origin. The African context is fairly absent in this discourse, although it is the youngest continent and presents unique and relevant challenges. This book was written by theological scholars from Africa, focussing on Africa's children. It addresses not only theoretical challenges in this field but also provides theological perspectives for ministry with children and for important social change. Written from a variety of theological sub-disciplines, the book is aimed at scholars across theological sub-disciplines, especially those theological scholars interested in the intersections between theology, childhood studies and African cultural or social themes. It addresses themes and provide insights that is also relevant for specialist leaders and professionals in this field. No part of the book

was plagiarised from another publication or published elsewhere before.

Wit and Wisdom of Ethiopia .1998 The book represents an endeavor to share with the outside world the wit and wisdom of Ethiopia which is too good to be kept bottled up in the native language of one land. Professor Negussay Ayele, who compiled, translated, and edited hundreds of these words of wisdom with Introduction and Annotations, is an a noted academic who has taught for more than twenty five years in Ethiopia and in the United States. INSIDE THE PAGES OF WIT AND

WISDOM OF ETHIOPIA With kids things are now serious, now frivolous. The center of the earth is where you are right now: if you doubt that, measure it. Trying to reach out for what was in the attic, she dropped what she had tucked in her armpit. The volume at hand ? is a modest effort to share with the outside world the wit and wisdom of Ethiopia, which is too good to be kept bottled up in the native language of one land. Now that Ethiopia is the original locus and habitat of the earliest homonids-homo afarensis/ramidus every human being is in effect an Ethiopian and can therefore proudly claim the heritage of Wit and Wisdom presented in this volume.

Ethiopian literature (in amharic) G.A. Balashova. 2016-10-06 The Reader includes sample works of modern writers starting with the first story by Afewerk Ghebre Jesus written in 1908 up to the writings of the early 2000s, which continue Amharic literature in various genres. The Chrestomathy is supplemented with linguistic and cultural comments of lexical, grammatical and ethno-cultural nature. Short biographies of the writers are included. The A-Z of African Proverbs Jan Knappert.1989 This book contains hundreds of proverbs, collected in all parts of Africa, many by the author himself. The majority of these proverbs are presented here for the first time in an English translation. Each proverb is labelled with the name of the country of its origin; some proverbs are so widely known that they can be categorised as, e.g., North African. Others are given with the name of the ethnic group or the language where each was recorded. In this way it is hoped the greatest possible variety is achieved and the readers will have a fair impression of the richness of African oral traditions.

Old Age in African Literary and Cultural Contexts Pepetual Mforbe Chiangong.2021-06-15 Through a wide range of indigenous, postcolonial, gender and racial lenses, African writers have provided perspectives on various aspects of old age in the context of African literatures and cultures. This book illustrates how African literary and linguistic representations, ranging from short stories, novels and film to drama and theatre, give expression to ideas about old age. The perspectives offered here provide essential knowledge in understanding the uses of dichotomous age-related categories, such as old-young, elderly male-elderly female, and foreign-indigenous, which generally result in prejudice. Using ageism as its central theme, the contributions draw attention to the ambiguity associated with elderly people in African society who are often highly venerated for their

wisdom, but also stereotyped because of their advanced age. However, as the book demonstrates, old age is also deeply valorised in some traditional African contexts, where older adults are regarded as indispensable members of society. It will be of particular interest to scholars, researchers, and students of African studies, applied theatre studies, gerontology, postcolonialism, sociolinguistics, sociology and anthropology.

The Proverb in the Context of Akan Rhetoric Kwesi Yankah.2012-02-15 Attracting renewed attention by a new generation of scholars, the book presents a comprehensive ethnography of proverb communication in an African culture and achieves a significant breakthrough in proverb studies. The author critically reviews the dynamics of the proverb, one verbal genre that embodies the high point of rhetoric in traditional and contemporary Africa, and explores in rich details the proverb's creative potential, authorship and effectiveness in crisis management. Yankah elevates the documentation of the African proverb beyond decontextualized compilations, and portrays the proverb as a dynamic communicative strategy in which form, meaning and logic are in constant flux. The study, which focuses on the Akan of Ghana, situates the proverb in the heart of real life discourse interactions and monitors its rhetorical efficacy on the basis of indigenous aesthetics. The

book should be of value to folklorists, sociolinguists, anthropologists, literary scholars and students of African studies and communications.

Never Marry a Woman with Big Feet Mineke Schipper, Wilhelmina Janneke Josepha Schipper. 2003-01-01 In this study the author analyses similarities, differences and contradictions in the cultural norms about gender expressed in proverbs she has found in oral and written sources from over 150 countries. The Retelling of Chronicles in Jewish Tradition and Literature Isaac Kalimi. 2009-06-23 Isaac Kalimi reveals the history of the book of Chronicles from Hellenistic times to the beginning of critical biblical scholarship at the dawn of the 17th century. This comprehensive examination focuses, first and foremost, on the use of Chronicles in Jewish societies through the generations and highlights the attitudes and biases of writers, translators, historians, artists, exegetes, theologians, and philosophers toward the book. The reader is made aware of what the biblical text has meant and what it has “accomplished” in the many contexts in which it has been presented. Throughout the volume, Kalimi strives to describe the journey of Chronicles not only along the route of Jewish history and interpretation but also in relation to the book’s non-Jewish heritage (namely, Christianity), demonstrating the differences and distinctiveness of the former. In contrast, the majority of commentaries on Chronicles written from the mid-19th century to the present day have

contained little or nothing about the application, interpretation, and reception history of Chronicles by Jews and Christians for hundreds of years.

King Zara Yaqob and the Development of Ethiopian Literature Dawit Girma.2019-10-15 Scientific Study from the year 2019 in the subject Literature - Africa, , language: English, abstract: This research article attempts to uncover the literary activity in the 15th century Ethiopia. The general purpose of the study is surveying literary development in the period of Emperor Zara Yaqob, and specifically pays focus on the personal efforts and contributions of the King himself in the growth of literature in his reign. It also intends to endorse whether these texts qualify in literary features. Almost no researches are conducted on Zara Yaqob and his literary contribution, this fact is taken as inspirational point to do the study. Qualitative research method is applied, for the study is done on a text. The Emperor has collected men of letter and scholars in the court yard and highly encouraged them to have a huge engagement in literary activities. These scholars, like Abba Giorgis of Gassecca, wrote numerous books which are religious but have great literary value and qualities. The King has written more than ten books; most of them have religious thematic preoccupation but also have secular subjects. These are: Matsehafä Berhan; Matsehafä Milad; Egziabher Nagsä;

Sebhatä Fegur; Matsehafä Sellassie; Matsehafä Bahrey; Tä'agebo Mestir; Tomarä Tesebe'it; Kehedatä Säytan; Darsanä Malaekt; Ra'eyä Ta'amer; Melke'a Gubae, and Mangadä Samay. These texts are investigated out in content and literary value. In addition, he has produced hymns which are prepared in poetic form, and the lines are rhymed as rhyme is the most familiar element of poetry; the hymns are constructed in end rhyme. In his hymns, figurative speeches especially simile and metaphor are well applied. The researcher has long realized potential value of the literary productions in the period of Zara Yaqob as source for the study of Ethiopian literature and history. The works are very important to study social, economic, historical, religious, and the political history of Ethiopia in addition to their literary values.

Poverty in the Book of Proverbs Lechion Peter Kimilike. 2008 Western interpretations of poverty proverbs in the Old Testament Book of Proverbs have tended to see a status quo acceptance in the ancient texts, thus neglecting existential challenges of the poverty issue. In contrast, Lechion Peter Kimilike argues that African proverbial material on poverty may - when used comparatively to interpret the corresponding Old Testament poverty proverbs - create a more dynamic analysis. The author's new and thought-provoking interpretation suggests «an African transformational hermeneutic» that balances between the questions and methodology of the «global [i.e., western] guild» and the concerns of the African interpretative context.

The Book of African Proverbs Ibrahim Mustapha. 2020-01-04 This book contains a list of African proverbs, wise saying and words of wisdom from around the continent. A proverb is a simple, concrete, traditional saying that expresses a perceived truth based on common sense or experience. Proverbs are often metaphorical and use formulaic language. Collectively, they form a genre of folklore. Many African proverbs are strongly tied to the earth and animals, conveying lessons of life

and learning often through daily, seemingly menial, procedures. An example of a Zimbabwean proverb is there is honey but no bees - describing a situation when you find something free for the taking and without consequence. Every culture has its share of wise proverbs or sayings, usually single sentences, passed down from one generation to the next. While these sayings may vary from one language, culture, and country to another, the wisdom they convey is universal. Africa, in particular, is overflowing with inspirational sayings, many of which provide a captivating insight into the rich and vibrant cultures that crafted them.

At the Edge of Sight Shawn Michelle Smith. 2013-10-14 The advent of photography revolutionized perception, making visible what was once impossible to see with the human eye. In *At the Edge of Sight*, Shawn Michelle Smith engages these dynamics of seeing and not seeing, focusing attention as much on absence as presence, on the invisible as the visible. Exploring the limits of photography and vision, she asks: What fails to register photographically, and what remains beyond the frame? What is hidden by design, and what is obscured by cultural blindness? Smith studies manifestations of photography's brush with the unseen in her own photographic work and across the wide-ranging images of early American photographers, including F. Holland Day, Eadweard Muybridge, Andrew J. Russell, Chansonetta Stanley Emmons, and Augustus Washington. She concludes by showing how concerns raised in the nineteenth century remain pertinent today in the photographs of Abu Ghraib. Ultimately, Smith explores the capacity of photography to reveal what remains beyond the edge of sight.

The Leopard's Spots Friedemann Golka. 2004-10-27 This book refutes three traditional hypotheses which have dominated Old Testament scholarship this century: the claim that there were schools in ancient Israel; that in these schools a professional class of 'wise men' taught; and that their teaching

consisted of the moral standards of the civil service. Professor Golka disputes the claim of Old Testament scholarship that biblical proverbs were literary works of art, much influenced by the civilisations of Egypt and Mesopotamia. By comparing biblical proverbs to those of tribal societies of Africa, he concludes that the proverbs of the Hebrew Bible derive from a tribal society - that of the Israel of the period of the Judges. In this ground-breaking work, Friedemann Golka reveals the extent to which the sources and results of social anthropology can be used in Old Testament scholarship to make significant new findings.
