Spanish National Cinema Nuria Triana-Toribio.2012-11-12 This study examines the discourses of nationalism as they intersected or clashed with Spanish film production from its inception to the present. While the book addresses the discourses around filmmakers such as Almodóvar and Medem, whose work has achieved international recognition, Spanish National Cinema is particularly novel in its treatment of a whole range of popular cinema rarely touched on in studies of Spanish cinema. Using accounts of films, popular film magazines and documents not readily available to an English-speaking audience, as well as case studies focusing on the key issues of each epoch, this volume illuminates the complex and changing relationship between cinema and Spanish national

identity.

Images from the Region of the Pueblo Indians of North America Aby M. Warburg. 2016-11-01 Aby M. Warburg (1866–1929) is recognized not only as one of the century's preeminent art and Renaissance historians but also as a founder of twentieth-century methods in iconology and cultural studies in general. Warburg's 1923 lecture, first published in German in 1988 and now available in the first complete English translation, offers at once a window on his career, a formative statement of his cultural history of modernity, and a document in the ethnography of the American Southwest. This edition includes thirty-nine photographs, many of them originally presented as slides with the speech, and a rich interpretive essay by the translator.

White Cat Holly Black. 2015-09-29 The first installment in The Curse Workers series from New York Times bestselling author Holly Black: "Urban fantasy, con story—whatever you call it, read it" (Kirkus Reviews, starred review). Cassel comes from a family of con artists and grifters, all of them

curse workers but him. On top of that, Cassel is plagued by guilt that he killed his best friend, Lila, years ago. When Cassel begins to have strange dreams about a white cat and people around him are losing their memories, he starts to wonder what really happened to Lila, and what that means about his actions. In Cassel's search for answers about Lila and himself, he realizes that his brothers have been conning him for years, and that the final piece in their quest for power is about to fall into place. Cassel has other ideas. He's going to create an even more elaborate trap and, with Lila's help, con a bunch of magic using conmen. This "beautifully realized dark fantasy...with prose that moves from stark simplicity to almost surreal intensity in a moment" (Publishers Weekly, starred review) is rife with the unexpected. "Readers will be hooked" (Booklist) on *White Cat*.

Field of Honour Max Aub. 2009-09-07 A contemporary of Lorca and Buñuel in Spain's Second Republic, Max Aub escaped into a life of exile after General Franco seized Barcelona. His masterpiece, acknowledged in Spain as one of the best accounts of the Spanish Civil War, is the five-novel cycle known as *The Magic Labyrinth*—never before translated into English. A playwright as well as a novelist, he brings the period alive through vibrant dialogue and a story that navigates the factional intrigues that eventually erupted onto the streets in violence. The protagonist of the first novel is Rafael López Serrador, whose coming of age in Barcelona introduces a cast from all walks of city life—Catalan nationalists, anarchists, Falangists, government ministers and showgirls. Just as central a character is Barcelona itself, lovingly depicted. Rafael's adventures bring him into contact with the forces that were to destroy the Republic and determine the bloody course of the Spanish Civil War. Masterfully translated by Gerald Martin, author of *Gabriel García Márquez: A Life*, Max Aub's novel is set to introduce to an English-speaking audience a classic of Spanish and Latin American literature—an account of the Spanish Civil War to compare with Ernest Hemingway's *For*

Managing for Development Results Roberto García López, Mauricio García Moreno.2010-01-01

Results-based management (RBM) is a public management strategy that involves decision making based on reliable information regarding the effects of governmental actions on society. It has been adopted in various developed countries as a way of improving efficiency and effectiveness in public policy. In Latin American and Caribbean (LAC) countries, governments and public managers show increasing interest in this management strategy. Given the relative novelty of RBM in the region, however, there is scant literature on the subject. This book is intended to fill this gap in two ways. First, it seeks to describe some of the basic RBM concepts and adapt them according to regional characteristics. Second, it presents an assessment, based on studies carried out in 25 countries, of the challenges facing LAC countries and their capacity to implement results-based public management.

The Sense of Music Raymond Monelle.2010-09-17 The fictional Dr. Strabismus sets out to write a new comprehensive theory of music. But music's tendency to deconstruct itself combined with the complexities of postmodernism doom him to failure. This is the parable that frames *The Sense of Music*, a novel treatment of music theory that reinterprets the modern history of Western music in the terms of semiotics. Based on the assumption that music cannot be described without reference to its meaning, Raymond Monelle proposes that works of the Western classical tradition be analyzed in terms of temporality, subjectivity, and topic theory. Critical of the abstract analysis of musical scores, Monelle argues that the score does not reveal music's sense. That sense--what a piece of music says and signifies--can be understood only with reference to history, culture, and the other

arts. Thus, music is meaningful in that it signifies cultural temporalities and themes, from the traditional manly heroism of the hunt to military power to postmodern polyvocality. This theoretical innovation allows Monelle to describe how the Classical style of the eighteenth century--which he reads as a balance of lyric and progressive time--gave way to the Romantic need for emotional realism. He argues that irony and ambiguity subsequently eroded the domination of personal emotion in Western music as well as literature, killing the composer's subjectivity with that of the author. This leaves Dr. Strabismus suffering from the postmodern condition, and Raymond Monelle with an exciting, controversial new approach to understanding music and its history.

Stardom Christine Gledhill.2003-09-02 In the past stars have been studied as cogs in a mass entertainment industry selling desires and ideologies. But since the 1970s, new approaches have reopened debate, as film and cultural studies try to account for the active role of the star in producing meanings, pleasures, and identities for a diversity of audiences. Stardom brings together for the first time some of the major writing of the last decade which seeks to understand the phenomenon of stars and stardom. Gathered under four headings - The System, Stars and Society, Performers and Signs, Desire and Politics - these essays represent a range of approaches drawn from film history, sociology, textual analysis, audience research, psychoanalysis, and cultural politics. They raise important issues about the politics of representation and the cultural limitations and possibilities of stars.

A Writer's Reality Mario Vargas Llosa.2013-04-04 In this book, Vargas Llosa invites readers to enter into his confidence as he unravels six of his own novels and two other works of fundamental importance to him. Vargas Llosa's native Peru, the setting and character of much of his fiction, is at the centre of his piece on The Chronicles of the Birth of Peru - the powerful account of the discovery and conquest of Peru by the Spaniards - which Vargas Llosa describes as novels disguised as history. In other chapters, Vargas Llosa tells how his method of writing has evolved, discusses his attraction

to Sartre's work and his days at military school, describes what it was like at nine to see the ocean for the first time, and explains the process of changing the dead language of soap operas (as in his own Aunt Julia and the Scriptwriter) into the living language of serious art. He also relates why *The War of the End of the World* is his personal favourite among his novels. Throughout *A Writer's Reality*, Vargas Llosa focusses on what he sees as a central metaphor for the writer's task - to transform lies into truth.

The Andes Imagined Jorge Coronado.2009-05-31 In *The Andes Imagined*, Jorge Coronado not only examines but also recasts the indigenismo movement of the early 1900s. Coronado departs from the common critical conception of indigenismo as rooted in novels and short stories, and instead analyzes an expansive range of work in poetry, essays, letters, newspaper writing, and photography. He uses this evidence to show how the movement's artists and intellectuals mobilize the figure of the Indian to address larger questions about becoming modern, and he focuses on the contradictions at the heart of indigenismo as a cultural, social, and political movement. By breaking down these different perspectives, Coronado reveals an underlying current in which intellectuals and artists frequently deployed their indigenous subject in order to imagine new forms of political inclusion. He suggests that these deployments rendered particular variants of modernity and make indigenismo's representational practices a privileged site for the examination of the region's cultural negotiation of modernization. His analysis reveals a paradox whereby the un-modern indio becomes the symbol for the modern itself. *The Andes Imagined* offers an original and broadly based engagement with indigenismo and its intellectual contributions, both in relation to early twentieth-century Andean thought and to larger questions of theorizing modernity.

Lima Nights Marie Arana.2010-07-13 Carlos Bluhm leads the good life in upper-class Lima: He attends social functions with his elegant wife, goes out drinking with his three best friends, and has the occasional, fleeting assignation. Then he meets Maria Fernandez, a dancer at a tango bar in a rough part of town. The beautiful fifteen-year-old intoxicates him. An indigenous dark-skinned Peruvian, she represents everything his safe white world does not, and soon he can't get her out of his mind. They begin a passionate affair, one that will destroy his marriage and shatter the only reality he's ever known. Flash forward twenty years: Against all odds, Carlos and Maria have remained together. But when Maria finally presses for a formal commitment, feelings long suppressed erupt in a tense endgame that sends both of them hurtling toward a dangerous resolution that will forever alter their lives.

A Landscape of Events Paul Virilio.2000 The celebrated French architect, urban planner, and philosopher Paul Virilio focuses on the cultural chaos of the 1980s and 1990s. It was a time, he writes, that reflected the cruelty of an epoch, the hills and dales of daily life, the usual clumps of habits and commonplaces. Urban disorientation, the machines of war, and the acceleration of events in contemporary life are Virilio's ongoing concerns. He explores them in events ranging from media coverage of the Gulf War to urban rioting and lawlessness.

Man and Culture Clark Wissler.1923 1923. A group of lectures given by Wissler at the State

Universities of Michigan, Iowa, Nebraska, and Kansas and also before the Anthropological Society of St. Louis and the Galton Society of New York. The object of these lectures was to present the problems and scope of contemporary anthropology, and recognizing that the most pertinent question before us as a people, is the relation of civilization to man, the emphasis in these pages has been placed upon culture and its biological background.

Plays Well in Groups Katherine Frank.2013-06-27 From tribal religious rituals to the Playboy mansion, and from ancient Rome to Burning Man, *Plays Well in Groups* explores the phenomenon of group sex. Author Katherine Frank draws on surveys, ethnographic research, participant interviews, and more to provide explanations for both, participation in group sex and our complex reactions to it, from fascination to fear. This book looks at group sex across cultures—who has it, and why. Group sex is almost always taboo and often criminalized, and yet it persists across cultures throughout history. *Plays Well in Groups* looks at the symbolism of orgies, as well as contemporary manifestations of group sex in bathhouses and public sex venues, at BDSM and swinging parties, on Craigslist, and in political scandals, Tantra classes, reality television, and more. Frank explores the many reasons people participate in group sex, from arousal to spiritual transcendence, in this bold study of subversive sexuality.

Child Abuse, Domestic Violence, and Animal Abuse Frank R. Ascione,Phil Arkow.1999 Evidence is mounting that animal abuse, frequently embedded in families scarred by domestic violence and child abuse and neglect, often predicts the potential for other violent acts. As early intervention is critical in the prevention and reduction of aggression, this book encourages researchers and professionals to recognize animal abuse as a significant problem and a human public-health issue that should be

included as a curriculum topic in training. The book is an interdisciplinary source book of original essays that examines the relations between animal maltreatment and human interpersonal violence, expands the scope of research in this growing area, and provides practical assessment and documentation strategies to help professionals confronting violence do their jobs better by attending to these connections. As an outgrowth of the Latham Foundation's 1995 training manual, *Breaking the Cycles of Violence*, this book is a historic step in helping professionals from these disciplines, as well as the general public, recognize the cyclical and insidious nature of family violence and provides training in recognizing peripheral forms of family violence outside a family's immediate purview. It encourages cross-disciplinary prevention and intervention strategies with an ultimate goal of reducing the levels of violence which is such a great societal and cultural concern today. This book brings together, for the first time, all of the leaders in this emerging field. They examine contemporary research and programmatic issues, encourage cross-disciplinary interactions, and describe innovative programs in the field today. Also included are vivid first-person accounts from survivors whose experiences included animal maltreatment among other forms of family violence. *Child Abuse, Domestic Violence, and Animal Abuse* provides professional communities of psychologists and child welfare specialists with a deeper, higher, and more encompassing awareness and understanding of the crucial linking of caring for animals and children in human experience. The combination of careful research, documentation, and compelling narrative accounts are blended into a rich resource to help professionals, concerned citizens, and parents understand how the ethics of caring are not bounded by species.
