**Unemployment and Underemployment** Justin Healey.2021-07 As Australia's economy recovers from the coronavirus pandemic, jobs growth is bouncing back in most sectors, in spite of disruptions from lockdowns and many workers being based at home. Meanwhile, the recent modest rise in the JobSeeker payment has been broadly criticised as insufficient to help recipients find work and keep up with the costs of living, entrenching financial stress and mental distress, and affecting motivation and skills. Of additional concern is the rate of underemployment, which has overtaken the jobless rate. Most new jobs being created are in part-time, casual or insecure gig work, affecting a higher proportion of young people. Is job insecurity now the norm for many Australians? This title explains the fundamentals around the measurement and types of unemployment and reveals who it most affects. It also examines the latest employment trends and impacts of casualisation on job security. Government policies and social sector strategies for tackling the economic and social consequences of unemployment and underemployment are also featured. Finding a job, and indeed enough employment, can be hard work in itself.

**Kindling of an Insurrection** Chandan Sinha.2020-11-29 The tribal areas of central and eastern India have been under the intractable shadow of left-wing extremism in recent years, fuelling a serious internal crisis in the country. While the clashes between the Maoists and the State have been highlighted by the media, academics and others, the situation of the people caught between the crossfire has often been overlooked. Kindling of an Insurrection provides a gripping account of the lives of people in the conflict-affected district of Paschim Medinipur, West Bengal as experienced by a District Collector. By focusing on the plight of the people of Junglemahals — the term for the forested areas of the region — the author draws attention to the harsh living conditions, unstable occupations and almost non-existent education, highlighting the people's lack of access to developmental schemes implemented by the government and non-governmental organisations. Based on extensive tour notes, the narrative attempts a subtle balance between a personal diary and official documentation, bringing to fore complexities, challenges and dynamics of the ground reality as also the administrative work carried out in the region. Accompanied by photographs, this book offers a rare chronicle of life in rural West Bengal, exposing the roots of the alienation of marginalised tribal communities, and the circumstances leading to the rise of an insurrection within the nation's heartland. Authoritative and lucid, the book will be indispensable for scholars and researchers in the areas of public administration, social work, development studies, social anthropology and politics. It will also prove useful to policy makers, journalists and the general reader interested in West Bengal and left-wing extremism.

**The Demographic and Development Divide in India** Sanjay K. Mohanty,Udaya S. Mishra,Rajesh K. Chauhan.2019-09-16 This book is the first-ever volume which provides comprehensive information on demographic, health and development at the level of 640 districts in India. Central and state governments, developmental organizations, national and international NGOs and researchers require disaggregated data at the district level for many practical purposes. However, such information is not readily available for use. The editors, with a close-knit group of collaborators, have compiled data from reliable sources for each district of India and present the results in the form of composite indexes. The chapters rank districts within the state and vis-à-vis all districts of India to help readers understand intra-district and inter-district developmental disparities. They present spatial analyses that depict clustering of development. It is a ready reference for planners, researchers and students and provides scientific analyses that depict the clustering of development parameters at the district level. This volume is meant for a wide readership interested in development in India, across population studies, sociology, economics, statistics, to regional development, and from academics, researchers, and planners to policy makers.

**King Rat** James Clavell.2018-09-18 Japanese POW camp Changi, Singapore: hell on earth for the soldiers contained within its barbed wire walls. Officers and enlisted men, all prisoners together, yet the old hierarchies and rivalries survive. An American corporal, known as the King, has used his personality and wiles to facilitate trading with guards and locals to get needed food, supplies, even information into the camp. The imprisoned upper-class officers have never had to do things for themselves, and now they are reduced to wearing rags while the King's clean shirt, gained through guts and moxie, seems like luxury in comparison. In the camp, everything has its price and everything is for sale. But trading is illegal—and the King has made a formidable enemy. Robin Grey, the provost marshal, hates the King and all he represents. Grey, though he grew up modestly, fervently believes in the British class system: everyone should know their place, and he knows the King's place is at the bottom. The King does have a friend in Peter Marlowe, who, though wary of the King and himself a product of the British system, finds himself drawn to the charismatic man who just might be the only one who can save them from both the inhumanity of the prison camp but also from themselves. Powerful and engrossing, *King Rat* artfully weaves the author's own World War II prison camp experiences into a compelling narrative of survival amidst the grim realities of war and what men can do when pushed to the edge. A taut masterwork of World War II historical fiction by bestselling author James Clavell.

**Making Democracy** James Ockey.2004-08-31 Democracy in Thailand is the result of a complex interplay of traditional and foreign attitudes. Although democratic institutions have been imported, participation in politics is deeply rooted in Thai village society. A contrasting strand of authoritarianism is present not only in the traditional culture of the royal court but also in the centralized bureaucracies and powerful armed services borrowed from the West. Both attitudes have helped to shape Thai democracy's specific character. This topical volume explores the importance of culture and the roles played by leadership, class, and gender in the making of Thai democracy. James Ockey describes changing patterns of leadership at all levels of society, from the cabinet to the urban middle class to the countryside, and suggests that such changes are appropriate to democratic government—despite the continuing manipulation of authoritarian patterns. He examines the institutions of democratic government, especially the political parties that link voters to the parliament. Political factions and the provincial notables that lead them are given careful attention. The failure to fully integrate the lower classes into the democratic system, Ockey argues, has been the underlying cause of many of the flaws of Thai democracy. Female political leadership, another imported notion, is better represented in urban rather than rural areas. Yet gender relations in villages were more equitable than at court, Ockey suggests, and these attitudes have persisted to this day. Successful women politicians from a variety of backgrounds have begun to overcome stereotypes associated with female leadership although barriers remain. With its wide-ranging analysis of Thai politics over the last three decades, *Making Democracy* is an important resource for both students and specialists.

**Hating, Abhorring and Wishing to Destroy** Donald Moss, Lynne Zeavin.2021-11-09 The kinds of hatreds that analysts have assumed make up part of the unspoken backdrop of Western civilization have now erupted into our daily foreground. This book, consisting of essays from eleven psychoanalysts, responds to that eruption. The five essays of Part 1, Hating in the first person plural, take on the pervasive impact of structured forms of hatred – racism, misogyny, homophobia, and transphobia. These malignant forces are put into action by large- and small-group identifications. Even the action of the apparent lone wolf inevitably enacts loyal membership in a surrounding community. The hating entity is always we. In Part 2, The racialized object/the racializing subject, the essays' focus narrows to an examination of racist expressions of hating, abhorring, and wishing to destroy. A particular focus is the state of excitement attached to this form of hatred, to its sadistic origins, and to the endless array of objects offered to the racializing subject. In Part 3, This land: whose is it, really?, its two essays focus on symbolic and physical violence targeting the natural world. We expand the traditional field of psychoanalytic inquiry to include the natural world, the symbolic meaning of its trees, and the psychopolitical meanings of its land. This book offers a psychoanalytically informed guide to understanding and working against hatreds in clinical work and in everyday life and will appeal to training and experienced psychoanalysts, as well as anyone with an interest in current political and cultural climates.

particularly inclusiveness aspects, through an in-depth analysis. It covers three major areas related to (a) employment, (b) education and skill and (c) social concerns and issues related to health services.
