International Human Resource Management P. L. Rao. 2008 Managing people in a multinational context is the essence of international human resource management. This requires a broader perspective of what operating internationally involves, and a clear recognition of the range of issues pertaining to all categories of staff operating in different functional, task and managerial capacities. Books that are available on the subject are heavily loaded with cultural aspects rather than HRM processes. From teaching experience, it is noticed that students who are familiar with domestic HRM books find it difficult to comprehend the subject of international HRM. Therefore the topics are arranged in the traditional HRM style with international implications at each stage. A separate chapter is allocated for Expatriation & Repatriation. Similarly Management of People in international context in sixteen countries is discussed in a separate chapter. The text aims to cover in terms of industries, to illustrate the activities and approaches of international organisations. Also, the coverage of different cultures is not intended to include all the different and diverse cultures of the world, simply to enable sufficient understanding of the cultural contexts from which many of the approaches are derived, and to provide background on the appropriateness of different aspects of managing people in international organisations. A detailed treatment to empirical researches on cross cultural issues and cross cultural, comparative management issues arising out of cross border mergers and acquisitions as well as human resource issues emerging out of global acquisitions of Arcelor and Corus by Indian companies and companies of Indian origin are also treated in the text.

Managing Human Resources in Global Era - Prospects & Challenges Dr. Ravi Aluvala.2014-01-30 The intellect and creativity of people are at the heart of the knowledge-driven revolution with a growth of service sector knowledge intensive businesses. Within all sectors workers have to be more highly educated and more must be able to work with customers as part of their daily work as well as participate in teamwork. These changing scenarios much impact the People Management in the context of globalization and will bestow ample issues, prospects and challenges which need to be explored. The practitioners, academicians and researchers need to meticulously review these aspects and acquaint them with knowledge to sustain in such scenarios. Thus, these changing scenarios emphasize the need of a broad-based research in the field of human resource management also reflecting in management education. This book is an attempt in that direction. International Human Resource Management Mila B. Lazarova, Michael J. Morley, Shaun Tyson.2014-01-02 The extent to which organisational performance is related to the Human Resource policies and practices adopted has been a question debated by both academics and practitioners for the past two decades. This book takes the debate into the international field by drawing upon the well respected Cranet data set, which provides longitudinal and comparative data drawn from 40 countries across the world. International Human Resource Management highlights the dominant institutional factors embedded in the societal contexts of different cultures which impact on corporate HR policies and practices, and illustrates how these variables influence Human Resource Management and performance. It examines how the HR function can impact upon HR policies and influence organisational performance. It also discusses the role of the HR department; specifically, how the distribution of responsibilities between HR managers and line managers moderates the relationship between HR strategic integration and organizational performance. Finally, it investigates the impact of societal factors on the strategic integration of female HR directors. These contributions show the complexity of the relationship between HRM and organisational performance, and modify the current prevailing models of this relationship, where scant attention has been paid to institutional forces and the cultural, economic and social contexts in which organisations are located. This book was originally published as a special issue of The International Journal of Human Resource Management.

The diverse topics are competently discussed by leading scholars and researchers in the field of HRM. Human Resources in the Global Market Johannes Bauernberger.2007-03-12 Seminar paper from the year 2005 in the subject Business economics - Personnel and Organisation, grade: Very Good, Turku School of Economics, course: International Business Operations, 24 entries in the bibliography, language: English, abstract: Recruitment and selection in International Human Resource Management is crucial; finding the right people to fill key positions can determine a company's international operation. Furthermore, it is extremely costly for the company if the expatriate fails. The performance of an expatriate is often determined by factors like (in)ability to adjust to foreign culture, the length of the assignment, willingness to move and work-related factors. What should be considered when selecting an expatriate are therefore criteria like technical ability, cross-cultural suitability, family requirements, country requirements as well as language and company requirements. However, recruitment and selection are only the first step for international Human Resource Management. The aim of this paper is therefore to point out the increasing importance of Human Resource Management especially from internationally operating companies' point of view. Furthermore, it will be pointed out what International Human Resource Management is and why it is necessary for Multi National Companies (MNCs) to concern about this topic. In addition, challenges and requirements of HRM will be illustrated and highlighted. This work will furthermore portray the recruitment and selection process as well as the necessity of training and development within global companies. It will describe the workplace conflict and deal with subjects such as industrial relations and employment law.
