*Crise et rénovation de la finance* Michel Aglietta, Sandra Rigot.2009-03-19 La crise a mis un terme à un régime de crédit à tout-va, fondé sur le laisser-faire des autorités de régulation de la finance, sur l'irresponsabilité des intermédiaires de marché et sur la passivité des investisseurs institutionnels. Bien loin d'avoir été efficace dans l'allocation du capital, la finance a capté une rente gigantesque sur l'économie et a nourri des déséquilibres insoutenables. Une profonde réorganisation de la finance est désormais à l'ordre du jour. Ce livre dessine les contours d'une telle réforme : instaurer des règles de comportement et des principes de gouvernance capables de réintroduire une responsabilité sociale dans le système bancaire ; mais surtout établir des contre-pouvoirs. Cette refondation commande que les investisseurs financiers (fonds de pension, compagnies d'assurances, fonds souverains, etc.), fassent prévaloir, au sein des entreprises dont ils sont actionnaires, des stratégies de long terme et mettent en œuvre des moyens de contrôle des risques susceptibles de discipliner et de stabiliser les marchés financiers. Michel Aglietta est professeur émérite à l'université Paris-X-Nanterre, conseiller scientifique au Cepii et à Groupama-Asset Management. Sandra Rigot est doctorante en économie et allocataire-monitrice à l'université Paris- X-Nanterre.

*Financial Sector Reform* N. Mathieu.1998 Soon after its declaration of independence, Lithuania launched a program of market-based economic reforms that achieved remarkable results. However, a banking crisis erupted in January 1996, driven by a combination of ineffective bank supervision, poor bank practices, and deep-rooted sectoral imbalances. With financial support from the World Bank, Lithuanian authorities embarked on a broad economic reform program with two immediate objectives: the resolution of the banking system's operational and undercapitalization problems, and a reduction in the most severe imbalances in the economy. Volume I (see ordering information below) distills findings and conclusions and builds a policy action plan for fast stable growth. Volume II contains a collection of twelve policy notes that provide the technical analysis behind that plan. Also available: Volume II/Analytical Background(ISBN 0-8213-4327-0) Stock no. 14327.

**Transparency of Stock Corporations in Europe** Vassilios Tountopoulos,Rüdiger Veil.2019-12-12 This edited collection explores transparency as a key regulatory strategy in European business law. It examines the rationales, limitations and further perspectives on transparency that have emerged in various areas of European law including corporate law, capital markets law and accounting law, as well as other areas of law relevant for European (listed) stock corporations. This book presents a clear and accurate picture of the recent reforms in the European transparency regime. In doing so it endorses a multi-dimensional notion of transparency, highlighting the need for careful consideration and contextualisation of the transparency phenomenon. In addition, the book considers relevant enforcement mechanisms and discusses the implications of disparate enforcement concepts in

European law from both the private and public law perspectives. Written by a team of distinguished contributors, the collection offers a comprehensive analysis of the European transparency regime by discussing the fundamentals of transparency, the role of disclosure in European business law, and related enforcement questions.

Régulation bancaire et financière européenne et internationale Thierry Bonneau.2022-03-24 La question de la régulation bancaire et financière n'est pas récente. Elle a toutefois pris une ampleur nouvelle depuis la crise de septembre-octobre 2008, suivie peu de temps après par l'affaire Madoff et, en 2010-2011, par la crise de la dette souveraine. Ces événements ont affecté nombre de pays et ont conduit à revoir et à approfondir les règles applicables au secteur bancaire et financier, cela afin de préserver, dans un monde sans frontière, la sécurité et la stabilité des marchés, des acteurs et des États. Étant observé que l'on se demande si l'on est mieux protégé aujourd'hui qu'en 2008 : la réponse est controversée ! La sécurité est l'un des thèmes majeurs de la régulation, mais il n'est pas le seul : l'intégrité et la transparence en sont d'autres. On pourrait encore citer la protection des clients, les nouvelles technologies et le développement durable, thèmes qui montent, depuis plusieurs années, en puissance. L'émergence des crypto-actifs, la crise sanitaire de la Covid-19 (2020-2021) et le réchauffement climatique l'illustrent. Cela explique que la seule réponse nationale est insuffisante : une réponse européenne et internationale est indispensable. Les acteurs de l'encadrement européen et international sont peu connus. Aussi est-il important d'y consacrer des développements - sont notamment étudiés les autorités européennes de surveillance (AES), l'Union bancaire et les « différents G », tels que le G 20 - même si les réponses apportées par les autorités européennes et internationales constituent l'essentiel de l'ouvrage, celui-ci mettant en lumière tant les travaux du Comité de Bâle, de l'OICV, du GAFI et du FSB que les textes européens des niveaux 1 (Parlement européen et Conseil), 2 (Commission européenne) et 3 (AES).

**Political Power and Corporate Control** Peter A. Gourevitch,James Shinn.2010-06-20 Why does corporate governance--front page news with the collapse of Enron, WorldCom, and Parmalat--vary so dramatically around the world? This book explains how politics shapes corporate governance--how

managers, shareholders, and workers jockey for advantage in setting the rules by which companies are run, and for whom they are run. It combines a clear theoretical model on this political interaction, with statistical evidence from thirty-nine countries of Europe, Asia, Africa, and North and South America and detailed narratives of country cases. This book differs sharply from most treatments by explaining differences in minority shareholder protections and ownership concentration among countries in terms of the interaction of economic preferences and political institutions. It explores in particular the crucial role of pension plans and financial intermediaries in shaping political preferences for different rules of corporate governance. The countries examined sort into two distinct groups: diffuse shareholding by external investors who pick a board that monitors the managers, and concentrated blockholding by insiders who monitor managers directly. Examining the political coalitions that form among or across management, owners, and workers, the authors find that certain coalitions encourage policies that promote diffuse shareholding, while other coalitions yield blockholding-oriented policies. Political institutions influence the probability of one coalition defeating another.
