Frankincense & Myrrh Martin Watt, Wanda Sellar. 2012-05-31 The story of frankincense and myrrh runs in tandem with man's evolution. Their use in so many varied ways has accompanied man and woman through the uncertain and often stormy path of life. Once prized as highly as gold, frankincense and myrrh's use in perfumery suggested an exclusivity as do the celebrated perfumes of today. But they offered much more than mere aesthetic delight. At times they were a life-line to spiritual and physical health and well-being. Over many centuries the use of frankincense and myrrh pervaded a wide range of societies and religions. The caravan trails for this valuable cargo have disappeared but these aromatics continue to be valuable commodities both in the East as well as in the West. Frankincense and Myrrh continue to excite the imagination and are probably the most famous aromatics of all time. Their appeal and magic will never die and this book explains why.

Think! Different Andreas Boskugel.2015-03-25 Think! Different is a different kind of self-help book: the author, Andreas Boskugel, is well-known in Europe and appreciated for his clear and direct manner. Boskugel has taken the law of attraction to its systematic and logical conclusion! This book is completely free of otherwise typical references to moral or religious standards because the law of attraction - like all natural laws - isn't based on morality or religion. Consequently the author has a very different take than do others on success; for example, he doesn't idolize hard work, honesty and gratitude ad absurdum, for these are only religious and cultural based opinions and actually contradict the law of attraction. The author also forgoes otherwise typical teachings about what is right or wrong; after all, what is right is individually defined. Feigned pity or morality sermons are also not included in this work. This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness. And it's for those who really want to get somewhere in life and who therefore question existing opinions. It's for people who are able to think on their own instead of going with the flow. For many, it was not until reading this book that they finally understood the law of attraction, for the topics in this book are more logically organized than in other popular works, and insights are offered that can dramatically improve the lives of readers.

Completely new insights about the existing laws of life can help readers become invincible masters of their own destiny. Keywords: Law of Attraction, Self-Help, Success, Wealth, Dream, Wish Fulfillment, Love, Relationship, Money

The Celestial Code of Scripture John McHugh.2021-12-14 While researching celestial mythology at Brigham Young University, John McHugh stumbled upon the arcane code that is the template for the legends and miracles in all Mesopotamian, Greek, Roman, Jewish, Christian, and Islamic scriptures. This code was embedded in the archaic Mesopotamian belief system that conceptualized the astral sky as the "heavens," and its constellations and planets as deities inhabiting this divine realm. Celestial tableaux were understood as historical scenes that had once taken place on earth. Mesopotamian astronomers were regarded as magicians, the magi, whose task was to interpret and elaborate secretly on this "Heavenly Writing"— the literal writing of the gods. The Celestial Code of Scriptures is the first book to present and explain this secret Mesopotamian cipher.

Appointments with Heaven Reggie Anderson,Jennifer Schuchmann.2013 When Dr. Reggie Anderson is present at the bedside of a dying patient, something miraculous happens. Sometimes as he sits vigil and holds the patient's hand . . . he can experience what they feel and see as they cross over. Because of these God-given glimpses of the afterlife--his appointments with heaven--Reggie knows beyond a doubt that we are closer to the next world than we think. Join him as he shares remarkable stories from his life and practice, including the tragedy that nearly drove him away from faith forever. He reveals how what he's seen, heard, and experienced has shaped what he believes about living and dying; how we can face the passing of our loved ones with the courage and confidence that we will see them again; and how we can each prepare for our own appointment with heaven. Soul-stirring and hope-filled, Appointments with Heaven is a powerful journey into the questions at the very core of your being: Is there more to life than this? What is heaven like? And, most important: Do I believe it enough to let it change me?

You can't follow instructions and expect success every time. So what if parents approached their children as questions to be answered and not problems to be solved? Scientist Emma Byrne takes evidence-based information on everything from physical and emotional development to what is really happening during sleep and separation anxiety, then shows how to apply it to the unique child in front of you. She challenges perceived wisdom by focusing on the variance as well as the mean - because your child is an individual, not an average. Like all good scientists, you're going to have a few missteps along the way. You'll reach dead ends; you'll need to wrack your brain for new approaches. But by staying curious, creative and paying attention to what's really happening with your family, Emma Byrne

Stories of Love C. Alan Ames. 2001-01-01 Carver Alan Ames' newest book, released January, 2001. By popular demand, it is his ninth book published by the 101 Foundation in less than five years. Actual life experiences are presented in short story form within these inspired pages -- stories that Alan sees from the past, present, or future. The endings of each story, all very diverse, provoked the same word from the editor (Dr. Rosalie A. Turton, Director of the 101 Foundation), Wow! Although very different from other books by this gifted author, *Stories of Love* is as thought-provoking as all his previous works. After all, the stories were dictated by God or one of the saints, so they are meant to inspire . . . and they do!

Medjugorje Sister Emmanuel Maillard. 2020-10-27 A book this genuine was needed! Sister Emmanuel offers through it a pure echo of Medjugorje, the eventful village where the Mother of God has been appearing since 1981. She shares at length some of the personal stories of the villagers, the visionaries, and the pilgrims who flock there by the thousands, receiving great healing. Ten years of awe have inspired this book. These 89 stories offer a glimpse into the miracles of Mary's motherly love. More than just a book, this is a (one-way) ticket to happiness! This book fills me with joy, as I too am a supporter, protector and propagator of Medjugorje. Sister Emmanuel's presence in Medjugorje is providential: she has a charism of clarity to explain in the messages and events of Medjugorje. Monsignor Frane Franic Archbishop Emeritus of Split (Croatia) The Gospa is a Mom; she invites us to be her vehicles, really happy, and not floating in the clouds. She calls us to be concrete like her. That's why this book is important! It reveals the marvels our Mother works in our hearts, through Medjugorje. I pray to God for the readers: may this book help you, may these testimonies be an example to change your life. Marija Pavlovic-Lunetti One of the Visionaries at Medjugorje Sister Emmanuel was born in France in 1947. She graduated from the Sorbonne University in Paris with a diploma in Fine arts. In 1976 she joined the lay Community of the Beatitudes. Posted in Medjugorje since 1989, her mission is to let Our Lady's messages and graces be known throughout the world, offering CDs, DVDs... This book is translated into 22 languages including Japanese, Russian, Arabic and Chinese. A must read! *The Hidden Child of Medjugorje* (2007) Fr. Jozo Zovko says, In this book, Sr. Emmanuel has gathered the most beautiful pearls! She offers them to the reader that they may be enriched. It gives great joy, revealing facts, people and events of great value and teaching. Available in bookstores and online at: www.childrenofmedjugorje.com

Modern Classics: How Steeple Sinderby Wanderers Won the FA Cup J. L. Carr. 2016-04-07 MODERN & CONTEMPORARY FICTION (POST C 1945). But is this story believable? Ah, it all depends upon whether you want it to believe it. (J.L. Carr). Very strange and extremely funny, this

uncategorizable novel is a surreal fantasy set, vaguely, in the early 1970s, during one highly memorable football season. Steeple Sinderby Wanderers, in their new all-buttercup-yellow stripe, start it by ravaging the Fenland League and end it with a phenomenal nail-biter against Glasgow Rangers. Told through unreliable recollection, florid local newspaper coverage and bizarre committee minutes, How Steeple Sinderby Wanderers Won the F.A. Cup is somehow both entertaining and very moving. There will never be players again like Alex Slingsby, Sid 'the Shooting Star' Swift and the immortal milkman-turned-goalkeeper Monkey Tonks.

Philosophical Problems in the Contemporary World Dilek Arlı Çil, Nihal Boyacı. 2019 The social and technological developments, social movements, scientific discoveries, economic growth or diseconomies give rise to many problems for human beings. Many disciplines such as economics, political science, architecture, sociology and psychology discuss these problems and offer solutions from different perspectives. Philosophy has its own way of dealing with these problems. As opposed to the common belief, philosophy does not only deal with ideals independently of what is going on in real life. The problems of the contemporary philosophy are also the problems of the contemporary world. For this reason, this book aims to present and discuss certain philosophical problems in the contemporary world and to suggest solutions to them.

The Ethical Sellout Lily Zheng, Inge Hansen. 2019-10-29 A collection of real-life stories that convey how to maintain integrity while navigating situations that challenge personal principles. We all fear selling out. Yet we all face situations that test our ideals and values with no clear right answer. In a world where compromise is an essential aspect of life, authors Lily Zheng and Inge Hansen make the bold claim that everyone sells out—and that the real challenge lies in doing so ethically. Zheng and Hansen share stories from a diversity of people who have found their own answers to this dilemma and offer new ways to think about marginalization, privilege, and self-interest. From these stories, they pull out teachable skills for taking the step from selling out to selling out ethically. The Ethical Sellout is for all those committed to maintaining their integrity in a messy world. “This book is packed with wisdom that you can incorporate into your daily lives and stories that you get lost in. If you are doubting your decisions or feeling guilty for not living your truth, this book is for you. I have no doubt that everyone out there will find a story or two that resonates.” —Sara Nasserzadeh, Senior Cultural Advisor to the United Nations “The Ethical Sellout blows wide open the conventional understanding of what it means to “sell out.” Zheng and Hansen with their witty commentary, vivid storytelling, and timely suggestions for selling out ethically have written a primer for all of us looking to find our way.” —Dereca Blackmon, Assistant Vice Provost, Diversity and Inclusion Office, Stanford University “It is refreshing to consider the concept of selling out through a new lens and striking the balance between meeting our needs and staying true to our higher purpose. Zheng and Hansen courageously consider a question so many of us wrestle with and draw groundbreaking conclusions.” —Jennifer Brown, CEO, Jennifer Brown Consulting; author of *Inclusion and How to be an Inclusive Leader*; and podcast host of *The Will to Change*

Intermetallic Compound Jacek Cwik.2021-02-26 This Special Issue collects ten articles related to the broadly understood physical properties of intermetallic compounds. Differential thermal analysis was carried out, and the temperatures of thermal effects that arise during the reduction of neodymium from a technological salt mixture of KCl-NaCl-CaCl₂-NdF₃ with a magnesium-zinc alloy were established. For sol-gel products of stoichiometric MgTiO₃, accurate thermal expansion coefficients were measured. The effect of various nanoparticles, such as GaF₃, ZnF₂, Zn(BF₄)₂ and Ga₂O₃ additions, on the activity of CsF-RbF-AlF₃ flux and mechanical behavior of Al/Steel brazed joints is presented. The effect of Bi substitution on the structural and magnetic properties of Nd_{1-x}BixMnO₃ is investigated. Characteristics of hard magnetic materials based on Nd₂Fe₁₄B and Ce₂Fe₁₄B intermetallic compounds are presented. A special algorithm is presented to support vector regression for estimating the maximum magnetic entropy change of doped manganite-based compounds. We have received information about the mechanical properties of the reactively synthesized porous Ti₃SiC₂ compound with different apertures. Furthermore, we have presented the experimental results of Zn-doped Al-rich for fast on-board hydrogen production.
