Relearning to See Thomas R. Quackenbush.2000-01-24 In this accessible presentation of the famous Bates method, Thomas R. Quackenbush (who teaches the Bates method in California and Oregon) describes how eyesight can improve naturally, at any age and regardless of heredity. This book is a wonderful tribute to the genius of Dr. Bates, who was a pioneer in discovering how vision becomes blurred and how it restores itself naturally to clarity and acuity. Now 80 years later, his findings and teachings remain light years ahead of our contemporaries. His approach to treating vision problems was truly holistic and the theme throughout this book is very much an extension of that holistic approach. Dr. Quackenbush is to be commended for his dedication in getting the truth out and keeping the torch burning in this bible on vision improvement.

Eschatology Pope Benedict XVI,Joseph Ratzinger.2007-10 Originally published in English in 1988, Joseph Ratzinger's Eschatology remains internationally recognized as a leading text on the last things—heaven and hell, purgatory and judgment, death and the immortality of the soul. This highly anticipated second edition includes a new preface by Joseph Ratzinger/Pope Benedict XVI and a supplement to the bibliography by theologian Peter A. Casarella. Eschatology presents a balanced perspective of the doctrine at the center of Christian belief—the Church's faith in eternal life. Recognizing the task of contemporary eschatology as to marry perspectives, so that person and community, present and future, are seen in their unity, Joseph Ratzinger brings together recent emphasis on the theology of hope for the future with the more traditional elements of the doctrine. His book has proven to be as timeless as it is timely.

Nietzsche on Art and Life Daniel Came.2014-04-24 Nietzsche was not interested in the nature of art as such, or in providing an aesthetic theory of a traditional sort. For he regarded the significance of art to lie not in l'art pour l'art, but in the role that it might play in enabling us positively to 'revalue' the world and human experience. This volume brings together a number of distinguished figures in contemporary Anglo-American Nietzsche scholarship to examine his views on art and the aesthetic in the context of this wider philosophical project. All of the major themes of Nietzsche's aesthetics are discussed: art and the affirmation of life, the relationship between art and truth, music, tragedy, the nature of aesthetic experience, the role of art in Nietzsche's positive ethics, his critique of romanticism, and his ambivalent attitude towards Richard Wagner.

God is Beautiful Navid Kermani.2015-02-16 The melodious recitation of the Quran is a fundamental aesthetic experience for Muslims, and the start of a compelling journey of ideas. In this important new book, the prominent German writer and Islamic scholar Navid Kermani considers the manner in which the Quran has been perceived, apprehended and experienced by its recipients from the time of the Prophet to the present day. Drawing on a wide range of Muslim sources, from historians, theologians and philosophers to mystics and literary scholars, Kermani provides a close reading of the nature of this powerful text. He proceeds to analyze ancient and modern testimonies about the impact of Quranic language from a variety of angles. Although people have always reflected on the reception of texts, images and sounds that they find beautiful or moving, Kermani explains that Islam provides a particularly striking example of the close correlation, grounded in a common origin, between art and religion, revelation and poetry, and religious and aesthetic experience. This major new book will enhance the dialogue between Islam and the West and will appeal to students and scholars of Islam and comparative religion, as well as to a wider readership interested in Islam and the Quran.

Schools of Koranic Commentators Ignác Goldziher.2006 Goldziher, the greatest Islamicist of his day, and one of the most profound and original scholars in Europe in an age that produced veritable giants in this . eld, is presented here with what he considered his great opus, first published in 1920 in Leiden. Since his study tour in the East, 1873-1874, he had such a command of Arabic so as to discuss matters of dogmatics, fiqh, poetry, and syntax with local scholars. The work is largely based on his study and translation of Arabic primary sources. He treats the evolution of the science of tafsir from its most elementary stage, the 'Uthmanic' recension, down to early twentieth century interpretations of Rashid Rida and Syed Ameer Ali, touching upon dogmatics, asceticism, mysticism as well as rationalism. The translator, an old hand at translating Goldziher, displays a sensible, pragmatic attitude towards the considerable problem presented by Goldziher's style.

Tatian's Diatessaron William L. Petersen.2015-12-22 A gospel harmony composed c. 172 C.E., the Diatessaron is one of the earliest witnesses to the gospels. Regarded as the first version of the gospels in Latin, Syriac, and Armenian, the Diatessaron was used by Encratites, Judaic-Christians, and "Great Church" Christians alike. This study is the first comprehensive treatment of the Diatessaron in more than a century. After sketching the second-century setting and Tatian's biography, it describes virtually every Diatessaronic witness and provides a scholar-by-scholar summary of research from 546 to the present. Criteria for reconstructing Diatessaronic readings are developed, and numerous examples offer the reader first-hand experience with the witnesses. It contains the first Bibliography of research on the Diatessaron (600+ titles) and the first "Catalogue of Manuscripts of Diatessaronic Witnesses and Related Works" ever published.

Mitochondrial Medicine Salvatore DiMauro,Michio Hirano,Eric A. Schon.2006-04-19 Mitochondrial dysfunction is increasingly being recognized as

the basis of a wide variety of human diseases. Providing an authoritative update on our current knowledge of mitochondrial medicine, this text draws together world authorities from various fields to present general therapeutic strategies, as well as the treatments presently available in different specialties - thus making it essential reading for clinicians involved with the management of patients with mitochondrial diseases. A unique work, this text covers a range of specialties, including cardiology, ophthalmology, otology, nephrology, gastroenterology, hematology-oncology, and reproductive medicine, and does not focus exclusively on the more commonly known neurologic conditions. An accessible, user-friendly text, it also presents translational concepts of mitochondrial biogenesis and genetics in vignettes related to specific questions raised by the disease under discussion, rather than concentrating on basic science, which can often intimidate clinicians. This pioneering work is primarily directed to a clinical audience who are interested in the diverse and diagnostically challenging clinical presentations of mitochondrial diseases and their pathophysiology.

Eine Einführung in Intuitives Stillen Suzanne Colson. 2013-01-01 Die Mehrheit des Gesundheitspersonals glaubt, dass Mütter im Stillen unterwiesen werden müssen. Dieses Buch liefert neue wissenschaftliche Belege, die zeigen, dass das Wissen, wie gestillt wird, Müttern und Babys angeboren ist, und stellt ein neues Konzept vor: das Intuitive Stillen. Intuitives Stillen ist ein Sammelbegriff für optimale Verhaltenszustände und Positionen zum Stillen, deren Aufeinandereinwirken spontane Verhaltensmuster bei Müttern und Babys auslöst, die ihnen helfen, mit dem Stillen zu beginnen. Intuitives Stillen ist schnell und einfach umzusetzen. Die meisten Mütter und Babys nehmen selbsttätig die richtige Position ein, wenn dies ohne fremdes Eingreifen von außen zugelassen wird. Die Aufgabe des Gesundheitspersonals besteht darin, die auslösenden Mechanismen zu verstehen und so zu lernen, wie sie Müttern und Babys helfen können, das zu machen, was diese intuitiv tun wollen. Dieses Buch stärkt das Vertrauen in die biologische Basis des Stillens und die angeborene Stillfähigkeit der Mütter. Dr. Suzanne Colson ist eine meiner Heldinnen, weil ihre aufmerksame und sorgfältige Forschung und die Schlussfolgerungen, die sie daraus gezogen hat, endlich gesunden Menschenverstand in die Diskussion über das Stillen gebracht hat. Ina May Gaskin, Hebamme und Autorin von *Spirituelle Hebammen, Praktische Hebammen, Die selbstbestimmte Geburt* und *Ina May's Guide to Breastfeeding* Der französische Geburtshelfer und Colsons Mentor, Michel Odent, veränderte unsere Art und Weise über die Geburt zu denken. Mit diesem Buch unternimmt Suzanne Colson dasselbe für das Stillen. Machen Sie sich bereit, viele Ihrer grundlegenden Annahmen über das Stillen zu überdenken - so, wie ich es getan habe - und lernen Sie einige revolutionäre, neue Wege, um Müttern und Babys zu helfen. Dieses Buch wird Ihr Leben verändern! Nancy Mohrbacher, IBCLC, FILCA, Co-Autorin von *Breastfeeding Answers Made Simple* und *Breastfeeding Made Simple*

Herman Boerhaave (1668-1738) Rina Knoeff. 2002 Herman Boerhaave, holder of three professorships in medicine, botany and chemistry at the University of Leiden, was one of the most important and famous medical teacher in Europe. Boerhaave was also known as a very religious man. Historians of science and medicine have stressed the mechanical aspects of his medicine. Boerhaave's natural philosophy - his chemistry and alchemy as well as their uses in medicine - and methodology are all rooted in his Calvinism. In particular, Boerhaave's ideas on the divine nature of fire, the chemical theory of menstrua and the idea of seminal principles demonstrate that Boerhaave presented a Calvinist picture of the world.

Narrativity in Biblical and Related Texts George J. Brooke, Jean-Daniel Kaestli.2000 Seventeen innovative studies are collected in this volume which has been produced under the aegis of the Centre for Biblical Studies, University of Manchester, and L'Institut des sciences bibliques, Universite de Lausanne. The majority of the studies engage with narrative through providing insightful working examples. Building on the many contributions of recent narratological research, for the most part the studies in this collection avoid the technical language of narratology as they present fresh insights at many levels. Some essays focus more on the implied author, some on the implied reader or hearer, and some on the way particular messages are constructed; some of the studies consider how author, message and reader are all interconnected. There are several creative proposals for refining genre definition, from law and wisdom to gospel and apocryphal writings. Some studies highlight the way in which narratives can contain ethical, religious, and cultural messages. Sensitivity to narrative is also shown by some contributors to expose in intriguing ways the redactional processes behind the final form of texts. Students of narrative in the ancient world will find much to consider in this book, and others engaged with literary studies more generally will discover that scholars of the worlds of the Bible and Late Antiquity have much to offer them.

This material formed the basis of *Herbal Medicine, 2E*, also by Thieme. The second edition, revised, expanded and modernized by Volker Fintelmann, streamlines the work into a more clinical text, incorporating the latest scientific research and Commission E findings on the efficacy of herbs. This edition is recommended for allopathic physicians and other medical professionals who are new to the field of herbal medicine. Professor Rudolf Fritz Weiss (1895-1991) is highly regarded as the founding father of modern German phytotherapy. He studied botany and medicine at the University of Berlin, qualifying as a doctor in 1922 and subsequently taking additional qualifications in internal medicine. A teaching post in herbal medicine was interrupted by war service as an army doctor, followed by seven years in Russian captivity as a doctor in prisoner-of-war camp hospitals. After retiring from clinical practice in 1961, he devoted his life to the scientific development and acceptance of herbal medicine. Weiss was appointed as a member of the German Commission E in 1978. He was founder and editor of the *Zeitschrift fuer Phytotherapie*, and lectured on current advances in the subject at the University of Tuebingen.
