K2 Ed Viesturs, David Roberts. 2009 The deadly history of the world's most-dangerous mountain illuminates the many lessons both climbers and non-climbers alike can glean from K2, the aptly named Savage Mountain.

The Mountain Ed Viesturs, David Roberts. 2013-10-08 The only American to have climbed all fourteen of the world's eight-thousand-meter peaks sets his sights on Mount Everest, in a work that combines his own climbs as well as narratives of famous climbs throughout the last century.

Everest 1953 Mick Conefrey. 2014-01-31 [CLICK HERE](#) to download a sample from *Everest 1953* In the only book to tell the real story of Everest 1953, Mick Conefrey reveals that what has gone down in history as a supremely well-planned attempt was in fact beset by crises -- both on and off the mountain. To succeed, team leader Colonel John Hunt and his team had to draw on unimaginable skill and determination, as well as sheer British ingenuity. *Everest 1953* is not only a gripping true story of courage and adventure, but a fascinating window into the media contest to cover this seminal event in coronation year. The Times had exclusive access to the team, but the Daily Mail and other papers used subterfuge and shenanigans to get their scoops. Revealing the answers to long-enduring controversies -- did Tenzing or Hillary actually reach the top first? -- and exploring the legacy of this great ascent, it is the perfect way to commemorate a year of British sporting triumph.

High Crimes Michael Kudas.2008-02-05 High Crimes is journalist Michael Kudas's gripping account of life on top of the world--where man is every bit as deadly as Mother Nature. In the years following the publication of *Into Thin Air*, much has changed on Mount Everest. Among all the books documenting the glorious adventures in mountains around the world, none details how the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic, and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils Antezana, a climber who died on Everest after he was abandoned by his guide; as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dijmarescu and his wife and climbing partner, Lhakpa Sherpa. Dijmarescu, who at first seemed well-intentioned and charming, turned increasingly hostile to his own wife, as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut. Beatings, thefts, drugs, prostitution, coercion, threats, and abandonment on the highest slopes of Everest and other mountains have become the rule rather than the exception. Kudas describes many such experiences, and explores the larger issues these stories raise with thriller-like intensity.

Into Thin Air Jon Krakauer.1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm

on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray. A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism. —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that suggested that a murderous storm was bearing down. He was wrong. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. I have no doubt that Boukreev's intentions were good on summit day, writes Krakauer in the postscript, dated August 1999. What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his

clients. As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended to honor writers of exceptional accomplishment. According to the Academy's citation, Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind.

Everest Stephen Venables.2000 Venables shares this rousing account of his 1988 climb of the East Face of Mount Everest, where he led three unknown American climbers up a sheer avalanche-swept wall of snow and ice -- without a supply of oxygen. Photos.

Mountain Madness Robert Birkby.2009 Scott Fischer, world-class mountain climber, led one of the tragic Mount Everest expeditions documented in the NYT bestseller *Into Thin Air*. Fischer died during the climb, but little was said about the 40 years of his life that led up to those final dramatic

days. *Mountain Madness* is the first and only biography of this internationally famous mountain climber, written by a close friend, Robert Birkby. Now available in paperback, *Mountain Madness* is the exciting, touching and largely untold story of one of the world's greatest mountain climbers.

[View from the Summit](#) Edmund Hillary, Sir Edmund Hillary. 2000-05 In a memoir by the first man to reach the peak of Everest, Hillary discusses the adventures that shaped his life, from the South Pole to the Ganges River.

Touching My Father's Soul Jamling T. Norgay. 2002-05-14 In a story of Everest unlike any told before, Jamling Tenzing Norgay gives us an insider's view of the Sherpa world. As Climbing Leader of the famed 1996 Everest IMAX expedition led by David Breashears, Jamling Norgay was able to follow in the footsteps of his legendary mountaineer father, Tenzing Norgay, who with Sir Edmund Hillary was the first to reach the summit of Mount Everest, in 1953. Jamling Norgay interweaves the story of his own ascent during the infamous May 1996 Mount Everest disaster with little-known stories from his father's historic climb and the spiritual life of the Sherpas, revealing a fascinating and profound world that few -- even many who have made it to the top -- have ever seen.

The Last Englishmen Deborah Baker. 2018-08-21 A sumptuous biographical saga, both intimate and epic, about the waning of the British Empire in India John Auden was a pioneering geologist of the Himalaya. Michael Spender was the first to draw a detailed map of the North Face of Mount Everest. While their younger brothers—W. H. Auden and Stephen Spender—achieved literary fame, they vied to be included on an expedition that would deliver Everest's summit to an Englishman, a quest that had become a metaphor for Britain's struggle to maintain power over India. To this rivalry was added another: in the summer of 1938 both men fell in love with a painter named Nancy Sharp. Her choice would determine where each man's wartime loyalties would lie. Set in Calcutta, London, the

glacier-locked wilds of the Karakoram, and on Everest itself, *The Last Englishmen* is also the story of a generation. The cast of this exhilarating drama includes Indian and English writers and artists, explorers and Communist spies, Die Hards and Indian nationalists, political rogues and police informers. Key among them is a highborn Bengali poet named Sudhin Datta, a melancholy soul torn, like many of his generation, between hatred of the British Empire and a deep love of European literature, whose life would be upended by the arrival of war on his Calcutta doorstep. Dense with romance and intrigue, and of startling relevance for the great power games of our own day, Deborah Baker's *The Last Englishmen* is an engrossing story that traces the end of empire and the stirring of a new world order.

Into the Silence Wade Davis.2011-10-18 The definitive story of the British adventurers who survived the trenches of World War I and went on to risk their lives climbing Mount Everest. On June 6, 1924, two men set out from a camp perched at 23,000 feet on an ice ledge just below the lip of Everest's North Col. George Mallory, thirty-seven, was Britain's finest climber. Sandy Irvine was a twenty-two-year-old Oxford scholar with little previous mountaineering experience. Neither of them returned. Drawing on more than a decade of prodigious research, bestselling author and explorer Wade Davis vividly re-creates the heroic efforts of Mallory and his fellow climbers, setting their significant achievements in sweeping historical context: from Britain's nineteenth-century imperial ambitions to the war that shaped Mallory's generation. Theirs was a country broken, and the Everest expeditions emerged as a powerful symbol of national redemption and hope. In Davis's rich exploration, he creates a timeless portrait of these remarkable men and their extraordinary times.

The Climb Anatoli Boukreev,G. Weston DeWalt.2015-09-22 Everest, the major motion picture from Universal Pictures, is set for wide release on September 18, 2015. Read *The Climb*, Anatoli Boukreev

(portrayed by Ingvar Sigurðsson in the film) and G. Weston DeWalt's compelling account of those fateful events on Everest. In May 1996 three expeditions attempted to climb Mount Everest on the Southeast Ridge route pioneered by Sir Edmund Hillary and Tenzing Norgay in 1953. Crowded conditions slowed their progress. Late in the day twenty-three men and women-including expedition leaders Scott Fischer and Rob Hall-were caught in a ferocious blizzard. Disoriented and out of oxygen, climbers struggled to find their way down the mountain as darkness approached. Alone and climbing blind, Anatoli Boukreev brought climbers back from the edge of certain death. This new edition includes a transcript of the Mountain Madness expedition debriefing recorded five days after the tragedy, as well as G. Weston DeWalt's response to Into Thin Air author Jon Krakauer.

The White Spider Heinrich Harrer.1989

Ultimate High Göran Kropp,David Lagercrantz.1999 A personal account of one man's determination to climb Mount Everest alone describes how the Swedish climber accomplished his goal, within days of the 1995 tragedy that took the lives of a number of fellow climbers.

Dark Summit Nick Heil.2011-04-13 In the tradition of Jon Krakauer's Into Thin Air, Nick Heil recounts the harrowing story of the deadly and controversial 2006 climbing season on Everest. In early May 2006, a young British climber named David Sharp lay dying near the top of Mount Everest while forty other climbers walked past him on their way to the summit. A week later, Lincoln Hall, a seasoned Australian climber, was left for dead near the same spot. Hall's death was reported around the world, but the next day he was found alive after spending the night on the upper mountain with no food and no shelter. If David Sharp's death was shocking, it was not singular: despite unusually good weather, ten others died attempting to reach the summit that year. In this meticulous inquiry into what went wrong, Nick Heil tells the full story of the deadliest year on Everest since the

infamous season of 1996. He introduces Russell Brice, the outfitter who has done more than anyone to provide access to the summit via the mountain's north side—and who some believe was partially responsible for Sharp's death. As more climbers attempt the summit each year, Heil shows how increasingly risky expeditions and unscrupulous outfitters threaten to turn Everest into a deadly circus. Written by an experienced climber and outdoor writer, *Dark Summit* is both a riveting account of a notorious climbing season and a troubling investigation into whether the pursuit of the ultimate mountaineering prize has spiralled out of control.

The Ascent of Everest John Hunt Baron Hunt.1993 Expedition leader John Hunt's account of the first ascent of Mount Everest's summit in 1953 by Sir Edmund Hillary and Sherpa Tenzing Norgay.

High Adventure Edmund Hillary.1955 A personal record of the author's mountain climbing experiences, including the Everest Expedition of 1953.

Everest Ellis James Stewart.2016-11-10 Everest - It's not about the summit, is a remarkable account of a lifelong goal crushed in spectacular fashion two years running by the two worst disasters in Mount Everest's history. Throughout it all the author displays a sense of humility and compassion sharing a heartfelt and emotional twenty year journey. From the streets of northern England through to the valleys and high mountains of Nepal, Ellis Stewart shared his story with thousands of followers on social media, winning over the hearts and minds of many. A ground swell of support sent Ellis to achieve his dream, not once but twice. Nobody could have anticipated the events that would follow. Events that would define the author in ways he couldn't possibly have imagined.

A Day to Die For Graham Ratcliffe.2011-02-03 On the night of 10-11 May 1996, eight climbers perished in what remains the worst disaster in Everest's history. Following the tragedy, numerous accounts were published, with Jon Krakauer's *Into Thin Air* becoming an international bestseller. But

has the whole story been told? A Day to Die For reveals the full, startling facts that led to the tragedy. Graham Ratcliffe, the first British climber to reach the summit of Mount Everest twice, was a first-hand witness, having spent the night on Everest's South Col at 26,000 ft, sheltering from the deadly storm. For years, he has shouldered a burden of guilt, feeling that he and his teammates could have saved lives that fateful night. His quest for answers has led to discoveries so important to an understanding of the disaster that he now questions why these facts were not made public sooner. History is dotted with high-profile disasters that both horrify and capture the attention of the public, but very rarely is our view of them revised to such devastating effect.

High Exposure David Breashears.2000-05-17 The author, a noted mountaineer and cinematographer, describes a lifetime of conquering the world's mountain peaks and discusses his 1996 expedition to Mount Everest to create his IMAX film Everest.

Climbing High Lene Gammelgaard, Press Seal.2000-06-20 On May 10, 1996, Lene Gammelgaard became the first Scandinavian woman to reach the summit of Mount Everest. But a raging storm and human error conspired to turn triumph into catastrophe. Eight of her team's climbers, including its renowned leader Scott Fischer, perished in a tragedy that would make headlines around the world. In her riveting account, Gammelgaard takes us from her weeks of determined training to the exhilaration of arriving in Nepal to the arduous climb and deadly storm that forced her and her fellow climbers to huddle throughout the night, hoping to stay alive. Gammelgaard also writes movingly of Everest's awesome beauty; of the passion and commitment required to face the daunting challenge of climbing to high altitudes; and of the complex personal relationships forged in the pursuit of such dangerous ventures. Arlene Blum, author of the classic account of women and mountaineering, Annapurna: A Woman's Place, calls Climbing High an honest and deeply personal

account.

Everest Broughton Coburn.2015 A filmmaker and veteran climber, David Breashears led the May 1996 expedition that captured Everest in a large-format IMAX motion picture. Everest is the breathtaking chronicle of a filmmaking expedition turned rescue mission. 125 stunning, full-color images, including IMAX frames from the film.

After the Wind Louis W. Kasischke.2015 In the spring of 1996, Lou Kasischke joined renowned climber Rob Hall's Mount Everest expedition. When he said goodbye to his wife, Sandy, he knew he faced major physical and mental challenges against rock, snow, ice, avalanches, and extreme high altitude to climb the highest mountain in the world. What Lou didn't know was that he also stood at the threshold of a living hell. Six weeks later near the top, things went wrong. Lou and his fellow climbers faced a challenge even greater than the mountain -- the internal struggle about what to do when you are close but out of time. There were no second chances. Decisions were made. Some lived. Some died. It was the worst tragedy in Mount Everest history. Lou wrote his account of the events 16 years ago in the aftermath of the tragedy, but only now is he ready to let it go. He tells two stories. One is about the historic events. His perspective and analysis about what happened and what went wrong have never been told, and his account differs markedly from what others have written. The truth in the story depends on who is telling it. Lou Kasischke believes that some of the truth may never be told. Lou also tells a very personal story about how he came back home. An inspiring story about where to go for inner strength when facing a tough decision. A story about his wife Sandy's part in his survival. A story about what he heard, after the wind -- the voice of the heart. A love story.

Above the Clouds Anatoli Boukreev.2015-09-08 A breathtaking and lavishly illustrated autobiography

in essays on Anatoli Boukreev, the late world-famous mountaineer and author of *The Climb*. When Anatoli Boukreev died on the slopes of Annapurna on Christmas day, 1997, the world lost one of the greatest adventurers of our time. In *Above the Clouds*, both the man and his incredible climbs on Mt. McKinley, K2, Makalu, Manaslu, and Everest—including his diary entries on the infamous 1996 disaster, written shortly after his return—are immortalized. There also are minute technical details about the skill of mountain climbing, as well as personal reflections on what life means to someone who risks it every day. Fully illustrated with gorgeous color photos, *Above the Clouds* is a unique and breathtaking look at the world from its most remote peaks.

Above All Things Tanis Rideout. 2013-02-12 A New York Times Editor's Choice 1924. George Mallory is arguably the last great British explorer, having twice tried—and failed—to conquer Mount Everest. The mountain has haunted him, but his attempts have captivated the hearts of a nation desperate to restore its former glory after World War I. Yet George has sworn to his wife, Ruth, that he will not mount a third attempt. He will remain with her and their three children instead of again challenging the unreachable peak. Then, one afternoon, Ruth reads a telegram addressed to George: “Glad to have you aboard again.” And with this one sentence, the lives of the Mallorys, and the face of the nation, are irrevocably changed. A beautifully rendered story about the need for redemption and the quest for glory, *Above All Things* is a captivating blend of historical fact and imaginative fiction. It is a heartbreaking tale of obsession, sacrifice, and what we do for love and honor.

Destructive Goal Pursuit D. Kayes. 2006-06-29 Leaders extol the value of pursuing challenging goals, but evidence suggests that this leads to disaster as often as success. Drawing upon real-life stories, including the Mount Everest Climbing Disaster, the author shows how destructive goal pursuit can cause the breakdown of learning in teams and calls for rethinking the role of the leader.

Left for Dead Beck Weathers, Stephen G. Michaud. 2000-09-21 With a new preface by the author • As featured in the upcoming motion picture Everest, starring Jason Clarke, Josh Brolin, John Hawkes, Robin Wright, Emily Watson, Keira Knightley, Sam Worthington, and Jake Gyllenhaal “I can tell you that some force within me rejected death at the last moment and then guided me, blind and stumbling—quite literally a dead man walking—into camp and the shaky start of my return to life.” In 1996 Beck Weathers and a climbing team pushed toward the summit of Mount Everest. Then a storm exploded on the mountain, ripping the team to shreds, forcing brave men to scratch and crawl for their lives. Rescuers who reached Weathers saw that he was dying, and left him. Twelve hours later, the inexplicable occurred. Weathers appeared, blinded, gloveless, and caked with ice—walking

down the mountain. In this powerful memoir, now featuring a new Preface, Weathers describes not only his escape from hypothermia and the murderous storm that killed eight climbers, but the journey of his life. This is the story of a man's route to a dangerous sport and a fateful expedition, as well as the road of recovery he has traveled since; of survival in the face of certain death, the reclaiming of a family and a life; and of the most extraordinary adventure of all: finding the courage to say yes when life offers us a second chance. Praise for *Left for Dead* "Riveting . . . [a] remarkable survival story . . . *Left for Dead* takes a long, critical look at climbing: Weathers is particularly candid about how the demanding sport altered and strained his relationships."—USA Today "Ultimately, this engrossing tale depicts the difficulty of a man's struggle to reform his life."—Publishers Weekly

The Last Climb David Breashears, Audrey Salkeld. 1999-09-30 An account of the doomed attempt by Mallory and Irvine to be the first to reach the summit of Mount Everest in 1924. The remains of Mallory were found in May 1999, 75 years after his disappearance.

The Shining Mountain Peter Boardman. 2013-10-01 'It's a preposterous plan. Still, if you do get up it, I think it'll be the hardest thing that's been done in the Himalayas.' So spoke Chris Bonington when Peter Boardman and Joe Tasker presented him with their plan to tackle the unclimbed West Wall of Changabang - the Shining Mountain - in 1976. Bonington's was one of the more positive responses; most felt the climb impossibly hard, especially for a two-man, lightweight expedition. This was, after all, perhaps the most fearsome and technically challenging granite wall in the Garhwal Himalaya and an ascent - particularly one in a lightweight style - would be more significant than anything done on Everest at the time. The idea had been Joe Tasker's. He had photographed the sheer, shining, white granite sweep of Changabang's West Wall on a previous expedition and asked Pete to return

with him the following year. Tasker contributes a second voice throughout Boardman's story, which starts with acclimatisation, sleeping in a Salford frozen food store, and progresses through three nights of hell, marooned in hammocks during a storm, to moments of exultation at the variety and intricacy of the superb, if punishingly difficult, climbing. It is a story of how climbing a mountain can become an all-consuming goal, of the tensions inevitable in forty days of isolation on a two-man expedition; as well as a record of the moment of joy upon reaching the summit ridge against all odds. First published in 1978, *The Shining Mountain* is Peter Boardman's first book. It is a very personal and honest story that is also amusing, lucidly descriptive, very exciting, and never anything but immensely readable. It was awarded the John Llewelyn Rhys Prize for literature in 1979, winning wide acclaim. His second book, *Sacred Summits*, was published shortly after his death in 1982. Peter Boardman and Joe Tasker died on Everest in 1982, whilst attempting a new and unclimbed line. Both men were superb mountaineers and talented writers. Their literary legacy lives on through the Boardman Tasker Prize for Mountain Literature, established by family and friends in 1983 and presented annually to the author or co-authors of an original work which has made an outstanding contribution to mountain literature. Everest: Alone at the Summit Stephen Venables.2018-12-20 In 1988, Stephen Venables became the first Briton to summit Everest without oxygen. Everest: Alone at the Summit is the story of his thrilling journey. Near-impossible challenges are conquered with determination and strength, and the experience of an expedition on the world's highest mountain is recounted in a refreshingly honest light. The Kangshung Face remains the least frequented of Everest's flanks due to its narrow gullies, hanging glaciers and steep rock buttresses. This, however, did not deter Venables and his team of three international climbers, Ed Webster, Robert Anderson and Paul Teare, who not only attempted this dangerous route, but did so without the use of supplementary oxygen - testing boundaries, exploring the unknown and pushing the limits of human endurance. ' ... I forced my mind to concentrate on directing all energy to those two withered legs. The effort succeeded and I managed six faltering steps down the slope, sat back for a rest, then took six steps more, then again six steps. It was going to be a long tedious struggle, but I knew now that I was going to make it.'

Venables' account of survival and success is fully immersive. He details the highs - the unique bonds made on the mountain, the stunning scenery, and the triumph of reaching the summit - as well as the lows: the threat of deadly high-altitude illness, turbulent weather and the exhaustion-induced hallucinations. Throughout it all, Venables' drive to keep going amidst hardship and his willingness to succeed is powerful - readers will find themselves invested in this extraordinary narrative from the start. As Lord Hunt, the leader of Everest's 1953 expedition, observes in the foreword: 'People who, in this age of ease and plenty, pause to reflect upon the reason why some prefer to do things the hard way, could hardly do better than read this book.'
